Good Morning, thank you to Jeremy for understanding our IT dramas in not get this in sooner.

A list of the Roebuck Bay Hotel concerns with the current revitalisation plans are as follows

1. With the removal of car parks on Carnarvon St – what impact will it have on our limited number of spaces for our patrons and house guests?
2. With any lane way extension how will it benefit or effect Skylla> – how do we maintain security if the back wall is removed? - What likely compensation are we to receive?
3. What are the costs of new operating areas? – Who maintains them- who cleans them? – who provides security?- are the costs tenable- will they be wet season useful?- what deterrence's are to be put in place to curb anti-social behaviour- what maintenance plan does the shire have in place for repair?- when does the shire plan to engage with the businesses and landowners to help us understand these processes?
4. Are there funds to help with beautification if we were to fence the carpark?
5. Are there likely to be fees per chair or table in the proposed alfresco areas?

Thank you for taking the time to read the above

Kind Regards

Stewart Burchell
