**Comments**

- Liquidity refers to the Shire of Broome's ability to meet it's financial obligations within the current year. Liquidity increased at the start of the financial year by \$20.628M due mainly to the issuance of rates. Liquidity is a combination of unrestricted cash, Current Debtors (including Rates), and Current Creditors. The Shire of Broomes current position (representing liquidity) can be found in Note 3.
- Rates were raised in July with payment due 35 days after issuing. Total Rates raised for the year was \$21.84M with total outstanding rates YTD at \$9.28M.

This information is to be read in conjunction with the accompanying Financial Statements and notes.

**Comments**

\*Amended Budget Closing balance is the forecast of the closing balance after all budgeted transfers to and from reserve have been performed. At this time there have been no transactions to or from reserve other than to recognise interest earned on reserve investments. All interest earned on Reserve investments is recorded on reserve at the end of each month.

This information is to be read in conjunction with the accompanying Financial Statements and notes.

**SHIRE OF BROOME**  
**NOTES TO THE STATEMENT OF FINANCIAL ACTIVITY**  
**For the Period Ended 31 August 2017**

**1. SIGNIFICANT ACCOUNTING POLICIES**

**(a) Basis of Accounting**

This statement comprises a general purpose financial report which has been prepared in accordance with Australian Accounting Standards (as they apply to local governments and not-for-profit entities), Australian Accounting Interpretations, other authoritative pronouncements of the Australian Accounting Standards Board, the Local Government Act 1995 and accompanying regulations. Material accounting policies which have been adopted in the preparation of this statement are presented below and have been consistently applied unless stated otherwise.

Except for cash flow and rate setting information, the report has also been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

**Critical Accounting Estimates**

The preparation of a financial report in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses.

The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances; the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

**(b) The Local Government Reporting Entity**

All Funds through which the Council controls resources to carry on its functions have been included in this statement.

In the process of reporting on the local government as a single unit, all transactions and balances between those funds (for example, loans and transfers between Funds) have been eliminated.

All monies held in the Trust Fund are excluded from the statement, but a separate statement of those monies appears at Note 12.

**(c) Rounding Off Figures**

All figures shown in this statement are rounded to the nearest dollar.

**(d) Rates, Grants, Donations and Other Contributions**

Rates, grants, donations and other contributions are recognised as revenues when the local government obtains control over the assets comprising the contributions. Control over assets acquired from rates is obtained at the commencement of the rating period or, where earlier, upon receipt of the rates.

**(e) Goods and Services Tax**

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO).

Receivables and payables are stated inclusive of GST receivable or payable.

The net amount of GST recoverable from, or payable to, the ATO is included with receivables or payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows.

**SHIRE OF BROOME**  
**NOTES TO THE STATEMENT OF FINANCIAL ACTIVITY**  
**For the Period Ended 31 August 2017**

**1. SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**(f) Cash and Cash Equivalents**

Cash and cash equivalents include cash on hand, cash at bank, deposits available on demand with banks and other short term highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value and bank overdrafts.

Bank overdrafts are reported as short term borrowings in current liabilities in the statement of financial position.

**(g) Trade and Other Receivables**

Trade and other receivables include amounts due from ratepayers for unpaid rates and service charges and other amounts due from third parties for goods sold and services performed in the ordinary course of business.

Receivables expected to be collected within 12 months of the end of the reporting period are classified as current assets. All other receivables are classified as non-current assets.

Collectability of trade and other receivables is reviewed on an ongoing basis. Debts that are known to be uncollectible are written off when identified. An allowance for doubtful debts is raised when there is objective evidence that they will not be collectible.

**(h) Inventories**

***General***

Inventories are measured at the lower of cost and net realisable value.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

***Land Held for Resale***

Land held for development and sale is valued at the lower of cost and net realisable value. Cost includes the cost of acquisition, development, borrowing costs and holding costs until completion of development. Finance costs and holding charges incurred after development is completed are expensed.

Gains and losses are recognised in profit or loss at the time of signing an unconditional contract of sale if significant risks and rewards, and effective control over the land, are passed on to the buyer at this point.

Land held for sale is classified as current except where it is held as non-current based on Council's intentions to release for sale.

**(i) Fixed Assets**

All assets are initially recognised at cost. Cost is determined as the fair value of the assets given as consideration plus costs incidental to the acquisition. For assets acquired at no cost or for nominal consideration, cost is determined as fair value at the date of acquisition. The cost of non-current assets constructed by the local government includes the cost of all materials used in the construction, direct labour on the project and an appropriate proportion of variable and fixed overhead.

Certain asset classes may be revalued on a regular basis such that the carrying values are not materially different from fair value. Assets carried at fair value are to be revalued with sufficient regularity to ensure the carrying amount does not differ materially from that determined using fair value at reporting date.

**SHIRE OF BROOME**  
**NOTES TO THE STATEMENT OF FINANCIAL ACTIVITY**  
**For the Period Ended 31 August 2017**

**1. SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**(j) Depreciation of Non-Current Assets**

All non-current assets having a limited useful life are systematically depreciated over their useful lives in a manner which reflects the consumption of the future economic benefits embodied in those assets.

Depreciation is recognised on a straight-line basis, using rates which are reviewed each reporting period. Major depreciation rates and periods are:

Buildings	40 to 50 years
Construction other than Buildings (Public Facilities)	40 to 50 years
Furniture and Equipment	10 years
Plant and Equipment	4 to 15 years
Roads	15 to 100 years
Footpaths	50 years
Sewerage Piping	60 years
Water Supply Piping and Drainage Systems	60 years

**(k) Trade and Other Payables**

Trade and other payables represent liabilities for goods and services provided to the Council prior to the end of the financial year that are unpaid and arise when the Council becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured, are recognised as a current liability and are normally paid within 30 days of recognition.

**(l) Employee Benefits**

The provisions for employee benefits relates to amounts expected to be paid for long service leave, annual leave, wages and salaries and are calculated as follows:

**(i) Wages, Salaries, Annual Leave and Long Service Leave (Short-term Benefits)**

The provision for employees' benefits to wages, salaries, annual leave and long service leave expected to be settled within 12 months represents the amount the Shire has a present obligation to pay resulting from employees services provided to balance date. The provision has been calculated at nominal amounts based on remuneration rates the Shire expects to pay and includes related on-costs.

**(ii) Annual Leave and Long Service Leave (Long-term Benefits)**

The liability for long service leave is recognised in the provision for employee benefits and measured as the present value of expected future payments to be made in respect of services provided by employees up to the reporting date using the project unit credit method. Consideration is given to expected future wage and salary levels, experience of employee departures and periods of service. Expected future payments are discounted using market yields at the reporting date on national government bonds with terms to maturity and currency that match as closely as possible, the estimated future cash outflows. Where the Shire does not have the unconditional right to defer settlement beyond 12 months, the liability is recognised as a current liability.

**SHIRE OF BROOME**  
**NOTES TO THE STATEMENT OF FINANCIAL ACTIVITY**  
**For the Period Ended 31 August 2017**

**1. SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**(m) Interest-bearing Loans and Borrowings**

All loans and borrowings are initially recognised at the fair value of the consideration received less directly attributable transaction costs.

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the effective interest method. Fees paid on the establishment of loan facilities that are yield related are included as part of the carrying amount of the loans and borrowings.

Borrowings are classified as current liabilities unless the Council has an unconditional right to defer settlement of the liability for at least 12 months after the balance sheet date.

***Borrowing Costs***

Borrowing costs are recognised as an expense when incurred except where they are directly attributable to the acquisition, construction or production of a qualifying asset. Where this is the case, they are capitalised as part of the cost of the particular asset.

**(n) Provisions**

Provisions are recognised when: The council has a present legal or constructive obligation as a result of past events; it is more likely than not that an outflow of resources will be required to settle the obligation; and the amount has been reliably estimated. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one of item included in the same class of obligations may be small.

**(o) Current and Non-Current Classification**

In the determination of whether an asset or liability is current or non-current, consideration is given to the time when each asset or liability is expected to be settled. The asset or liability is classified as current if it is expected to be settled within the next 12 months, being the Council's operational cycle. In the case of liabilities where Council does not have the unconditional right to defer settlement beyond 12 months, such as vested long service leave, the liability is classified as current even if not expected to be settled within the next 12 months. Inventories held for trading are classified as current even if not expected to be realised in the next 12 months except for land held for resale where it is held as non current based on Council's intentions to release for sale.

**Comments - Rating Information**

NOTE - This note represents the budgeted rating and back rating revenue expected for the 2017/18 financial year. The Statement of Financial Activity (by Reporting Program) examines the reporting program for rates which also includes other items, such as debt recovery and rates instalments charges, which are not represented in this table as they do not form part of ordinary rates modelling.

**SHIRE OF BROOME**  
**Monthly Statement of Financial Activity**  
**For The Period Ending 31 August 2017**

**Appendix A: SUPPLEMENTARY NOTES TO THE MONTHLY REPORT**

**NOTES TO THIS MONTH'S REPORT**

**OVERVIEW**

For the period ended 31 August 2017, the following are key indicators supporting the year to-date budget position with respect to the Annual Forecast Budget:

Budget Year elapsed	16.99%
Total Rates Raised Revenue	100% (of which 59.09% were paid)
Total Other Operating Revenue	34%
Total Operating Expenditure	14%
Total Capital Revenue	2%
Total Capital Expenditure	4%
Total Sale of Assets Revenue	0%

The budget was adopted at the Ordinary Meeting of Council on 29 June 2017. Council adopted a balanced annual budget, which included a net carried forward balance of \$1,879,323, being \$393,426 of carry-over projects, plus \$1,485,897 Financial Assistance Grants received in advance.

It should be noted that the end of financial year (EOFY) processes are currently in progress and the final Annual Financial Report for 2016-17 will be presented to the Audit Committee before the recommendations are presented to Council. Due to these ongoing processes, the actual final carried forward balance as presented in this report may change.

More information on the Shire's current position can be found on Note 3 of these Financial Statements.

The details of all amendments year-to-date can be found on Note 5 of the Financial Report.

**ADJUSTMENTS TO DETERMINE THE CASH POSITION**

**Budget Allocations**

No amendments for Wages, Overhead and Plant Costs have been made this year.

**CURRENT POSITION**

The EOFY processes are currently affecting some balances between the Net Current Assets and what is reported in the Statement of Financial Position. This variance, reported as Rounding and Timing Adjustments, is the current position of the 16/17 end of year surplus over and above the carry forwards surplus presented in the budget. This is a moving target as the organisation moves towards presenting the Annual Financial Statements.

Currently, to the end of August, the current position stands at \$23.77M.

## **Cash**

Total Cash Assets are now \$49.5M having increased by \$14.8M due to collection of rates.

The major revenue items this month include receipt of:

- \$21.8M of rates revenue; and
- \$3.6M of refuse and recycling charges

The major expenditure items this month include payments of:

- \$333K to Australian Taxation Office for withholding tax on wages;
- \$332K to Nyamba Buru Yawuru for a commercially negotiated agreement;
- \$322K to LGIS WA for various insurance policies;
- \$253K to Bitumen Sealing Services for various road sealing projects; and
- \$166K to Tox Free Pty Ltd. for waste removal services;

## **Receivables**

Sundry debtors including GST refundable stand at \$559K.

Rates and rubbish debtors stands at \$10.10M due to annual rates being raised on 19 July 2017; The due date for rates was 23 August 2017. Rates & Rubbish debtors will continue to reduce throughout the year as ratepayers on instalment and payment plans continue to pay their rates.

## **Other Assets**

These stand at \$76K having decreased by \$1K since the previous month.

## **Cash Liabilities**

These stand at \$593K. This represents our obligation on our outstanding loans.

## **Creditors and Payables**

Sundry Creditors are \$1.6M, as invoices were processed and/or are paid.

Other Payables comprising Tax Payable, FESA Levy Collected, Accrued Loan Interest, Prepayments Received and accruals stand at \$1.10M.

## **Employee Provisions and Accruals**

In the normal course of events, these figures are adjusted in June and July each year by end of year accounting adjustments.

Currently leave provisions are \$2.026M. Accruals to reflect the year end position have been completed for the 2016-2017 year.
