SUMMARY: The Shire of Broome has received a proposal from Aviair seeking support for the development of regular public transport air services throughout the Pilbara and to Broome.

Shire officers have engaged with the proponent and key stakeholders to obtain background information and examine potential benefits for Broome’s tourism industry, community and businesses. Economic modelling on benefits for Broome is unavailable at this point.

In the first instance, the Shire’s support is being sought through the signing of a Memorandum of Understanding to guide collaboration with the proponent and other local governments to further develop the proposal. This agreement would also include an expectation that the Shire to negotiate and obtain local support, including with the Broome International Airport.
