

Our Vision

"Broome - a future for everyone."

CONFIRMED MINUTES

OF THE

ORDINARY MEETING OF COUNCIL

25 FEBRUARY 2021

NOTICE OF MEETING

Dear Council Member,

The next Ordinary Meeting of Council will be held on Thursday, 25 February 2021 in the Council Chambers, Corner Weld and Haas Streets, Broome, commencing at 5:00 PM.

Social distancing measures are in place throughout the building. It is a condition of entry that people adhere to remaining the prescribed 2 meters apart.

Regards,

S MASTROLEMBO
Chief Executive Officer

25/02/2021

Our Mission

"To deliver affordable and quality Local Government services."

DISCLAIMER

The purpose of Council Meetings is to discuss, and where possible, make resolutions about items appearing on the agenda. Whilst Council has the power to resolve such items and may in fact, appear to have done so at the meeting, no person should rely on or act on the basis of such decision or on any advice or information provided by a Member or Officer, or on the content of any discussion occurring, during the course of the meeting.

Persons should be aware that the provisions in section 5.25 of the *Local Government Act 1995* establish procedures for revocation or rescission of a Council decision. No person should rely on the decisions made by Council until formal advice of the Council decision is received by that person. The Shire of Broome expressly disclaims liability for any loss or damage suffered by any person as a result of relying on or acting on the basis of any resolution of Council, or any advice or information provided by a Member or Officer, or the content of any discussion occurring, during the course of the Council meeting.

Should you require this document in an alternative format please contact us.

- **NA (Non Attendance)**
- **R (Resignation)**

2.25. Disqualification for failure to attend meetings

- (1) A council may, by resolution, grant leave of absence, to a member.
- (2) Leave is not to be granted to a member in respect of more than 6 consecutive ordinary meetings of the council without the approval of the Minister, unless all of the meetings are within a period of 3 months.
- (3A) Leave is not to be granted in respect of —
 - (a) a meeting that has concluded; or
 - (b) the part of a meeting before the granting of leave.
- (3) The granting of the leave, or refusal to grant the leave and reasons for that refusal, is to be recorded in the minutes of the meeting.
- (4) A member who is absent, without obtaining leave of the council, throughout 3 consecutive ordinary meetings of the council is disqualified from continuing his or her membership of the council, unless all of the meetings are within a 2 month period.
- (5A) If a council holds 3 or more ordinary meetings within a 2 month period, and a member is absent without leave throughout each of those meetings, the member is disqualified if he or she is absent

without leave throughout the ordinary meeting of the council immediately following the end of that period.

- (5) *The non-attendance of a member at the time and place appointed for an ordinary meeting of the council does not constitute absence from an ordinary meeting of the council —*
- (a) if no meeting of the council at which a quorum is present is actually held on that day; or*
 - (b) if the non-attendance occurs —*
 - (i) while the member has ceased to act as a member after written notice has been given to the member under section 2.27(3) and before written notice has been given to the member under section 2.27(5); or*
 - (ii) while proceedings in connection with the disqualification of the member have been commenced and are pending; or*
 - (iiia) while the member is suspended under section 5.117(1)(a)(iv) or Part 8; or*
 - (iii) while the election of the member is disputed and proceedings relating to the disputed election have been commenced and are pending.*
- (6) *A member who before the commencement of the Local Government Amendment Act 2009 section 5 was granted leave during an ordinary meeting of the council from which the member was absent is to be taken to have first obtained leave for the remainder of that meeting.*

[Section 2.25 amended: No. 49 of 2004 s. 19(1); No. 17 of 2009 s. 5; No. 31 of 2018 s. 5.]

5. PUBLIC QUESTION TIME**Questions Taken on Notice****Ordinary Council Meeting – 10 December 2020**

The following questions were submitted by Brendan Renkin prior to the meeting and taken on notice due to Council exceeding the set time limit for public questions. The Shire's administrative responses are provided below.

Question One (1)

In September 2019, in response to a public question the CEO indicated the Shire is currently investigating options to progress a Reconciliation Framework or the like, which may contain

Indigenous employment targets. Can the Shire provide an update on any progress on this issue, and whether any targets have been agreed?

Response provided by Sam Mastrolemba, Chief Executive Officer:

A Draft Reconciliation framework or the like remains under investigation at this time.

Question Two (2)

9.4.2 Corporate Business plan Outcome 1.2, Action 1.2.1. Has the Shire undertaken any evaluation of the impact of CCTV cameras on crime or antisocial behaviour, and can this be shared with ratepayers? If not, does the Shire have any plans to do so, and can that be included in the business plan?

Response provided by Nathan Cain, Director Development and Community:

As per the Western Australian State CCTV Strategy – ‘When combined with other crime prevention strategies, the visible presence of CCTV in public spaces can contribute to a reduction in the fear of crime and act as a visible deterrent to potential offenders in crime hotspots.’

The Shire has received anecdotal feedback that the installation of CCTV in various locations has been a deterrent to some anti-social behaviour, although acknowledges it has not ceased entirely.

Over a period, the Broome Police have also supported and identified priority locations for CCTV cameras; and have provided positive feedback on the assistance provided to policing particularly in relation to early intervention and identification / apprehension of offenders.

CCTV has been combined with additional crime prevention initiatives, such as lighting upgrades, additional lighting, amenity improvements and policing activities, which complicates an evaluation of CCTV in isolation.

Question Three (3)

Further to my question 5 at the November 2020 OMC, can the Shire explain what definition it was using for "shovel ready" for the selection criteria for the Covid Response Plan (Investment Prospectus)? Can the Shire explain how this definition applies to:

- a) Broome Boating Facility; and
- b) Cable Beach Redevelopment

Response provided by Nathan Cain, Director Development and Community:

As answered at the November 2020 Ordinary Meeting of Council, projects (including Broome Boating Facility and Cable Beach Foreshore Redevelopment) were drawn primarily from the Broome Growth Plan while Shire projects were primarily drawn from the Shire's Strategic Community Plan and supporting Long Term Financial Plan. These documents have had significant community consultation and engagement.

Projects were also considered based on their ability to:

- 1. Deliver local jobs and business opportunities during construction and in the longer term;
- 2. Are shovel ready or facilitate projects of regional significance;

3. Support reconciliation through closing the gap, cultural recognition and/or Aboriginal employment and business opportunities;
4. Leverage existing projects and/or deliver investment growth; and
5. Facilitate resilience (such as improved infrastructure, skills development programs, climate and environmental resilience).

'Shovel ready' is a phrase often used to describe projects (usually larger-scale infrastructure) where planning, feasibility, consultation and technical investigation is advanced enough that with enough funding, construction on elements of the project can begin within a short and reasonable time.

Question Four (4)

Given that the Covid Recovery Plan identified the need to spend stimulus funds as soon as possible to head off the significant economic impact of Covid, did the Shire give consideration to the 2009 Global Finance Collapse experience in which funds remained unspent due to the failure of identified projects ready to go never actually proceeding, and if so what risk mitigation strategies has the Shire adopted?

Response provided by Nathan Cain, Director Development and Community:

Shire-led projects in the *3-Year Broome Recovery Plan* undergo risk management analysis to ensure mitigation strategies can contribute to achieving project completion within time, budget and scope.

Question Five (5)

Did these risk mitigation strategies include broadening the scope of possible projects to include seeking funds for investment in the human and social capital of the Shire of Broome rather than focusing predominantly on construction projects?

Response provided by Nathan Cain, Director Development and Community:

The Shire of Broome provides, facilitates and advocates for services and facilities to improve quality of life for everyone in the Broome district. This includes programs and projects aimed to improve human and social capital. To be active in recovery, some of Broome's key organisations have focused on projects to:

1. Stimulate the economy
2. Benefit the region
3. Assist in rebounding from COVID-19 impacts.

The purpose of the document aimed at securing government co-investment in high impact projects, leveraging the consultation already undertaken to develop a pipeline of initiatives which would contribute to meeting Broome's economic, jobs and social targets.

At the time of document was development, construction projects were favoured to deliver the three (3) focus areas, as listed above.

The following questions were submitted by Andrew Chambers prior to the meeting and taken on notice due to Council exceeding the set time limit for public questions. The Shire's administrative responses are provided below.

Question One (1)

9.4.2 Strategic Community Plan 2021 – 2031 - Broome a Future for Everyone – Vision and Values Campaign.

In light of the recent Community Safety Forum and the feedback on previous sessions can I ask how this Shire is going to enable greater community engagement in the creation of solutions to issues and ultimately in empowering them to be a part of the process?

Response provided by Nathan Cain, Director Development and Community:

Council's Community Engagement Policy, developed using the International Association of Public Participation (IAP2) Spectrum, is designed to assist with the selection of the level of participation that defines the public's role in any community engagement program.

The Spectrum shows that differing levels of participation are legitimate depending on the goals, timeframes, resources and levels of concern shown towards decisions to be made. However, and most importantly, the Spectrum sets out the promise being made to the public at each participation level. The Spectrum is widely used and is quoted in many community engagement manuals.

Council continuously review and update its Community Engagement Framework.

Question Two (2)

Broome Health and Well Being Campus NBY

Can anyone on Shire explain the value of supporting a partner, who is not supporting the Shire and the general community, in developing this facility that has no clearly articulated purpose (other than some fluffy marketing sentiment?) in a field of two existing well-funded and very successful Aboriginal Health services?

Response provided by Chief Executive Officer:

Council has endorsed support of this project through its inclusion in the 3 Year Broome COVID-19 Recovery Plan. The Broome Health and Wellbeing Campus will be a health services hub that is designed as an indigenous led clinical and allied health service centre for Broome and the wider Kimberley Region. We understand the project is being developed in partnership with a range of stakeholders and with co-location opportunities being pursued.

Question Three (3)

Broome Motocross Track

This is claimed as a Shire achievement yet when questioned previously the Shire President and officers rejected any investment had been made in this project (either capital or in-kind). Is this a true statement and, if not, what was the Shire's actual contribution in "achieving" this facility?

Response provided by Andrew Graffen, Director Infrastructure:

Shire officers have been engaged with DevelopmentWA (previously LandCorp) through all phases of this project including site selection, procurement, development approval, inspections, building approvals and lease negotiations.

Some specific examples of this are:

- The new Motocross site is situated on Reserve 53311 which the Shire of Broome has a Management Order over for the purpose of Motorplex Site with a power to lease.
- The Reserve and Management Order was requested over Lot 591 Broome Road following technical investigations, due diligence and site selection reports to facilitate the relocation which was endorsed by Council at OMC 26 May 2014.
- Council at OMC 7 September 2017 endorsed the subject area being zoned as Public Purpose Reserve for the purpose of Motor Sports under Local Planning Scheme 6.
- Shire Officers have worked with the Broome Motocross club to negotiate the final terms of a lease over portion of reserve 53311 for a term of 21 years at peppercorn rent of \$1 per annum.
- The Shire of Broome has provided support and assistance to, and done all things reasonably required to facilitate the construction of this facility and relocation of the Motocross Club. I can confirm that all funds expended on the relocation were through DevelopmentWA's Broome North Infrastructure Contribution Agreement.

Question Four (4)

Prosperity, What we will do - Facilitate the growth and development of iconic festivals, community and sporting events.

Is there any actual plan or strategy in place backed up by a realistic budget to action this statement? Of the \$50k p/a allocated in the additional operating expenditure, Corporate Business Plan, How much is already allocated to Shinju Matsuri and existing events?

Response provided by Nathan Cain, Director Development and Community:

The Long-Term Financial Plan allocates funding towards Events, Economic and Tourism Development, supported in part by Council's *Identifying Opportunities for Events in Broome* (informing document), to facilitate the growth and development of iconic festivals, community and sporting events.

This is an annual funding program which has proven to be highly competitive and is variable depending on available budget and quality of applications. The \$50,000 allocated in additional operating expenditure is intended to assist in the Shire's delivery of additional events and is not allocated to any existing events.

Question Five (5)

Corporate Business Plan – Outcome 9

9.3 Activate the Dampier Peninsular – this reads like these communities are not in the Shire of Broome. While they are not direct ratepayers (yet) increased tourism activity will be driven primarily from Broome (town) and, the Shire receives support from both State and Federal to support ALL residents of the Shire. Why is it that there's no plan for greater partnership in delivering basic services to these communities such as waste management, clean water, safe sewage systems, parks and gardens services, ranger services, health and safety compliance, building approvals?

Response provided by Nathan Cain, Director Development and Community:

The Shire undertakes local government functions within responsible areas, as contained in the *Local Government Act 1995*.

Many areas with the district of the Shire of Broome are managed under individual agreements with State government agencies, or the State government itself, to supply compliance and other service provision.

The Shire works collaboratively with other agencies for the betterment of the ratepayers and residents of the entire district.

Question Six (6)

9.4.3 Wards & Representation Review

Can the Shire explain why it is penalising residential communities that do not vote (low elector numbers) by removing their chance at representation for the special interests and needs of residents in the already under serviced Dampier Ward?

Response provided by James Watt, Director Corporate Services:

At it's 10 December 2020 Ordinary Meeting Council resolved to maintain the status quo in relation to Ward Representation.

The Local Government Advisory Board has reviewed Council's decision and has requested that a further review be undertaken prior to the 2023 election to resolve the imbalance between elector numbers and representation in the Dampier Ward. Officers will schedule the review to commence in late 2022.

Question Seven (7)

Are we now only providing service and representation to those who have the time, education, confidence to engage in an informal electoral process?

Response provided by James Watt, Director Corporate Services:

Council resolved to maintain the status quo in relation to Ward Representation.

Question Eight (8)

Shinju Matsuri Festival 2020

It's been a few meetings and I know we've had trouble communicating lately, but, I'm still waiting on my answer to the question on what economic returns there were to the management, arts and allied sectors within Broome?

This was dependent on the Shire receiving documentation from the Perth based contractor outlining what was spent here in procuring equipment & services in support of their community events (very little).

Response provided by Nathan Cain, Director Development and Community:

Shire officers have recently received the Audited Financial Statements, and other accompanying acquittal documentation, from Shinju Matsuri Inc. and are in the process of reviewing them.

Question Nine (9)

Why has the Shire withdrawn the proposed toilet from the Cemetery redevelopment plan?

Response provided by Andrew Graffen, Director Infrastructure:

As detailed in item 9.1.3 Broome Cemetery Master Plan 2020 a Councillor project Brief was presented for consideration as part of the 2020/21 Budget. This Project brief was supported, and budget allocated within the 2020/21 financial year on the basis that the toilet would be for restricted access and the final location informed by the Cemetery Master Plan 2020. These works are anticipated to commence early in 2021. The toilet location is included in the Cemetery Master Plan 2020 as attached to the item.

The following questions were asked by Brendan Renkin at the Annual Electors Meeting and taken on notice by the Chair.**Question One (1)**

The annual report refers to the community scorecard. In that scorecard only 35% of residents agreed that rates provided value for money, 9 points below the State average and 28 points below the best rated Shire in the State. Does the Shire have an explanation for why 65% of residents think that rates aren't value for money? Does the Shire plan to do anything different to address this?

Response provided by James Watt, Director Corporate Services:

Responses to the survey on value for money for rates indicated an increase of 3 points since the previous survey suggesting a minor improvement in this area. Rates are still high in comparison to other local governments in the State for a variety of reasons including the additional cost of doing business in the Kimberley.

Council has developed an action in its Corporate Business Plan to provide a framework for assessing and reporting on value for money and continues to work towards ensuring long term financial sustainability, while delivering value for money for rates.

This commitment has been demonstrated over the past 5 years with rate increases of 2% in 2016-17, 1.75% in 2017-18, 1.78% in 2018-19, 1.75% in 2019-20 and 0% in 2020-21. The five-year period has delivered the lowest rate increases in recent history while still allowing Council to deliver significant transformative projects and improve service delivery within the district.

Question Two (2)

Why are staff attending the meetings of the Broome Futures when it's a private board and what are they doing there?

Response provided by Nathan Cain, Director Development and Community:

The West Kimberley Alliance (formally Broome Future Alliance) can invite stakeholders to their meetings as either presenters or observers. Shire of Broome Officers have been invited to attend meetings during 2020 as either observers or to present updates on specific projects (e.g. 3 Year Broome COVID-19 Recovery Plan and Cable Beach Foreshore Redevelopment business case).

Public Question Time – Ordinary Meeting of Council 25 February 2021**The following questions were submitted by Andrew Chambers prior to the meeting:**

Question One (1)**Item 9.4.3 – Model Code of Conduct for Council Members, Committee Members and Candidates.**

The background to this matter has the following point: greater transparency through more information being made more easily accessible online.

Can the officers and CEO please outline what steps are in play to meet this objective with regard Agenda Briefing Meetings and any Public Council Meetings?

Response provided by James Watt, Director Corporate Services:

The State Government's Local Government Act reforms introduced significant legislative changes, some of which pertain to the availability of online information. The intent of the change is to ensure that information is more easily accessible for community members who cannot visit their local government office during working hours, including those in remote locations.

The reforms require that various documents currently held by the local government are published online as detailed in Regulation 29(c) of the *Local Government (Administration) Regulations 1996*. There are numerous documents included however most were already available on the Shire's website. The following documents have been made available since the introduction of the reforms:

- Gift and Travel Register (section 5.82 and 5.83)
- Councillor Mandatory Training Register
- Attendance at Events Policy.

Council's Forums of Council Policy outlines the management of Ordinary Council Meeting and Agenda Briefings. This Policy was last reviewed in December 2019 with the next review scheduled to be completed in December this year.

Question Two (2)

May we consider remote attendance for communities? Is there a plan in place that will make it successful

Response provided by James Watt, Director Corporate Service:

There were conversations during the recent Local Government Act review consultation however no changes have been mandated through the revised legislation. There were changes made to allow attendance of Councillors and officers through electronic means during a State of Emergency. The Shire has been operating under these amended regulations since the COVID pandemic started.

A number of other local governments have recently implemented remote attendance and it is an industry trend that Council is keeping a close watch on, however at this point Council has not made a decision to stream meetings.

Question Three (3)**Item 9.3.1 Draft Economic Development Strategy for Endorsement for Public Comment.**

Can officers of the Shire please explain how and why the West Kimberley Alliance, funded through this Shire manages to attain Level 1 Stakeholder Status when it's membership is almost entirely drawn from organisations already present and identified?

Response provided by Nathan Cain, Director Development and Community:

The mission of the West Kimberley Alliance is to advocate for, promote and facilitate environmentally sustainable, economic, social and cultural development in Broome and the West Kimberley Region in areas where there are strong economic fundamentals when broad community alignment can be achieved.

It's board representation is broader than other level 1 stakeholders identified.

The following questions were submitted by Brendan Renkin prior to the meeting:

Question One (1)

Can the Shire advise how it manages conflicts of interest for the directors of WKA who are also Shire Councillors? For example, in the minutes of WKA in November 2019 WKA Director Harold Tracey gave advice to the board about a funding application by WKA to the Shire of Broome. How does the Shire manage an issue like this when a director of a company seeking funds may also be a Shire Councillor?

Response provided by Nathan Cain, Director Development and Community:

The *Local Government Act 1995* (the Act) places specific obligations on elected members to act honestly and responsibly in carrying out their functions.

Generally, those obligations include the lodgement of disclosure of interest returns, the lodgement of written declarations and the verbal disclosure of financial interests at council and committee meetings.

The onus is on elected members to determine whether they are affected by the financial interest provisions in relation to a matter under consideration by the Council.

Question Two (2)

Can the Shire provide the public with details about the planning group that was proposed to examine opportunities and challenges arising from the KMSB project? Was the Shire invited to attend such a group, was the matter brought before the Shire Council and was a representative of the Shire appointed to the group?

Response provided by Nathan Cain, Director Development and Community

Shire officers are not sure of the details of "the planning group" referenced in the question and who this relates to. Therefore the question is taken on notice.

The Chairperson asked for questions from the floor. Michael Leake asked the following questions:

Question One (1)

In today's agenda there is an item relating to RPS Group and their role in the Economic Development Strategy which cites that this organisation comes with extensive experience in that particular field.

It is my understanding that at the time of the signing of the MOU with BFA, that BFA had no staff. Therefore, to ensure that ratepayers funds were not going to be wasted, what due diligence and procedures were followed to ensure that BFA had the necessary staff, expertise and experience to carry out the requirements as per the MOU, and what alternate organisations were not accepted for this role and why?

The Chairperson took the question on notice.

Question Two (2)

Clause 8 of the MOU with Broome Futures clearly outlines that a Strategic Plan is to be completed within 12 months of signing of the MOU which I believe was sometime early in 2020.

Has the Shire received a copy of the strategic plan and will it be made available publicly, or if the Shire hasn't received such a plan, how will the Shire obtain such a strategic plan (given that I now believe that BFA no longer has any staff), and thus ensure that ratepayers funds have been used effectively and not wasted?

The Chairperson took the question on notice. There were no more questions from the floor. The Chairperson asked for additional question submitted prior to the meeting.

The following questions were submitted by Andrew Chambers prior to the meeting:

Question - Item 9.4.3 – Model Code of Conduct for Council Members, Committee Members and Candidates.

***Schedule 1. Model Code of Conduct –
A Council or Committee member should:***

(d) be open, accountable to, and represent, the community in the district.

In reference to previous notices (or threats there of) of breach or disciplinary actions against Councillors for publicly representing their community in opposition to Council actions and or decisions how will any future public comment or protest against future or current Council actions be treated if you are to respect the clause on accountability, respect the diversity of this community, and that while the Council views itself as a collective of impartial, harmonious representatives, respect the necessity for publicly expressed opposition to the actions and choices made by a simple majority of voting Councillors?

Response provided by James Watt, Director Corporate Services:

The *Local Government (Model Code of Conduct) Regulations 2021* replace the now repealed *Local Government (Rules of Conduct) Regulations 2007*.

Provisions within the repealed Rules of Conduct Regulations prevented elected members from publicly opposing a decision of Council, regardless of whether the elected member believed they were acting in a personal capacity. The Chief Executive Officer was required to report breaches of the Rules of Conduct Regulations to the Local Government Standards Panel.

Elected members have been provided training on their obligations under the Rules of Conduct Regulations following election, through mandatory induction and training delivered by the Department and through induction and training offered by the Shire.

The recently introduced Model Code of Conduct Regulations include identical provisions as the repealed Rules of Conduct Regulations and as such breaches of these provisions will be treated in a similar manner.

The following questions were submitted by Brendan Renkin prior to the meeting:

Question One (1)

My question refers to the relationship between the Shire of Broome and Broome Futures – now known as the West Kimberley Alliance (WKA). When the Shire provided around \$160,000 to WKA it entered into a memorandum of understanding with WKA, that imposed obligations on the WKA - my questions relate to whether the Shire has taken any steps to make sure WKA is complying with the agreement and that the Shire is getting value for money.

Has the Shire received any written reports on WKA's activities in implementing the Broome Growth Plan? And have these reports been made public? If not, what actions has the Shire taken to ensure that WKA is meeting its obligations to the Shire under the MOU?

Can the Shire explain why it is again seeking the acquittal – as set out in the agenda papers – when it has the right under the MOU to demand the accounts of WKA at any time?

Response provided by Nathan Cain, Director Development and Community:

It is common practice to receive an annual progress report and acquittal of funding from recipients of granted funds by government.

The Shire has requested this from West Kimberley Alliance and has not had cause to "demand" these accounts to date having viewed a draft document outlining the key activities undertaken by West Kimberley Alliance (formerly Broome Future Alliance).

When finalised, the report produced by the West Kimberley Alliance will be their report to make public, should they so choose.

Question Two (2)

The Shire recently awarded a tender for the construction of a roundabout at the intersection of Saville and Herbert Street. Since the completion of the roundabout there have been 4 rainfall events which have resulted in pindan runoff washing on to the road, completing covering the north east exit, to a depth of 100mm or more, creating a traffic hazard. The pindan has been subsequently removed by the Shire's streetsweeper spending several hours at the intersection, only for it to return the next time it rains.

Can the Shire explain if the roundabout was designed to wash pindan on to the road and if not, who is responsible for the defect? And who is responsible for its rectification and the costs of the streetsweeper?

Response provided by Andrew Graffen, Director Infrastructure:

The roundabout was not designed specifically to wash pindan on to the road. Roundabouts are generally adopted at an intersection due to their safety benefits (i.e. low speeds and improved impact angles). The key components for the design of roundabouts have the following objectives:

- Maximise safety;
- Maximise operational efficiency;

- Minimise costs associated with construction, maintenance and use of the route;
- Minimise adverse impacts on the environment; and
- Be aesthetically pleasing.

Due to the flat topography of Broome, it is generally unfeasible to utilise underground drainage, and as such, the road and road reserves are designed to function as open-drain channels. Egress of material from the verge onto the road network is an unfortunate outcome of our drainage solutions and the weather events we experience.

For this reason, the Shire of Broome have a Scarab Mistral Street Sweeper as part of our fleet and a dedicated fulltime position to deliver planned and reactive street sweeping activities. There is no additional cost for the reactive sweeping of this intersection as it is delivered using internal resources and is captured within the annual operational budgets.

The \$690,000 project was fully funded through the Australian Government Black Spot program and will be finalised with landscaping and associated verge treatments in March 2021. The volume of material egress is anticipated to reduce as the material behind the kerb balances and the landscaping works are completed.

Public Question Time closed at 5:19 PM.

The following questions were submitted by Brendan Renkin prior to the meeting but were not responded to at the meeting due to public question time exceeding the time limit:

Question One (1)

At the December OMC, during the debate on Cr West's amendment to reallocate \$185,000 from Cable Beach to community safety Cr Male said, and I quote "if you were at the community safety meeting on Monday you would have heard that the Treasurer said he can fund anything".

Given Cr Male's long experience in the disappointments of the Shire having funding requests knocked back from the State Government, can the Councillor explain what exactly she meant by the statement?

Response prepared by Cr Desiree Male:

The debate and comments to which you refer to were in regard to Council's deliberations on the adoption of our Corporate Business Plan (CBP). The CBP contains actions and initiatives that the Shire proposes to deliver on in the next 4 years, including a funding strategy. The debate was in regard to \$185k of municipal funds being reallocated from the Council endorsed Cable Beach Foreshore Masterplan Redevelopment project towards community safety. As background, the Cable Beach Project has been subject to many years of planning and community consultation and now has a completed Business Case. The Shire's Draft Community Safety Plan has not been tabled to Council for formal endorsement at this time.

My reference to the Treasurer was in regard to external funding being available for community safety initiatives. This being the case it would be more appropriate for the Shire to secure the external funds in the first instance than burden ratepayers with the expense. In the first instance we need to actually determine what the community safety initiative is that we wish to pursue.

As we all know funding is not always a given, however I don't think anyone here tonight can dispute the amount of funding the Shire of Broome has received in the past four years has well exceeded any funding support from any government in the history of Broome.

Question Two (2)

Is the Shire of Broome aware that the Shire's representative on the WKA board is unable to locate copies of documents sent to his Shire Councillor email address for the August 2020 WKA board meeting? Can the Shire indicate whether this is in accordance with the Shire's document management policy? And if not, what steps is the Shire taking to remedy this?

Response provided by James Watt, Director Corporate Services:

Councillors are required to retain records relating to their role as a Councillor for the Shire of Broome in a manner commensurate with legislation and the Shire's policies and procedures for record keeping.

Councils Records Management Policy prescribes a systematic and organised approach to the management of Shire records. The policy applies to all records created or received by employees and Councillors in their official capacity and is available on the Shire website.

Councillors must create and keep records of communications or transactions, which convey information relating to local government business or functions. Council electioneering and personal records of Councillors are exempt, as are materials that do not relate to local government projects or business activities.

The Shire provides an induction to elected members which includes details on Councillor record keeping responsibilities, and provides training and information in relation to record keeping requirements to staff and Councillors.

Question Three (3)

In the evaluation of the Banded Drinkers Register in the Northern Territory the medium-term evaluation found that the introduction of the system had a number of unintended consequences that negatively effected the perception of tourists visiting the Northern Territory and made a number of recommendations to improve the register system. Has the Shire read the evaluation and what steps is the Shire taking to avoid the same negative impacts in Broome this tourist season?

Response provided by Nathan Cain, Director Development and Community

One of the findings of the evaluation to which you refer was tourists did not fully understand the rationale of the Register, which often then required retailers to explain this, hence delaying the purchasing process and creating a degree of frustration.

The evaluation report quotes, as follows:

'Tourists were not aware of the aims of the BDR and viewed the additional procedure at POS as an inconvenience.'

Shire officers note the evaluation did not detail or quantify any further 'negative impacts' on tourism or visitation to the Territory.

The Department of Local Government, Sport and Cultural Industries, who will be implementing and administering the new system, will be distributing information materials

to the public and takeaway alcohol retailers throughout the Kimberley region, as it has recently done in the Pilbara region, which explain the aims of the new system.

A web site has also been developed by State Government and includes a Frequently Asked Questions section on the Banned Drinkers' Register.

In December 2020, Council resolved to contribute to pledge to support a two-year trial of the Banned Drinkers' Register and contributing \$50,000 to the State Government for an independent evaluation.

The Broome Liquor Accord is participating in the trial and considering exemptions for bona-fide tourists should quantity restrictions be implemented following the lifting of the State-of-Emergency Declaration conditions currently in place.

Shire officers deem the inconvenience of the requirement to show, and have verified, personal identification to be minor by comparison to the impact on tourists who witness anti-social behaviour generated by excessive alcohol consumption.

The evaluation did not quantify the "negative impacts" of said inconvenience.

6. APPLICATIONS FOR LEAVE OF ABSENCE

Nil.

7. CONFIRMATION OF MINUTES

COUNCIL RESOLUTION:

(RECOMMENDATION)

Minute No. C/0221/001

Moved: Cr C Mitchell

Seconded: Cr B Rudeforth

That the Minutes of the Ordinary Meeting of Council held on 10 December 2020, as published and circulated, be confirmed as a true and accurate record of that meeting.

CARRIED UNANIMOUSLY 8/0

COUNCIL RESOLUTION:

(RECOMMENDATION)

Minute No. C/0221/002

Moved: Cr P Matsumoto

Seconded: Cr C Mitchell

That the Minutes of the Annual Electors Meeting of Council held on 4 February 2021, as published and circulated, be confirmed as a true and accurate record of that meeting.

8. PRESENTATIONS / PETITIONS / DEPUTATIONS

Cr F West declared an Impartiality Interest in Item 8.1, the reason being 'I live in the neighbourhood near the location. Cr F West made written declaration that she will consider the matter on its merits and vote accordingly.

8.1 PETITION - LOCAL PLANNING SCHEME NO.6 - AMENDMENT NO.12

A compliant petition in accordance with Clause 6.10 of the Shire of Broome Meeting Procedures Local Law 2020 signed by 122 electors was received by the Shire on 14 January 2021.

The request is as follows:

'We the ratepayers and residents of Broome North (Bilingurr) request the Shire of Broome to cease Local Planning Scheme No 6 – Amendment No 12. We strongly oppose the rezoning of the central shopping/community precinct to residential housing for the following reasons:

1. The majority of Broome North residents bought, built and invested in Bilingurr based on published plans and a clear commitment to community services and local shopping facilities as zoned within the area in question.
2. Broome North already suffers a lot of youth-related crime and this proposed re-zoning runs the risk of worsening the situation by removing any prospect of community services in a central community location. Building more public & private housing in an area that is not designed for the extra population substantially increases this risk.
3. Our primary school is already at capacity and a sharp increase in families into our suburb will put significant stress on the school and cause safety issues on small residential roads simply not designed for this additional use.
4. We are here for the long term and seek good decisions for the future of Bilingurr.

The ratepayers and residents of Broome North have well considered ideas about how our 'local centre' can be better used in keeping with the intent of the zoning. We ask the Shire of Broome work with us to develop and progress these ideas through an effective consultation process in 2021.'

COUNCIL RESOLUTION:**(RECOMMENDATION)****Minute No. C/0221/003****Moved: Cr F West****Seconded: Cr E Foy*****That Council:***

- 1. Receives the petition from the ratepayers and residents of Broome North (Bilingurr); and***

9.2.1 ADOPTION OF PROPOSED PLANNING SCHEME AMENDMENT NO.12 TO LOCAL PLANNING SCHEME NO.6

LOCATION/ADDRESS:	Part lot 9007 on Deposited Plan 74189, Magabala Road, Bilingurr
APPLICANT:	RFF Pty Ltd on behalf of DevelopmentWA
FILE:	LPS6/12
AUTHOR:	Coordinator Planning Services
CONTRIBUTOR/S:	Nil
RESPONSIBLE OFFICER:	Director Development and Community
DISCLOSURE OF INTEREST:	Nil

SUMMARY:

At the Ordinary Meeting of Council held 23 September 2020, Council resolved to initiate Scheme Amendment No.12 to Local Planning Scheme No. 6 (**LPS6**) for the purpose of public advertising.

The application seeks to amend LPS6 by rezoning land from 'Local Centre' zone, 'Local Road' and 'Parks, Recreation and Drainage' to 'Residential', including an Additional Use for 'Child Care Centre' in Broome North.

The amendment was advertised for 63 days from 12 November 2020 to 14 January 2021, exceeding the required 42 days advertising period pursuant to regulation 47(4) of the *Planning and Development (Local Planning Schemes) Regulations 2015*.

Nine submissions (including one joint submission) and one petition were received during the advertising period.

As the amendment is consistent with the recommendations of the Shire's Local Commercial Strategy 2017, it is recommended Council support the proposed amendment.

BACKGROUND

Previous Considerations

SMC 22 February 2010	Item 9.3.2
OMC 26 February 20015	Item 9.2.3
OMC 25 June 2015	Item 9.2.5
OMC 24 November 2016	Item 9.2.5
OMC 23 September 2020	Item 9.2.3

In March 2010 the Western Australian Planning Commission (**WAPC**) granted approval for the Broome North District Development Plan (**BNDDP**), which was prepared by DevelopmentWA to guide the future development and land uses within the Broome North development area.

The BNDDP provides for the development of two Local Centres, which would serve a secondary role to Chinatown as the primary commercial centre for Broome.

Located to maximise the number of dwellings within their respective walkable catchments, the role of Local Centres is to serve the convenience goods needs of the surrounding neighbourhood.

The BNDDP aspires for each of these Local Centres to have a total retail floor-space of 3000m², with half of this capacity to be taken by an anchor tenant in the form of a small (1,500m²) supermarket, which is approximately half the size of a typical suburban supermarket.

The first of the two centres, located in 'Waranyjarri Estate', was released to the market by DevelopmentWA in mid-2015 via an expression of interest process.

Envisaged to ultimately comprise a childcare centre, medical facility, supermarket, café, specialty shops and community centre, the expressions of interest process did not attract any major anchor clients.

In response to this, DevelopmentWA outlined it wanted to review the two Broome North Local Centres as part of a review of the BNDDP.

Subsequently, DevelopmentWA in 2016 requested the Shire bring forward the review of the Local Commercial Strategy to inform the review of the BNDDP as it was originally identified in the Corporate Business Plan to occur in the 2018-2019 financial year.

At the Ordinary Council Meeting on 24 November 2016, Council resolved to enter into an agreement with DevelopmentWA to fund 50% of the Local Commercial Strategy, which enabled the project to be brought forward.

The Local Commercial Strategy recommends the position of the Local Centre in the BNDDP is reviewed.

In response to the recommendations of the Local Commercial Strategy, and to meet demand for residential lots, DevelopmentWA are now seeking to rezone the land to Residential.

At the Ordinary Council Meeting on the 23 September 2020, Council considered a request to initiate Scheme Amendment No. 12 and made the following resolution:

COUNCIL RESOLUTION:

(REPORT RECOMMENDATION)

Minute No. C/0920/001

Moved: Cr C Mitchell

Seconded: Cr B Rudeforth

That Council:

- 1. Pursuant to section 75 of the Planning and Development Act 2005, amends the Shire of Broome Local Planning Scheme No. 6 for the purposes of public advertising by:
 - (a) rezoning part lot 9007 on Deposited Plan 74189 in Bilingurr from Residential R30/40; Residential R40; Local Road Reserve and Town Centre to Residential R20;**
 - (b) amending the Scheme Map accordingly.****
- 2. Advises the applicant the Scheme Amendment Report is to be updated to incorporate the following:
 - (a) Additional use for 'Child Care Centre' being removed or the additional use boundary is adjusted to cover the proposed footprint of the Child Care Centre.****
- 3. Determines the amendment is a standard amendment under the provisions of the Planning and Development (Local Planning Schemes) Regulations 2015 for the following reasons:
 - (a) It is consistent with the Shire's Local Planning Strategy and Shire's Local Commercial Strategy;**
 - (b) It will have minimal impact on land in the scheme area; and**
 - (c) It will not result in any significant environmental, social, economic or governance impacts on the land in the scheme area.****
- 4. Requests the Chief Executive Officer forward this resolution and the amendment documentation to the Environmental Protection Authority pursuant to section 81 of the Planning and Development Act 2005; and**
- 5. Subject to the advice of the Environmental Protection Authority under section 48A of the Environmental Protection Act 1986 the amendment is not subject to formal environmental assessment, requests the Chief Executive Officer advertise the amendment for 42 days as per the Planning and Development (Local Planning Schemes) Regulations 2015.**

CARRIED UNANIMOUSLY 5/0

The Scheme Amendment Report (see **Attachment 1**) was updated by adjusting the additional use boundary for 'Child Care Centre' to only cover a 2600 m² area of the site as per action 2 of the resolution before being advertised.

The revised zoning map is available at **Attachment 2**.

Given the timing of the consent to advertise occurring over the Christmas / New Year period, the proponent agreed to advertising being extended to three weeks to ensure the community had extensive opportunity to comment.

Nine submissions (including a joint submission with 213 signatures) and one petition with 122 signatures were received during the advertising process.

COMMENT

In accordance with the resolution of Council at the September 2020 Ordinary Meeting, the Scheme Amendment was forwarded to the Environmental Protection Authority which advised the amendment did not need to be assessed under the *Environmental Protection Act 1986*.

The amendment was then advertised for 63 days (being a period in excess of the required 42 days) and is now being presented to Council for final consideration.

Planning Considerations

The *Planning and Development Act 2005* (**the Act**) and the *Planning and Development (Local Planning Scheme's) Regulations 2015* (**the Regulations**) prescribe the process for amending a Local Planning Scheme.

In considering a request to amend a Local Planning Scheme, consideration is required to be given to relevant State Planning Policies, the Local Planning Strategy and any State informing strategy or document prepared to guide land use and development.

There is also a requirement to consider submissions received.

The request for amendment is assessed against the relevant considerations, as follows:

State Planning Strategy 2050 (SPS 2050)

The SPS 2050 was adopted in 2014 by the WAPC.

The State Planning Strategy provides the strategic context for planning and development decisions throughout the State.

The Strategy includes key elements regarding land supply which are relevant to the proposed amendment outlined in Table 8 of the SPS 2050 including:

- Well-serviced regional towns have a built-in capacity to cater for forecast growth and future expansion;
- Effective land supply monitoring and modelling tools guide infrastructure and servicing agencies;
- Affordable and well-located land is accessible and well-serviced, especially to align with affordable housing demands; and
- Government leads by example in the delivery of affordable land.

The proposed amendment is lodged by DevelopmentWA to support its efforts to ensure an adequate pipeline of readily accessible, affordable, and well-located residential land can be quickly brought to market in Broome.

The loss of the commercial land zoned Local Centre has been raised as a concern through submissions including the petition received, however the proposed Scheme Amendment is consistent with the Shire's Local Commercial Strategy and the concerns raised are responded to in more detail in the relevant section of the report.

Kimberley Regional Planning and Infrastructure Framework 2015 (KRPIF)

The KRPIF was adopted by the Department of Planning to provide strategic direction for the future development of the Kimberley region over the next 25 years and seeks to ensure development and change in the Kimberley is achieved in a way improving people's lives and enhances the character and environment of the region.

Key Planning initiatives with respect to settlement in the KRPIF relevant to the proposed amendment are:

- 4b. *Identify future land requirements for residential, commercial and industrial purposes in local planning strategies and schemes by:*
 - *determining future demand and timing scenarios;*
 - *identifying opportunities for private sector involvement in urban and development;*
 - *identifying infrastructure requirements; and*
 - *identify future land requirements for public utilities*
- 4c. *Facilitate the release of additional residential, commercial and industrial land in areas have been identified for future development by:*
 - *timely resolution of land tenure issues;*
 - *identifying and addressing development constraints and formulating strategies to address these;*
 - *inundation as a result of climate change;*
 - *providing adequate and appropriately zoned land; and*
 - *ensuring utility, community and transport infrastructure capacity is enough.*

Given the Shire's Local Commercial Strategy 2017 indicates the site is not viable for commercial purposes (refer to the Local Commercial Strategy Section of this report), alternative land use and zoning should be considered.

Whilst the proponent has suggested 'residential' is an appropriate alternative zoning, several submissions have raised concerns with additional 'residential land'.

This issue is considered further in the Local Planning Strategy section of this report.

Local Planning Strategy (LPS)

The LPS was adopted by the Shire of Broome and endorsed by the Western Australian Planning Commission in August 2014.

The Shire has commenced a review of the Strategy in parallel with LPS6.

The Report of Review was adopted by the Shire of Broome in February 2020 and subsequently by the WAPC in April 2020.

Whilst the current LPS remains, it is important to note one of the actions identified within the document is to review the Shire of Broome Local Commercial Centre Strategy.

This review has occurred with Council adopting a revised Local Commercial Strategy in 2017.

Importantly, the LPS regularly references the Local Commercial Strategy with relevant instances being:

1. Section 2.4.7 Retail, Commercial and Activity Centres

This section provides several objectives, strategies and actions are linked to the Local Commercial Strategy as an informing document. Relevant examples include:

- *Objective 1: To provide for a range of retail and commercial uses to support the economic and population growth of the Shire.*
- *Objective 3: To provide local activity centres within residential neighbourhoods and secondary centres.*
- *Strategy 5: Ensure appropriately located local activity centres to provide for the day-to-day retail and service needs of the population.*
- *Action: Review the Shire of Broome Local Commercial Centre Strategy.*
- *Action: Zone the local centres identified within local development plans for Broome North as local centres.*

2. Section 3.2.10 of the LPS provides the following description of Local Centre areas (note: the subject site is identified as 'Local Centre' under the LPS):

Areas designated as local centres identify existing and proposed neighbourhood and local centres, which provide for convenience shopping. The designation reinforces the role of these centres to serve the surrounding neighbourhood for convenience goods, as outlined in the Local Commercial Strategy. Community facilities may also develop in these centres.

3. Section 5.5 Local Commercial Strategy 2007 (**LCS07**)

Provides an overview of the LCS07 which gives context to how it was considered throughout the LPS.

Whilst part of the subject site is identified as 'Local Centre' under the LPS, the remainder is identified as 'Residential'.

Given the revised Local Commercial Strategy 2017 indicates the land is not recommended to be developed for commercial (i.e. 'Local Centre') purposes, it has been contended by the proponent the surrounding 'Residential' land use should be applied.

The proposed 'Residential' zoning was raised as a concern in several of the submissions received.

Concerns include a lack of accessible community infrastructure to support the increased population 'Residential' rezoning would provide and potential for increased anti social activity particularly if more community housing was provided.

There were also comments made regarding other 'Residential' opportunities being already available.

The LPS includes population projections which clearly identified there will be demand for 'Residential' land to support the increased population.

The site is appropriately located and has access to a range of community infrastructure including a primary school and parks.

A yield assessment has been undertaken between the current Residential land and R Code densities and compared with the Residential land and R Code densities proposed by the Scheme Amendment.

Current zoned land and densities provide for up to seventy-four (74) multiple dwellings based on a 75m² average multiple dwelling size.

An indicative residential subdivision for the proposed zoning and density provides for thirty-four (34) single house lots. (See page 15 of **Attachment 4**).

This suggests the changes would reduce the population being housed on the land and therefore no increased demand for community infrastructure would result due to the proposed Scheme Amendment.

Existing community infrastructure and facilities are shown on Figure 13 of the LPS (**Attachment 6**).

This shows there are no existing Community Infrastructure and Facilities within Broome North with most existing Community Infrastructure and Facilities being in Chinatown and Old Broome locations.

This reflects the historical development of Broome and the population being served. In most instances the Community Infrastructure and Facilities are servicing the entire population, which is the most effective and efficient way of serving the community.

However, it is acknowledged as the population increases, service pressures may result in new and / or duplication of Community Infrastructure and Facilities to meet with the growing demand for services. The Local Planning Framework provides processes for the consideration and location of such facilities including within the Broome North locality.

Local Commercial Strategy 2017 (LCS17)

The Shire's LCS17 was adopted by Council on 19 October 2017.

LCS17 reviewed the previous Local Commercial Strategy adopted by Council on 7 June 2007.

LCS07 was an informing document of the LPS.

The context of LCS17 is it has reviewed the LCS07 recommendations, drawing on insights from local commercial enterprises, government and major facility operators, population trends and household and business expenditure data, to prepare recommendations for a new medium and long-term Commercial Land Strategy.

Of specific consequence to the merits of the proposed Scheme Amendment, LCS17 identifies a four-level commercial centre hierarchy of:

1. Regional Centre (i.e. Chinatown)
2. District Centre (e.g. Boulevard Shopping Centre)
3. Local Centre (e.g. Reid Road IGA)
4. Convenience Retail (e.g. Fongs Store)

LCS17 concluded:

'while there is enough vacant land to support future (projected) demand, the location and suitability of much of this land is less than ideal'.

In summary, LCS17 recommended Broome North could only support one District Centre and one Local Centre.

Furthermore, LCS17 recommends the location of the District Centre be on the northern corner of Fairway Drive and Gubinge Road and the Local Centre at the future intersection of Magabala Road and Fairway Drive (**refer Attachment 5**).

In relation to the existing 'Local Centre' zoned land (i.e. the proposed amendment site) LCS17 states:

The land currently set aside for the Broome North (South) local centre is considered insufficient for accommodating a district centre and may be too close to the future district centre to be sustainable. Further consideration is needed on appropriate, alternative land uses for this site and the need for an engagement strategy with residents on the future use of the site.

In this instance, Council is not proposing the rezoning of the land, the landowner (DevelopmentWA) is. Subsequently, statutory requirements to consider the merits of this scheme amendment precedes the review of relevant Structure Plans in Broome North, which would consider alternative uses for the land with associated community engagement with residents. (See Broome North District Development Plan section in the report).

The Scheme Amendment has been advertised in accordance with statutory requirements which has highlighted considerable community interest in the zoning of this parcel of land with many submissions advocating for the land to remain 'Local Centre' and other suggesting it be used for other 'community' purposes and/or infrastructure.

Given the Local Commercial Strategy concludes the site is not suitable for a Local Centre, an alternative land use and therefore zoning should be considered. Whilst the engagement strategy alluded to in LCS17 may have led to a range of alternative being considered, Council is required to consider the merits of the proposed 'Residential' land use and zoning for the site.

Broome North District Development Plan (BNDDP)

The subject site was previously zoned 'Development' under Town Planning Scheme No 4 and formed part of the broader Broome North precinct. Prior to any development occurring within the precinct, a 'Structure Plan' was required. The Deemed Provisions describes a Structure Plan as 'a plan for the coordination of future subdivision and zoning of an area of land'. The objective of a Structure Plan is to implement the Local Planning Strategy.

The structure planning for Broome North was provided in the form of the BNDDP and three 'Local Development Plans'. The BNDDP provided a higher order planning response to the precinct whereas the three 'Local Development Plans' provide further details on specific areas within the Broome North precinct.

Whilst the BNDDP remains a relevant consideration, it is important to note the Shire is not bound by a BNDDP. This is best identified by clause 27 (1) of the Deemed Provisions, which states:

A decision-maker for an application for development approval or subdivision approval in an area is covered by a structure plan has been approved by the Commission is to have due regard to, but is not bound by, the structure plan when deciding the application.

In this regard, the BNDDP currently identifies the site as 'Local Centre' which as previously noted, is inconsistent with the Local Commercial Strategy 2017 and in effect, the Local Planning Strategy. DevelopmentWA have engaged consultants to submit an amendment to the BNDDP however, this plan is still being prepared and is expected to be presented to Council for consideration soon.

When initiation of the proposed Scheme Amendment was considered by Council, the following was highlighted:

Whilst for completeness, it would be beneficial to have the proposed amendment to the BNDDP under consideration before or in conjunction with this proposed Scheme Amendment, the Shire is not bound by the BNDDP. By requiring the BNDDP amendment to be completed prior to, or concurrently with, the proposed Scheme Amendment would result in time delays to the consideration of the proposed Scheme Amendment. This in turn would have flow on effects to the release of land now being proposed for residential purposes.

Given the commitments to review the BNDDP and the changes proposed are supported by the Local Commercial Strategy, on this occasion, it is considered the Scheme Amendment can progress in advance of the amendment to the BNDDP.

The proposed BNDDP review would include revised maps consistent with LCS17 and reiterate how the Shire's commercial strategy (i.e. LCS17) will be achieved within Broome North.

Importantly, it will show commercial opportunities and key community infrastructure such as schools and parks (key concerns raised through submissions) are planned for within Broome North, including the developer's intent for the subject site.

Given the concerns raised through submissions, consideration of 'proper and orderly' planning is relevant (i.e. whether the BNDDP review is to be completed prior to adopting the proposed Scheme Amendment). This is not recommended for the following reasons:

1. It would be inconsistent with Council's decision to initiate the Scheme Amendment prior to the BNDDP being reviewed.
2. Any revised BNDDP should reflect the established Local Planning Framework including the Shire's commercial vision and spatial layout for Broome North which is detailed through LCS17 previously adopted by Council.
3. The BNDDP is unlikely to support an alternative outcome to that proposed by the Scheme Amendment.
4. Council is required to consider the scheme amendment within 60 days of the of the submission period closing.

Broome North Local Development Plan No1 (LDP1)

LDP1 provided for the more detailed structure planning of the current Broome North footprint within the broader Broome North precinct of the BNDDP.

Whilst LDP1 assists in providing context to the planning consideration and processes leading to the current zoning of the subject site, it is not considered to be a relevant consideration for the proposed Scheme Amendment, given the land is now zoned in LPS6.

Residential Coding in terms of State Planning Policy 7.3 - Residential Design Codes (RDC)

In addition to proposing the entire site be zoned for 'Residential' purposes, it is also proposed to apply a R20 coding to the entire site.

This section will consider the appropriateness of the density.

R20 coding is a low-density coding whereas the existing R30/40 and R40 coding applying to the existing 'Residential' zoned parts of the site are medium density codings.

R20 coding requires a minimum site area of 350m², while R30 and R40 require minimum site areas of 260m² and 180m² respectively.

The LPS provides direction regarding the provision of housing density and in this regard the following are relevant:

The Residential designation provides for a variety of dwelling densities across the Scheme Area, based on the Housing Strategy. It reflects densities to accommodate the population structure and growth and to reflect the character of the various Precincts. Planning for future residential areas is predominantly based on a gross density of around 10 lots per hectare, which provides for a net density of around R20.

Support and provide medium density in areas that are near to community services or facilities including local centres and recreation areas.

Given the previously proposed 'Local Centre' is no longer considered appropriate, one of the key considerations supporting the land being developed to medium density will have been lost.

Therefore, if the rezoning to 'Residential' is supported, the lower density R20 coding would be more appropriate given the neighbourhood context and characteristics of the site.

'Child Care Centre' as an Additional Use under Schedule 2 of LPS6 for the subject site

'Child Care Centre' is a "P" permitted use under the existing Local Centre zone and a level of community expectation exists that such a facility would be provided in this general location.

However, under the proposed Residential zoning, Child Care Centre is identified as an "A" (discretionary) land use requiring advertising prior to an approval being granted.

DevelopmentWA continues to liaise with the Child Care sector and is seeking to provide greater certainty for the development of a new Child Care Centre.

In this regard, the applicant has now identified an area of 2600m² on the Shingoro Street frontage of the site between Tanami Drive and Yakoo Mall for the additional use.

This would have the affect of 'Child Care Centre' being a "P" (permitted) use in the identified location.

Relocation of community garden

The subject site currently contains a community garden and book exchange.

These facilities are located partially on land zoned 'Local Centre' and partially on land reserved for 'Parks, Recreation and Drainage'.

The portion of the land currently reserved for 'Parks, Recreation and Drainage' is approximately 375m².

The Scheme Amendment seeks to zone the land currently reserved for 'Parks, Recreation and Drainage' to 'Residential'.

If supported, DevelopmentWA have advised the community garden and book exchange would be relocated to another appropriate location accessible to community members.

Whilst no alternative locations have been provided, the proponent has advised that relocation would be to a reserve either already vested to the Shire or intended to be vested to the Shire as Public Open Space via a future subdivision.

Given the footprint needed for the community garden and book exchange, incorporating these into existing or future Public Open Space is considered appropriate.

State Planning Policy

The following State Planning Policies are applicable to this Scheme Amendment:

SPP 3.0 – Urban Growth and Settlement (SPP 3.0)

SPP 3.7 – Planning in Bushfire Prone Areas (SPP 3.7)

State Planning Policy 3.0 sets out the principles and considerations which apply to planning for urban growth and settlement in Western Australia.

Core principles and objectives of SPP 3.0 include the efficient use of existing and serviced land to support regional population growth in advance of new development.

The proposed amendment will enable new residential development where existing infrastructure is already in place to service the development and a high level of amenity can be offered to future residents given the existing recreational infrastructure near the site.

The subdivision and development of the site for residential purposes can occur in advance of new greenfield expansion in Broome North which will see the provision of additional Public Open Space and other infrastructure to meet Liveable Neighbourhood design principles.

The subject site is partly within the bushfire prone area.

SPP 3.7 requires a Scheme Amendment be accompanied by a Bushfire Hazard Level (BHL) assessment or Bushfire Management plan to determine the applicable bushfire hazard level and bushfire risk across the subject land.

The Scheme Amendment Report contains a Bushfire Attack Level (BAL) assessment and response (refer to **Appendix 3**). The report specifies a Bushfire Attack Level (**BAL**) range of BAL-LOW to BAL-19 applies.

The report was referred to and supported by the Department of Fire and Emergency Services (**DFES**) subject to a minor modification. No further bushfire management measures are required for the proposed Scheme Amendment.

Matters raised in submissions

Many of the matters raised in submissions have been responded to throughout the report above and at **Attachment 3** - Schedule of submissions).

Additionally, the proponent was also provided with a copy of the submissions and provided a response which can be found at **Attachment 4** – Applicant's response to submissions.

Matters raised are summarised as follows:

1. Residents would like to see the land developed as a 'Local Centre';
2. Concerns residential development will include social housing and result in increased anti social activity;
3. Lack of community infrastructure for existing population including for older children;

4. Traffic Concerns relating to development of the site; and
5. Lack of capacity within Broome North Primary School.

Several submissions highlight community expectations had been established when properties were first purchased including the subject site would be developed as a 'Local Centre'.

However, the proponent has stated efforts to establish a Local Centre have failed in part due to locational and commercial viability issues.

This position is consistent with the Shire's LCS17 and further emphasised by the failed experience of the Roebuck Estate 'Local Centre', which is now owned and used by a local church.

Importantly, LCS17 went through a public consultation process prior to being adopted.

LCS17 recommended the commercial areas for Broome North be relocated, which is intended to be implemented through a revised BNDDP, and this proposed Scheme Amendment.

This will facilitate opportunities for Local and District shopping needs within the Broome North precinct in the future.

Whilst concerns have been raised regarding increased social housing and anti-social activity, the reality is equivalent levels of housing and population will be supported by the proposed changes as previously provided for.

This is due to the R Coding changes incorporated into the amendment which will ultimately see an equivalent dwelling yield for the land at a lower density than previously proposed.

The Shire is aware that increased instances of anti-social activity have been experienced in areas of concentrated social housing. The Shire has been actively advocating to relevant decision makers on the provision of social housing in Broome including the appropriate design and distribution of social housing with the objectives of reducing levels of anti-social activity and increasing the living standards of social housing residents.

Many of the submissions raised concerns about the lack of community infrastructure.

In most instances a local commercial precinct and community centre were referenced together suggesting many people consider them to be linked and the commercial infrastructure to be the infrastructure most lacking.

However, there were also some specific examples such as the lack of facilities for older children, community noticeboard or a multi use community building raised.

When providing community facilities and services, the demand for, and accessibility of, facilities to users is considered.

In this regard, Broome North currently lacks the service population needed to provide many of the facilities and services within the footprint of the Broome North community.

The repositioning of commercial precincts within the BNDDP will maximise catchment areas and provide the best opportunity for commercial and community services to be feasible and sustainable long term for the betterment of the broader Broome North community.

Unfortunately, this may result in some facilities not being as closely accessible to submitters than if they were located on the subject site.

The issue of traffic safety was raised in the petition and within another submission.

The proposed rezoning would reduce the number of vehicle movements experienced at the site and within the surrounds once the land is developed.

This is due to similar residential yields being achieved by both the existing and proposed zonings and the removal of the 'Local Centre', which would be a significant traffic generator, in the proposed zoning under the Scheme Amendment.

Concerns were also raised regarding the capacity of Broome North Primary School and the impact additional residential land would have.

As previously mentioned, the dwelling yield will be consistent with the current zoning and therefore negligible impacts on enrolments envisaged. This was also the position of the Department of Education who had no objection to the amendment as the proposal would have 'no significant impact' on student enrolment demand at nearby public schools.

Conclusion - Suitability of Proposal

The Scheme Amendment application is generally consistent with the strategic direction and land use objectives under the Shire's Local Planning Framework.

The proposal is also deemed to be consistent with the State Planning Strategy.

Whilst the concerns of the community are noted, the proposal is of sound planning merit.

Accordingly, it is recommended Council support the amendment and forward a copy of the Council's resolution to Western Australian Planning Commission for determination.

CONSULTATION

The Scheme Amendment was publicly notified for 63 days being in excess of the 42-day minimum period.

9 submissions (including 1 joint submission) and 1 petition were received through the public consultation process.

Of these submissions, 7 opposed the Scheme Amendment and 2 had no objection.

The petition opposes the Scheme Amendment.

STATUTORY ENVIRONMENT

Planning & Development Act 2005 (P&D Act)

The P&D Act is the primary State legislative planning instrument and makes provision for the making of Regulations.

The Act makes provision for Scheme Amendments:

75. *Amending scheme*

A local government may amend a local planning scheme with reference to any land within its district, or with reference to land within its district and other land within any adjacent district, by an amendment —

- (a) prepared by the local government, approved by the Minister and published in the Gazette; or*
- (b) proposed by all or any of the owners of any land in the scheme area, adopted, with or without modifications, by the local government, approved by the Minister and published in the Gazette.*

Division 2 of the Act provides the Minister for Planning powers in relation to local planning schemes:

76. Minister may order local government to prepare or adopt scheme or amendment

(1) If the Minister is satisfied on any representation a local government —

- (a) has failed to take the requisite steps for having a satisfactory local planning scheme or an amendment to a local planning scheme prepared and approved in a case where a local planning scheme or an amendment to a local planning scheme ought to be made; or
- (b) has failed to adopt a local planning scheme or an amendment to a local planning scheme proposed by owners of any land, in a case where a local planning scheme or an amendment to a local planning scheme ought to be adopted; or
- (c) has refused to consent to any modifications or conditions imposed by the Minister,

the Minister may order the local government, within such time as is specified in the order, to prepare and submit for the approval of the Minister a local planning scheme, or an amendment to a local planning scheme or to adopt a local planning scheme, or an amendment to a local planning scheme or to consent to the modifications or conditions imposed.

- (2) If the representation under subsection (1) is a local government has failed to adopt a local planning scheme or an amendment to a local planning scheme, the Minister, in lieu of making an order to adopt the scheme or amendment, may approve of the proposed scheme or amendment subject to such modifications and conditions, if any, as the Minister thinks fit.

173. Injurious affection, compensation for

- (1) Subject to this Part any person whose land is injuriously affected by the making or amendment of a planning scheme is entitled to obtain compensation in respect of the injurious affection from the responsible authority.
- (2) Despite subsection (1) a person is not entitled to obtain compensation under this section on account of any building erected, or any contract made, or other thing done with respect to land included in a planning scheme after the date of the approval of a planning scheme or amendment, or after such other date as the Minister may fix for the purpose, being not earlier than the date of the approval of the scheme or amendment.
- (3) A responsible authority may make agreements with owners for the development of their land during the time that the planning scheme or amendment is being prepared.

174. When land is injuriously affected

- (1) Subject to subsection (2), land is injuriously affected by reason of the making or amendment of a planning scheme if, and only if —
- (a) that land is reserved (whether before or after the coming into operation of this section) under the planning scheme for a public purpose; or
- (b) the scheme permits development on that land for no purpose other than a public purpose; or
- (c) the scheme prohibits wholly or partially —
 - (i) the continuance of any non-conforming use of that land; or
 - (ii) the erection, alteration or extension on the land of any building in connection with or in furtherance of, any non-conforming use of the land, which, but for that prohibition, would not have been an unlawful erection, alteration or extension under the laws of the State or the local laws of the local government within whose district the land is situated.

Local Government Act 1995

Section 9.49A of the Act specifies the requirements for the valid execution of documents on behalf of a local government including affixing the common seal.

Planning and Development (Local Planning Schemes) Regulations 2015

Division 3 of the Regulations prescribes the process to be followed for Standard Amendments to Local Planning Schemes (Regulations 47 – 56).

POLICY IMPLICATIONS

Local Planning Policy 5.14 Public Consultation – Planning Matters (LPP 5.14)

The amendment was advertised in accordance with LPP 5.14

FINANCIAL IMPLICATIONS

The Scheme Amendment attracted regulated fees prescribed in Council's adopted Fees and Charges as well as budgeted staff time.

Should Council not support the proposed Scheme Amendment, consideration should be given to reviewing the Local Commercial Strategy.

RISK

Reputation

There is risk of reputational damage due to the multi-faceted role of Council.

In this instance, Council has a regulatory function in the administration and assessment of the Scheme Amendment as guided by relevant legislation, strategy and policy.

Council's regulatory role in determining town planning applications can at times be seen to conflict with views and concerns of individual residents.

In this instance, while the concerns of submitters are noted, the Scheme Amendment and the submissions need to be considered in the context of the Local Planning Framework, which is an adopted framework, developed with significant community engagement and input and informed by several planning strategies.

Departures from the adopted planning framework, should be exercised with caution as these documents provide the basis for all planning decisions.

To undermine the value of the Local Planning Framework by approving departures, in the absence of sound planning rationale, is not considered good practice.

Such decisions can impact upon developer investment decisions and can create uncertainty in the community in relation to Council's position on its adopted strategies.

Some submitters opposing the Scheme Amendment have incorrectly assumed, or implied, the Shire of Broome is responsible for development of the subject land.

Financial

One submitter has reserved their right to seek compensation on a presumption that the proposed rezoning, if approved, will adversely impact on their property value.

There is a long-established precedent that property values are not a valid planning consideration. S173 and S174 of the Planning and Development Act makes provision for compensation for injurious affection as a result of a scheme amendment, however these provisions are related to land being rezoned or reserved. As the submitter's property is not being rezoned or reserved, the avenue for successfully seeking compensation from the Shire is unknown.

Ministerial Powers

Should Council not support the Scheme Amendment, the Minister may direct Council to do so or approve the proposed scheme amendment subject to such modifications and conditions as the Minister thinks fit.

STRATEGIC IMPLICATIONS

People – We will continue to enjoy Broome-time, our special way of life. It's laid-back but bursting with energy, inclusive, safe and healthy, for everyone:

Affordable services and initiatives to satisfy community need

Accessible and safe community spaces

A healthy and safe environment

Place – We will grow and develop responsibly, caring for our natural, cultural and built heritage, for everyone.:

Realistic and sustainable land use strategies for the Shire within state and national frameworks and in consultation with the community

A built environment that reflects tropical climate design principles

Core asset management to optimise the Shire's infrastructure whilst minimising life cycle costs.

Prosperity – Together, we will build a strong, diversified and growing economy with work opportunities for everyone:

Affordable and equitable services and infrastructure

Affordable land for residential, industrial, commercial and community use

Key economic development strategies for the Shire which are aligned to regional outcomes working through recognised planning and development groups/committees

Performance - We will deliver excellent governance, service and value, for everyone:

Sustainable and integrated strategic and operational plans

Effective community engagement

VOTING REQUIREMENTS

Simple Majority

COUNCIL RESOLUTION

(REPORT RECOMMENDATION)

Minute No. C/0221/004

Moved: Cr N Wevers

Seconded: Cr E Foy

That Council:

1. **Considers all the submissions received through the public advertising submission period for proposed Amendment No.12 to the Shire's Local Planning Scheme No.6 as shown in Attachment 3 in accordance with regulation 50 of the Planning and Development (Local Planning Schemes) Regulations 2015.**
2. **Pursuant to regulation 50 (3) (a) of the Planning and Development (Local Planning Schemes) Regulations 2015 resolves to support Amendment No 12 to Local Planning Scheme No 6, without modification by:**
 - (a) rezoning part lot 9007 on Deposited Plan 74189 in Bilingurr from Residential R30/40; Residential R40; Local Road Reserve and Town Centre to Residential R20, including an Additional Use for 'Child Care Centre';**
 - (b) amending the Scheme Map accordingly.**

for the following reasons:

 - a. The amendment is consistent with the Local Planning Framework including the Local Planning Strategy and Local Commercial Strategy; and**
 - b. The proposed additional use is consistent with the purpose and objectives for the Residential zone;**
3. **Authorise the Chief Executive Officer and Shire President to execute three (3) copies of Standard Amendment No. 12 documentation.**
4. **In accordance with Regulation 53 (1) of the Planning and Development (Local Planning Schemes) Regulations 2015, provides the Western Australian Planning Commission with:**

a) the schedule of submissions including the response of the local government in respect of each submission as shown in Attachment 3; and

b) a copy of the Council resolution.

5. Forwards the amendment documentation to the Western Australian Planning Commission and the Minister for Planning in accordance with regulation 44 (1) of the Planning and Development (Local Planning Schemes) Regulations 2015.

6. Advise the Scheme Amendment applicant and submitters of Council's decision.

CARRIED 5/4

The Chairperson used their casting vote in the affirmative.

1 INTRODUCTION

RFF act on behalf of DevelopmentWA in relation to this request to initiate an amendment to the Shire of Broome Local Planning Scheme No. 6 to rezone part lot 9007 on Deposited Plan 74189 in Bilingurr from R30/40; R40; and Road Reserve and Town Centre to R20 and include additional use provisions which ensure a child care centre is a permissible use over a sufficient area to support development.

DevelopmentWA is rolling out the Regional Land Booster Scheme. Alongside state and federal government stimulus, DevelopmentWA has experienced heightened demand for vacant residential land when compared to previous years leading to a surge in sales. In response to this, DevelopmentWA is looking to rapidly bring new lots to market utilising underutilised land in the Waranyjarri Estate to ensure adequate supply now and into the future. The proposed rezoning to residential of the Broome North Local Commercial Centre site is the most practical and orderly method to enable this outcome, firming up land availability into the future in a high amenity infill project; as opposed to new greenfield development.

The proposed Scheme Amendment also forms part of a broader body of work underway by DevelopmentWA to amend District and Local Structure Plans to align with the Shire's adopted Local Commercial Strategy. A commitment to progressing these interlinked amendments has been provided by Stuart Nahajski, Regional Manager for DevelopmentWA.

In light of the above demand shift and commitment to coordinated reform regarding commercial land in Broome, DevelopmentWA is seeking the Shire of Broome's assistance to facilitate changes to the Statutory Planning Framework in a timely manner to meet targets set, requiring construction of new lots to commence in 2021.

This report describes the site details and provides justification to support the rezoning of the land as proposed.

2 LAND DETAILS

2.1 LOCATION

Part Lot 9007 on Deposited Plan 74189 (the subject site) is bound by Magabala Road, Sariago Terrace, Shingoro Street and Yako Mall in the locality of Billingurr within the Shire of Broome and Western Australia's broader Kimberley region. It is centrally located within Development WA's Stage 1 of Waranyjarri Estate, north of Gubinge Road and is approximately 4.5km from Broome iconic Chinatown.

A location plan is provided as Figure 1.

2.2 LAND TENURE

The subject site forms part Lot 9007 on Deposited Plan 74189 which is owned by Western Australia Land Authority.

Several easements traverse the subject site which are detailed Table 1. A copy of the Certificate of Title and Deposited Plan showing ownership and easements is included in Appendix 1.

Table 1 Encumbrances

Purpose	Statutory Reference	Benefit to
Easement (Electricity Supply)	SEC 167 of the P & D Act REG 33C	Regional Power Corporation
Easement (Sewage and Water Supply)	SEC 167 of the P & D Act REG 33B	Water Corporation
Easement (Electricity Supply)	SEC 167 of the P & D Act REG 33C	Regional Power Corporation

2.3 SITE DESCRIPTION

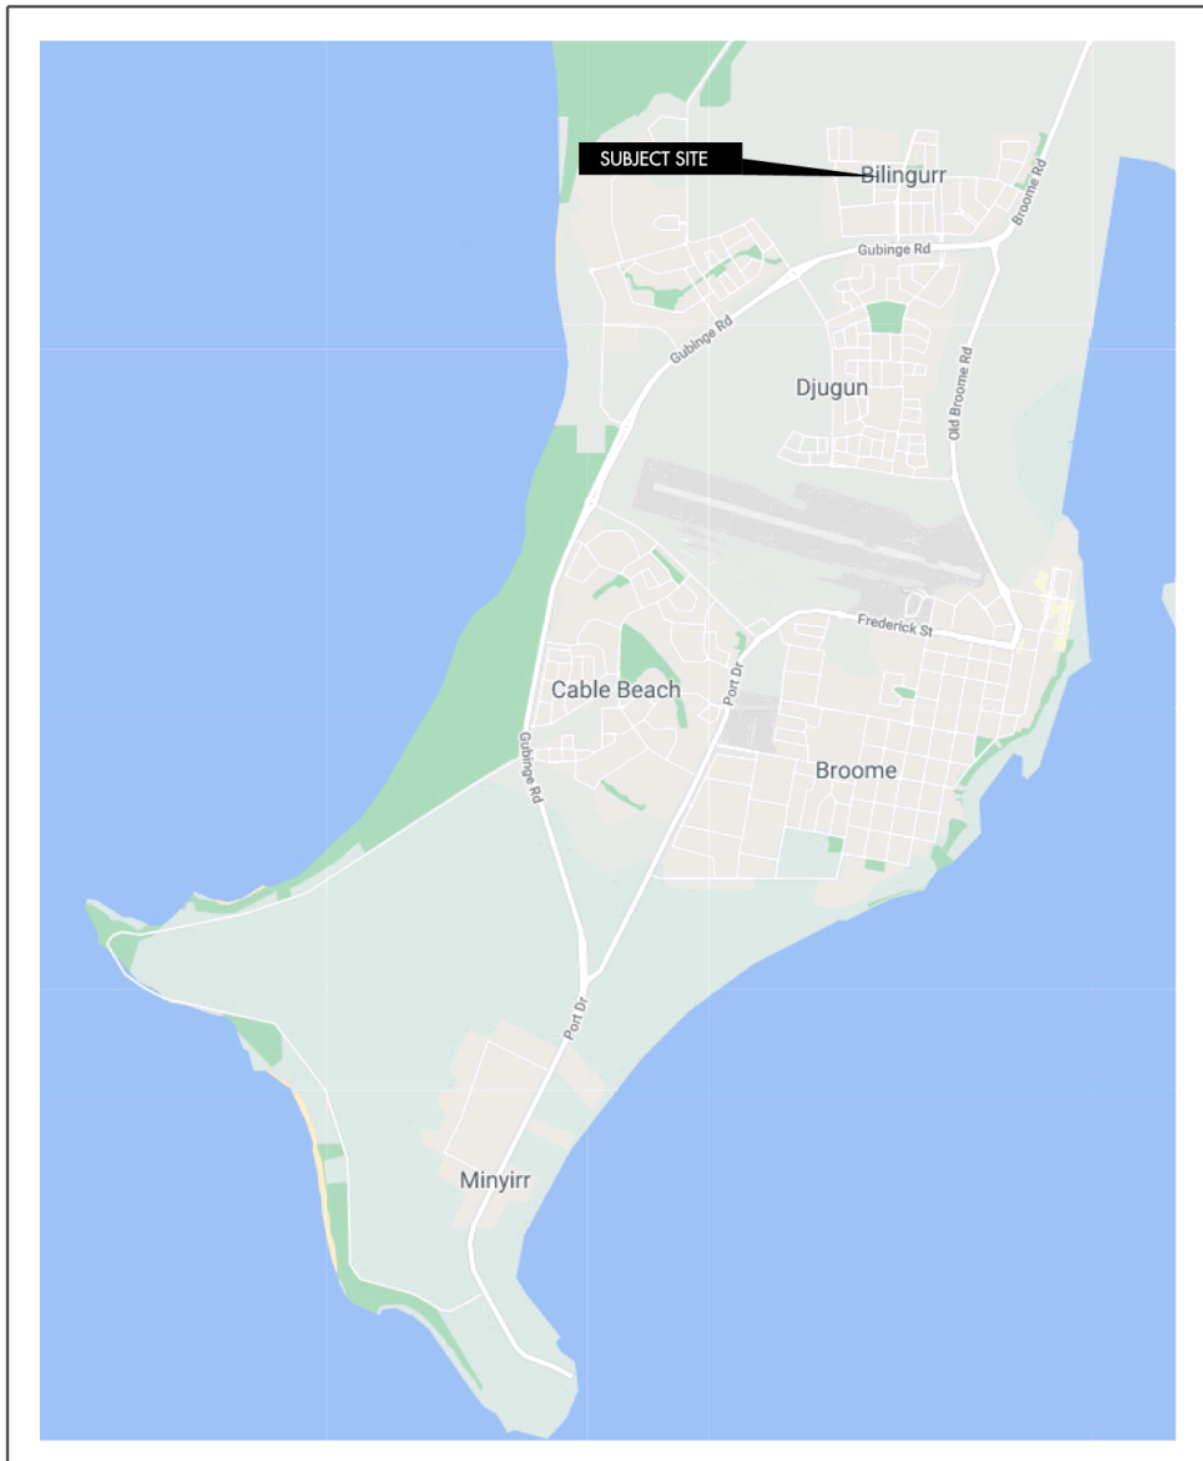

The subject site is 3.07ha in area of part lot 9007 which totals 40.0079ha. The subject site is vacant undeveloped land which is flat. Some vegetation and trees have been retained on-site where they were/are expected to align with future public roads created as part of a future subdivision.

Whilst a preliminary road network contemplated creation of a connection between Tanami Road and development of two laneways referred to as Kaino Lane and Barba Lane, none of these roads have been gazetted.

A small community garden shed used for a community bookshare and shaded slab is located on the eastern side of the subject site immediately north of the roundabout at the junction of Magabala and Tanami Roads. DevelopmentWA is liaising directly with the Shire with regards to the options available for the relocation of the Community Garden.

Various service connections to the subject site already exist in line with planned previous subdivision to create a local commercial centre and adjoining higher

density development. Underground power connections aligned with the anticipated road network also exist and may require removal in association with any future subdivision/ development. As constructed drawings of services are included in Appendix 2.

The surrounding road frontages to the subject site incorporates:

- footpaths to all sides of the property frontage;
- on-street carparking within the Yako Mall, Shingoro Road and Sarioago Terrace; and
- pre-constructed crossovers into the anticipated lane (Barba Lane and Kaino Laine).

Any modifications to existing utilities and the verge arrangements surrounding the site can be resolved through the subdivision and development process.

An aerial photo of the site is provided as Figure 2.

2.4 SURROUNDING CONTEXT

The site is located centrally within stage 1 of DevelopmentWA's Broome North Project at the intersections of the primary integrator and connector roads. It is also adjacent to:

- Broome North Primary School;
- Two local neighbourhood parks at Tanami Drive and Sarioago Tce; and
- A Multiple Use Corridor incorporating passive public open space through retained bushland to the north at the intersection of Sarioago Terrace and Magabala Road.

Blue Haze industrial area is 300m east of the site offering employment opportunities. The estate also includes a local Caltex Starmart Fuel and convenience store located at the intersection of Mavis and Flowerdale roads.

The subject site is therefore well serviced by existing education, recreation, retail and employment opportunities.

The surrounding residential estate includes predominantly low density single residential land with lots of 500 – 800m². Some higher density grouped, and multiple dwelling developments are dispersed between the predominantly lower density single residential housing. Residential density and diversity targets have already been achieved within the broader Broome North area facilitated through changes to R-Codes which enabled much higher dwelling yields than previously anticipated on medium density development sites.

2.5 EXISTING TOWN PLANNING FRAMEWORK

2.5.1 Shire of Broome Local Planning Scheme No. 6 (LPS6)

The subject site incorporates several zones and reserves designated within the Shire of Broome LPS6, shown in Figure 2. This includes:

- Residential zoned land with a split density coding of R30/40 and single density coding of R20;
- Local Centre zone;
- Parks and Recreation Reserve; and
- Road Reserve.

The provisions relating to split densities no longer form part of LPS6. A zoning map is provided as Figure 3.

2.5.2 Broome North Local Centre – Local Development Plan

The Shire adopted the Broome North Local Centre Local Development Plan (Rev C) in January 2015. The objectives of this Local Development Plan are as follows:

- o *Provides for an appropriate mix of convenience retailing, health, welfare and community facilities serving the needs of the neighbourhood;*
- o *Creates a safe and vibrant centre accessible by a diverse range of users;*
- o *Contributes to the delivery of a high-quality public realm providing shade and comfort for users and enabling use of the centre at all times of the day and in all seasons; and*
- o *Incorporates 'Broome-style' architectural principles whilst allowing for modern interpretation of its characteristic elements.*

3 PROPOSED AMENDMENT

3.1 SCHEME AMENDMENT PROPOSAL

It is proposed to rezone the subject site, excluding the Tanami Drive Public Road Reservation running east-west, to 'Residential' with an applicable density coding of R20. In addition, it is proposed to impose an additional use provision for a 'Child Care Centre' over 2,600m² as permitted use within the area south of the Tanami Drive Road Reserve shown in LPS6.

The purpose of this proposed amendment is as follows:

- Re-purpose land located in a high amenity location for an alternative use as residential given the redundancy (and failed market interest) in development of a new local commercial centre;
- Bring new residential lots to market which are consistent with the prevailing lot typology in the Waranyjarri Estate and market demand, being low density single residential dwellings;
- Allocate sufficient land to enable development of a new child care centre given the ideal location due to its proximity to the existing primary school;
- Retain and protect the requirement to construct the missing link of Tanami drive centrally through the site.

To achieve construction in accordance with the desired development program, it is imperative the scheme amendment be initiated as soon as possible.

3.2 SUBDIVISION CONCEPT

A preliminary subdivision plan has been prepared which indicates the potential arrangement to be created through future subdivision and development. It is intended to finalise the proposed arrangement in consultation with the Shire of Broome in parallel with this proposed amendment. Such details include:

- whether the provision of open space and drainage reserve is necessary based on the alternative development outcome and the approved Local Development Plan accommodating greater than 10% open space;
- the size and location of the child care centre site which requires input from the industry via direct market engagement, but anticipated to be require no more than 2,600m²;
- direct access to Magabala Road for single residential lots; and
- the final road arrangement for Tanami Drive and any modifications to the as-built road network necessary to enable subdivision.

The anticipated low-density subdivision could bring up to 40 lots to market consistent with the residential lot typologies in the Broome North Structure Plan,

noting limited opportunities to achieve an east-west lot orientation due to the existing built road network.

3.3 TANAMI DRIVE ROAD CARRIAGEWAY ARRANGEMENT

GHD have been engaged by DevelopmentWA to assist on all three Broome North projects underway. A Broome Traffic Study 2016 by Jacobs the forecast traffic volumes to 2051 on the section of Tanami Drive west of Magabala Road for various scenarios will not exceed 234vph in one direction and 351vph in both directions. Based on peak hour factors in the report this would represent approximately 4,400vpd. The proposed changes created through this amendment will generate lower traffic volumes.

Tanami Drive is designated as a local distributor road under Main Roads WA classification and an Integrator Arterial B in the Broome Traffic Study and provides ultimate connectivity between Broome Road and Sanctuary Road/Cable Beach Road West (both local distributors). Broader traffic volumes previously forecast on Tanami Drive to the east and west are significantly higher than volumes projected for this short section of Tanami Drive across all scenarios. Given that the Commercial Centre will be relocated to the southwest off Fairway Drive traffic patterns will change, however Tanami Drive will still ultimately form an important east-west route.

Based on previous modelling, the need for duplication of Tanami Drive west of Magabala Road would seem unlikely as Gubinge Road and Fairway Drive will instead be used to access the planned alternative location of the future District Centre.

On this basis, GHD has recommended the following cross section as a Neighbourhood Connector to future proof ultimate volumes based on Liveable Neighbourhoods (WAPC 2015), noting that provision of on-street bays will be limited due to requirements for crossovers to residential lots on both sides of the street.

4 TOWN PLANNING CONSIDERATIONS – JUSTIFICATION

4.1 STRATEGIC PLANNING

4.1.1 State Planning Strategy 2050

The State Planning Strategy 2050 (SPS 2050) was adopted in 2014 by the Western Australian Planning Commission (WAPC). The State Planning Strategy provides the strategic context for planning and development decisions throughout the State.

The Strategy includes key elements regarding land supply which are relevant to the proposed amendment and included in Table 8 of the SPS 2050. Such elements include:

- *Well-serviced regional towns that have a built-in capacity to cater for forecast growth and future expansion*
- *Effective land supply monitoring and modelling tools guide infrastructure and servicing agencies*
- *Affordable and well-located land that is accessible and well-serviced, especially to align with affordable housing demands*
- *Government leads by example in the delivery of affordable land.*

The proposed amendment is focused on enabling DevelopmentWA, the State's primary development agency to ensure an adequate pipeline of readily accessible, affordable, and well-located residential land can be brought to market in Broome, a well serviced regional town. Therefore, the proposed amendment is consistent with the aspirations of SPS50.

4.1.2 Kimberley Regional Planning and Infrastructure Framework 2015

The Kimberley Regional Planning and Infrastructure Framework (KRPIF) was adopted by the Department of Planning to provide strategic direction for the future development of the Kimberley region over the next 25 years. It seeks to ensure that development and change in the Kimberley is achieved in a way that improves people's lives and enhances the character and environment of the region.

Key Planning initiatives with respect to settlement in the KPRIF as detailed and consistency of this proposed amendment area outlined in the table below.

#	Planning Initiative	Amendment Consistency
4b	<p><i>Identify future land requirements for residential, commercial and industrial purposes in local planning strategies and schemes by:</i></p> <ul style="list-style-type: none"> <i>- determining future demand and timing scenarios;</i> <i>- identifying opportunities for private sector involvement in urban and development;</i> <i>- identifying infrastructure requirements; and</i> <i>- identify future land requirements for public utilities</i> 	<p>The land is no longer required for commercial purposes and alternative land has been identified and is being zoned through an amendment to the District Structure Plan and Broome North Local Development Plan No. 3.</p> <p>Alternate use of service and development land will improve the short-medium term supply of residential land in Broome North where the bulk of longer-term demand for housing is to be accommodated.</p>
4c	<p><i>Facilitate the release of additional residential, commercial and industrial land in areas that have been identified for future development by:</i></p> <ul style="list-style-type: none"> <i>- timely resolution of land tenure issues;</i> <i>- identifying and addressing development constraints and formulating strategies to address these;</i> <i>- inundation as a result of climate change;</i> <i>- providing adequate and appropriately zoned land; and</i> <i>- ensuring utility, community and transport infrastructure capacity is sufficient.</i> 	<p>The rezoning of this land to residential is a logical measure given Shires adopted Local Commercial strategy clearly indicates the land is not suitable for a local centre purpose in the short, medium or long-term.</p> <p>All other key development challenges are addressed and the rezoning of the land will ensure it's capable of timely release to the market given increased demand for residential land resulting from the State's Regional Land Booster Scheme.</p>

4.1.3 Shire of Broome Local Planning Strategy

The Shire of Broome Local Planning Strategy (BLPS) was adopted by the Shire of Broome and endorsed by the Western Australian Planning Commission in August 2014. The Shire has commenced a review of the Strategy in parallel with LPS6. The Report of Review was adopted by the Shire of Broome in February 2020 and subsequently by the WAPC in April 2020.

The review of the BLPS recommended changes to enable alignment with several other informing planning documents including adopted Local Commercial Strategy.

This proposed amendment, in parallel with other committed town planning changes occurring within the Shire's Statutory and Strategic Framework are enabling measures to achieve alignment with the Shire's adopted Local Commercial Strategy. Details of its alignment with the adopted Local Commercial Strategy are outlined below in section 4.1.4.

4.1.4 Broome Commercial Strategy

The Shire of Broome adopted its Local Commercial Strategy in 2017. The purpose of the strategy was to review exiting and long-term demand for commercial space and make recommendations on the strategic distribution of commercial space in Broome.

The Local Commercial Strategy identified that amendments to the scale and location of commercial space in Broome North was necessary to align with current and longer-term demands. It recommended the following:

1. Allocation of land to support development of a District Centre by 2031 located centrally to the neighbourhoods of Broome North, Cable Beach, Roebuck and Roebuck West; at the intersection of major roads which accommodates:
 - o 1 full-line supermarket (2,500m² – 4,500m²)
 - o other food, grocery + liquor
 - o food catering
 - o apparel, homewares + leisure
 - o retail services
 - o local professional and service businesses
2. Allocation of land to support development of a Local Centre by 2051 in the most northern part of Broome north (i.e. with frontage to Fairway Drive) capable of accommodating:
 - o 1 full-line supermarket (2,500m² – 4,500m²) (expansion of 2031 half-line supermarket)
 - o other food, grocery + liquor
 - o food catering
 - o local professional and service businesses.

Whilst specific locations for these centres were recommended to be determined through future planning and design and enabled through an amendment to the

Proposed Scheme Amendment Waranyjarri Estate Local Centre | Page 12

Broome North District Structure Plan, it did note the inappropriate size and location for a local centre in Broome North (i.e. the subject site) outlining:

The land currently set aside for the Broome North (South) local centre is considered insufficient for accommodating a district centre and may be too close to the future district centre to be sustainable.

It is on this basis an alternative logical use for the existing nominated centre should be found; in this case residential consistent with the existing density throughout the Waranyjarri Estate.

Broader changes to the land use framework are required to properly implement the recommendations of the Local Commercial Strategy. Whilst it is appreciated the Shire must maintain a sufficient allocation of land to meet longer-term demand, Development WA has committed to the progressing the required amendments to both the District Structure Plan and Broome North Local Development Plan No. 3 in parallel with this amendment request. These processes progressing in parallel will ensure there is adequate commercial space to meet longer-term demand in the appropriate location.

4.2 STATUTORY PLANNING

4.2.1 Shire of Broome Local Planning Scheme No. 6 (LPS6)

4.2.1.1 Scheme Aims

LPS6 provides a list of aims of the Scheme. Aims that are relevant to the proposed amendment are listed below and justification follows on how the proposed amendment is consistent with each 'aim'.

1.6.1 Place –

(b) Promoting environmentally sustainable land use and development.

The amendment will facilitate the sustainable use of land within the Shire of Broome in advance of new greenfield development.

(f) Safeguarding and enhancing the character and amenity of the built environment and urban spaces of the Scheme area.

Development of a centrally located land parcel within Waranyjarri Estate will improve amenity for existing residents. New residential development enabled by the amendment and future subdivision will also offer future residents a high level of amenity given the existing urban space and built environment of the estate.

1.6.2 People –

(a) Supporting a diverse range of housing choice for a varied residential population, to establish and maintain community identity and high levels of amenity.

Proposed Scheme Amendment Waranyjarri Estate Local Centre | Page 13

Rezoning to residential R2O will create additional lots to cater for the prevailing demand of housing typology within Broome. Density diversity targets for the Waranyjarri Estate will not be compromised as previous medium and high-density development have achieved desired housing diversity objectives.

1.6.3 Prosperity –

(a) Providing for convenient, lively, accessible and attractive local activity centres.

The subject site has been shown to be an inappropriate location to achieve this aim, both through its lack of development and also the finding of the adopted Local Commercial Strategy. Rezoning the land for an alternative use and identifying more suitable locations for district and local commercial centres is underway through coordinated planning approach by DevelopmentWA which will ensure this aim is achieved.

1.6.4 Infrastructure –

(a) Ensuring timely and sufficient supply of serviced and suitable land for housing, employment, economic activities, community facilities, recreation and open space.

Facilitating timely changes to rezone the land to residential will ensure adequate short-term supply of housing in response to heightened demand experienced in Broome following the State and National COVID recovery plans being implemented.

(b) Providing for the air, land and water transportation needs by providing, where practical, an integrated transport system that includes public transport, cycling and walking.

Initial consideration has been given to the potential changes to the road network to manage the impacts of the amendment. The impacts will see a reduction in traffic in the immediate vicinity of the site and along Tanami Drive with the altered road network arrangement contemplated earlier in section 3.3.

1.6.5 Sustainability –

(a) Providing for the sustainable use and development of land

Rezoning to enable a suitable use ensures sustainable use of land and services.

(b) Providing opportunities for planned, contained and sustainable settlements in locations with access to services and infrastructure.

The rezoning enables sustainable settlement of the Broome North area by using land which is readily accessible to services and infrastructure.

1.6.6 Organisation/Governance –

Proposed Scheme Amendment Waranyjarri Estate Local Centre | Page 14

(a) Assisting the effective implementation of regional plans and policies endorsed by the local government and the Commission.

A timely progression of this amendment will ensure implementation of the Local Commercial Strategy in response to the COVID recovery planning implemented by the State and Federal Governments.

4.2.1.2 Residential Zone

Clause 3.2.1 of LPS6 describes the purpose of the residential zone as follows;

The purpose of the Residential Zone is to provide for residential development at a range of densities with a variety of housing to meet the needs of different household types through the application of the Residential Design Codes, as varied by the Scheme and any Local Planning Policy adopted under Part 5 of the Residential Design Codes.

The amendment will create residential zoned land capable of enabling low density residential housing which is consistent with the prevailing demand and need of the Broome community.

Clause 3.2.2 outlines the objectives of the Residential Zone which are as follows:

- a. allow development in accordance with the Residential Design Codes;*
- b. provide for climatically responsive housing forms that are consistent with energy efficiency and sustainable design principles set out in design guidelines adopted by the local government; and*
- c. ensure the built form is in accordance with Broome-style architecture as specified in clause 4.12 and with applicable local design guidelines.*

The proposed amendment will enable subdivision of the land, creating lots capable of development in accordance with the R-Codes and in a practical lot arrangement which can achieve sustainable design principles. The proposed amendment is therefore consistent with the objectives of the Residential zone.

4.2.2 State Planning Policy 3 -Urban Growth and Settlement

State Planning Policy 3 (SPP3) sets out the principles and considerations which apply to planning for urban growth and settlement in Western Australia. Core principles and objectives of SPP3 include the efficient use of existing and serviced land to support regional population growth in advance of new development.

The proposed amendment will enable new residential development where existing infrastructure is already in place to service the development and a high level of amenity can be offered to future residents given the existing community and recreational infrastructure in close proximity to the site. The subdivision and development of the site for residential purposes can occur in advance of new greenfield expansion in Broome North which likely will require new major infrastructure upgrades, the provision of additional public open space and other community infrastructure to meet liveable neighbourhood design principles.

Proposed Scheme Amendment Waranyjarri Estate Local Centre | Page 15

In light of this, the rezoning of the site is consistent with SPP3, enabling efficient use of land, located in a well-serviced location to meet future population growth in Broome.

4.2.3 State Planning Policy 3.7 – Bushfire Planning

Bushfire Prone Planning were engaged to evaluate the proposed amendment with respect to Bushfire Regulation and Planning requirements. A BAL Contour Plan and Assessment Against Bushfire Protection Criteria was carried out on the subject site with a range of BAL-LOW to BAL-12.5 and therefore no further bushfire management measures will be required to be incorporated into any future subdivision or development within the proposed amendment area.

The full report is included in Appendix 3.

4.2.4 Broome North Local Centre – Local Development Plan

Rezoning of the land will make the Local Development Plan which applies to the subject site redundant. Once the amendment has been gazetted, revocation of the Local Development Plan can occur pursuant to regulation 58 of the *Planning and Development (Local Planning Schemes) Regulations 2015*.

4.2.5 Planning Bulletin 72/2009 – Child Care Centres

The Western Australian Planning Commission adopted Planning Bulletin 72 in August 2009. The purpose of the Planning Bulletin is to:

- a) differentiate between child care related activities operating in existing residential area, such as family day care that takes place in dwellings, and non-residential child care activities;*
- b) outline a consistent policy approach to planning for child care centres; and*
- c) advise of planning considerations in relation to the location and development of child care centres.*

The bulletin highlights that market forces have a material impact on the location and accessibility of services. The intent of integrating flexibility into the proposed amendment by including the additional use provision and applying it to 2,600m² is to retain some flexibility to support the market in providing a service into the Broome North Area. Retaining 'D' use (i.e. no additional use provision) and/ or limiting the additional use provision to a designated land area would influence market engagement due to lack of certainty and flexibility in the planning framework.

Section 3.3 of the bulletin deals with the location of centres. The provisions of this section are considered below with respect to the proposed amendment. Accordingly, the incorporation of the additional use provision to accommodate a child care centre as 'Permitted' is considered appropriate.

Preferred Location Characteristics	Response
------------------------------------	----------

Proposed Scheme Amendment Waranyjarri Estate Local Centre | Page 16

Distributed strategically to provide the maximum benefit to the community it serves	There are no existing child care centres located in Broome North, or north of Gubinge Road within the sunset park estate. Longer term expansion of Broome North will logically lead to demand for a new, conveniently located service. The nominated location adjoining a primary school is convenient and consistent with the placement of most existing centres in Broome which adjoin or are adjacent to primary schools.
Within easy walking distance or part of appropriate commercial, recreation or community nodes and education facilities	The subject site is well located within walking distance of Broome North Primary School and will be in close proximity to future district commercial centres, notionally nominated for the corner of Gubinge and Fairway Drive in the adopted Local Commercial Strategy.
Located in areas where adjoining uses are compatible with a child care centre (includes considering all permissible uses under the zoning of adjoining properties)	Future adjoining uses to the premises will be residential. As outlined in the bulletin, most centres are located within a residential setting. Future purchasers of adjoining properties will be aware of the potential centre. Existing residents in Broome North would also be aware of the potential development intensive, commercial uses such as a child care centre consistent with the currently adopted Local Development plan for the subject site.
Serviced by public transport (where available)	Magabala and Tanami Drive are nominated in the Broome North LDP1 as future public transport routes.
Considered suitable from a traffic engineering/safety point of view	Previous planning and design of the area allowed for more intensive use.
Of sufficient size and dimension to accommodate the development without affecting the amenity of the area	The proposed amendment provides some flexibility to ensure a lot can be created of a suitable size and dimension to meet market requirements.

5 SUMMARY

This proposed amendment seeks the rezoning of the former local commercial centre in the Waranyjarri Estate to Residential R20, with the additional use provision of a Child Care Centre and retention of the Tanami Drive public Road Reserve. The proposed amendment will enable the efficient use of already serviced and well-located land to meet future population growth in Broome.

Rezoning of the subject site in advance of any higher order Strategic or Statutory alteration will not compromise the longer-term allocation and zoning of commercial land in Broome noting:

- DevelopmentWA's three interlinked projects have all been committed to and are in progress; and
- The site already being recognised as an inappropriate location for a Local Commercial Centre in the Shire's adopted Local Commercial Strategy.

In light of the justification within this report and supporting appendices, we respectfully seek your timely initiation of the proposed amendment.

Disclaimer

The measures contained in this Bushfire Management Plan are considered to be minimum standards and they do not guarantee that a building will not be damaged in a bushfire, persons injured, or fatalities occur either on the subject site or off the site while evacuating. This is substantially due to the unpredictable nature and behaviour of fire and extreme weather conditions. Additionally, the correct implementation of the required bushfire protection measures (and any associated response/evacuation plan if applicable) will depend, among other things, on the actions of the landowners or occupiers over which Bushfire Prone Planning has no control.

All surveys, forecasts, projections and recommendations made in this report associated with the project are made in good faith based on information available to Bushfire Prone Planning at the time.

All maps included herein are indicative in nature and are not to be used for accurate calculations.

Notwithstanding anything contained therein, Bushfire Prone Planning will not, except as the law may require, be liable for any loss or other consequences whether or not due to the negligence of their consultants, their servants or agents – arising out of the services provided by their consultants.

Executive Summary

This BAL Contour Map and assessment against the Bushfire Protection Criteria is produced to assist with planning amendments for a future subdivision application for the Local Centre site in LDP1, to create residential lots.

The proposal can comply with the bushfire protection criteria.

A BAL-29 rating or lower is achievable for future lots and Asset Protection Zones can be achieved and maintained dependent upon compliance with this Report and the Shire of Broome Fire Break & Fuel Hazard Reduction Notice. It is expected that all vegetation within Pt Lot 9007 will be managed and maintained to a low bushfire threat state.

Tanami Drive, Yako Mall, Shingoro Street and Magabala Road provide safe access and egress to two different destinations. As sealed public roads, they will be available to all residents and the public at all times and under all weather conditions. Compliance can be achieved for all other requirements for vehicular access.

A reticulated water supply is available to the subject site and hydrants will be installed in locations as required by the relevant authorities.

1 The Proposal and Purpose of the Plan

1.1 Details

Proponent:	DevelopmentWA
Site Address:	Broome North Stage 1 Local Centre, Bilingurr
Local Government:	Shire of Broome
Site Area:	Approximately 3.8 hectares (Lot 9007).
Planning Stage:	Strategic - local structure plan amendment Subdivision Application
Subdivision Type:	Subdivision - small number of lots
Overview of the Proposal:	
This BAL Contour Map and assessment against the Bushfire Protection Criteria is produced to assist with planning amendments for a future subdivision application for the Local Centre site in LDP1, to create residential lots.	
Bushfire Prone Planning Commissioned to Produce the Plan by:	DevelopmentWA
Purpose of the Plan:	To support a strategic planning assessment and future subdivision application (lot layout unknown).
For Submission to:	The Shire of Broome

2 Potential Bushfire Impact Assessment

2.1 Assessment Input

2.1.1 Fire Danger Index (FDI) Applied

AS 3959-2018 specifies the fire danger index values to apply for different regions as per Table 2.1. The values used in the model calculations are for the Forest Fire Danger Index (FFDI) and for which equivalent representative values of the Grassland Fire Danger Index (GFDI) are applied as per Appendix B. The values can be refined if appropriately justified.

Table 2.1: Applied FDI Value

FDI Value			
Vegetation Area	As per AS 3959 - 2018 Table 2.1	As per DFES for the Location	Value Applied
All Vegetation Areas	80	N/A	80

2.1.2 Existing Vegetation Identification, Classification and Effective Slope

Vegetation identification and classification has been conducted in accordance with AS 3959-2018 s2.2.3 and the Visual Guide for Bushfire Risk Assessment in WA (DoP February 2016).

When more than one vegetation type is present, each type is identified separately with the worst-case scenario being applied as the classification. The predominant vegetation is not necessarily the worst-case scenario.

The vegetation structure has been assessed as it will be in its mature state (rather than what might be observed on the day). Areas of modified vegetation are assessed as they will be in their natural unmodified state (unless maintained in a permanently low threat, minimal fuel condition, satisfying AS 3959-2018 s2.2.3.2-f and asset protection zone standards). Vegetation destroyed or damaged by a bushfire or other natural disaster has been assessed on its revegetated mature state.

Effective Slope: Is the ground slope under the classified vegetation and is determined for each area of classified vegetation. It is the measured or determined slope which will most significantly influence the bushfire behaviour in that vegetation as it approaches a building or site. Where there is a significant change in effective ground slope under an area of classified vegetation, that will cause a change in fire behaviour, separate vegetation areas will be identified, based on the change in effective slope, to enable the correct assessment.

Table 2.2: Vegetation identification and classification

All Vegetation Within 150 metres of the Proposed Development				
Vegetation Area	Identified Classification Types ¹ or Description if 'Excluded'	Applied Classification ²	Effective Slope Under Classified Vegetation	
			degrees	description
1	Closed Scrub D-13 Open Scrub D-14	Class D Scrub	0	Flat & Upslope
2	Open Scrub D-14	Class D Scrub	0	Flat & Upslope
3	Open Tussock G-23 Open Herbfield G-27	Class G Grassland	0	Flat & Upslope
-	Managed residential lots, parks and street verges.	Excluded AS 3959-2018 2.2.3.2 (e) & (f)	0	N/A

Representative photos of each vegetation area, descriptions and classification justification, are presented on the following pages. The areas of classified vegetation are defined, and the photo locations identified on the topography and classified vegetation map, Figure 3.1.

2.2 Assessment Output

Understanding the Bushfire Assessment Results - Application of Bushfire Attack Levels (BAL)

The BAL rating has a different application in the building environment compared to the planning environment and the BAL assessment can result in a determined BAL or an indicative BAL which have different implications.

Building versus Planning Applications

In the building environment, a determined BAL rating is required (for the proposed construction) at the building application stage. This is to inform approval considerations and establish the construction standards that are to apply if approved. An indicative BAL rating is not acceptable for a building application.

In the planning environment, assessing the ability of a proposed development site to achieve BAL-29 or less is the objective (as one of the bushfire protection criteria being assessed). The 'development site' is defined by the LPS Amendment Regulations 2015 as "that part of a lot on which a building that is the subject of development stands or is to be constructed".

Therefore, being able to show that a BAL rating of BAL-29 or lower is achievable for a proposed development site (i.e. the building footprint) is an acceptable outcome for that criteria, as established by the bushfire provisions, SPP 3.7 and the associated Guidelines. For planning purposes, this BAL rating could be either indicative or determined.

Determined BAL Ratings

A determined BAL rating is to apply to an existing or proposed construction site (building) and not to a lot or envelope. Its purpose is to state the potential radiant heat flux to which the building will be exposed.

A determined BAL cannot be given for a future building whose location, elevation design and footprint (on a given lot) are unknown. It is not until these variables have been fixed that a BAL can be determined (typically at the development application or building application stage).

The one exception is when a building of **any dimension** can be **positioned anywhere** on a proposed lot or within defined limits within the lot (i.e. building setbacks or building envelope) and always remain subject to the same BAL rating. For this to be the case, there needs to be no classified vegetation either onsite or offsite that if retained could impact upon the determined BAL rating.

Indicative BAL Ratings

When this Plan presents a single indicative BAL rating for a proposed construction site (building), this will be because the construction is still subject to a location within the lot being confirmed and/or a vegetation separation distance being achieved. That is, it will be conditional upon some factor being confirmed at a later stage.

For planning applications associated with proposed lots, the building location, elevation design and footprint have typically not been established. Therefore, indicative rather than determined BAL rating/s will be presented for each lot (with the exception as noted above under 'Determined BAL Ratings').

When this Plan presents a single indicative BAL rating for a lot or building envelope (i.e. an 'area' that is not a located building footprint) it will represent the highest BAL rating affecting that 'area'. The BAL rating of a future building on that 'area' will be dependent on its eventual location.

Otherwise, this Plan will present all BAL ratings for each lot and for each BAL rating, the vegetation separation distances from each area of classified vegetation that are to apply. These distances will be presented as either figures in a table or as a BAL contour map.

From this indicative BAL information, it can be assessed if acceptable BAL ratings (\leq BAL-29) can be achieved for future buildings.

2.2.1 BAL Results Presented as a BAL Contour Map

Interpretation of the Bushfire Attack Level (BAL) Contour Map

The contour map will present different coloured contour intervals constructed around the classified bushfire prone vegetation. These represent the different Bushfire Attack Levels that exist at varying distances away from the classified vegetation.

Each BAL represents a set range of radiant heat flux (as defined by AS 3959-2018) that can be generated by the bushfire in that vegetation at that location.

The width of each shaded contour (i.e. the distance interval) will vary and is determined by consideration of variables including vegetation type, fuel structure, ground slope, climatic conditions. They are unique to a site and can vary across a site. The width of each contour is a diagrammatic expression of the separation distances from the classified vegetation that apply for each BAL rating, for that site.

A building (or 'area') located within any given BAL contour will be subject to that BAL rating and potentially multiple BAL ratings of which the highest rating will be applied.

Separation Distances Calculated to Construct the BAL Contours

Table 2.3: Vegetation separation distances applied to construct the BAL contours.

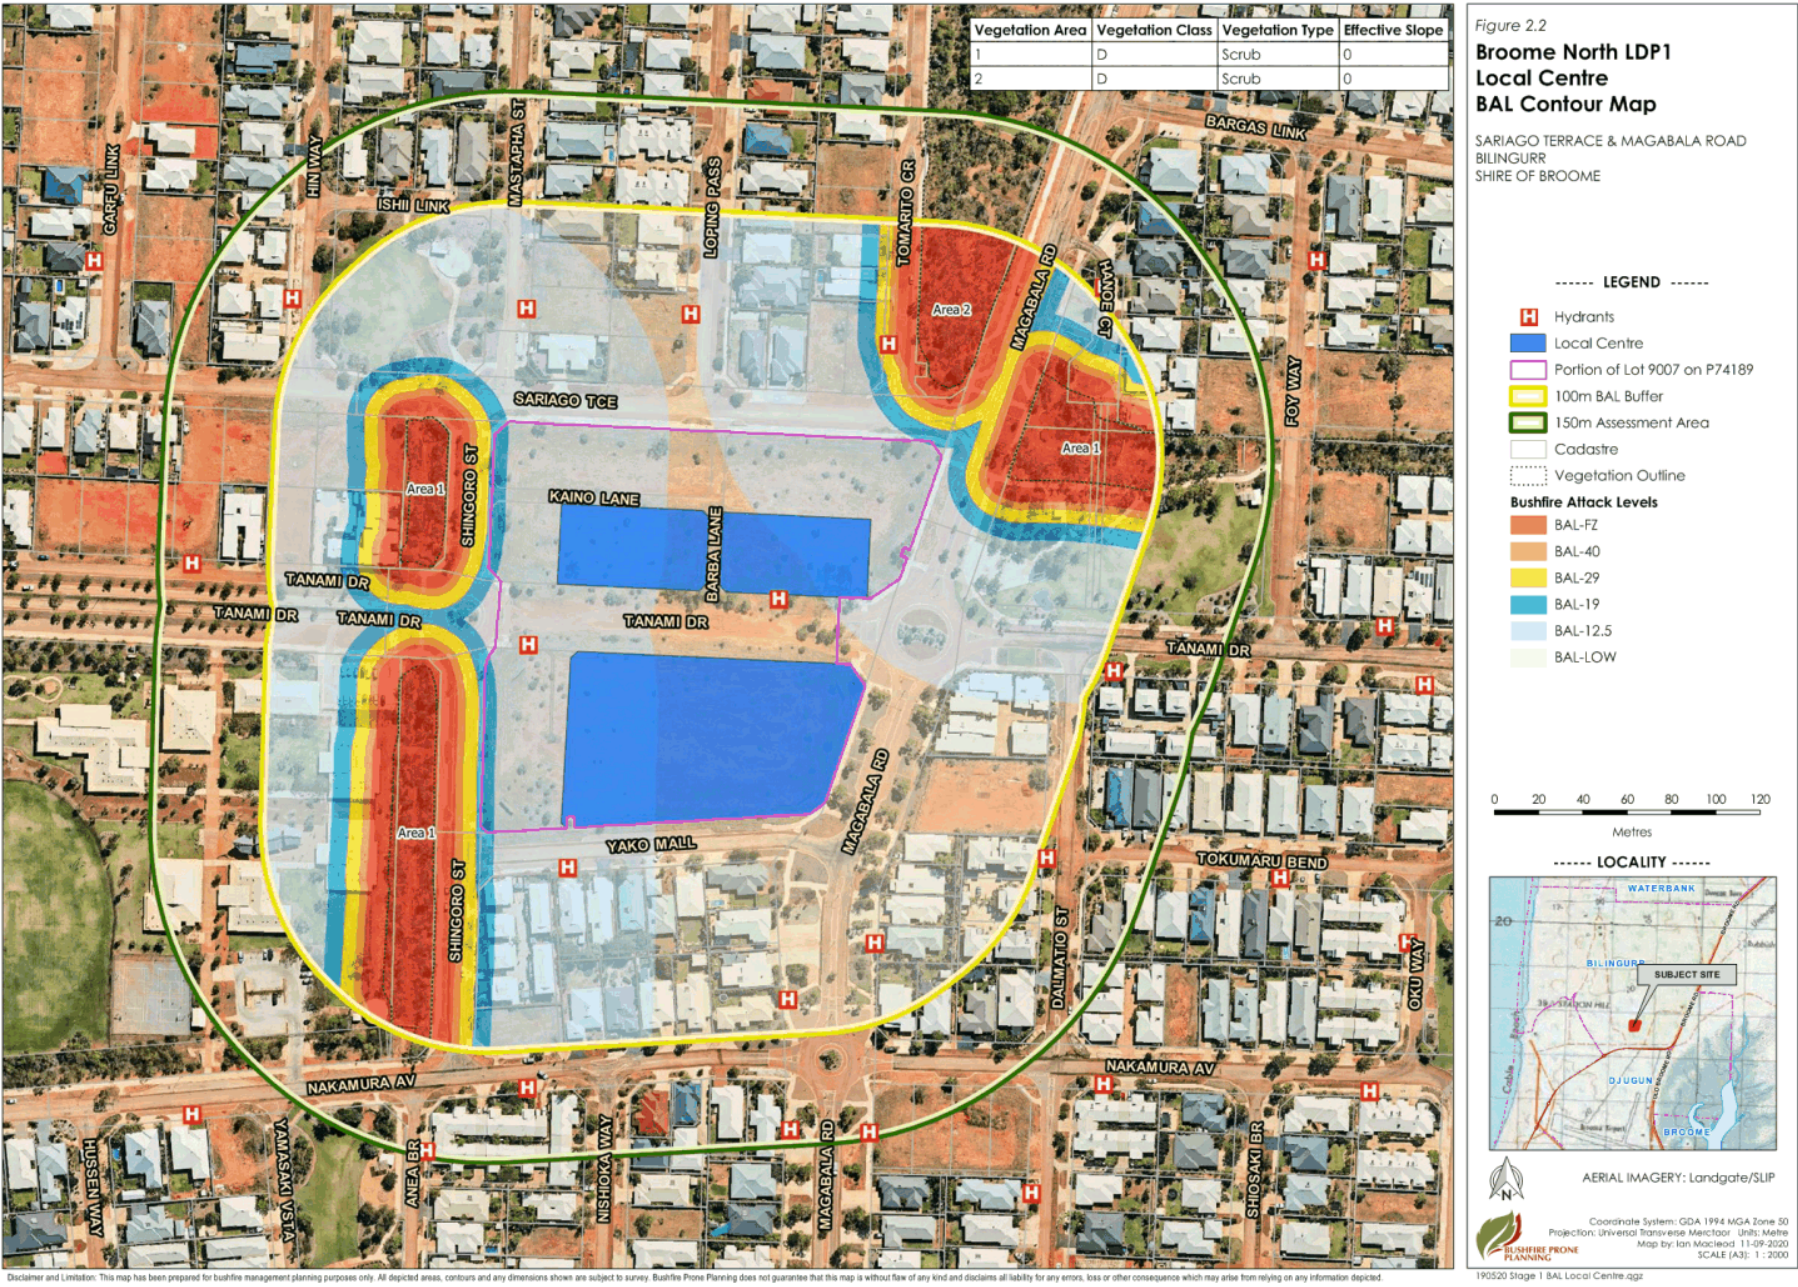

Calculated Vegetation Separation Distances								
Vegetation Area	Vegetation Classification	Effective Slope	BAL Assessment Method Applied ¹	BAL Rating and Corresponding Separation Distance ² (metres)				
		Degrees		BAL-FZ	BAL-40	BAL-29	BAL-19	BAL12.5
1	Class D Scrub	0	Method 1	<10	10-<13	13-<19	19-<27	27-<100
2	Class D Scrub	0	Method 1	<10	10-<13	13-<19	19-<27	27-<100
3	Class G Grassland	0	Method 1	<6	6-<8	8-<12	12-<17	17-<100

¹ Method 1 as per AS 3959-2018 Table 2.5.

2.2.2 Bushfire Attack Levels (BAL) Derived from The Contour Map

The assumption for this BAL Contour Map is that the whole of the area that is assessed as Grassland and bounded by Santiago Terrace, Magabala Road, Yako Mall and Shingoro Street, being a portion of Lot 9007 on Plan 74189, will be managed and maintained to a low bushfire threat state.

Vegetation within the nearby open drains will have some effect on the site and BAL ratings for the Local Centre will range from BAL-LOW to BAL-12.5.

3 Identification of Bushfire Hazard Issues

The Broome North Local Development Plan 1 (LDP1) area is 85% urbanised with established residential housing lots, a school site and associated amenities. The land is relatively flat and is bounded by areas of scrub type vegetation to the west and north. A residential development is located to the south of the site on the opposite side of Gubinge Road. A light industrial area sits to the east along with areas of scrub vegetation.

The Local Centre area is situated relatively centrally within LDP1. There are small areas of bushfire prone vegetation relatively close to the site but the highest potential BAL rating affecting the Local Centre area is BAL-12.5. It is expected that all vegetation within Pt Lot 9007 will be managed and maintained to a low bushfire threat state.

The subject site abuts access/egress routes from the development. Tanami Drive heads east and joins onto Broome Road. Magabala Road heads south onto Gubinge Road. Both Broome Road and Gubinge Road are main arterial roads for the vicinity.

Fire hydrants are located throughout the development area as per the requirements of the relevant authorities.

4 Assessment Against the Bushfire Protection Criteria (BPC) Broome North Local Development Plan 1- Local Centre

4.1 Bushfire Protection Criteria - Assessment Summary

Summarised Outcome of the Assessment Against the Bushfire Protection Criteria (BPC)						
Element	Basis for Achieving Compliance with the Intent of the Element			The Proposal Cannot Achieve Compliance with the Intent of the Element	The Element is Not Applicable to the Proposal	Not a Strategic Planning Proposal therefore Location Options Do Not Apply
	All Relevant Acceptable Solutions Are or Can be Met	The Performance Principle is Addressed (one or more solutions cannot be fully met, or it is inappropriate to do so –				
		Argument Justifying Compliance with the Intent is Presented	A Performance Principle-Based Solution is Applied		Different bushfire protection measures are to be applied to specified development types and land uses (as per a WAPC Position Statement or guidance)	
1. Location	✓					
2. Siting and Design of Development	✓					
3. Vehicular Access	✓					
4. Water	✓					

The Proposal has been assessed against:

1. The requirements established in Appendix 4 of the Guidelines for Planning in Bushfire Prone Areas, WAPC 2017 v1.3 (the 'Guidelines'). The detail, including the technical requirements, are found at <https://www.dplh.wa.gov.au/8194.aspx>; and
2. Any endorsed variations to the Guideline's acceptable solutions and associated technical requirements that have been established by the relevant local government. If known and applicable these have been stated in Section 5.2 of this Plan (with the detail included as an appendix if required by the relevant local government).

4.2 Local Government Variations to Apply

Local governments may add to or modify the acceptable solutions of the Bushfire Protection Criteria (BPC) and/or apply technical requirements that vary from those specified in the Guidelines for Planning in Bushfire Prone Areas (WAPC). In such instances, this Proposal will be assessed against these variations and/or any specific local government technical requirements for emergency access and water. Refer to Appendices 2 and 3 for relevant technical requirements.

Will local or regional variations to the acceptable solutions (endorsed by WAPC / DFES) and/or the technical requirements contained in the Guidelines, apply to this Proposal.	N/A
--	-----

4.3 Bushfire Protection Criteria – Acceptable Solutions Assessment Detail

4.3.1 Element 1: Location

Bushfire Protection Criteria Element 1: Location Assessment Statements and Bushfire Protection Measures to be Applied			
Intent: To ensure that strategic planning proposals, subdivision and development applications are located in areas with the least possible risk of bushfire to facilitate the protection of people, property and infrastructure.			
Acceptable Solution:	A1.1: Development Location	Method of achieving Element compliance and/or the Intent of the Element:	The acceptable solution is fully met.

The Broome North LDP1 – Local Centre site achieves compliance by:

- Ensuring future building work on the lots can be located on an area that will be subject to potential radiant heat from a bushfire not exceeding 29 kW/m² (i.e. a BAL rating of BAL-29 or less will apply). This can be achieved by using positioning, design and appropriate vegetation removal/modification; and
- Managing the remaining bushfire risk to an acceptable level by the existence/implementation and ongoing maintenance of all required bushfire protection measures, as identified within this Report. These measures include the requirements for vegetation management, vehicular access and firefighting water supply.

The proposed development is located relatively centrally within a built up residential area. The subject site has a potential radiant heat flux from nearby classifiable vegetation of 12.5kW/m² or less.

4.3.2 Element 2: Siting and Design of Development

Bushfire Protection Criteria Element 2: Siting and Design of Development Assessment Statements and Bushfire Protection Measures to be Applied			
Intent: To ensure that the siting and design of development (note: not building/construction design) minimises the level of bushfire impact.			
Acceptable Solution:	A2.1: Asset Protection Zone	Method of achieving Element compliance and/or the Intent of the Element:	The acceptable solution can be fully met in the future.

The Broome North LDP1 – Local Centre site achieves compliance by:

- Ensuring future building work on the lots can have established around it an APZ of the required dimensions - to ensure that the potential radiant heat from a bushfire to impact future buildings, does not exceed 29 kW/m² (i.e. a BAL rating of BAL-29 or less will apply to determine building construction standards);
- The APZs can be partially established within each lots boundaries. The balance of the APZ's required dimensions are being contributed by an area on adjoining land that is either non-vegetated or assessed as being managed in a low-fuel state and which can most reasonably be expected to be managed this way in perpetuity.

The subject lots and neighbouring lots managed to the requirements of the Shire of Broome Fire Break & Fuel Hazard Reduction Notice and managed road verges will contribute to APZs for the subject lots.

- The landowner/s having the responsibility of continuing to manage the required APZ as low threat vegetation in a minimal fuel state, by maintaining the APZ to the required dimensions and standard, including compliance with the local government's annual firebreak notice.

The required APZ dimensions are set out in Section 4.4.1. The APZ technical requirements (Standards) are detailed in Appendix 1.

4.3.3 Element 3: Vehicular Access

Bushfire Protection Criteria Element 3: Vehicular Access Assessment Statements and Bushfire Protection Measures to be Applied			
Intent: To ensure that the vehicular access serving a subdivision/development is available and safe during a bushfire event.			
Acceptable Solution:	A3.1: Two access routes	Method of achieving Element compliance and/or the Intent of the Element:	The acceptable solution will be fully met.
Tanami Drive, Yako Mall, Shingoro Street and Magabala Road provide safe access and egress to two different destinations. As sealed public roads, they will be available to all residents and the public at all times and under all weather conditions.			
Acceptable Solution:	A3.2 Public Road	Method of achieving Element compliance and/or the Intent of the Element:	The acceptable solution will be fully met.
The construction technical requirements established by the Guidelines and/or the local government will be complied with. These requirements are set out in Appendix 2.			
Acceptable Solution:	A3.3 Cul-de-sacs (including a dead-end road)	Method of achieving Element compliance and/or the Intent of the Element:	The acceptable solution can be fully met.
The construction technical requirements established by the Guidelines and/or the local government can and will be complied with. These requirements are set out in Appendix 2.			
Acceptable Solution:	A3.4: Battle-axe	Method of achieving Element compliance and/or the Intent of the Element:	The acceptable solution can be fully met.
The construction technical requirements established by the Guidelines and/or the local government can and will be complied with. These requirements are set out in Appendix 2.			
Acceptable Solution:	A3.5: Private Driveways	Method of achieving Element compliance and/or the Intent of the Element:	The acceptable solution can be fully met.
The construction technical requirements established by the Guidelines and/or the local government can and will be complied with. These requirements are set out in Appendix 2.			

Bushfire Protection Criteria Element 3: Vehicular Access (continued) Assessment Statements and Bushfire Protection Measures to be Applied			
Acceptable Solution:	A3.6 Emergency Access Way	Method of achieving Element compliance and/or the Intent of the Element:	N/A
Acceptable Solution:	A3.7 Fire Service Access Routes	Method of achieving Element compliance and/or the Intent of the Element:	N/A
Acceptable Solution:	A3.8 Firebreak Width	Method of achieving Element compliance and/or the Intent of the Element:	The acceptable solution will be fully met.

The proposed lots will comply with the requirements of the local government annual firebreak notice issued under s33 of the Bush Fires Act 1954.

4.3.4 Element 4: Water

Bushfire Protection Criteria Element 4: Water Assessment Statements and Bushfire Protection Measures to be Applied			
Intent: To ensure water is available to the subdivision, development or land use to enable people, property and infrastructure to be defended from bushfire.			
Acceptable Solution:	A4.1 Reticulated Areas	Method of achieving Element compliance and/or the Intent of the Element:	The acceptable solution will be fully met.
A reticulated water supply is available to the subject site and hydrants will be installed in locations as required by the relevant authorities.			
The construction technical requirements established by the Guidelines and/or the local government can and will be complied with. These requirements are set out in Appendix 3.			
Acceptable Solution:	A4.2 Non-Reticulated Areas	Method of achieving Element compliance and/or the Intent of the Element:	N/A
Acceptable Solution:	A4.3 Non-reticulated Areas (Individual Lots)	Method of achieving Element compliance and/or the Intent of the Element:	N/A

4.4 Additional Information for Required Bushfire Protection Measures

The purpose of this section of the Plan is:

- As necessary, to provide additional detail (to that provided in the tables of Section 5.3) regarding the implementation of the acceptable solutions for those persons who will have the responsibility to apply the stated requirements;
- As necessary, to detail specific onsite vegetation management requirements such as the APZ dimensions, management of Public Open Space or application of landscaping plans for onsite vegetation;
- To discuss how staged development will be handled, if applicable; and
- As relevant, for future planning stages, consider and discuss the requirements that may apply to future planning applications and the content of the associated BMP. In particular:
 - Any potential Vulnerable or High-Risk Land Uses.
 - Any additional content that will be required in the future BMP.

4.4.1 Vegetation Management

Asset Protection Zone (APZ) Dimensions that are to Apply

The required dimensions of the APZ will vary dependent upon the purpose for which the APZ has been defined. There are effectively three APZ dimensions that can apply:

1. An application for planning approval will be required to show that an APZ can be created which is of sufficient size to ensure the potential radiant heat impact of a fire does not exceed 29kW/m^2 (BAL-29); and
2. Complying with the relevant local government's annual firebreak notice may require an APZ of greater size than that defined by the two previous parameters.

The dimensions (vegetation separation distances) that are to apply to the APZ for this Proposal are presented in the tables below.

Table 4.1: Planning Minimum Required Vegetation Separation Distances for the Proposed Development

The 'Planning (WAPC) BAL-29' APZ				
Minimum Required Vegetation Separation Distances for the Proposed Development				
Requirement Set By		Guidelines for Planning in Bushfire Prone Areas (WAPC 2017 v1.3)		
Relevant Fire Danger Index (AS3959-2018 Table 2.1)				80
BAL Determination Method		Method 1 (as per AS 3959-2018 s2.2.6 and Table 2.5)		
Vegetation Area	Applied Vegetation Classification	Effective Slope (degrees)	Maximum Acceptable 'Planning' BAL	Required Separation Distance (metres)
1	Class D Scrub	0	BAL-29	13
2	Class D Scrub	0		13
3	Class G Grassland	0		8
-	Excluded AS 3959-2018 2.2.3.2 (e) & (f)	N/A		N/A
This requirement has been established through the State bushfire provisions, SPP 3.7 and the associated Guidelines, as being a key compliance requirement for development proposals in WA.				

Table 4.2: Local Government Firebreak Notice Minimum Requirements.

'Local Government Firebreak Notice APZ'	
Required Minimum Dimensions for the Subject Site	
Requirement Set By:	Shire of Broome
Minimum Dimensions:	See Shire of Broome Fire Break & Fuel Hazard Reduction Notice.
Other Conditions:	If Asset Protection Zone technical requirements are defined in the Notice, the standards and dimensions may differ from the Guideline's APZ Standards, with the intent to better satisfy local conditions. When these are more stringent than those created by the Guidelines, or less stringent and endorsed by the WAPC and DFES, they must be complied with. Refer to Appendix 1.
This requirement has been established through the stated local government's annual fire break notice issued under the Bushfires Act 1954 s33.	

Consideration/Implementation of Public Open Space Management

Any planned areas of Public Open Space (POS) should be designed and managed so that the vegetation within the POS does not increase the BAL rating of adjoining or nearby lots to above BAL-29.

Consideration/Implementation of Proposed Landscape Plans

Any future landscape plans should be designed and managed so that the vegetation within the landscaped areas does not increase the BAL rating of adjoining lots to above BAL-29.

Consideration/Implementation of Staged Development

Where the proposed development is staged each stage must comply with the requirements of the Guidelines for Planning in Bushfire Prone Areas. This may require the creation of roads or management of land or installation of water supply lines outside that particular stage to achieve compliance.

Appendix 1 - Onsite Vegetation Management Technical Requirements

It is the responsibility of the landowner to maintain the established bushfire protection measures on their property. Not complying with these responsibilities can result in buildings being subject to a greater potential impact from bushfire than that determined by the assessed BAL rating presented in this Bushfire Management Plan.

For the management of vegetation within a lot (i.e. onsite) the following technical requirements exist:

1. **The APZ:** Installing and maintaining an asset protection zone (APZ) of the required dimensions to the standard established by the Guidelines for Planning in Bushfire Prone Areas (WA Planning Commission, as amended). When, due to the planning stage of the proposal to which this Bushfire Management Plan applies, defined APZ dimensions are known and are to be applied to existing or future buildings – then these dimensions are stated in Section 5.4.1 of this Plan.
2. **The Firebreak/Fuel Load Notice:** Complying with the requirements established by the relevant local government's annual firebreak notice issued under s33 of the Bushfires Act 1954. Note: If an APZ requirement is included in the Notice, the standards and dimensions may differ from the Guideline's APZ Standard – the larger dimension must be complied with.
3. **Changes to Vegetated/Non-Vegetated Areas:**
 - a. If applicable to this Plan, the minimum separation distance from any classified vegetation, that corresponds to the determined BAL for a proposed building, must be maintained as either a non-vegetated area or as low threat vegetation managed to a minimal fuel condition as per AS 3959-2018 s2.2.3.2 (e) and (f). Refer to Part 4 of this Appendix 1.
 - b. Must not alter the composition of onsite areas of classified vegetation (as assessed and presented in Section 3.1.2) to the extent that would require their classification to be changed to a higher bushfire threat classification (as per AS 3959-2018); and
 - c. Must not allow areas within a lot (i.e. onsite) that have been:
 - i. excluded from classification by being low threat vegetation or non-vegetated; and
 - ii. form part of the assessed separation distance that is determining a BAL rating

...to become vegetated to the extent they no longer represent a low threat (refer to Part 4 of Appendix 1). Note: The vegetation classification exclusion specifications as established by AS 3959-2018 s2.2.3.2, are included at A1.4 below for reference.

1. Requirements Established by the Guidelines – the Asset Protection Zone (APZ) Standards

(Source: Guidelines for Planning in Bushfire Prone Areas - WAPC 2017 v1.3 Appendix 4, Element 2, Schedule 1 and Explanatory Note E2.1)

Defining the Asset Protection Zone (APZ)

Description: An APZ is an area surrounding a building that is managed to reduce the bushfire hazard to an acceptable level (by reducing fuel loads). The width of the required APZ varies with slope and vegetation. For planning applications, the minimum sized acceptable APZ is that which is of sufficient size to ensure the potential radiant heat impact of a fire does not exceed 29kW/m² (BAL-29). It will be site specific.

The APZ may include public roads, waterways, footpaths, buildings, rocky outcrops, golf courses, maintained parkland as well as cultivated gardens in an urban context, but does not include grassland or vegetation on a neighbouring rural lot, farmland, wetland reserves and unmanaged public reserves.

For subdivision planning, design elements and excluded/low threat vegetation adjacent to the lot can be utilised to achieve the required vegetation separation distances and therefore reduce the required dimensions of the APZ within the lot.

Defendable Space: The APZ includes a defendable space which is an area adjoining the asset within which firefighting operations can be undertaken to defend the structure. Vegetation within the defendable space should be kept at an absolute minimum and the area should be free from combustible items and obstructions. The width of the defendable space is dependent on the space which is available on the property, but as a minimum should be 3 metres.

Establishment: The APZ should be contained solely within the boundaries of the lot on which the building is situated, except in instances where the neighbouring lot or lots will be managed in a low-fuel state on an ongoing basis, in perpetuity.

Note: Regardless of whether an Asset Protection Zone exists in accordance with the acceptable solutions and is appropriately maintained, fire fighters are not obliged to protect an asset if they think the separation distance between the dwelling and vegetation that can be involved in a bushfire, is unsafe.

Schedule 1: Standards for APZ

Fences: within the APZ are constructed from non-combustible materials (e.g. iron, brick, limestone, metal post and wire). It is recommended that solid or slatted non-combustible perimeter fences are used.

Objects: within 10 metres of a building, combustible objects must not be located close to the vulnerable parts of the building i.e. windows and doors.

Fine Fuel Load: combustible dead vegetation matter less than 6 mm in thickness reduced to and maintained at an average of two tonnes per hectare (example below).

Example Fine Fuel Load of Two Tonnes per Hectare

(Image source: Shire of Augusta Margaret River's Firebreak and Fuel Reduction Hazard Notice)

Trees (> 5 metres in height): trunks at maturity should be a minimum distance of 6 metres from all elevations of the building, branches at maturity should not touch or overhang the building, lower branches should be removed to a height of 2 metres above the ground and or surface vegetation, canopy cover should be less than 15% with tree canopies at maturity well spread to at least 5 metres apart as to not form a continuous canopy. Diagram below represents tree canopy cover at maturity.

Tree canopy cover – ranging from 15 to 70 per cent at maturity

(Source: Guidelines for Planning in Bushfire Prone Areas 2017, Appendix 4)

Shrubs (0.5 metres to 5 metres in height): should not be located under trees or within 3 metres of buildings, should not be planted in clumps greater than 5m² in area, clumps of shrubs should be separated from each other and any exposed window or door by at least 10 metres. Shrubs greater than 5 metres in height are to be treated as trees.

Ground covers (<0.5 metres in height): can be planted under trees but must be properly maintained to remove dead plant material and any parts within 2 metres of a structure, but 3 metres from windows or doors if greater than 100 mm in height. Ground covers greater than 0.5 metres in height are to be treated as shrubs.

Grass: should be managed to maintain a height of 100 mm or less.

The following example diagrams illustrate how the required dimensions of the APZ will be determined by the type and location of the vegetation.

2. Requirements Established by the Local Government – the Firebreak Notice

These requirements are established by the relevant local government's Firebreak Notice created under s33 of the Bushfires Act 1954 and issued annually (potentially with revisions). The Notice may include additional components directed at managing fuel loads, accessibility and general property management with respect to limiting potential bushfire impact.

The relevant local government's current Firebreak Notice is available on their website, at their offices and is distributed as ratepayer's information. It must be complied with.

If Asset Protection Zone technical requirements are defined in the Notice, the standards and dimensions may differ from the Guideline's APZ Standards, with the intent to better satisfy local conditions. When these are more stringent than those created by the Guidelines, or less stringent and endorsed by the WAPC and DFES, they must be complied with.

When, due to the planning stage of the proposal to which this Bushfire Management Plan applies, defined APZ dimensions are known and are to be applied to existing or future buildings – then these dimensions are stated in Section 5.4.1 of this Plan.

3. Requirements Recommended by DFES – Property Protection Checklists

Further guidance regarding ongoing/lasting property protection (from potential bushfire impact) is presented in the publication 'DFES – Fire Chat – Your Bushfire Protection Toolkit'. It is available from the Department of Fire and Emergency Services (DFES) website.

4. Requirements Established by AS 3959-2018 - Maintaining Areas within your Lot as 'Low Threat'

This information is provided for reference purposes. This knowledge will assist the landowner to comply with Management Requirement No. 3 set out in the Guidance Panel at the start of this Appendix. It identifies what is required for an area of land to be excluded from classification as a potential bushfire threat.

"Australian Standard - AS 3959-2018 Section 2.2.3.2: Exclusions - Low threat vegetation and non-vegetated areas:

The Bushfire Attack Level shall be classified BAL-LOW where the vegetation is one or a combination of the following:

- a) Vegetation of any type that is more than 100m from the site.*
- b) Single areas of vegetation less than 1ha in area and not within 100m of other areas of vegetation being classified.*
- c) Multiple area of vegetation less than 0.25ha in area and not within 20m of the site or each other.*
- d) Strips of vegetation less than 20m in width (measured perpendicular to the elevation exposed to the strip of vegetation) regardless of length and not within 20m of the site or each other, or other areas of vegetation being classified.*
- e) Non-vegetated areas, including waterways, roads, footpaths, buildings and rocky outcrops.*
- f) Low threat vegetation, including grassland managed in a **minimal fuel condition** (i.e. insufficient fuel available to significantly increase the severity of a bushfire attack – recognisable as short cropped grass to a nominal height of 100mm for example), maintained lawns, golf courses, maintained public reserves and parklands, vineyards, orchards, cultivated gardens, commercial nurseries, nature strips and windbreaks."*

Appendix 2 - Vehicular Access Technical Requirements

Each local government may have their own standard technical requirements for emergency vehicular access and they may vary from those stated in the Guidelines.

Contact the relevant local government for the requirements that are to apply in addition to the requirements set out as an acceptable solution in the Guidelines. If the relevant local government requires that these are included in the Bushfire Management Plan, they will be included in this appendix and referenced.

Requirements Established by the Guidelines – The Acceptable Solutions

(Source: Guidelines for Planning in Bushfire Prone Areas WAPC 2017 v1.3, Appendix 4)

Vehicular Access Technical Requirements - Part 1

Acceptable Solution 3.3: Cul-de-sacs (including a dead-end road)

Their use in bushfire prone areas should be avoided. Where no alternative exists then the following requirements are to be achieved:

- Maximum length is 200m. If public emergency access is provided between cul-de-sac heads (as a right of way or public access easement in gross), the maximum length can be increased to 600m provided no more than 8 lots are serviced and the emergency access way is less than 600m in length;
- Turnaround area requirements, including a minimum 17.5m diameter head to allow type 3.4 fire appliances to turn around safely;
- The cul-de-sac connects to a public road that allows for travel in two directions; and
- Meet the additional design requirements set out in Part 2 of this appendix.

Acceptable Solution 3.4: Battle-axe

Their use in bushfire prone areas should be avoided. Where no alternative exists then the following requirements are to be achieved:

- Maximum length 600m and minimum width 6m; and
- Comply with minimum standards for private driveways.

Acceptable Solution 3.5: Private Driveways

The following requirements are to be achieved:

- The design requirements set out in Part 2 of this appendix; and
- Where the house site is more than 50 metres from a public road:
 - Passing bays every 200 metres with a minimum length of 20 metres and a minimum width of two metres (ie combined width of the passing bay and constructed private driveway to be a minimum six metres);
 - Turn-around areas every 500 metres and within 50 metres of a house, designed to accommodate type 3.4 fire appliances to turn around safely (ie kerb to kerb 17.5 metres);
 - Any bridges or culverts are able to support a minimum weight capacity of 15 tonnes; and
 - All weather surface (i.e. compacted gravel, limestone or sealed).

Acceptable Solution 3.8: Firebreak Width

Lots greater than 0.5 hectares must have an internal perimeter firebreak of a minimum width of three metres or to the level as prescribed in the local firebreak notice issued by the local government.

Vehicular Access Technical Requirements - Part 2

Technical Component	Vehicular Access Types				
	Public Roads	Cul-de-sacs	Private Driveways	Emergency Access Ways	Fire Service Access Routes
Minimum trafficable surface (m)	6*	6	4	6*	6*
Horizontal clearance (m)	6	6	6	6	6
Vertical clearance (m)	4.5	4.5	4.5	4.5	4.5
Maximum grade <50 metres	1 in 10	1 in 10	1 in 10	1 in 10	1 in 10
Minimum weight capacity (t)	15	15	15	15	15
Maximum cross-fall	1 in 33	1 in 33	1 in 33	1 in 33	1 in 33
Curves minimum inner radius (m)	8.5	8.5	8.5	8.5	8.5

* A six metre trafficable surface does not necessarily mean paving width. It could, for example, include four metres of paving and one metre of constructed road shoulders. In special circumstances, where 8 lots or less are being serviced, a public road with a minimum trafficable surface of four metres for a maximum distance of ninety metres may be provided subject to the approval of both the local government and DFES.

Appendix 3 - Water Technical Requirements

Requirements Established by the Guidelines - Acceptable Solution A4.1: Reticulated Areas

(Source: Guidelines for Planning in Bushfire Prone Areas WAPC 2017 v1.3, Appendix 4, Element 4)

The requirement is to supply a reticulated water supply and fire hydrants, in accordance with the technical requirements of the relevant water supply authority and DFES.

The Water Corporation's 'No 63 Water Reticulation Standard' is deemed to be the baseline criteria for developments and should be applied unless local water supply authority's conditions apply.

Key specifications in the most recent version/revision of the design standard include:

- **Residential Standard** – hydrants are to be located so that the maximum distance between the hydrants shall be no more than 200 metres.
- **Commercial Standard** – hydrants are to be located with a maximum of 100 metre spacing in Industrial and Commercial areas.
- **Rural Residential Standard** – where minimum site areas per dwelling is 10,000 m² (1ha), hydrants are to be located with a maximum 400m spacing. If the area is further subdivided to land parcels less than 1ha, then the residential standard (200m) is to be applied.

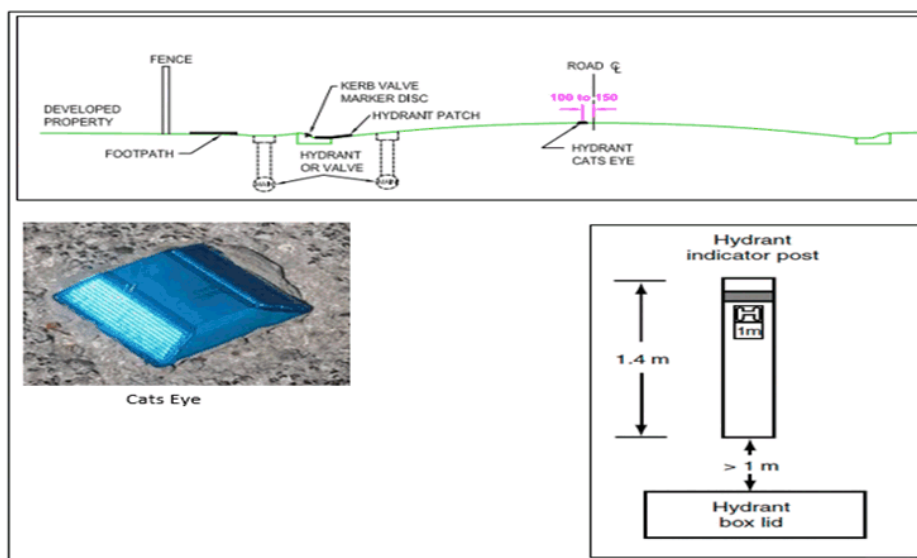

Figure A4.1: Hydrant Location and Identification Specifications

Contact the relevant water supply authority to confirm the technical requirements that are to be applied. They may differ from the minimum requirements of the 'baseline' Water Corporation's No. 63 Water Reticulation Standard.

PROPOSED ZONING

No.	Name/Date Received	Property Affected	Content of Submission	Officer Comment	Recommendation
1	Kylie Brockenshire 25/11/2020	Nakamura Avenue	<p>a) My husband and I purchased a block in Broome North almost 10 years ago, (resident of Broome for the past 20 years) the reason we chose our block was the distance to the school and promised shopping precinct and Anglican High School. Only 1 of these 3 things have been delivered to date.</p> <p>b) On Thursday 29th October 2020, Paul from Development WA held a community consultation without letting the community actually know, it was by chance I came across the flyer emailed to the school for the school to distribute. This is not a school issue and should have been distributed by Development WA themselves to the community.</p> <p>I personally notified the community of this consultation and with only a couple of days' notice, we had around 40-50 concerned Broome North residence attend. The issue that most everyone bought up was that they bought land and built their family home around the promise of a Primary School, High School and Community/Shopping Precinct. After almost 10 years, the block in question is still vacant.</p> <p>When I asked Paul from Development WA when was the last time they tried to find investors for the block he responded with 2017/18... That is 3 years ago. Broome has changed in that 3 years with the housing market doing really well. The initial plan was to built the next stage at the back of Broome North and I feel because the housing market is taking off, Development WA is taking the easy way out by wanting to rezone the block in question to residential to sell it faster.</p> <p>c) I have personally spoken to a daycare centre here in Broome that was not aware of the block being allocated for such purpose of a daycare, also a local GP that is very interest in having their own practice there (I am sure I would be able to get interest from the local chemist, a coffee shop) and I have also spoken to the Halls Creek IGA owners (who are rate payers in Broome) who want to know more information.</p> <p>d) Broome North rate paying residence and also the renting community would like to see a community/shopping precinct where it was originally promised not a bigger one on the corner of Fairway drive. We also do not want the block in question rezoned to residential which would include 1 in 10 state and/or community housing.</p> <p>e) Please respond with an action we, the Broome North Community can do regarding our concerns and how to go about challenging this decision.</p>	<p>Submitter would like to see land developed as a 'Local Centre'.</p> <p>This is inconsistent with LCS17 direction. It is acknowledged that expectations for a local centre had been created via BNDDP and the Local Centre zoning of the land.</p>	The submission is noted

2	Kent Brockenshire 25/11/2020	Nakamura Avenue	<p>I am writing this e-mail in regard to Shire of Broome local planning scheme No.6, amendment No.12.</p> <p>I do not agree with this amendment and would like it not to go ahead.</p> <p>I was one of the first to purchase land in Broome North and having the Local centre close was a huge part of my decision to purchase.</p> <p>I am enraged at the processes that have already taken place as most residents in Broome north I have spoken to have not been notified of these amendments and purchased their land with the promise of a local centre where it was located on the original plans.</p> <p>I found out only due to luck that a Development WA meeting was being held at the park on Magabala where we were simply told this is what is going to happen, I was not very impressed with this Paul fellow who ran the meeting and left felling angry and betrayed, this was the first time I knew that any changes had taken place in regards to the Local centre.</p> <p>We were told in this meeting that they looked into Coles and Woolworths about 3-4 years ago and they would not come on board...</p> <p>Coles and Woolworths are not what I envisaged for the "Local Centre", I had the idea of small general store, doctors' practice, cafe, milk bar for when the kids knock off school, maybe some low-cost business rental to allow small business to get a foot hold in the market etc.</p> <p>I feel that the community of Broome North are not being properly consulted and further investigation from Broome Shire and Development WA is needed with actual residents of the area. two small A4 signs on a star picket on the site simply not enough to inform residents of a decision that will impact their community in the future both socially and financially.</p> <p>This Local centre should stay in the same position as originally planned and not divided up into residential lots due to Development WA's failings in not developing other stages and just opting for the quick fix approach.</p> <p>I would like a reply to this e-mail acknowledging that it has been received and also further Information regarding challenging this decision.</p>	<p><u>Submitter would like to see land developed as a 'Local Centre.</u></p> <p>This is inconsistent with LCS17 direction. It is acknowledged that that expectations for a local centre had been created via BNDDP and Local Centre zoning of land.</p> <p><u>Consultation</u></p> <p>Public consultation was undertaken in accordance with LPP5.14 and an additional 3 weeks provided to ensure sufficient opportunity for comment. The public meeting referred to was part of a voluntary consultation program undertaken by the proponent in an attempt to better inform residents and provide a forum to discuss potential concerns.</p>	The submission is noted
3	Katherine Maritz 26/11/2020	Povah Road	<p>I have been advised of the Shire considering changing the zoning of the much anticipated shopping area within Broome North. As a resident in Broome North, ADDRESS DELETED, I am very disappointed that the Shire is even open to this suggestion.</p> <p>When we purchased this property we looked closely at the planning for this residential area. I for one was so excited to have a possibility of just walking to a supermarket, as going to Coles and Woolies can be very lengthy process during the dry. With less parking around Chinatown or should I say parking available but needing to cross more busy roads to get to a supermarket does make shopping at Coles less desirable. The current violence around the Boulevard area and property damage occurring around Woolies area certainly makes shopping there less desirable as well. I feel that a shopping centre within Broome North would actually service more than just this family orientated community. I believe suburbs like sunset and Roebuck would certainly take the opportunity to shop here as well.</p> <p>Land sales have been very slow in Broome North and only since the COVID government building incentives have been released, has the land sales started to move. I believe that the demand for property is also met with the surrounding suburbs.</p> <p>I also believe more Homes West and/or government funded homes would encourage more antisocial behaviour in this family orientated community. At present in the bush area there is a huge amount of illegal dumping occurring. It breaks my heart. Even in what I assume is a fire break there are people starting to dump household waste. Not only that but in the water ways I have seen the results of antisocial people stealing dust bin and over turning them in the flood water ways. There are more parties occurring with loud noise until all hours. I have witnessed excessive drinking occurring at a park within Broome North. There are more people spray painting</p>	<p><u>Submitter would like to see land developed as a 'Local Centre.</u></p> <p>This is inconsistent with LCS17 direction. It is acknowledged that that expectations for a local centre had been created via BNDDP and Local Centre zoning of the land.</p> <p><u>Concerns Residential development will include social housing and result in increased anti social activity.</u></p> <p>Social housing provision is not a Shire responsibility however, the Shire has been actively advocating to relevant decision makers on the provision of social housing in Broome including the appropriate design and distribution of social housing. It is noted that the proposed scheme amendment would result in less dwellings than capable under current zonings and densities.</p> <p><u>Lack of capacity within Broome North Primary School.</u></p> <p>The Department of Education have no objection as the proposal would have 'no significant impact' on student enrolment demand at nearby public schools.</p>	The submission is noted

			<p>around the foot paths. More people have had vehicles and items stolen at all hours of the day. Personally I have felt less and less safe within this area. I am even contemplating security camera's. It saddens me that one feels unsafe in your own property.</p> <p>Another factor is that the School already is bursting at the seams and can actually not cater for more students if more houses are erected. Parking at the School is inadequate let alone if we need to share this with more residents. The waste removal seems to be struggling as many time our bins are only emptied after 6 pm. Water pressure is an issue, as is the up keep of general cleanliness with broken glass on most footpaths, water/drink fountains not working and pipes burst at parks not getting fixed.</p> <p>These are a few concerns that immediately come to mind when advised of this re-zoning. Please DO NOT consider this change in zoning. I believe a shopping centre would most certainly increase revenue with in Broome and Broome North residents would welcome this. I also believe the market value for housing and/or proerties would increase with access to a great school and valuable shopping centre.</p>	<p><u>Service and infrastructure concerns</u> Service and infrastructure concerns noted.</p>	
4	Amanda Raffan 28/11/2020	Povah Road	<p>My name is Amanda Raffan, my fiancé and I built our family home on Povah Road, Bilingurr ~6 years ago.</p> <p>Recently, I have been made aware of proposed changes to a vacant block on Magabala/Tanami Drive and adjacent to the school that was initially zoned for day-care and shopping precinct.</p> <p>These changes are of significant concern to me as we live in a school zone, if that area were to become residential, there could be 30-40 more houses which in turn means roughly 30-40 (if not more) vehicles commuting to and from the area. Making the school zone traffic more dangerous. As it stands, I witness cars travelling at speed through school zones often, I feel that particular area is not the right area for residential properties due to the school zone close by.</p> <p>Please consider not amending the zoning as I feel this will increase traffic flow, and will increase the risk of safety for the children of our neighbourhood. I would like return correspondence as to what we, the Broome North Community, can do to stop this amendment being passed for approval.</p>	<p><u>Traffic Concerns relating to development of the site.</u> The proposed rezoning would reduce the number of vehicle movements experienced at the site and within the surrounds once the land is developed.</p>	The submission is noted
5	Ellen Smith 2/12/2020	Not Stated	<p>Thank you for the opportunity to comment on the PROPOSED SCHEME AMENDMENT: WARANYJARRI ESTATE LOCAL CENTRE REZONING Report. I'm a resident of Broome North and interested in better understanding the proposed and future planning changes for the area.</p> <p>In principle, I am supportive of the proposed scheme amendment noting the failed market interest in the vacant land currently zoned for a Local Centre.</p> <p>Could you please provide further information on the following:</p> <p>1• What modelling (if any) has been done on the potential impact of the proposed scheme amendment on the Broome North Primary School attendance and capacity?</p> <p>2• Is there any intention to allocate a portion of the proposed rezoned R20 lots to Department of Communities housing?</p> <p>3• What are DevelopmentWA's three interlinked projects which have been committed to and are in progress (referred to on page 17)?</p> <p>4• Could you please provide further information on the proposed alternative location(s) of a future Local Centre / District Centre / Commercial Centre referred to in the report? I'm not sure if these terms are used interchangeably, or if they're different centres.</p>	<p><u>Information requested</u> The request was referred to the proponent and no specific response received. Officer response is provided as follows:</p> <ol style="list-style-type: none"> <u>School modelling</u> Department of Education school modelling is unknown however, the Department has no objection as the proposal would have 'no significant impact' on student enrolment demand at nearby public schools. <u>Department of Communities housing</u> No specific information provided by the proponent. However, it is understood that Department of Communities have acquisition policies and procedures which enable them to access property through the open market to meet Department objectives. 	The submission is noted

				<p>3. <u>DevelopmentWA Projects</u> Understood to relate to proposed modifications to the Broome North District Development Plan and Local Development Plans 2 & 3.</p> <p>4. <u>Alternative centre locations</u> Attachment 5 shows the proposed spatial distribution of commercial centres as per LCS17.</p>	
6	Sue & Piet Maritz 15/12/2020	Yamasaki Vista	I, PD Maritz and JK Maritz, owners of property ADDRESS DELETED, Bilingurr, wish to submit our objection to the proposed rezoning of the commercial/community block into a residential block	<p>Submitter would like to see land developed as a 'Local Centre'. This is inconsistent with LCS17 direction. It is acknowledged that that expectations for a local centre had been created via BNDDP and Local Centre zoning of the land.</p>	The submission is noted
7	Justin & Gina Lincoln 14/1/2021	Nakamura Avenue	<p>Submission to the proposed Local Planning Scheme Amendment No. 12 to rezone Part Lot 9007 of Deposited Plan 74189, Magabala Road, Bilingurr.</p> <p>We are home owners / ratepayers in Broome North / Bilingurr. We are opposed to the rezoning of Lot 9007 on Deposited Plan 74189, Magabala Road, Bilingurr from Town Centre, Residential R30/40; R40; and Road Reserve to Residential R20.</p> <p>Whilst we understand that the Development WA has not been able to secure a commercial retailer to develop the area as a town centre, the rezoning to Residential R20 lacks foresight and does not support the future needs of young families who have chosen Broome North to raise their children. The Shire of Broome is currently making great developments that cater for older children in the BRAC area of Broome. The development of the bike track and the proposed redevelopment of the skate park on Cable Beach Road are two examples. These developments are great for teenage-aged children and make an important contribution in the prevention of youth crime in the vicinity of those facilities. However, these facilities are over 5 kilometres from Broome North along very busy roads (Gubinge Rd and Old Broome Road) making it difficult for older children to access them without parental assistance. Whilst Broome North is very well catered for young children with swings and the like in virtually every park, facilities for older children is very much lacking. The provision of facilities that cater for older kids in Broome North would provide key resources to prevent youth crime as the young children of Broome North get older. As they say, idle hands are the root mischief.</p> <p>Compounding this, the rezoning of Lot 9007 to Residential R20 has the potential to increase the Broome North population without a corresponding increase in facilities to cater for growing families. With the issues of youth crime gripping the township of Broome, the Shire has an opportunity to be proactive and develop facilities that are essential in the fight against youth crime in a suburb in which many families have chosen to raise their young families.</p> <p>We would welcome the opportunity to discuss these issues about the rezoning of Lot 9007 further in any Shire of Broome engagement with the residents of Broome North.</p>	<p>Submitter would like to see land developed as a 'Local Centre'. This is inconsistent with LCS17 direction. It is acknowledged that that expectations for a local centre had been created via BNDDP and Local Centre zoning of the land.</p> <p><u>Lack of community infrastructure for existing population including for older children.</u> Broome North currently lacks the service population needed to provide many of the facilities and services within that footprint of the Broome North community. The repositioning of commercial precincts within the BNDDP will maximise catchment areas and provide the best opportunity for commercial and community services to be feasible and sustainable long term for the betterment of the broader Broome North community.</p> <p><u>Concerns Residential development will increase population and increase anti social activity.</u> It is noted that the proposed scheme amendment would result in less dwellings than capable under current zonings and densities (i.e. lower population than currently capable of).</p>	The submission is noted
8	Petition	124 Signatures	<p>We, the ratepayers and residents of Broome North (Bilingurr) request the Shire of Broome to cease Local Planning Scheme No 6 – Amendment 12. We strongly oppose the rezoning of the central shopping/community precinct to residential housing for the following reasons:</p> <p>1. The majority of Broome North residents bought, built and invested in Bilingurr based on a published plans and a clear commitment to community services and local shopping facilities as zoned within the area in question.</p>	<p>1. <u>Petitioners would like to see land developed as a 'Local Centre'.</u> This is inconsistent with LCS17 direction. It is acknowledged that that expectations for a local centre had been created via BNDDP and Local Centre zoning of the land.</p>	The petition is noted

			<p>2. Broome North already suffers a lot of youth-related crime and this proposed re-zoning runs the risk of worsening the situation by removing any prospect of community services in a central community location. Building more public & private housing in an area that is not designed for the extra population substantially increases this risk.</p> <p>3. Our primary school is already at capacity and a sharp increase in families into our suburb will put significant stress on the school and cause safety issues on small residential roads simply not designed for this additional use.</p> <p>4. We are here for the long term and seek good decisions for the future of Bilingurr</p> <p>The ratepayers and residents of Broome North have well considered ideas about how our 'local centre' can be better used in keeping with the intent of the zoning. We ask the Shire of Broome work with us to develop and progress these ideas through an effective consultation process in 2021.</p>	<p>2. <u>Concerns Residential development will include social housing and result in increased anti social activity.</u> Social housing provision is not a Shire responsibility however, the Shire has been actively advocating to relevant decision makers on the provision of social housing in Broome including the appropriate design and distribution of social housing. It is noted that the proposed scheme amendment would result in less dwellings than capable under current zonings and densities.</p> <p>3. <u>Lack of capacity within Broome North Primary School.</u> The Department of Education have no objection as the proposal would have 'no significant impact' on student enrolment demand at nearby public schools.</p> <p>4. <u>Seeking good decisions for future</u> Noted</p>	
9	Joint submission	213 signatures	Greetings, Don't replace our Broome North community/shopping precinct with more residential housing	<p><u>Petitioners would like to see land developed as a 'Local Centre.</u> This is inconsistent with LCS17 direction. It is acknowledged that that expectations for a local centre had been created via BNDDP and Local Centre zoning of the land.</p>	The petition is noted
9a	Adam Nibbs		We already have enough issues with crime without adding more public housing if you want more housing open up more land there are millions of hectares of land around broome that could be used for that very reason	<p><u>Concerns Residential development will include social housing and result in increased anti social activity.</u> Social housing provision is not a Shire responsibility however, the Shire has been actively advocating to relevant decision makers on the provision of social housing in Broome including the appropriate design and distribution of social housing. It is noted that the proposed scheme amendment would result in less dwellings than capable under current zonings and densities.</p>	The comment is noted
9b	Nicole Clarke		I bought, built and invested in Bilingurr based on published plans and a clear commitment to community services and local shopping facilities, to make changes now will have a negative impact on my housing value.	<p><u>Petitioner would like to see land developed as a 'Local Centre.</u> This is inconsistent with LCS17 direction. It is acknowledged that that expectations for a local centre had been created via BNDDP and Local Centre zoning of the land. Impacts on land value is not a planning consideration.</p>	The comment is noted
9c	Victoria Gardener		We purchased our block and built our home 8 years ago. We considered the plans for the estate at this time including the planned shopping/community area and this was a big selling point for us.	<p><u>Petitioner would like to see land developed as a 'Local Centre.</u></p>	The comment is noted

			We will be very disappointed if this was not to proceed and be changed to additional housing. Additional housing will not be positive for the estate however a community store/area certainly will be.	This is inconsistent with LCS17 direction. It is acknowledged that that expectations for a local centre had been created via BNDDP and Local Centre zoning of the land.	
9d	Tanya Motohata		I live out there and would like to do a shop close to home .	<u>Petitioner would like to see land developed as a 'Local Centre.</u> This is inconsistent with LCS17 direction. It is acknowledged that that expectations for a local centre had been created via BNDDP and Local Centre zoning of the land.	The comment is noted
9e	Katie Triyono		I would like what we were first offered.	<u>Petitioner would like to see land developed as a 'Local Centre.</u> This is inconsistent with LCS17 direction. It is acknowledged that that expectations for a local centre had been created via BNDDP and Local Centre zoning of the land.	The comment is noted
9f	Creina Scanlon		You should deliver what has been promised for the sake of the community	<u>Petitioner would like to see land developed as a 'Local Centre.</u> This is inconsistent with LCS17 direction. It is acknowledged that that expectations for a local centre had been created via BNDDP and Local Centre zoning of the land.	The comment is noted
9g	Ania Maszkowski		We would be happy to welcome additional community housing but judging by the rubbish and anti social behaviour related to the ones already here, clearly shows a blatant disrespect for our community. So thanks but no thanks. We reserve our right to seek compensation from the Shire in the event that property prices drop (again) due to the overcrowding, lack of facilities and higher crime rate.	<u>Concerns Residential development will include social housing and result in increased anti social activity.</u> Social housing provision is not a Shire responsibility however, the Shire has been actively advocating to relevant decision makers on the provision of social housing in Broome including the appropriate design and distribution of social housing. It is noted that the proposed scheme amendment would result in less dwellings than capable under current zonings and densities. <u>Land value</u> Perceived impacts on land value is noted but not a valid planning consideration. <u>Compensation</u> There is no known avenue for landowners that are not the subject of rezoning, to seek financial compensation in terms of the Planning and Development Act.	The comment is noted
9h	Erica Stanley		We also bought in Broome North 8 years ago due to the well thought out estate plan and positive involvement and engagement of the community. I find it highly disappointing how the research behind the Broome North community/shopping precinct seemed to have finished two years ago and the community engagement has not as frequently been included.	<u>Petitioner would like to see land developed as a 'Local Centre.</u> This is inconsistent with LCS17 direction. It is acknowledged that that expectations for a local centre	'Child Care Centre' be supported as an 'Additional Use' on part of the site

			<p>I have recently had a huge mission trying to find day care and after school care for my children and believe Broome as a town desperately needs newer , better facilities to match their excellent child care workers.</p> <p>Why couldn't the space be used for a small shopping centre such as an IGA and a Child Care Centre/ After School Care facility next door ? BNPS is after all looking for a new premise? Thank you to Stef for organising and all the other contributors for being part of this well needed petition.</p>	<p>had been created via BNDDP and Local Centre zoning of the land.</p> <p><u>Child care centre</u> The Child Care Centre' is intended to be supported by an additional use over part of the land. 'Child Care Centre' is identified as an "A" land use with in the Residential Zone meaning that it is a discretionary use which requires advertising prior to a decision to approve.</p>	The comment is noted
9i	Seth Wright		<p>People have brought in this area for reasons that they were told would happen. The area has more than enough low-income housing. The school is already full.</p> <p>If you wanted to put a police station with 5 permanent staff if be all for it.</p>	<p><u>Petitioner would like to see land developed as a 'Local Centre.</u> This is inconsistent with LCS17 direction. It is acknowledged that that expectations for a local centre had been created via BNDDP and Local Centre zoning of the land.</p> <p><u>Concerns Residential development will include social housing and result in increased anti social activity.</u> Social housing provision is not a Shire responsibility however, the Shire has been actively advocating to relevant decision makers on the provision of social housing in Broome including the appropriate design and distribution of social housing. It is noted that the proposed scheme amendment would result in less dwellings than capable under current zonings and densities.</p> <p><u>Lack of capacity within Broome North Primary School.</u> The Department of Education have no objection as the proposal would have 'no significant impact' on student enrolment demand at nearby public schools.</p>	The comment is noted
9j	Astrid Gerrits		<p>Broome North is special. Those that have lived or stayed here know that. It is different from other suburbs because it is easy to get around in, to exercise, to enjoy the native bush all around and in the fantastic play grounds. The enjoyment of current residents should reflect and emphasise that this suburb is well designed. The community centre is an essential part of that; we were just waiting for the estate to grow and this would become an integral part of living in the wider BN area. The growth will happen, and then it will become viable for those entrepreneurs or chains that are currently not feeling it. Rezoning this area now will jeopardise the natural growth and development as intended for this area.</p> <p>We need to stay put and consider how we can use at least a part of the current open space for community engagement, in a way that can last along side small scale retail and services (creating a great bike track now to bulldoze it when a shop arrives does not make sense either). The space needs proper planning and maybe a regional incentive (including NDIS, Lotteries and other funding) for a garden centre/minimarket/cafe/bike-cross track to be set up and possible some shared small office/practice spaces that various existing services could use as a satellite space on roster. This would improve community cohesion, enable the less able to access something else than</p>	<p><u>Petitioner would like to see land developed as a 'Local Centre.</u> This is inconsistent with LCS17 direction. It is acknowledged that that expectations for a local centre had been created via BNDDP and Local Centre zoning of the land.</p> <p><u>Use of land for community purposes</u> As the land is privately owned, suggestion of the land being used for community purposes would be at the discretion of the landowner.</p>	The comment is noted

			footpaths or kids parks independently, offer some job opportunities for local teenagers and people that need support in the workplace and access to town based services on a regular real local basis.		
9k	Steve Lockwood		I live here	Noted	The comment is noted
9m	Amanda Riley		I bought my new property in Broome North several years ago. I chose Broome North over other residential areas in Broome as it was promoted that it would have a shopping/services hub. That meant a lot to me and still does. Build extra residential on Robuck or Cable Beach areas that are already suburbia's !!	<u>Petitioner would like to see land developed as a 'Local Centre.</u> This is inconsistent with LCS17 direction. It is acknowledged that that expectations for a local centre had been created via BNDDP and Local Centre zoning of the land.	The comment is noted
9n	Julia Hampton		We don't need more housing we need shops	<u>Petitioner would like to see land developed as a 'Local Centre.</u> This is inconsistent with LCS17 direction. It is acknowledged that that expectations for a local centre had been created via BNDDP and Local Centre zoning of the land.	The comment is noted
9o	Gina Lincoln		We bought and built in Broome North because of the community feel to the place and the great school. A key part of a great community is a community hub, a central focus point for residents to connect. Its very, very clear that investment in community spaces is an essential part of preventing youth crime. Although there has been a lot of welcome investment in youth spaces in central Broome in recent years (skate park, bike park, town beach etc), none of these are accessible for our kids. The Shire needs to think seriously about the needs of our youth in Broome North and the escalating crime rate here. Invest in our community hub, our 'town centre' instead of completely swiping it off the map. Use some common sense. Apply some equity.	<u>Petitioner would like to see land developed as a 'Local Centre.</u> This is inconsistent with LCS17 direction. It is acknowledged that that expectations for a local centre had been created via BNDDP and Local Centre zoning of the land. <u>Lack of community infrastructure for existing population including for older children.</u> Broome North currently lacks the service population needed to provide many of the facilities and services within that footprint of the Broome North community. The repositioning of commercial precincts within the BNDDP will maximise catchment areas and provide the best opportunity for commercial and community services to be feasible and sustainable long term for the betterment of the broader Broome North community.	The comment is noted
9p	Caroline Goodey		Broome North needs it's own small grocery store or deli, a childcare centre and a space for small business, not more housing.	<u>Petitioner would like to see land developed as a 'Local Centre.</u> This is inconsistent with LCS17 direction. It is acknowledged that that expectations for a local centre had been created via BNDDP and Local Centre zoning of the land.	The comment is noted
9q	Kathryn Costello		I have lived in Broome North for the last 8 years. This area needs to continue to be community focused and the original plans for this area will achieve that. Additional housing will not.	<u>Petitioner would like to see land developed as a 'Local Centre.</u> This is inconsistent with LCS17 direction. It is acknowledged that that expectations for a local centre had been created via BNDDP and Local Centre zoning of the land.	The comment is noted
9r	Leanne Wilde		We bought a house in Broome North because we loved the thought behind the estate plan. Lots of things had been considered. We liked how the houses were designed with breezes in mind to	<u>Petitioner would like to see land developed as a 'Local Centre.</u>	The comment is noted

			<p>reduce power, we liked how native trees were used to reduce water and we also liked the idea of a local centre. The estate developers understood the importance of community engagement and connection. How being connected as a community reduces crime and how building a sprawling residential estate with nowhere for residents to buy provisions would be irresponsible. Not everyone is able to get to Coles. The local centre wasn't just a store though, it had plans for a space to store our community barbecue and an area for a community noticeboard so residents can share ideas/dates and stay connected. With so much negative press in Broome at the moment particularly about youth crime, I would have thought community engagement would be a priority.</p>	<p>This is inconsistent with LCS17 direction. It is acknowledged that that expectations for a local centre had been created via BNDDP and Local Centre zoning of the land.</p> <p><u>Consultation</u> Public consultation was undertaken in accordance with LPP5.14 and an additional 3 weeks provided to ensure sufficient opportunity for comment. There was also a voluntary consultation program undertaken by the proponent in an attempt to better inform residents and provide a forum to discuss potential concerns.</p>	
9s	Giles Tipping		<p>We purchased our two properties in Broome north firmly in the knowledge that the site would be a commercial development with a range of businesses to serve the local community. The Broome north master plan already includes two huge new housing estates to the north and west of the current waranjarri estate. If this commercial zoned land is changed to residential, Broome North will risk becoming another soulless "satellite suburb" and we will have missed a huge opportunity to build on the vibrancy which was so evident when the estate was first developed.</p>	<p><u>Petitioner would like to see land developed as a 'Local Centre.</u> This is inconsistent with LCS17 direction. It is acknowledged that that expectations for a local centre had been created via BNDDP and Local Centre zoning of the land.</p>	The comment is noted
10	Department of Education 21/2/2021		<p>The Department has reviewed the proposed rezoning from Residential R30/R40, Town Centre Zone and Parks and Recreation Reserve to Residential R20 including the Child Care Centre listed as an 'Additional Use' on the subject site.</p> <p>The Department wishes to advise that it has no objection to the proposal as there will be no significant impact on student enrolment demand of nearby public schools. However, any further changes to the zoning, residential density coding and dwelling lot numbers which may result in an increase to the student yield will require prior consultation with the Department.</p> <p>In relation to the proposed inclusion of a Child Care Centre, the Department supports this proposal as it is in line with the State Government's EduCare commitment which seeks to increase the opportunity for parents to access child care related services within close proximity of public primary school sites.</p> <p>Notwithstanding this, given its close proximity to the Broome North Primary School (Primary School), it is expected that the future child care centre will comply with the relevant access and on-site car parking requirements. This includes the provision of safe and convenient drop-off and pick-up of children to be contained on site to avoid any conflict with the operation of the Primary School in terms of traffic, access and parking. The existing on-street car parking bays directly adjacent to the subject site are currently utilised for drop-off and pick-up of students of the Primary School.</p> <p>If there are any modifications to the existing road reserves, on-street car parking embayments, or access immediately adjacent to the Primary School, prior consultation with the Department will be required.</p>	<p>It is noted that the Department of Education expect no significant impact on student enrolment demand on nearby public schools.</p> <p>Matters relating to potential 'Child Care Centre' would be considered during the development application process, general support noted.</p>	<p>'Child Care Centre' be supported as an 'Additional Use' on part of the site</p> <p>The submission is noted</p>

1 February 2021

Luke Cervi
Coordinator Planning Services
Shire of Broome

Via e-mail: Luke.Cervi@broome.wa.gov.au

Dear Luke,

**RESPONSE TO SUBMISSIONS – PROPOSED AMENDMENT NO. 12 TO THE
SHIRE OF BROOME LOCAL PLANNING SCHEME NO.6**

We refer to the recent correspondence provided on 21 January 2021 which detailed a summary of submissions received during the public advertising period of the above-mentioned proposed Scheme Amendment. This letter provides a response to the key issues raised in submissions, which demonstrates that in the view of DevelopmentWA, there is no cause or justification for any modifications to the amendment currently before the Shire.

1. Lack of Adequate Services and Diminishing Amenity

Submitters indicate a significant basis for purchasing in Broome North was the high levels of amenity incorporated into the area including child care, public open space, primary school, high school and local shopping. It is suggested that the rezoning would result in this outcome not being achieved, essentially that there would be a lack of services to meet the community's needs now and into the future. Importantly:

- the amendment seeks to ensure and offer confidence in the delivery of a child care centre adjoining Broome North Primary through additional use provisions, a convenient and desirable location for this important piece of community infrastructure;
- the amendment and subdivision will not result in an undersupply of public open space in the area, with an excess of 10% of POS already provided in convenient and walkable catchments based on adopted LDP1 for Waranyjarri Estate.

This Scheme Amendment ensures there is land available to deliver the level of amenity expected by residents and required to meet future population demand in the area. It is important to consider this amendment in the context of the broader changes being pursued in parallel by DevelopmentWA, which are focused re-aligning

WWW.RFFAUSTRALIA.COM

the existing Strategic and Statutory Planning Framework for the Broome North area to ensure that commercial and retail land is located to:

- meet longer-term population growth in the area;
- ensure that the commercial and retail areas are of an adequate area to support both supermarket and specialty retail offerings supported by the community; and
- the location of future commercial/retail land offers improved accessibility and amenity to all existing and future residents living north of the Broome airport.

The overall changes are represented in the Draft District Structure Plan included as **Annexure 1**, expected to be submitted formally to the Shire very shortly.

This alternative location for a new centre is slightly further west, still within a convenient catchment for existing residents of Broome North, and also more accessible to the large established community in Cable Beach North (Sunset Park). It will also have better access from the primary road network north of the Broome Airport. It is also a larger area, providing the space to attract a full-scale supermarket necessary to meet future population growth and to generate sufficient trip numbers needed to make specialty retail and commercial outlets viable.

These coordinated changes are consistent with the adopted 2017 Local Commercial Strategy (LCS), and recent further technical investigations completed by DevelopmentWA to inform the size and location of a future centre north of the airport. These investigations completed by Deep End Services (2020) highlighted that:

- pursuit of a local centre model (which is all that could be delivered at the subject site given its size) was highly unlikely to attract an anchor grocery tenant;
- even if it were to be built, it would be unlikely to include the specialty stores sought by the community; and
- if development of a larger centre with space for specialty stores was pursued, the lack of adequate visitor traffic would render many of these additional tenancies permanently vacant to the detriment of the amenity of the area.

The Deep End Services report (2020) highlights several regional Western Australian outcomes where a local centre project resulted in the scenarios above anticipated for Waranyjarri estate being realised:

The challenges in leasing suburban neighbourhood-style centres in regional towns located outside the central area can be seen in several examples including:

- *Hannan's Boulevard shopping centre located in the northern suburbs of Kalgoorlie, about 2km north of the CBD and with a local catchment of*

about 5,000 people. Today, 10 of the 16 mall-based specialty shops located with Coles are vacant.

- A new Coles at Orana in Albany was developed with no specialty shops despite ample land. This was to mitigate the risk on leasing small shops in outer areas.*
- Elsewhere in Albany, Chester Pass Mall on the northern outskirts has 6 vacancies of 16 specialty shops located with Woolworths (Deep End Services 2020)*

A more localised example of smaller centres being unsuccessful is in Roebuck estate located, on the corner of Sanderling Drive and Spoonbill Avenue. The only commercial development in the area has been inconsistently tenanted, offering little commercial amenity to residents. Now leased by a church, it offers no retail or commercial amenity. Furthermore, much of this local centre site has never been developed, remaining undeveloped and vacant for some 21-years since the area was first developed.

In summary, the proposed amendments, in the context of the broader changes and relocation of the commercial centre, are focused on improving the prospect of retail and community services and infrastructure sought after by the community, as opposed to removing this opportunity. DevelopmentWA expects no loss in commercial/ retail amenity. Rather a longer-term improvement in the offering will be achieved through these coordinated changes.

Plate 1 - Looking West at the Roebuck Estate Local Centre

WWW.RFFAUSTRALIA.COM

Plate 2 - Looking East at the Roebuck Estate Local Centre

1. Commercial Interest and Development Scale

Some submissions indicated they were aware of genuine commercial interest to operate from the subject site. The interest inferred to have been expressed was predominantly from specialty stores. DevelopmentWA has made extensive efforts to procure interest for the development of the current site as a local centre over the last ten years. The following information is a snapshot of efforts to date:

- Direct engagement with Woolworths in 2011 who subsequently advised the longer-term population for the area demands a larger full-scale supermarket and the current site is not large enough to facilitate this outcome;
- In 2015, IGA visited Broome, subsequently advising DevelopmentWA the site location does not offer a large enough catchment for a local centre style outcome with IGA as an anchor;
- The 2015 DevelopmentWA put out an EOI seeking interested developers and tenants (anchor tenant contact outlined in table below). Due to a lack of submissions the process went no further;

- Following the outcomes of the EOI, in 2016, DevelopmentWA and its commercial agent undertook extensive engagement and targeted a variety of businesses attempting to procure legitimate interest, shown However, feedback confirmed that without an anchor supermarket tenancy, the project could not proceed.
- The 2017 Local Commercial Strategy (LCS) was delivered to assist in understanding alternative locations and area required to lure a commercial and retail development outcome north of the Broome Airport. It determined the current site was inadequate and not located appropriately.

Notable comments provided through this consultation from a major retailer to DevelopmentWA are below:

Two smaller size supermarkets will not fully cater for the customers needs, leading them to still undertake a full weekly shop at either of the 2 major supermarkets in town...

In our development experience 1,500m2 of speciality adjacent to a convenience based supermarket offer will be unsustainable. The majority of residents will still seek to undertake their major weekly shop at a full line supermarket limiting the customer traffic for the smaller traders adjacent....

..... requires a population of 5,000 6,000 people per full line supermarket. Landcorp's expected population is between 7,000 - 11,000 people, therefore the need of a full line supermarket is justified

Meeting	Date
Woolworths	June 2015
IGA	June 2015
Polaris (Targeted all supermarkets including Foodland from Darwin	June 2015 - 2016
Coxon Group – visit Broome	June 2015
IGA – visit Broome	November 2015
Aldi	Do not do regional locations

The Shire's 2017 adopted LCS re-enforced DevelopmentWA's findings, and the advice of major retailers, of the inadequacy of the current site for the development of centre to meet the future demands of the population north of the airport as it grows. This has been further justified following the recent commercial advice completed by Deep End Services (2020) procured by DevelopmentWA which

determined it would be “*appropriate to formalise the LCS recommendation by amending LDP3, as proposed*”, which is to remove the Local Centre site and create a new ‘District Centre’ site located at the corner of Gubinge and Fairway Drive.

In summary, DevelopmentWA has gone to significant lengths in the previous 10-years to procure a developer and tenant interest for the development of a local centre at the subject site. This engagement has shown there is a lack of interest in the subject site for development and that an alternative, larger location capable of accommodating a larger retail footprint is necessary to address commercial requirements of retailers.

2. Insufficient Consultation with the Community

DevelopmentWA undertook a community meeting with Waranyjarri Estate residents on Thursday 29th October 2020 which exceeds the consultation requirements for a Scheme Amendment outlined in the relevant legislation. All attendees were offered the opportunity for further direct engagement with DevelopmentWA on issues or concerns raised. The opportunity was available to meet directly with RFF who are based locally in Broome with flexibility to meet around resident employment/recreation schedules. No person took up this offer.

DevelopmentWA also prepared a list of Frequently Asked Questions (FAQ’s) which were accessible from the DevelopmentWA website.

Advertising in the local newspaper was undertaken by the Shire of Broome in accordance with relevant legislation. Signage installed on-site was in accordance with directions from the Shire of Broome and accepted as adequate following installation. Furthermore, the statutory advertising period for the Local Planning Scheme Amendment was extended by DevelopmentWA to allow additional time to provide comment, given the Christmas and New Year period.

The amendment seeks to implement the findings of the Shire’s adopted LCS. The preparation of the LCS included community consultation undertaken by the Shire of Broome. The version used for consultation incorporated the recommendation to relocate the planned local commercial centre from the subject site to a more suitable location near the corner of Gubinge Road and Fairway Drive. Since adoption of the Local Commercial Strategy in October 2017 by the Shire the strategy has been a publicly available document on the Shire of Broome’s website.

3. Social Housing and Anti-Social Behaviour

Submitters infer that the subdivision and development of the site will lead to more social housing and greater amounts of anti-social behaviour. The likelihood is that this proposed amendment will actually deliver a reduction in the longer-term residential dwelling yield on the subject site compared with what is currently possible under the presently adopted Local Planning Scheme.

WWW.RFFAUSTRALIA.COM

The current zoning of the subject site and development outcome as contemplated in the Shire of Broome's adopted Local Development Plan enables medium density residential development integrated with the local commercial centre which could deliver similar or higher dwelling yields compared to the proposed amendment. An original draft plan of subdivision is included in **Annexure 2** and the table below details potential yields for grouped and multiple dwellings based on a density of R40. Yields are close to 40 and over 70 for the two development outcomes. This compares with current low density development outcome proposed, anticipated to deliver 34 single houses shown in the concept plan of subdivision in **Annexure 3**.

Therefore, there is no great likelihood or risk of the outcomes contemplated in the submissions occurring through the proposed amendment and could be argued the changes reduce the risk of these outcomes.

Yield based on Current Zoning and Development				
Lot	Area	Density	Grouped Dwelling Yield	Desktop Multiple Dwelling Yield (75m2 Plot Ratio Area P/Dwelling)
1	698	R40	3	5
2	750	R40	3	6
3	750	R40	3	6
4	728	R40	3	5
5	771	R40	3	6
6	771	R40	3	6
7	1587	R40	7	12
8	1083	R40	4	8
9	649	R40	2	5
10	667	R40	3	5
11	654	R40	2	5
12	747	R40	3	5
Total Potential Dwellings			39	74

4. Traffic Congestion and Safety

Submitters indicated that the proposal presents the risk of increased traffic movements in the area and round the school creating a safety risk for residents and children on their way to and from Broome North Primary School. Advice from DevelopmetWA's traffic engineer, GHD, has confirmed the amendment would result in a reduction of traffic in the area longer-term as opposed to the current zoning and contemplated local centre development.

GHD advised that the local centre on its own (excluding any residential development) would typically generate around 3,630 vehicle movements per day, whereas the

proposed amendment will create yield of around 35 dwellings, creating just 480 vehicle movements per day.

Therefore, the proposed amendment will lead to a longer-term reduction in congestion and traffic movements in the vicinity of the subject site and the Broome North Primary School.

5. Primary School Capacity

Submitters indicated that the Broome North Primary School would not have capacity to accommodate additional students resulting from the residential subdivision. The Department of Education has also not objected to the project, outlining it considers that *'there will be no significant impact on enrolment demand of nearby public schools'*.

6. Child Care Centre Development

The Department of Education notes that it supports the location of the Child Care Centre but wishes to ensure the land set aside and location is adequate to accommodate parking and ensure safe access and egress. The child care site contemplated for creation of around 2,000m² is consistent with the area of most child care centres throughout regional WA which are capable of accommodating all parking on-site. Safe access and egress for the site will also be possible as the site will have frontage to multiple streets and is not across from any of the primary access points into Broome North primary school.

Thank you for the opportunity to review submissions and provide a response. If there are any further queries, please contact the below at owen@rffaustralia.com or on 0407 684 337.

9.2.2 DEVELOPMENT APPLICATION 2020/97 - USE NOT LISTED - BETTING AGENCY

LOCATION/ADDRESS:	Lot 202, 106 Frederick Street, Broome
APPLICANT:	Hendry Group
FILE:	FRE-1/106
AUTHOR:	Coordinator Planning Services
CONTRIBUTOR/S:	Nil
RESPONSIBLE OFFICER:	Director Development and Community
DISCLOSURE OF INTEREST:	Nil

SUMMARY:

The Shire has received a development application seeking approval for a 'Use Not Listed' Betting Agency at Shop T22 Lot 202, 106 Frederick Street, Broome.

The application has been assessed against the Shire's Local Planning Scheme No 6, including the purpose and objectives of the Local Centre Zone.

The application is being referred to Council for determination as several submissions have been received.

This report recommends the application be approved.

BACKGROUNDSite and Surrounds

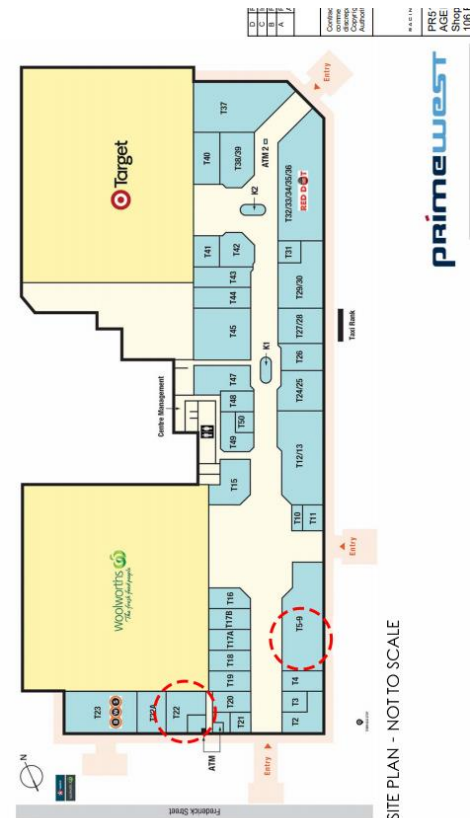

Lot 202, 106 Frederick Street, Broome is a 55,840m² property, which is zoned Local Centre under Local Planning Scheme No 6 (**LPS6**).

The site is currently developed as the Boulevard Shopping Centre containing several shops, liquor store, offices, restaurants, service station with ancillary signage and car parking.

The site is accessible from two points on Frederick Street including one point for access only and the other for access and egress.

NC

Proposal

The application is seeking approval to use shop T22, on the outside of the Boulevard Shopping Centre, as a Betting Agency (**Attachment 1**) which is a Use defined in the Model Scheme Text but not within LPS6.

As a 'Use Not Listed' (in the zoning table of LPS6), which has been subject to several submissions, a decision is required on whether a 'Betting Agency' is an appropriate use on the site given the purpose and objectives of the Local Centre Zone.

COMMENT

In accordance with delegation PLA5 - Determine Development Application and Clause 3.18.2(a) of LPS6, officers determined the 'Use not Listed – Betting Agency' may be appropriate in the Local Centre zone and required public notice to be given prior to a determination being made.

Public notice of the application resulted in 10 submissions being received.

Details of the submissions including the officer response can be found at **Attachment 2**.

The submissions are summarised as follows:

1. Anti-gambling sentiments;
2. Concerns the proposed location is frequented by families and children;
3. Concerns anti-social activity will occur in proximity of the proposed use; and
4. Alternative location considered more appropriate.

Most of the submissions expressed anti-gambling sentiments and opposed the proposed location.

Whilst it is acknowledged that there are differing community morals in relation to gambling, it is not the role of town planning to adjudicate on the topic.

From a Town Planning perspective, it is important to focus on the locational factors of the proposal and determine whether it is appropriate at the proposed location. In this regard, a betting agency is like those businesses which sell alcohol or tobacco, which are legitimate businesses, despite the products they sell being subject to differing community morals (noting such businesses are located at the Boulevard Shopping Centre).

Several submissions raised concerns regarding the prominent location within an area frequented by families and children and the impacts this may have on 'normalising' gambling.

It is important to note entry to the proposed betting agency is restricted to adults (persons 18 years and over).

The proposed location is on the outside of the Boulevard Shopping Centre away from the centre entrance and near a liquor store, which is also an age restricted premise.

It is acknowledged many families and children access the shopping centre, however the site of the proposed betting agency is in an area unlikely to be regularly frequented by families and children due to the nature of the businesses in the immediate vicinity of the application site.

Whilst the concerns of 'normalising' gambling is noted, the promotion of gambling is controlled by State and Federal regulation of the industry not Local Government. The gambling services on offer within the business are not proposed to be advertised from outside of the premise. The signage proposed for the premises is limited to the business name 'TAB' and key operating matters such as hours of operation and restriction on persons under 18 from entering the building. The size and locations of these signs are in accordance with Council's Planning Policies and are therefore exempt from the need to obtain Development Approval

Most submissions strongly opposed the location, and one also suggested an alternative location may be more suitable.

The suggested alternative is for a site located on Coghlan Street which is understood to have previously been occupied by a motor vehicle dealership and is within the Town Centre Zone.

It is noted there will be alternative sites the betting agency may be able to operate from in Broome, however Council is required to consider the application for the current proposed location on its town planning merit.

When considering what zoning would be appropriate, the purpose and objectives of the zone must be considered.

In this regard the Local Centre Zone which applies to the proposed Boulevard Shopping Site states as follows:

3.5.1 The purpose of the zone is to provide for convenience retailing, health, welfare and community facilities which serve the local neighbourhood, but which do not detract from Chinatown as the principal centre for retail and commercial activity.

3.5.2 The objectives of the Local Centre Zone are to:

- (a) *Ensure development within the Local Centre Zone, is consistent with the Local Planning Strategy and the Local Commercial Strategy*
- (b) *make provision for development providing a range of convenience goods and services whilst excluding activities which may adversely impact upon the residential amenity, generate large traffic volumes or detract from the role of the Town Centre Zone as the principal centre for retail and commercial activity;*
- (c) *ensure the scale and design of development is consistent with a small-scale local centre serving the day to day needs of the immediate locality;*
- (d) *guide and control development to achieve optimum levels of safety and accessibility and allow for strategic vehicular, pedestrian, cycling and open space linkages;*
- (e) *ensure land uses, and developments and open space areas are of high quality and preserve or enhance the streetscape; and*
- (f) *ensure the local centre, land uses, and developments are complemented by landscaping and other features which enhance the appearance and reflects Broome-style architecture as specified in clause 4.12.*

The 'Betting Agency' is essentially similar to a retailing activity and therefore is consistent with the purpose of the zone.

Additionally, given the site is located away from residential areas, it is not envisaged to impact on residential amenity.

The concerns of exposing children to gambling is noted, however the location of the application site on the outside of the centre, would decrease the exposure to children and families to the use itself.

It is acknowledged anti-social activity occurs at commercial premises from time to time, however the direct link to Betting Agencies is not clearly established.

Regardless, to limit the exposure of gambling to the general public, a condition can be included in the approval to restrict broadcasting from the site.

Conclusion

The number of submissions received on the application indicates a level of community concern regarding the nature of the activities associated with the proposed betting agency.

Although these concerns are acknowledged, the proposed use is consistent with similar retail uses currently located in the Boulevard Shopping Centre.

Based on the assessment of the application against the provisions of LPS6 and relevant town planning principles, the application is recommended for approval subject to appropriate conditions and advice notes.

CONSULTATION

Public consultation was undertaken in accordance with Local Planning Policy 5.14 Public Consultation – Planning Matters.

The application was advertised for 21 days and included a public notice in the Broome Advertiser, letters to all landowners within 100m of the site, a public notice placed on site and the application being displayed on the Shire's website.

Ten (10) submissions were received during the public consultation period.

STATUTORY ENVIRONMENT

Planning and Development Act 2005

Planning and Development (Local Planning Schemes) Regulations 2015

68. Determination of applications

- (1) The local government must not determine an application for development approval until the later of —
 - (a) if the application is advertised under clause 64 — the end of each period for making submissions to the local government specified in a notice referred to in clause 64(3); and
 - (b) if a copy of the application has been provided to a statutory, public or planning authority under clause 66 — the end of each period for providing a memorandum to the local government referred to in clause 66(3).
- (2) The local government may determine an application for development approval by —
 - (a) granting development approval without conditions; or
 - (b) granting development approval with conditions; or
 - (c) refusing to grant development approval.

77. Amending or cancelling development approval

- (1) An owner of land in respect of which development approval has been granted by the local government may make an application to the local government requesting the local government to do any or all the following —
 - (a) to amend the approval to extend the period within which any development approved must be substantially commenced;
 - (b) to amend or delete any condition to which the approval is subject;
 - (c) to amend an aspect of the development approved which, if amended, would not substantially change the development approved;
 - (d) to cancel the approval.
- (2) An application under subclause (1) —
 - (a) is to be made in accordance with the requirements in Part 8 and dealt with under this Part as if it were an application for development approval; and
 - (b) may be made during or after the period within which the development approved must be substantially commenced.
- (3) Despite subclause (2), the local government may waive or vary a requirement in Part 8 or this Part in respect of an application if the local government is satisfied the application relates to a minor amendment to the development approval.
- (4) The local government may determine an application made under subclause (1) by —
 - (a) approving the application without conditions; or
 - (b) approving the application with conditions; or
 - (c) refusing the application.

Local Planning Scheme No.6

Deemed provisions for local planning schemes (Schedule 2).

- 3.18.2 If a person proposes to carry out on land any use is not specifically mentioned in the Zoning Table and cannot reasonably be determined as falling within the type, class or genus of activity of any other use category the local government may:
- (a) determine the use is consistent with the purpose and objectives of the zone and is therefore permitted;
 - (b) determine the use may be consistent with purpose and the objectives of the zone and thereafter follow the advertising procedures of clause 64 of the deemed provisions in considering an application for development approval; or
 - (c) determine the use is not consistent with the purpose and objectives of the zone and is therefore not permitted.

POLICY IMPLICATIONS

Local Planning Policy 5.14 Public Consultation – Planning Matters (LPP 5.14)

The application was publicly advertised in accordance with LPP 5.14.

FINANCIAL IMPLICATIONS

Nil

RISK

Reputation

There is risk of reputational damage due to the multi-faceted role of Council.

In this instance, Council has a regulatory function in the administration and determination of the Development Application and is guided by the Local Planning Scheme No.6.

Council's determination of development applications can, at times, be seen to conflict with the views and concerns of individual constituents.

In this instance, while the concerns of submitters are noted, they need to be considered in the context of the local planning framework and legislation which enables gambling businesses.

It is also noted some submitters opposing the Development Application have incorrectly assumed or implied the Shire of Broome is the proponent.

Decision Review

If aggrieved by Council's decision, the applicant may seek a review of the decision to the State Administrative Tribunal.

The applicant can also seek an amendment of the Development Approval and amendment or removal of conditions of approval from the local government.

STRATEGIC IMPLICATIONS

People – We will continue to enjoy Broome-time, our special way of life. It's laid-back but bursting with energy, inclusive, safe and healthy, for everyone:

Effective communication

Accessible and safe community spaces

A healthy and safe environment

Place – We will grow and develop responsibly, caring for our natural, cultural and built heritage, for everyone:

Realistic and sustainable land use strategies for the Shire within state and national frameworks and in consultation with the community

Prosperity – Together, we will build a strong, diversified and growing economy with work opportunities for everyone:

Affordable land for residential, industrial, commercial and community use

Key economic development strategies for the Shire which are aligned to regional outcomes working through recognised planning and development groups/committees

Performance - We will deliver excellent governance, service and value, for everyone:

Effective community engagement

Improved systems, processes and compliance

VOTING REQUIREMENTS

Simple Majority

COUNCIL RESOLUTION

(REPORT RECOMMENDATION)

Minute No. C/0221/005

Moved: Cr C Mitchell

Seconded: Cr B Rudeforth

That Council:

- 1. Approves Development Application 2020/97 for a Use Not Listed – Betting Agency at Tenancy T22, Lot 202, 106 Frederick Street, Broome subject to the following conditions and advice notes:**

Conditions:

- (a) The development plans, as date marked and stamped 'Approved', together with any requirements and annotations detailed thereon by the Shire of Broome, are the plans approved as part of this application and shall form part of the development approval issued, except where amended by other condition of this approval.**
- (b) Broadcasting of race and other events is to be restricted to inside the building only and must not be visible or audible from outside the building.**
- (c) Any litter associated with the use of the premises as a Betting Agency is to be collected daily and appropriately disposed of to the satisfaction of the Coordinator Planning Services.**

ADVICE NOTES

Note 1: If the development the subject of this approval is not substantially commenced within a period of 2 years, or another period specified in this

approval after the date of determination, the approval will lapse and be of no further effect.

Note 2: Where an approval has so lapsed, no development must be carried out without the further approval of the local government having first been sought and obtained.

Note 3: If the applicant or owner is aggrieved by this determination there is a right of review by the State Administrative Tribunal in accordance with the Planning and Development Act 2005 Part 14. An application must be made within 28 days of the determination.

Note 4: An owner of land in respect of which development approval has been granted by the local government may make an application to the local government requesting the local government to do any or all the following:

- (a) to amend the approval to extend the period within which any development approved must be substantially commenced;**
- (b) to amend or delete any condition to which the approval is subject;**
- (c) to amend an aspect of the development approved which, if amended, would not substantially change the development approved;**
- (d) to cancel the approval.**

The application is to be made in accordance with the requirements in Part 8 of the Planning and Development (Local Planning Schemes) Regulations 2015 and dealt with under this Part as if it were an application for development approval; and may be made during or after the period within which the development approved must be substantially commenced.

Note 5: This is a Development Approval of the Shire under its Local Planning Scheme No. 6. It is not a Building Permit or an approval to commence or carry out development under any other law. It is the responsibility of the owner to obtain any other necessary approvals, consents and licenses required under any other law, and to commence and carry out development in accordance with all relevant laws.

- 2. Advises the Development Application applicant and submitters of Council's decision.**

No.	Name/Date Received	Property Affected	Content of Submission	Officer Comment	Recommendation
1	James Anderson 14/1/21		I am opposed to the application for a Betting Agency at the Broome Boulevard. This business model is commonly accompanied by poor social behaviour which will detract further from the declining social goals of our town. It will affect tourism, normal trade, and the social fabric of Broome.	Anti-gambling sentiments noted. Unclear what social behaviours the submitter is concerned about. Condition to be imposed regarding litter.	The concerns are noted.
2	Elise Zanchettin 14/1/21		I do not agree with a TAB betting agency being put in at the proposed premise, let alone by premise in Broome. One location is enough. The proposed location is a family friendly centre. TAB premisses for not align with this.	Anti-gambling sentiments noted. Opposition due to other premises existing in town noted. Restricting a land use / business to a single location could be considered anti-competitive action. The application needs to be determined on its town planning merit.	The concerns are noted.
3	Wade Freeman 14/1/21		Im writing to lodge my objection to the proposed TAB betting agency in the boulevard shopping center. This is not the type of business for what is meant to be a family environment and greater access to gambling will do nothing to improve the livelihoods of local Broome residents. Currently I live in the vicinity of a betting agency and regularly witness the social distinction it generates. Please advise to reject this any any similar proposal.	Anti-gambling sentiments noted. Acknowledged that the Boulevard Shopping Centre is frequented by families however, proposed location is away from centre entrance in close proximity to another age restricted premise (liquor store).	The concerns are noted.
4	Jennifer Reinert 14/1/21	Fong Way, Broome	I'd like to express my opposition to the proposed TAB at the boulevard. It is not at all appropriate to have betting in this location.	Unclear why submitter considers location inappropriate. Acknowledged that the Boulevard Shopping Centre is frequented by families however, proposed location is away from centre entrance in close proximity to another age restricted premise (liquor store).	The concerns are noted.
5	Kelly Blackburn 14/1/21		I am writing to oppose the proposal for the TAB in the Boulevard Shopping Centre. The negative social impacts that would be caused by this, at an already struggling centre, would be devastating for the community.	Anti-gambling sentiments noted. Unclear what social impacts the submitter is concerned about. Condition to be imposed regarding litter.	The concerns are noted.
6	Phoebe McGuinness-Morich 15/1/21		I write to you in response to the application for the TAB at the Broome Boulevard shopping centre. I absolutely implore you to consider a different location. As a 13+ year resident and rate payer in Broome this is absolutely the wrong direction for Broome to take. We already have so few activities and safe places for families and teens to be, especially in the wet season it seems like a dangerous and unsafe decision to put a TAB in the shopping centre. Broome already has so many social issues related to addiction such as alcohol use and meth amphetamines and gambling it seems unconscionable to consider a prominent gambling venue open in a shopping centre. Please act in the interest of public safety and our community and prioritise our children by not letting them see on the daily activities that normalise gambling. Our children deserve better, they deserve our protection.	Anti-gambling sentiments noted. Acknowledge that the Boulevard Shopping Centre is a prominent location. However, the location on the outside of the Shopping Centre would not be subject to as significant level of foot traffic. Additionally, it is in an area where other age restricted premises exist reducing the likelihood of families and children frequenting this area.	The concerns are noted.
7	Breeanna Hadrill 15/1/21		good morning, in regards to the TAB to be placed into the shopping centre i think it would such a terrible idea. As i work in the centre i have had enough of the young people coming in and harassing us staff members of every shop let alone the adults. you say you are trying to help and bring cops up to stop the crime well you aren't doing a very hood job ans by going ahead with the TAB you are only causing more harm! i think you need to do something important like something for the young people of the town who have bad home lives and don't ever want to be at home because there parents are high or drunk. the TAB is such a bad idea i am actually disgusted in this, you are only making the town worse not improving it in any way you should really have a hard think about this. i and others already hate walking to and from work because of all the trouble and if the TAB goes	Anti-gambling sentiments noted. Having a tenant in the premises will assist with passive surveillance of the surrounds including nearby car parking and footpaths. The betting agency will likely have trading hours outside of many businesses within the shopping centre which will assist in activation of the site. The submission implies that this is a Shire led proposal, which is not the case as the application was lodged by a private group.	The concerns are noted.

			through well it'll be even worse and i think a lot of shops will end up closing down because of this ans Broome will be the place that no one wants to visit		
8	Vicki Hyman 15/1/21		I strongly oppose this. Proposal. People have extraordinary access to gambling online. There is much evidence of the harm it causes families and individuals. The Boulevard is a family centred for family access to goods and services. The TAB has no relevance there. In the Eastern States they make gambling outlets family friendly, exposing and normalising gambling for children at a young age. We need need to think about family and community repair And not creating more social issues	Anti-gambling sentiments noted. It is acknowledged that gambling can adversely impact on financial position, family relationships and mental health. Gambling is a controlled through State and Federal regulation applying to the industry. Whilst 'TAB' signage is proposed, no promotion of the gambling activities will occur via external signage.	The concerns are noted.
9	Alex Harris 20/1/21	Sands Street, Bilingurr	I'm writing to express my severe opposition to the proposed TAB at the Boulevard. This should be a safe place for families to shop. There is literally zero social good that comes from gambling. The shire should be taking measures to restrict it, not make it more available. I am happy to discuss further if required.	Anti-gambling sentiments noted. It is acknowledged that gambling can adversely impact on financial position, family relationships and mental health. As a Use not Listed, Betting Agency is treated as a discretionary Use which requires development approval. This process has the effect of restricting the use by requiring approval before it can be undertaken.	The concerns are noted.
10	Gabriel Be Biasi 23/1/21		I'm absolutely opposed to opening a TAB office in the Boulevard premises. Please tell them to rent the building previously occupied by the Broome Motors where they can have their own parking space too.	It is understood that Broome Motors was previously located in Coghlan Street which is within the Town Centre Zone. Whilst this site and zoning may be appropriate, the Shire is required to consider the merits of the proposed Boulevard Shopping Centre location.	The concerns are noted.
11	Andy Williams 1/2/21	Goshawk Loop	As a broome resident I am opposed to this proposal. There are more than enough TAB outlets in Broome . Another will encourage further people's addictive behaviours in a low socio economic area. There is enough bad behaviour at the boulevard including rock throwing , domestic violence and group violence . This outlet could encourage more bad behaviour . It is detrimental to other businesses at the boulevard and does not enhance the shopping experience in the slightest .	Anti-gambling sentiments noted. Having a tenant in the premises will help to provide passive surveillance of the surrounds, including nearby car parking and footpaths. Condition to be imposed regarding litter.	The concerns are noted

9.2.3 REQUEST FOR REDUCTION OF APPLICATION FEES FOR THE INSTALLATION OF BATTERY POWERED SMOKE ALARMS IN INDIGENOUS COMMUNITY HOUSING WITHIN THE SHIRE OF BROOME

LOCATION/ADDRESS:	Ardyaloon, Beagle Bay, Bobieding, Djarindjin, Lombadina, Bidyandanga.
APPLICANT:	Department of Communities
FILE:	ABL01
AUTHOR:	Coordinator Building Services
CONTRIBUTOR/S:	Nil
RESPONSIBLE OFFICER:	Director Development and Community
DISCLOSURE OF INTEREST:	Nil

SUMMARY: The Shire of Broome has received a request from the Department of Communities (Department) seeking approval to replace hardwired smoke alarms with 10-year lithium battery powered smoke alarms at several Aboriginal communities. The *Building Regulations 2012* prescribe a form on which application must be made and to charge \$179.50 per application.

Given the large number of properties this charge will apply to (384), the Department is seeking a reduction in the total application fees normally applicable as many of the properties have the same floor plan (95 uniform floor plan types).

Further, the Department is also requesting a discount on the remaining properties.

Council is requested to consider the application by the Department of Communities.

BACKGROUND

Previous Considerations

10 June 2016

Council has previously considered a similar application at the Special Meeting of Council held on 10 June 2016, where Council resolved:

COUNCIL RESOLUTION: **(REPORT RECOMMENDATION)**

Moved: Cr P Matsumoto

Seconded: Cr C Mitchell

That Council advise the WA Housing Authority that:

- The total application fees that apply to the applications for battery powered smoke alarms for houses in each Aboriginal Community outlined below is as stated for each Community:**

(a) Ardyaloon (94 houses)	\$1,661.00
(b) Beagle Bay (76 houses)	\$1,359.00
(c) Bobieding (6 houses)	\$226.50
(d) Djarindjin (49 houses)	\$906.00
(e) Lombadina (4 houses)	\$226.50
(f) Bidyandanga (127 houses)	\$2,265.00

(g) Nillir Irbanjin (9 houses) \$226.50

- 2. The above applications fees represent approximately 10% of the total application fee applied per house for each community.**
- 3. The above application fees apply to the applications for the installation of battery powered smoke alarms subject to:**
 - (a) a single application being submitted for the houses in each of the above Aboriginal Communities; and**
 - (b) full and complete documentation being submitted with each application to allow the Shire to undertake the required assessment of the applications in accordance with legislative requirements.**

CARRIED UNANIMOUSLY BY ABSOLUTE MAJORITY 9/0

The above works were not completed.

The Department has submitted a fresh application to cover the current 384 houses, that they manage across several Aboriginal Communities, within the Shire of Broome.

These houses contain hard-wired mains powered smoke alarms.

The Department has advised they have difficulties maintaining hard-wired mains powered smoke alarms due to frequent interruptions to the power supply in the Aboriginal Communities.

When the power is interrupted, the smoke alarms emit a sharp noise to indicate the loss of power, resulting in tenants damaging the smoke alarms to stop the noise.

Therefore, the Department is proposing to install long life battery powered smoke alarms in these 384 houses, to replace the hard-wired mains powered smoke alarms.

COMMENT

Regulation 61 of the *Building Regulations* 2012 allows for an application to be made to a Local Government for approval to install battery powered smoke alarms in a house, in lieu of hard-wired mains powered smoke alarms.

Under the relevant provisions of this regulation, any application submitted must to be able to clearly demonstrate, to the Shire's satisfaction, the requirements of these provisions can be met.

The Shire has the right to refuse the application.

The Department has advised it will be seeking approval for the installation of the battery powered smoke alarms in six different Aboriginal communities.

The table below outlines the relevant communities and the number of houses in each:

Location	No. of Houses
Ardyaloon	94
Beagle Bay	83
Bobieding	6
Djarindjin	48
Lombadina	16
Bidyadanga	137
Total	384

The Department is seeking a reduction in the standard application fees normally applicable.

In accordance with Regulation 61, a Local Government cannot set a fee of more than \$179.50 per house for this type of application.

This maximum fee of \$179.50 is reflected in Council's schedule of fees and charges.

In accordance with section 6.12(1)(b) of the *Local Government Act 1995*, Council can waive or grant concessions in relation to any amount of money owed to the local government.

The Department has requested:

- a) The Department will submit applications based on a per uniform floor plan (type) basis, in which case applications for the 95 uniform floor plans will be submitted as soon as the project is approved internally by Department; and
- b) Following approvals for the 95 floor plans, the Shire to provide in-principle approval for the Department to commence works on all their managed properties within these communities, on condition they obtain floor plans for each of the 132 unknown properties and retrospectively submit and pay for any additional applications for all other unique plans identified.

Officers have examined the proposal and are comfortable assessing the 95 confirmed uniform floor plan types.

There are risks associated with part (b) of the Department's request, being retrospectively approving the works to the existing housing stock as Shire officers will not have assessed the locations of the proposed safety devices.

It is recommended the Department submits applications, and receive building approval, before commencing any building works.

CONSULTATION

Several discussions have occurred between the Shire's Coordinator Building Services and the Department Project Manager in relation to this matter.

These discussions are continuing and will be ongoing throughout the process.

The Department has indicated in-principle agreement to the reduced fees outlined above, with different applications being lodged for each community and providing the information required to satisfy the building permit approval process.

STATUTORY ENVIRONMENT

Building Regulations 2012

Regulation 61. Local government approval of battery powered smoke alarms.

- (1) The local government of the district in which a dwelling is located may approve of the use, in the dwelling or a part of the dwelling, of a battery powered smoke alarm (rather than one that is connected to the mains power supply) if satisfied that, at the time of giving the approval, installing a smoke alarm connected to the mains power supply would involve—
 - (a) a sufficient problem of a structural nature; or
 - (b) a sufficient problem of any other nature, the cause of which is not within the control of the owner.
- (2) The local government may give its approval in relation to an alarm that was installed before the approval is to be given.
- (3) An application for approval must be made in the manner and form approved by the local government, and must include or be accompanied by—
 - (a) the plans and information required by the local government; and
 - (b) the fee set by the local government, which cannot exceed \$174.40.
- (4) The local government is to be taken to have refused approval if it has not made a decision whether to give approval within 35 days after the later of—
 - (a) the day on which the person made the application for approval; or
 - (b) the day on which the person complied with a, or the latest, request by the local government for further plans or information.

Local Government Act 1995

Section 6.12. Power to defer, grant discounts, waive or write off debts

- (1) Subject to subsection (2) and any other written law, a local government may —
 - (a) when adopting the annual budget, grant* a discount or other incentive for the early payment of any amount of money; or
 - (b) waive or grant concessions in relation to any amount of money; or
 - (c) write off any amount of money,which is owed to the local government.

* Absolute majority required.

POLICY IMPLICATIONS

Nil.

FINANCIAL IMPLICATIONS

The proposed reduced fee calculation is considered adequate to achieve full cost recovery for the Shire's assessment of the applications due to the uniform nature of the building plans.

This is consistent with the general principles for the setting of fees and charges by a Local Government in accordance with section 6.17 of the *Local Government Act 1995*.

Based the current fee set of \$179.50 for 384 houses, the total application fees would be \$68,928.

The Department has requested a reduced application fee to be considered based upon an application being submitted for each uniform floor plan type.

The Authority has undertaken a stocktake of houses in the communities they manage and confirmed 95 uniform floor plan types and 132 individual floor plans of a modified nature.

This would mean a maximum number of 277 separate applications would be received by the Shire, with application fees totalling \$40,746.50.

RISK

The risk to the Shire in relation to reducing the application fee and accepting the applications, in general, are considered low based upon the following factors:

- 1) The standard and nature of documentation to be submitted by the Department, including the relevant justification for considering the installation of the battery powered smoke alarms, is considered adequate to assess the applications;
- 2) The Shire can consider the applications in accordance with the relevant provisions of the *Building Regulations 2012*, bearing in mind the Shire has the right to refuse the application if the Department cannot justify the need for the battery powered smoke alarms;
- 3) To consider a reduced application fee in lieu of the standard full fee is promoting cooperation and goodwill between Local and State government agencies; and
- 4) The Shire could be viewed as meeting its obligation regarding the promotion of a safe and sustainable built environment.

In-principle approval

Officers consider the risk to the Council in providing in principle approval prior to receiving building plans is relatively high with unnecessary compliance action required should the relevant plans not be submitted and therefore are not supportive of this component.

STRATEGIC IMPLICATIONS

Our Performance Aspiration – We will deliver excellent governance, service and value, for everyone.

Deliver best practice governance and risk management.

VOTING REQUIREMENTS

Simple Majority

<u>COUNCIL RESOLUTION</u>

(REPORT RECOMMENDATION)**Minute No. C/0221/006****Moved: Cr N Wevers****Seconded: Cr C Mitchell****That Council:**

- 1. Approve the lodgement of applications from the Department of Communities for battery powered smoke alarms for the confirmed number of uniform floor plan types, at a cost of \$179.50 per application.**
- 2. Confirm the cost of lodgement of applications from the Department of Communities for battery powered smoke alarms for the remaining floor plans to be \$179.50 per application.**
- 3. Not support the Department of Communities' request to provide in principle approval for battery powered smoke alarms prior to application.**

CARRIED 6/2**Attachments**

1. Department of Communities Correspondence - Request for Approval: Installation of Battery Powered Smoke Alarms.
2. Aboriginal Communities Housing Audit.

Government of **Western Australia**
Department of **Communities**

Shire of Broome
PO Box 44
BROOME WA 6725

Attention: Mr Rob Rampal

Dear Sir,

Request for Approval: Installation of Battery Powered Smoke Alarms

The Department of Communities provides property and tenancy management services to houses in Aboriginal communities located within the Shire of Broome.

In accordance with Section 61 of the Building Regulations 2012, the Department is seeking approval from the Shire of Broome to proceed with the replacement of hardwired smoke alarms with 10-year lithium battery powered smoke alarms at the Aboriginal Communities listed below. We note that the Regulations provide for the relevant Local Government Authority to prescribe a form on which application must be made and to charge a fee of \$179.50 per application.

COMMUNITY	NUMBER OF PROPERTIES
Ardyaloon	94
Beagle Bay	83
Bidyadanga	137
Bobieding	6
Djarinjin	48
Lombadina	16
Total	384

The Shire of Broome application process to install battery smoke detectors in dwellings, requires Communities to provide floor plans for each dwelling and pay the required fee (\$179.50) for each property to be approved.

Since the dwellings under management are of various uniform designs, we seek your support in applying this assessment and accompanying fee on a per house design basis to assist in keeping the administrative costs of this project to a minimum. There are between eighty (80) and one hundred (100) uniform floor plans/dwelling types in the communities listed above.

Your assessment and approval on a per house design basis will ensure adequate reduction of the risk of injury or death of tenants and visitors to a property. The installation of these smoke alarms will also enable the Department to re-direct the ongoing high costs of routinely replacing

hard wired smoke alarms and associated travel fees, to other more productive maintenance activities in each community.

Can you please provide advice on this request, the application form and total fees payable by Communities for this application?

If you would like to discuss this matter, please contact Trevor Pierce-Jones +61 419 374 538 or trevor.pierce-jones@communities.wa.gov.au.

Yours sincerely

9.2.4 DEVELOPMENT APPLICATION- 2020/95 - R-CODE VARIATION AT 16 KOOLAMA DRIVE, CABLE BEACH

LOCATION/ADDRESS:	Lot 7, 16 Koolama Drive, Cable Beach
APPLICANT:	Phil Connolly Homes
FILE:	KOO-1/16
AUTHOR:	Planning Officer
CONTRIBUTOR/S:	Nil
RESPONSIBLE OFFICER:	Director Development and Community
DISCLOSURE OF INTEREST:	Nil

SUMMARY:

The Shire has received a development application seeking approval to construct a two-storey single house.

The application has been assessed against the Residential Design Codes.

The application is referred to Council for determination as the proposal does not meet the deemed-to-comply criteria of the Residential Design codes in relation to its location within a side setback.

An objection was received from the adjoining neighbour, which officers have not been able to resolve to the satisfaction of both parties.

This report recommends the application be approved.

BACKGROUND

Previous Considerations

Nil.

Site and surrounds

Lot 7, 16 Koolama Drive, Cable Beach is a 1,000m² property which is zoned Residential with a R10 density coding under Local Planning Scheme No. 6 (LPS6). Surrounding properties are zoned Residential with a R10 density coding and the rear lot is zoned Tourist.

The site is currently a vacant lot (See below Figure 1).

Figure 1- Site Plan 16 Koolama Drive, Cable Beach

Proposal

The application is seeking approval to construct a two-storey single house.

The proposed house does not meet the deemed-to-comply criteria of the Residential Design Codes Part 5.1.3 Lot Boundary Setback as the garage wall is set back 0.05m in lieu of the required 1m to the Northern boundary.

The proposed house meets all other deemed-to-comply criteria of the Residential Design Codes. (See **Attachment 1**).

COMMENT

Local Planning Scheme No. 6 (LPS6)

As detailed above, the subject site is zoned 'Residential' with a density coding of R10.

In accordance with Clause 3.17 of LPS6, 'Single House' is a 'P' use meaning the use is permitted by the scheme providing the use complies with the relevant Development standards and the requirements of the scheme.

Local Planning Scheme No.6 requires development approval for houses posing a variation to the Residential Design Codes.

An assessment of the application against the local Framework is outlined below:

Residential Design Codes

Provision	Deemed-to-comply provisions	Provided	Compliance
Wall Height	Does not exceed 6m	3.4m	Complies
Peak Roof Height (Ridge Height)	Does not Exceed 9m	4.5m	Complies
Setbacks	1m from the Northern boundary	0.05m from the Northern boundary	Variation assessed against the design principles below.
Open Space	60%	70%	Complies

The proposed dwelling does not meet the deemed-to-comply criteria of the Residential Design Codes for Lot Boundary Setback as a 'Boundary Wall', being a wall that is within 0.6m of a boundary, which are only permitted through the deemed-to-comply criteria on lots with a density coding of R20 or greater. As the subject site is coded R10, a merit-based assessment based on the relevant design principles is required.

The design principles for lot boundary setbacks are:

- Make more effective use of space for enhanced privacy for the occupant/s or outdoor living areas;
- Not compromise the design principle contained in clause 5.1.3 P3.1; namely:
 - Reduce impacts of building bulk on adjoining properties;
 - Provide adequate direct sun and ventilation to the building and open spaces on the site and adjoining properties; and
 - Minimise the extent of overlooking and resultant loss of privacy on adjoining properties.
- Does not have any adverse impact on the amenity of the adjoining property;

- Ensures direct sun to major openings to habitable rooms and outdoor living areas for adjoining properties is not restricted; and
- Positively contributes to the prevailing or future development context and streetscape as outlined in the local planning framework.

The proposed Northern boundary 0.05m setback makes more effective use of space for the property, as opposed to setting the wall back 1m, which would result in dead space which cannot be used as outdoor living.

It is considered the reduced Northern boundary setback of 0.05m, in lieu of the required 1m, will not adversely increase the building bulk or sunlight and ventilation as the wall length has been reduced to 7.2m (from an initially proposed 9.5m) and the height is considerably less (3.5m) than the deemed-to-comply criteria of 6m. If the dwelling was set back 1m to the Northern boundary, a planning application would not be required as it will meet all other deemed-to-comply criteria of the Residential Design Codes.

The house will not result in a loss of privacy, loss of sunlight or overlooking as:

- the setback variation is abutting the neighbouring property's carport, which is a non-habitable space;
- the proposed solid wall does not include any windows or other openings facing the neighbouring property; and
- the proposed structure does not impact on the neighbouring property's private open space.

The proposed house will contribute positively to the existing streetscape by providing a house of a similar scale and materials to existing development.

The setting back of the upper storey, varying roof pitches and materials used provide articulation to the house frontage which provides interest to the streetscape.

Concerns were raised by the neighbour regarding the setback of the garage increasing bulk to the adjoining property as well as water run off (See **Attachment 2**).

In response, the applicant amended the proposal by reducing the wall length and moving the wall closer to the boundary to facilitate a parapet wall to address drainage concerns.

The now proposed wall is of a height and length which is less than the maximums permitted by the deemed-to-comply provisions, had the wall been set back 1m.

Therefore, having a smaller wall albeit closer to the boundary, is considered to meet the design principles by providing an equivalent and appropriate level of bulk permitted under the deemed-to-comply provisions.

Stormwater runoff has been addressed by incorporating a boxed gutter and parapet wall (refer to **Attachment 3**) as suggested by the submitter.

A drainage condition has also been recommended requiring no stormwater be discharged onto other private property.

CONSULTATION

In accordance with Local Planning Policy 5.14 - Public Consultation, the application was deemed to be Level B - Consultation with owners of adjoining land, and therefore, the adjoining neighbour at 14 Koolama Drive, Cable Beach was provided notice of the proposed application.

An objection was received (as per **Attachment 2**), with a general summary provided below:

The adjoining neighbour objected on the basis the setback variation will allow for water run-off to the neighbouring property, the building will present as 'large' and 'imposing' to the adjoining property.

The Applicant then suggested a compromise of reducing the garage wall from 9.5m to 7.2m long, set back 0.05m to the boundary and a parapet wall with boxed gutter to prevent any overflow issues. (See **Attachment 3**).

The neighbour agreed to the reduction of the garage length, but still sought a setback of 750mm, to which the applicant did not agree.

The merits of the final proposed position of the wall has been considered in the comment section above and has been recommended for approval.

STATUTORY ENVIRONMENT

Planning and Development Act 2005

If the applicant or owner is aggrieved by Council's determination, there is a right of review by the State Administrative Tribunal in accordance with Part 14 of the Act.

An application must be made within 28 days of the determination.

Planning and Development (Local Planning Schemes) Regulations 2015

68. (2) The local government may determine an application for development approval by —
- (a) granting development approval without conditions; or
 - (b) granting development approval with conditions; or
 - (c) refusing to grant development approval.

77. Amending or cancelling development approval

- (1) An owner of land in respect of which development approval has been granted by the local government may make an application to the local government requesting the local government to do any or all the following —
 - (a) to amend the approval to extend the period within which any development approved must be substantially commenced;
 - (b) to amend or delete any condition to which the approval is subject;
 - (c) to amend an aspect of the development approved which, if amended, would not substantially change the development approved;
 - (d) to cancel the approval.
- (2) An application under subclause (1) —
 - (a) is to be made in accordance with the requirements in Part 8 and dealt with under this Part as if it were an application for development approval; and
 - (b) may be made during or after the period within which the development approved must be substantially commenced.
- (3) Despite subclause (2), the local government may waive or vary a requirement in Part 8 or this Part in respect of an application if the local government is satisfied the application relates to a minor amendment to the development approval.

- (4) The local government may determine an application made under subclause (1) by —
- (a) approving the application without conditions; or
 - (b) approving the application with conditions; or
 - (c) refusing the application.

State Planning Policy 3.1 – Residential Design Codes

Local Planning Scheme No.6

POLICY IMPLICATIONS

Local Planning Policy 5.14 Public Consultation – Planning Matters (LPP 5.14)

The application was publicly advertised in accordance with LPP 5.14.

FINANCIAL IMPLICATIONS

Nil.

RISK

A determination either way by Council has risks.

If Council approves the application the adjoining neighbour may be aggrieved by Council's decision.

If Council does not approve the application the applicant may seek a review of the decision of Council to the State Administrative Tribunal.

STRATEGIC IMPLICATIONS

Place – We will grow and develop responsibly, caring for our natural, cultural and built heritage, for everyone:

A built environment that reflects tropical climate design principles

VOTING REQUIREMENTS

Simple Majority

COUNCIL RESOLUTION:

(REPORT RECOMMENDATION)

Minute No. C/0221/009

Moved: Cr B Rudeforth

Seconded: Cr N Wevers

That Council:

- 1. Approves development application 2020/95 for a two-storey single house at 16 Koolama Drive, Cable Beach, subject to the following conditions and advice notes:**

Conditions:

- a) The development plans, as date marked and stamped 'Approved', together with any requirements and annotations detailed thereon by the Shire of Broome, are the plans approved as part of this application and shall form part**

of the development approval issued, except where amended by other condition of this approval.

- b) A stormwater drainage system is to be provided, that drains to an existing system or Shire roadway/drain to the satisfaction of the Shire. No stormwater is to be discharged onto other private property.**
- c) The parapet wall and footings shall be constructed inside the property boundary.**

Advice Notes:

Note 1: If the development which is the subject of this approval is not substantially commenced within a period of 2 years, or another period specified in this approval after the date of determination, the approval will lapse and be of no further effect.

Note 2: Where an approval has so lapsed, no development must be carried out without the further approval of the local government having first been sought and obtained.

Note 3: If the applicant or owner is aggrieved by this determination there is a right of review by the State Administrative Tribunal in accordance with the Planning and Development Act 2005 Part 14. An application must be made within 28 days of the determination.

Note 4: An owner of land in respect of which development approval has been granted by the local government may make an application to the local government requesting the local government to do any or all the following:

- (a) to amend the approval to extend the period within which any development approved must be substantially commenced;**
- (b) to amend or delete any condition to which the approval is subject;**
- (c) to amend an aspect of the development approved which, if amended, would not substantially change the development approved;**
- (d) to cancel the approval.**

The application is to be made in accordance with the requirements in Part 8 of the Planning and Development (Local Planning Schemes) Regulations 2015 and dealt with under this Part as if it were an application for development approval; and may be made during or after the period within which the development approved must be substantially commenced.

Note 5: This is a Development Approval of the Shire under its Local Planning Scheme No. 6. It is not a Building Permit or an approval to commence or carry out development under any other law. It is the responsibility of the owner to obtain any other necessary.

Note 6: The granting of this Development Approval is not a clearance that there are no Aboriginal Heritage Sites on the land nor is it an approval under Section 18 of the Aboriginal Heritage Act 1972. The owner will need to make enquiry and application to the Department of Planning, Lands and Heritage in order to ensure compliance with the Aboriginal Heritage Act 1972.

- 2. Advise the applicant and submitter of Council's decision.**

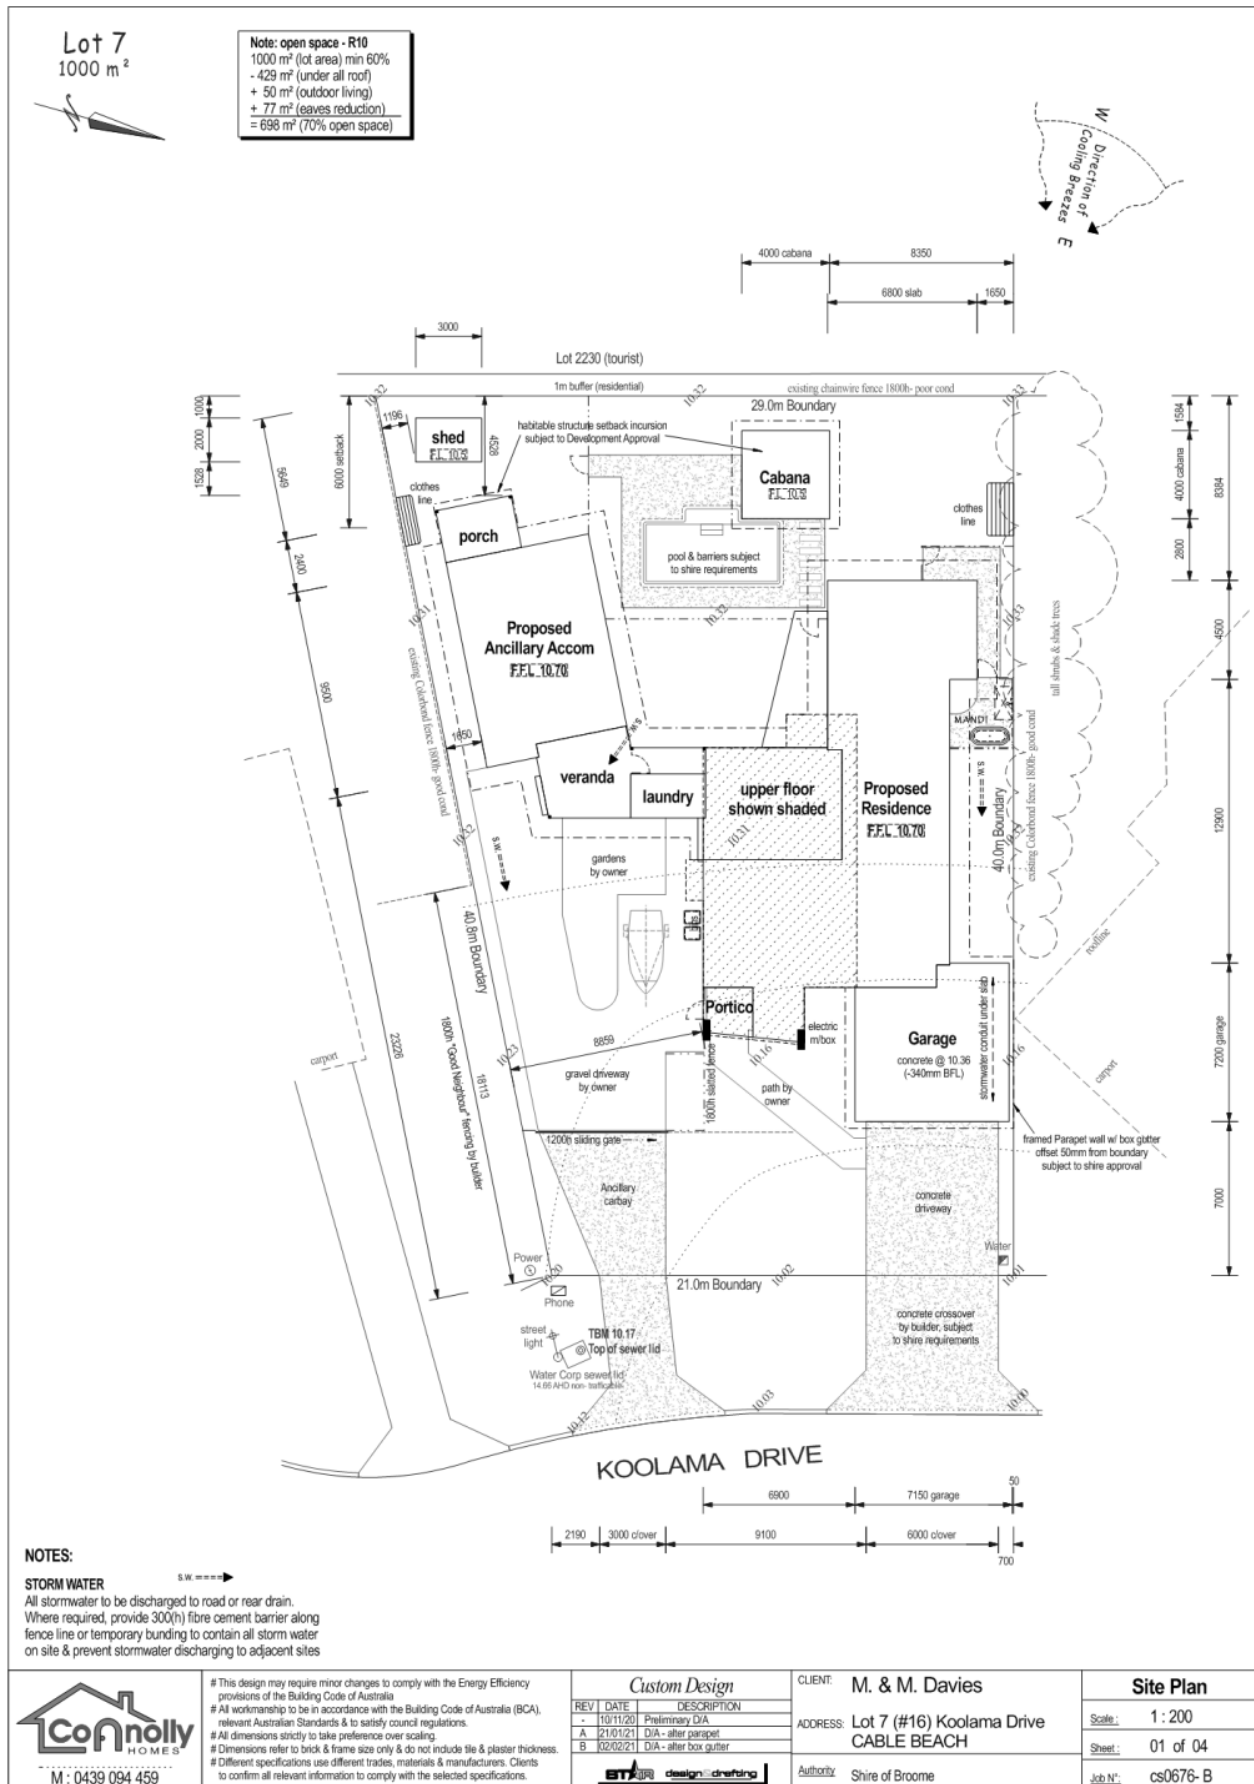

<i>CARRIED UNANIMOUSLY 5/0</i>

Cr D Male and Cr P Taylor returned to the Chambers at 7:00pm. Cr Mitchell read aloud the resolution of Council.

Cr D male resumed the position of Chair.

					Authority:	Shire of Broome		

I have been in contact with my clients and they would still like to reduce the R Code side boundary setback from 1.5m to .2m. They would also like this to go to council for determination. As we believe that we have compromised to the initial satisfaction of the neighbour in our latest proposal.

Kind regards,

Koolama Drive, Cable Beach, WA 6726

Thank you for the conversation earlier, as discussed could you please outline to the owner that if you changed the setback from 200mm to 1m the city will consider the proposal on the design principles of the Residential Design Codes. If the owner wants to leave the setback to 200mm it will go to council for a final determination.

In regard to the neighbour's reply we'd like to clarify some concerns that our responses are not actually being correctly interpreted below. We feel that the initial combination of neighbour's proposals can be met if properly understood, & that the 750mm offset is a new suggestion & the goalposts are being moved. Our initial compromise of a 2.3m reduction in wall length was welcomed, but the sticking point was purely the location of the gutter. Our reasoning regarding gutters has not been understood accurately (as explained in response below) however If we accept Michael's additional "2nd compromise" of a parapet wall gutter within the roof instead, then we would be asking you to please consider that we have compromised to the initial satisfaction of the neighbour & support the revised proposal attached?

Thank you for your time on the call a short while ago. Further to our conversation, please consider the following in regards to the builder's response to my objection:

1. *Firstly, I appreciate the length of the garage being reduced from 9.5m to 7.2m as this will mitigate some of my original concerns –*
Yes agreed to
2. *I remain concerned however that the proposed setback of the wall is 200mm off the boundary line, as this will result in the edge of the gutter being directly above the fence line separating Lots 14 and 16 –* The gutter would be 120mm wide leaving 80mm to the property line, with no overflow issue – although this design option is no longer relevant as we would be willing to accept the parapet wall box gutter at the boundary

3. The builder of Lot 16 stated that parapet walls (the 2nd of the 2 compromises I proposed) are to be avoided in Broome where possible. I assume this is due to the difficulty of controlling high volumes of roof-water run-off during Broome's heavy tropical downpours, which I understand and is also of concern to me, especially if the gutter is positioned over the fence line. — no that's incorrect, The 150mm gutter is 6x the required volume for such a small catchment & will not fail in any downpour. The concern for boxed gutters is maintenance based, such that in 5-10 years if windblown leaf matter sits in the gutter for extended periods & creates rust, then the water damage inside the garage is far greater than if it located externally. These gutters are designed to handle a 1:100 year event, but not so good with rust
4. Given that "parapet walls are to be avoided", I refer then to the first compromise I originally proposed, namely that the setback of the garage wall be reduced from the R Code requirement of 1.5m, to 1.0m — We would agree to the parapet wall option to ease the neighbour's concerns, it will just require more maintenance awareness or a more expensive stainless steel box gutter.
5. In view of the length of the garage being reduced from 9.5m to 7.2m, I am willing to agree that the setback be reduced further, from 1.5m to .75m - Incorrect, actually Non-habitable structures (garage) can be 1m from a boundary, so the latest "compromise" is only 250mm. Whilst a 750mm offset would be better than a 1m offset, either way it is going to require undesirable design modifications, namely reduce garage width (Regional variations speak of 4WD's requiring bigger structures) or reduced light for outdoor living space in front of the pool due to increased shadow as the building moves south. It's not as easy as shifting over into the LHS driveway as stated, with the Ancillary dwelling attached and already at boundary limits.
- i. This will locate the wall and gutter clear of the fence line, thereby eliminating a significant concern — potentially increasing their original vermin concern, plus an unusable space which is not a good design outcome
- ii. This will also preserve the amenity of Lot 14 and Lot and the other properties in the surrounding area - — The parapet wall would be mostly hidden, the neighbour's approach is blocked by their carport & store room. The wall would also be obscured by the existing front garden & tall verge tree, note that the verge tree recently replaced had previously covered the entire forward fence, a fence is not an amenity requiring preservation (attached). The newly planted replacement tree type looks equally as towering & shady

The R Code 1.5m setback rule was purposefully developed to protect the interests of both owners of adjacent properties. I believe that the 200mm setback (currently proposed by the owner of Lot 16) will adversely impact my property for the reasons previously outlined. However in the interests of good faith, I have offered a further compromise in the setback (to .75m) which I believe can easily be achieved with only minor repositioning or layout change to the 2 proposed dwellings on Lot 16.

I appreciate the Shire of Broome's consideration of the above matters.

We understand that an R10 zoned boundary wall needs fairly good support, these walls however are quite common at higher zonings so it is not an unrealistic design proposal. The chosen location is as unobtrusive as it could be anywhere on the block & the parapet wall is a design outcome that creates privacy between neighbours. We are hoping to accept the initial two "compromise" proposals from the neighbour, namely

1. reduce wall to 7.2m as agreed
2. parapet wall style box gutter as suggested

Additionally the builder would offer to discuss the preferred cladding option with the neighbour & the owner prior to construction to try & find the best solution, ie Colorbond or a Textured Fibre-cement product, painted etc.

we ask that you consider the compromises from both parties, & respect that we have addressed all concerns initially presented. If new issues arise as quick as we solve them then design outcomes will become an irrelevant process. Please don't hesitate to call to discuss these items or if there is anything else we can do to make the deadline.

Please see the neighbours response,

Could you please let me know if the applicant is happy with the compromise by EOD tomorrow because if we cannot come to a conclusion then the application may need to go to a council determination and I will need to put this on the coming council agenda.

Regards,

Thank you for your time on the call a short while ago. Further to our conversation, please consider the

following in regards to the builder's response to my objection:

1. Firstly, I appreciate the length of the garage being reduced from 9.5m to 7.2m as this will mitigate some of my original concerns
2. I remain concerned however that the proposed setback of the wall is 200mm off the boundary line, as this will result in the edge of the gutter being directly above the fence line separating Lots 14 and
3. The builder of Lot 16 stated that parapet walls (the 2nd of the 2 compromises I proposed) are to be avoided in Broome where possible. I assume this is due to the difficulty of controlling high volumes of roof-water run-off during Broome's heavy tropical downpours, which I understand and is also of concern to me, especially if the gutter is positioned over the fence line.
4. Given that "parapet walls are to be avoided", I refer then to the first compromise I originally proposed, namely that the setback of the garage wall be reduced from the R Code requirement of 1.5m, to 1.0m
5. In view of the length of the garage being reduced from 9.5m to 7.2m, I am willing to agree that the setback be reduced further, from 1.5m to .75m
 - i. This will locate the wall and gutter clear of the fence line, thereby eliminating a significant concern
 - ii. This will also preserve the amenity of Lot 14 and Lot 16 and the other properties in the surrounding area

The R Code 1.5m setback rule was purposefully developed to protect the interests of both owners of adjacent properties. I believe that the 200mm setback (currently proposed by the owner of Lot 16) will adversely impact my property for the reasons previously outlined. However in the interests of good faith, I have offered a further compromise in the setback (to .75m) which I believe can easily be achieved with only minor repositioning or layout change to the 2 proposed dwellings on Lot 16.

I appreciate the Shire of Broome's consideration of the above matters.

Good Morning Michael,

The applicant has provided a response to your objection, please see the email below.

Please let me know if you are happy with the response if not I will raise this further with the applicant.

Please find attached amended plans for D/A submission.

We recognise the concerns of the owners & appreciate the proposal of a compromise, it is encouragingly good neighbourly to get a reply with sensible consideration.

In short, We have reduced the boundary wall by 2.3m to be 7.2m long to minimise the impact & hope that this will be acceptable to all stakeholders.

The applicants have decided against storing a caravan in the garage & no longer require the full 9.5m but would still like to be afforded some space for a large 4WD & associated walk-around clearance to access the shoppers door, hence the proposed 7.2m boundary wall.

In light of the neighbour's concerns

- a. The term "open ended" gutter was solely in reference to catchment overflow for BCA 3.5.3. The reduced 21m² catchment is at the smallest end of required gutter sizes & would be unlikely to overflow in the biggest of downpours as we design them 5x bigger. The plans have been amended however to show a forward venting gutter outlet that will spill directly down onto our driveway surface. The risk of erosion would be more likely to come from the carport roof of #14,

- due to its close proximity to the boundary
- b. The location of the boundary wall is now almost entirely adjacent/forward of the dead side of carport, well away from any habitable space or outlook. Their existing front garden will still have full access to the North-easterly sun, and combined with the boundary fence shading, the shadow of carport roof, & lightweight construction methods, there will be very minimal heat gain radiated.
 - c. Parapet style boundary walls as suggested are to be avoided in Broome where possible, hence the 200mm offset. The gutter design shown is outside of the external wall & recommended due to maintenance & performance contingency benefits. At ground level, the gap also allows perimeter termite barriers to remain on our lot, & PVC piping to control & direct stormwater runoff to the verge from the back of the site. The applicants would certainly be willing to remove that portion of fence, or perhaps reduce the fence height to 1200h if it was decided to be of benefit to all stakeholders. The wall colour would naturally match the proposed residence over & above the fence colour, however the schedule selections are yet to be confirmed at this early stage. Removal of fence panels for installation is covered under the new building act & shouldn't be a problem

We hope that the reduced boundary wall length compromise is sufficient alteration to satisfy the concerns of the neighbour & look forward to progressing with the submission process

My house is located at Koolama Drive, on the northern boundary of 16 Koolama Drive.

The Development Application seeks to reduce the R Code side boundary setback from 1.5m to .2m (20cm), over a distance of 9.5m of the 40m boundary between Lot 14 and Lot 16. The proposed vertical wall height (ground level to roof-line) over the 9.5m length of setback variation is shown as 3.1m.

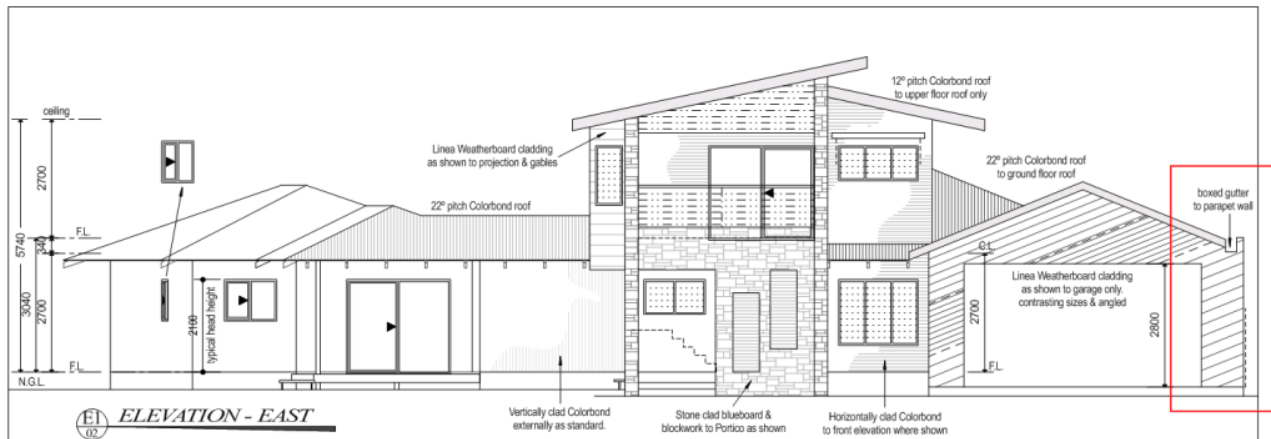

I would like to object to the Application to depart from the Deemed-to-Comply requirements for the following reasons :

1. The 9.5m long gutter for this section of the proposed house is located above the boundary between Lots 14 and 16, at a height of 3.1m. The gutter is described on the plan as 'open-ended' and the roof catchment appears to be 35-40sq metres. The basis of my objection is as follows :
 - a. Broome is in a tropical storm area. Following a heavy downpour, water overflowing from the gutter or discharging from open ends will fall 3.1m to ground level. Given the proposed location of the gutter, it is most likely rainwater discharging from the 3.1m height of gutter (whether blocked/overflowing or discharging from ends) will fall onto my property
 - b. The length of wall (9.5m) and the height (3.1m) will present a large and imposing surface area right on my boundary line. It is north facing and will result in excessive radiated heat from the sun, and reduced ventilation and light along approx 25% of the boundary between Lots 14 and 16. This goes against the underlying principles and objectives of the R Code 1.5m setback rule, namely the protection of the interests of all residential landowners, including myself
 - c. The 20cm space created between the existing fence and the 9.5m long vertical wall of the building is narrow, and will be inaccessible to the owners of Lot 16 for the control of vermin and other pests. (spiders, cockroaches, etc.) These pests are likely to create habitat there
 - in this same vein, with a setback of only 20cm, the existing colorbond fence will need to be removed in order to attach the colorbond sheets to the frame, and then re-installed

I would like to suggest the following as a compromise :

- Allow the setback for the garage length (9.5m) to be reduced from the R Code prescription of 1.5m, to 1.0m. This can be easily accommodated with very minor repositioning or layout changes of the 2 proposed dwellings on Lot 16, and will overcome the issues described above
- Alternately, reduce the length of the garage to what is reasonable for a normal residential garage (approx 6-7m) and construct a 3.1m high parapet wall directly on the boundary line. (i.e. no setback at all) Locate the roof gutter on the inside of the parapet wall, and match the colour of the parapet wall to the existing 40m colorbond boundary fence, so that it blends in

Either of these options will alleviate my specific concerns, preserve the amenity of both Lot 14 and Lot 16, and also be in keeping with the layout and ambience of the surrounding houses.

Cr F West returned to the Chambers at 7:00 PM.**9.2.5 DOG CONTROL MEASURES - TOWN BEACH RESERVE**

LOCATION/ADDRESS:	TOWN BEACH PRECINCT (RESERVE 1643, RESERVE 31340)
APPLICANT:	Nil
FILE:	LAW002
AUTHOR:	Manager Environmental Health Emergency and Rangers
CONTRIBUTOR/S:	Nil
RESPONSIBLE OFFICER:	Director Development and Community
DISCLOSURE OF INTEREST:	Nil

SUMMARY:

Council at its ordinary meeting on 26 June 2014 resolved, by absolute majority, to establish dog exercise and dog prohibited areas in accordance with the *Dog Act 1976*.

As part of this resolution, almost the entire Town Beach precinct (Reserve 1643, Reserve 31340) was resolved to be a dog prohibited area.

Upgrades to the Town Beach precinct have resulted in an increase and change in usage patterns of the area and a change to community expectations, with the current dog prohibited area status no longer considered as meeting the community need for the precinct.

This report recommends removing the dog prohibited area previously established over the Town Beach precinct (Reserve 1643, Reserve 31340).

BACKGROUND*Previous Considerations*

OMC 26 June 2014 - Item 9.2.5 Dog Control Measures

Prior to 1 November 2013, dog exercise areas and places where dogs are prohibited absolutely or restricted (permitted on a leash only), were specified in the *Dog Local Law 2012* and required a change in the local law to enable new areas to be specified or other areas amended or removed.

The *Dog Act 1976* was amended effective 1 November 2013 with sections 51(b), (ba) and (bb) which gave the power to specify prohibited, restricted and dog exercise areas through a local law, being deleted and section 31 being amended to provide the ability for Council to specify prohibited, restricted and dog exercise areas by way of an absolute majority decision of Council.

On 20 May 2014 the *Dog Amendment Regulations 2014* (Dog Regulations) and the *Cat Amendment Regulations 2014* (Cat Regulations) were gazetted.

The Dog Regulations specified 31 July 2014 as a sunset clause for dog exercise areas and prohibited or restricted areas established under local laws.

It further required Local Governments to establish these areas by way of a resolution, made by absolute majority and giving 28 days notice.

Council at its ordinary meeting on 26 June 2014 resolved by absolute majority to establish the existing dog exercise and dog prohibited areas in accordance with the *Dog Act 1976*. Almost the entire Town Beach precinct (Reserve 1643, Reserve 31340) was resolved to be a dog prohibited area.

Upgrades to the Town Beach precinct have resulted in an increase and change in usage patterns of the area and a change to community expectations.

The current dog prohibited area status is considered as no longer meeting the community need for the precinct.

COMMENT

Town Beach Dog Prohibited Area

Currently, the majority of the Town Beach Precinct is a dog prohibited area including the caravan park, carpark, café, water park, playground and markets areas. (refer to **Attachment 1**)

The designation of the area as a dog prohibited area has been in place under Local Law (1992, 2203 and 2012) and then the *Dog Act 1976*.

Dogs can be in the prohibited area only for the purpose of gaining access to the adjacent dog exercise area by the most direct route. The dog exercise area adjacent to the Town Beach Precinct is the beach. Dogs must be controlled while they are transiting and cannot remain in the dog prohibited area.

The Town Beach redevelopment has resulted in a major change in how and when the public generally use the precinct.

Watering points have been provided to enable responsible pet owners the opportunity to give their dog a drink while in the precinct. Discovery Parks are also permitting dogs to be kept in the caravan park, under conditions.

Removing the dog prohibited area designation will result in the precinct being no different to the adjacent public places in the Broome townsite not declared dog exercise areas.

Dogs will be able to be in the precinct but must be tethered under effective control as per the requirements of the *Dog Act 1976*.

Off-Leash Dog Exercise Areas

The existing off-leash dog exercise areas in Broome are designated on beaches including Town Beach, Simpsons Beach, Entrance Point, Reddell Beach and the majority of Cable Beach, excluding a 1.75km section of the beach centered on the rocky headland to the north of the Cable Beach Amphitheatre. (refer to **Attachment 2**)

There has not been a significant review of dog exercise areas in Broome in many years with the existing dog exercise areas having been designated under Local Law (1992, 2203 and 2012) and then the *Dog Act 1976*. A strategic review of dog exercise areas would be beneficial as part of the Public Open Space strategy.

CONSULTATION

The Shire is required to give notice of Council's intention to change the current specified restrictions by local public notice for a period of 28 days in accordance with the Dog Act 1976 and associated Regulations.

STATUTORY ENVIRONMENT

Western Australia Dog Act 1976

31 Control of dogs in certain public places

(1) A dog shall not be in a public place unless it is:

- (a) held by a person who is capable of controlling the dog; or
- (b) securely tethered for a temporary purpose, by means of a chain, cord, leash or harness of sufficient strength and not exceeding the prescribed length.

Therefore, by excluding from the specification of dog prohibited areas and dog exercise areas the natural areas described above, they will, by default, remain as areas where a dog must always be on a leash.

(2A) Despite subsection (1), a dog shall not be in a public place

- (a) at all if the place is specified under subsection (2B) as a place where dogs are prohibited at all times; or
- (b) at a time when the place is specified under subsection (2B) as a place where dogs are prohibited at that time.

(2B) A local government may, by absolute majority as defined in the Local Government Act 1995 section 1.4, specify a public place, or a class of public place, that is under the care, control or management of the local government to be a place where dogs are prohibited —

- (a) at all times; or
- (b) at specified times.

(2) A dog is exempt from the requirements of subsection (1) if —

- (a) it is in a dog exercise area specified under subsection (3A); or
- (b) it is in a public place that is in an area of the State outside the metropolitan region or outside a townsite, and that is not a rural leashing area specified under subsection (3B); or
- (c) it is in or on a vehicle; or
- (d) it is being exhibited for show purposes; or
- (e) it is participating in an obedience trial or classes conducted under the auspices of the body known as the Canine Association of Western Australia (Inc.) or a body approved by the local government in whose district the obedience trial or classes are conducted; or
- (f) it is registered as being bona fide used in the droving or tending of stock and is being so used or is going to or returning from a place where it will be, or has been, so used; or
- (g) it is a foxhound in a pack bona fide engaged in hunting or hound exercise or in going to or returning from hunting or hound exercise; or
- (h) it is being used for retrieving, duck hunting or other customary sporting purposes.

(3A) A local government may, by absolute majority as defined in the Local Government Act 1995 section 1.4, specify a public place, or a class of public place, that is under the care, control or management of the local government to be a dog exercise area.

On 20 May 2014 the Dog Regulations 2013 were amended with the addition of regulation 37 that has the effect of making areas that have been specified as prohibited or restricted for dogs or specified as dog exercise areas in the Shire of Broome Dog Local Law 2012 inoperative after 31 July 2014.

(3B) A local government may, by absolute majority as defined in the Local Government Act 1995 section 1.4, specify a public place that is under the care, control or management of the local government to be a rural leashing area.

(3C) At least 28 days before specifying a place to be —

- (a) a place where dogs are prohibited at all times or at a time specified under subsection (2B); or*
 - (b) a dog exercise area under subsection (3A); or*
 - (c) a rural leashing area under subsection (3B), a local government must give local public notice as defined in the Local Government Act 1995 section 1.7 of its intention to so specify.*
- (3) If a dog is at any time in any public place in contravention of subsection (1) or (2A), every person liable for the control of the dog at that time commits an offence unless the person establishes a defence under section 33B.*
- (4) This section does not apply to a dangerous dog.*
- (5) A local government must specify under subsection (3A) such dog exercise areas as are, in the opinion of the local government, sufficient in number, and suitable, for the exercising of dogs in the district.*

POLICY IMPLICATIONS

Nil.

FINANCIAL IMPLICATIONS

In accordance with section 31 (3C) of the Act the Shire must advertise Council's intention to specify places by publishing a local public notice in a newspaper circulating generally throughout the district, by exhibiting the notice at the Shire offices and by exhibiting the notice at the Shire library.

Existing signage in the Town Beach precinct will not need significant alteration to reflect the change to the designation of the area. The cost of advertising can be accommodated within the current budget funds.

RISK

A reputational risk is present due to the installation of facilities during the precinct upgrades encouraging having dogs in the area and signage which, whilst compliant, can be confusing.

Removing the prohibited area status will bring the precinct into line with the surrounding area as it relates to movement of the public with their dogs.

The existing signage is adequate to manage dogs in the precinct once the prohibited area status is removed.

STRATEGIC IMPLICATIONS

People – We will continue to enjoy Broome-time, our special way of life. It's laid-back but bursting with energy, inclusive, safe and healthy, for everyone:

A healthy and safe environment

VOTING REQUIREMENTS

Absolute Majority

REPORT RECOMMENDATION:

That Council,

1. Pursuant to the Dog Act 1976, removes the 'dog prohibited' status of the public places of Reserve 1643 and Reserve 31340 (collectively known as Town Beach Reserve) noting:
 - a. This will return the referenced public place to a 'general' status; and
 - b. Dogs in the area will always require to be held by a person who can control the dog or is tethered for a temporary purpose by means of a chain, cord, leash or harness of suitable strength not exceeding the legislated length in place from time to time; and
2. Request the Chief Executive Officer to consider a strategic review of dog exercise areas in the Broome townsite as part of the development of a Public Open Space Strategy in 2021/2022.

Cr N Wevers requested to have the points in the recommendation considered separately.

9.2.6 WASTE LOCAL LAW 2021 - FINAL ADOPTION

LOCATION/ADDRESS:	Nil
APPLICANT:	Nil
FILE:	BYL17
AUTHOR:	Manager Governance, Strategy and Risk
CONTRIBUTOR/S:	Waste Coordinator Manager Works
RESPONSIBLE OFFICER:	Director Infrastructure
DISCLOSURE OF INTEREST:	Nil

SUMMARY:

This report recommends Council formally adopt the Shire of Broome Waste Local Law 2021 and advertise Council's intention to make this local law, in accordance with section 3.12 of the *Local Government Act 1995* (Act)

BACKGROUND

At its meeting on 27 February 2020, Council resolved to:

COUNCIL RESOLUTION:

Minute No. C/0220/001

Moved: Cr C Mitchell

Seconded: Cr N Wevers

That Council:

- Pursuant to section 3.12(3) and (3a) of the Local Government Act 1995, state-wide and local public notice be given stating that the Council intends to make the following local law:***

Waste Local Law 2020
Purpose – is to regulate the collection, disposal and storage of waste and recyclable materials.

Effect – is to control the collection, disposal and storage of waste and recyclable materials for the benefits and health of the community and protection of the environment.
- Requests the results of the public consultation to be presented to Council for consideration of any submissions received.***

CARRIED UNANIMOUSLY 8/0

A notice advising of Council's intention and of the purpose and effect of the proposed local law was published in accordance with s3.12 of the Act in the following places:

- West Australian Newspaper on 19 March 2020
- Broome Advertiser on 26 March 2020
- Shire Administration and Library notice boards on 17 March 2020
- Shire of Broome website on 17 March 2020

The time for making a public submission closed at 4:00pm on 8 May 2020.

COMMENT

No public submissions were received and the Department of Local Government, Sport and Cultural Industries (DLGSC) had no comment.

The WALGA model waste local law template had not been reviewed for some time. As a result, the Department of Water and Environmental Regulation (DWER) updated the template prior to providing their consent. DWER requested several minor changes that enhance the draft local law. The changes do not impact the original intent of the local law to an extent that re-advertising would need to be considered.

Council received initial comments from DWER on 16 August 2020. Ongoing correspondence between Council and DWER continued until mid January 2021, with final consent of the Shire of Broome Waste Local Law 2021 received from DWER on 3 February 2021.

A summary of the changes is provided below:

Clause	DWER Request	Officer Comment
Contents Page & Page 1	Shire of Broome to be included in the title of the local law	Added
Local Law 2020	Amend suffix to 2021	Local Law originally advertised in 2020. DWER legal department have confirmed that this should now be changed to year of gazettal.
1.4 – Repeal	Insert – This Waste Local Law repeals Division 2 of Part 4 of the <i>Shire of Broome Health Local Law 2006</i> , with the exception of clause 4.2.11, as published in the <i>Government Gazette</i> on 20 March 2007.	Added – repealed section of Health Local Law 2006 included as attachment to the agenda item.
1.5 – Meaning of terms used in this local law	Delete the definition of commencement date.	Delete. Covered under Clause 1.2
2.7 – Duties of owner or occupier	Add the word 'placed' at the start of subclause (b)(ii)	Added
5.1 – Objection and appeal rights	Add new clause from the updated Waste Local Law model template and renumber the subsequent clauses accordingly.	Added
Schedule 1 – Meaning of 'non-collectable waste'	Delete (l) non-frangible metal	Agree. Removed. Not a used material definition.
Schedule 2 – Prescribed Offences	Amend description on Items 33,34,35 & 36 to conform to the updated Waste Local Law model template	Added 'a waste facility' to the end of each item.
Schedule 2 – Prescribed Offences	Amend description on Item 37 to conform to the updated Waste Local Law model template	Changed word 'flora' to 'fauna' and added 'without approval in a waste facility'.

Signature block	A signature block for the CEO DWER, which aligns with the correct terminology of the <i>Waste Avoidance and Resource Recovery Act 2007</i> , should be inserted at the end of the waste local law	Added
-----------------	---	-------

The recommended changes from DWER to the Shire of Broome Waste Local Law 2021 template have been completed.

CONSULTATION

No public submissions received following the 6-week public advertising period.

WALGA

Department of Water and Environmental Regulation (DWER)

Department of Local Government, Sport and Cultural Industries (DLGSC)

STATUTORY ENVIRONMENT

Local Government Act 1995

Section 3.12 – Procedures for making local laws

- (1) In making a local law a local government is to follow the procedure described in this section, in the sequence in which it is described.
- (2A) Despite subsection (1), a failure to follow the procedure described in this section does not invalidate a local law if there has been substantial compliance with the procedure.
- (2) At a council meeting the person presiding is to give notice to the meeting of the purpose and effect of the proposed local law in the prescribed manner.
- (3) The local government is to —
 - (a) give local public notice stating that —
 - (i) the local government proposes to make a local law the purpose and effect of which is summarized in the notice; and
 - (ii) a copy of the proposed local law may be inspected or obtained at any place specified in the notice; and
 - (iii) submissions about the proposed local law may be made to the local government before a day to be specified in the notice, being a day that is not less than 6 weeks after the notice is given;
 - and
 - (b) as soon as the notice is given, give a copy of the proposed local law and a copy of the notice to the Minister and, if another Minister administers the Act under which the local law is proposed to be made, to that other Minister; and
 - (c) provide a copy of the proposed local law, in accordance with the notice, to any person requesting it.
- (4) After the last day for submissions, the local government is to consider any submissions made and may make the local law* as proposed or make a local law* that is not significantly different from what was proposed.

* Absolute majority required.

- (5) After making the local law, the local government is to publish it in the *Gazette* and give a copy of it to the Minister and, if another Minister administers the Act under which the local law is proposed to be made, to that other Minister.
- (6) After the local law has been published in the *Gazette* the local government is to give local public notice —
 - (a) stating the title of the local law; and
 - (b) summarizing the purpose and effect of the local law (specifying the day on which it comes into operation); and
 - (c) advising that the local law is published on the local government's official website and that copies of the local law may be inspected at or obtained from the local government's office.
- (7) The Minister may give directions to local governments requiring them to provide to the Parliament copies of local laws they have made and any explanatory or other material relating to them.
- (8) In this section —
making in relation to a local law, includes making a local law to amend the text of, or repeal, a local law.

Waste Avoidance and Resource Recovery Act 2007

Waste Avoidance and Resource Recovery Regulations 2008

Shire of Broome Health Local Law 2006

POLICY IMPLICATIONS

Nil

Once the Shire of Broome Waste Local Law 2021 has been gazetted the current Council Waste Management Policy will be redundant and can be retired.

The *Shire of Broome Health Local Law (2006)* will have Division 2 of Part 4 with the exception of clause 4.2.11 repealed.

FINANCIAL IMPLICATIONS

The estimated cost of advertising in the West and the Broome Advertiser is \$1,000. This covers all State wide and local public notice requirements.

The estimated cost of gazettal with State Law Publisher is \$5,000.

This will be accommodated within the Waste Management Budget.

RISK

Minor reputational risk and compliance risk if local laws are not maintained in accordance with current legislative requirements and best practice.

By adopting the model local law as developed by WALGA and enhanced with suggestion from DWER, Council has reduced the risk of having this local law disallowed by the Joint Standing Committee for Delegated Legislation (JSCDL).

STRATEGIC IMPLICATIONS

Our Place Aspiration – We will grow and develop responsibly, caring for our natural, cultural and built heritage, for everyone

5.3 Adopt and encourage sustainable practices.

Waste Avoidance and Resource Recovery Act 2007
Local Government Act 1995

SHIRE OF BROOME
Waste Local Law 2021

Under the powers conferred on it by the *Waste Avoidance and Resource Recovery Act 2007* and the *Local Government Act 1995* and under all other enabling powers, the Council of the Shire of Broome resolved on (insert date) to make the following local law.

Part 1 - Preliminary

1.1 Short title

This is the Shire of Broome Waste Local Law 2021

1.2 Commencement

This local law commences 14 days after the day on which it is published in the *Government Gazette*.

1.3 Application

This local law applies throughout the district.

1.4 Repeal

This Waste Local Law repeals Division 2 of Part 4 of the *Shire of Broome Health Local Laws 2006* with the exception of clause 4.2.11, as published in the *Government Gazette* on 20 March 2007.

1.5 Meaning of terms used in this local law

(1) In this local law—

authorised person means a person appointed by the local government under section 9.10 of the LG Act to perform any of the functions of an authorised person under this local law;

collectable waste means local government waste that is not—

- (a) liquid refuse;
- (b) liquid waste; or
- (c) non-collectable waste;

collectable waste receptacle means a receptacle for the deposit and collection of collectable waste that is—

- (a) a recycling waste receptacle;
- (b) a general waste receptacle; or
- (c) an organic waste receptacle;

collection, when used in relation to a receptacle, means the collection and removal of collectable waste from the receptacle by the local government or its contractor;

collection day means the day determined by the local government for the collection of collectable waste in the district or a part of the district;

collection time means the time on the collection day determined by the local government for the collection of collectable waste in the district or a part of the district;

costs of the local government include administrative costs;

Council means the council of the local government;

district means the district of the local government;

general waste receptacle means a receptacle for the deposit and collection of collectable waste that is not recycling waste;

LG Act means the *Local Government Act 1995*;

LG Regulations means the *Local Government (Functions and General) Regulations 1996*;

local government means *Shire of Broome*

local government waste has the same meaning as in the WARR Act;

non-collectable waste has the meaning set out in Schedule 1;

occupier in relation to premises, means any or all of the following—

- (a) a person by whom or on whose behalf the premises are actually occupied; or
- (b) a person having the management or control of the premises;

organic waste means waste that decomposes readily, such as garden waste or food waste;

organic waste receptacle means a receptacle for the deposit and collection of organic waste;

owner has the same meaning as in the LG Act;

public place includes a place to which the public ordinarily have access, whether or not by payment of a fee;

receptacle, means a receptacle—

- (a) that has been supplied for the use of the premises by the local government or its contractor, or which has otherwise been approved by the local government; and
- (b) the waste from which is collected and removed from the premises by the local government or its contractor;

recycling waste receptacle means a receptacle for the deposit and collection of recycling waste;

recycling waste means—

- (a) paper and cardboard;
- (b) plastic containers comprised of polyethylene terephthalate or high density polyethylene;
- (c) glass containers;
- (d) steel containers;
- (e) aluminium containers;
- (f) liquid paper board; and
- (g) any other waste determined by the local government to be recycling waste;

specified means specified by the local government or an authorised person, as the case may be;

street alignment means the boundary between the land comprising a street and the land that abuts the street;

WARR Act means the *Waste Avoidance and Resource Recovery Act 2007*;

WARR Regulations means the *Waste Avoidance and Resource Recovery Regulations 2008*;

waste has the same meaning as in the WARR Act;

waste facility means a waste facility, as defined in the WARR Act, that is operated by the local government; and

waste service has the same meaning as in the WARR Act.

- (2) Where, in this local law, a duty or liability is imposed on an owner or occupier, or on an owner and occupier, the duty or liability is taken to be imposed jointly and severally on each of the owners or occupiers.

1.6 Local public notice of determinations

Where, under this local law, the local government has a power to determine a matter –

- (a) local public notice, under section 1.7 of the LG Act, must be given of the matter determined;
- (b) the determination becomes effective only after local public notice has been given;
- (c) the determination remains in force for the period of one year after the date that local public notice has been given under paragraph (a);
- (d) after the period referred to in paragraph (c), the determination continues in force only if, and for so long as, it is the subject of local public notice, given annually, under section 1.7 of the LG Act; and
- (e) the determination must be recorded in a publicly accessible register of determinations that must be maintained by the local government.

1.7 Rates, fees and charges

The local government's powers to impose rates, fees and charges in relation to waste services are set out in sections 66 to 68 of the WARR Act and section 6.16 and 6.17 of the LG Act.

1.8 Power to provide waste services

The local government's power to provide, or enter into a contract for the provision of, waste services is dealt with in section 50 of the WARR Act.

Part 2 - Local government waste

2.1 Supply of receptacles

- (1) The local government is to supply, for the use of each premises that are, or are capable of being, occupied or used for residential purposes, one or more receptacles for the collection and removal, from those premises, of collectable waste.
- (2) The owner of premises to which subclause (1) applies must—
 - (a) ensure that the fee or charge (if any) imposed by the local government in relation to each receptacle is paid to the local government; and
 - (b) ensure that each receptacle is used, in respect of those premises, in accordance with this local law.

2.2 Deposit of waste in receptacles

- (1) An owner or occupier of premises must not deposit or permit to be deposited in a receptacle any non-collectable waste.
- (2) A person must not deposit waste in a receptacle that has been provided for the use of other premises without the consent of the owner or occupier of those premises.

2.3 General waste receptacles

- (1) An owner or occupier of premises must not deposit or permit to be deposited in a general waste receptacle—
 - (a) where the receptacle has a capacity of 240 litres—more than 70 kilograms of collectable waste; or
 - (b) where the receptacle has any other capacity—more than the weight determined by the local government.
- (2) Where the local government supplies recycling waste receptacles, an owner or occupier of premises must not deposit or permit to be deposited in a general waste receptacle any recycling waste.
- (3) Where the local government supplies organic waste receptacles, an owner or occupier of premises must not deposit or permit to be deposited in a general waste receptacle any organic waste.

2.4 Recycling waste receptacles

An owner or occupier of premises must not deposit or permit to be deposited in a recycling waste receptacle—

- (a) anything other than the particular type of recycling waste for which that receptacle was provided by the local government for those premises;
- (b) where the receptacle has a capacity of 240 litres— more than 70 kilograms of recycling waste; or
- (c) where the receptacle has any other capacity—more than the weight determined by the local government.

2.5 Organic waste receptacles

An owner or occupier of premises must not deposit or permit to be deposited in an organic waste receptacle—

- (a) anything other than the particular type of organic waste for which that receptacle was provided by the local government for those premises;
- (b) where the receptacle has a capacity of 240 litres - more than 70 kilograms of organic waste; or
- (c) where the receptacle has any other capacity - more than the weight determined by the local government.

2.6 Direction to place or remove a receptacle

- (1) The local government or an authorised person may give a written direction to an owner or occupier of specified premises —
 - (a) to place a receptacle in respect of those premises for collection; or
 - (b) to remove a receptacle in respect of those premises after collection.

- (2) The direction under subclause (1) may specify when the placement or removal is to occur, or where the receptacle is to be placed, or both.
- (3) An owner or occupier of premises must comply with a direction given under this clause.

2.7 Duties of owner or occupier

An owner or occupier of premises must—

- (a) except for a reasonable period before and after collection time, keep each receptacle in a storage space or area that is behind the street alignment;
- (b) take reasonable steps, if placing a receptacle for collection on the verge adjoining the premises, or other area as determined by the local government, ensure that, within a reasonable period before collection time, each receptacle is —
 - (i) within 1 metre of the carriageway;
 - (ii) placed so that it does not unduly obstruct any footpath, cycle way, right-of-way or carriageway; and
 - (iii) facing squarely to the edge of and opening towards the carriageway,or in such other position as is approved in writing by the local government or an authorised person;
- (c) take reasonable steps to ensure that the premises are provided with an adequate number of receptacles; and
- (d) if the receptacle is lost, stolen, damaged or defective, notify the local government, as soon as practicable, after the event.

2.8 Exemption

- (1) An owner or occupier of premises may apply in writing to the local government for an exemption from compliance with the requirements of clause 2.7(a) or (b).
- (2) The local government or an authorised person may grant, with or without conditions, or refuse an application for exemption from compliance under this clause.
- (3) An exemption granted under this clause must state—
 - (a) the premises to which the exemption applies;
 - (b) the period during which the exemption applies; and
 - (c) any conditions imposed by the local government or the authorised person.

- (4) An exemption granted under this clause ceases to apply –
 - (a) if the local government decides, on reasonable grounds, that there has been a failure to comply with a condition of the exemption; and
 - (b) from the date that the local government informs the owner or occupier of its decision under clause 2.8(4)(a).

2.9 Damaging or removing receptacles

A person, other than the local government or its contractor, must not—

- (a) damage, destroy or interfere with a receptacle; or
- (b) except as permitted by this local law or as authorised by the local government or an authorised person, remove a receptacle from any premises to which it was delivered by the local government or its contractor.

2.10 Verge collections

- (1) Where the local government has advertised a verge waste collection (such as a green waste, or a bulk waste, verge collection) a person, unless with and in accordance with the approval of the local government or an authorised person—
 - (a) must deposit waste only during the period of time, and in accordance with other terms and conditions, as advertised by the local government in relation to that verge waste collection; and
 - (b) must otherwise comply with those terms and conditions.
- (2) Where waste has been deposited on a verge for a verge waste collection, a person must not remove any of that waste for a commercial purpose but may remove it for any other purpose.
- (3) Except where waste is lawfully removed from a verge under this clause, a person must not disassemble or tamper with any waste deposited on a verge for a verge waste collection so as to increase the risk of harm to any person.
- (4) Clause 2.10(2) does not apply to the local government or a person engaged or contracted by the local government in relation to the verge waste collection.

Part 3 - General duties

3.1 Duties of an owner or occupier

An owner or occupier of premises must—

- (a) take reasonable steps to ensure that a sufficient number of receptacles are provided to contain all waste which accumulates or may accumulate in or from the premises;
- (b) ensure that each receptacle is kept in good condition and repair;

- (c) take all reasonable steps to—
 - (i) prevent fly breeding and keep each receptacle free of flies, maggots, cockroaches, rodents and other vectors of disease;
 - (ii) prevent the emission of offensive or noxious odours from each receptacle; and
 - (iii) ensure that each receptacle does not cause a nuisance to an occupier of adjoining premises; and
- (d) whenever directed to do so by the local government or an authorised person, thoroughly clean, disinfect, deodorise and apply a residual insecticide to each receptacle.

3.2 Removal of waste from premises

- (1) A person must not remove any waste from premises unless that person is—
 - (a) the owner or occupier of the premises;
 - (b) authorised to do so by the owner or occupier of the premises; or
 - (c) authorised in writing to do so by the local government or an authorised person.
- (2) A person must not remove any waste from a receptacle without the approval of—
 - (a) the local government or an authorised person; or
 - (b) the owner or occupier of the premises at which the receptacle is ordinarily kept.

3.3 Receptacles and containers for public use

A person must not, without the approval of the local government or an authorised person—

- (a) deposit household, commercial or other waste from any premises on or into; or
- (b) remove any waste from,

a receptacle provided for the use of the general public in a public place.

Part 4 - Operation of waste facilities

4.1 Operation of this Part

This Part applies to a person who enters a waste facility.

4.2 Hours of operation

The local government may from time to time determine the hours of operation of a waste facility.

4.3 Signs and directions

- (1) The local government or an authorised person may regulate the use of a waste facility—
 - (a) by means of a sign; or
 - (b) by giving a direction to a person within a waste facility.
- (2) A person within a waste facility must comply with a sign or direction under subclause (1).
- (3) The local government or an authorised person may direct a person who commits, or is reasonably suspected by the local government or the authorised person of having committed, an offence under this clause to leave the waste facility immediately.
- (4) A person must comply with a direction under subclause (3).

4.4 Fees and charges

- (1) Unless subclause (3) applies, a person must, on or before entering a waste facility or on demand by the local government or an authorised person, pay the fee or charge as assessed by an authorised person.
- (2) An authorised person may assess the fee or charge in respect of a particular load of waste at a rate that applies to any part of that load, even if that rate is higher than the rate that would apply to any other part of the load.
- (3) Subclause (1) does not apply—
 - (a) to a person who disposes of waste in accordance with the terms of—
 - (i) a credit arrangement with the local government; or
 - (ii) any other arrangement with the local government to pay the fee or charge at a different time or in a different manner; and
 - (b) to the deposit of waste owned by the local government, or in the possession of an employee on behalf of the local government.

4.5 Depositing waste

- (1) A person must not deposit waste at a waste facility other than—
 - (a) at a location determined by a sign and in accordance with the sign; and
 - (b) in accordance with the direction of an authorised person.
- (2) The local government may determine the classification of any waste that may be deposited at a waste facility.

4.6 Prohibited activities

- (1) Unless authorised by the local government, a person must not—
 - (a) remove any waste or any other thing from a waste facility;
 - (b) deposit at a waste facility that is a landfill site any waste that is toxic, poisonous or hazardous, or the depositing of which is regulated or prohibited by any written law;
 - (c) light a fire in a waste facility;
 - (d) remove, damage or otherwise interfere with any flora in a waste facility;
 - (e) remove, injure or otherwise interfere with any fauna in a waste facility; or
 - (f) damage, deface or destroy any building, equipment, plant or property within a waste facility.
- (2) A person must not act in an abusive or threatening manner towards any person using, or engaged in the management or operation of, a waste facility;

Part 5 - Enforcement

5.1 Objection and appeal rights

Division 1 of Part 9 of the LG Act applies to a decision under this local law to grant, renew, vary or cancel –

- (a) an approval under clause 2.7(b);
- (b) an exemption under clause 2.8(2);
- (c) an approval under clause 2.9(b);
- (d) an approval under clause 2.10(1);
- (e) an authorisation under clause 3.2(1)(c);
- (f) an approval under clause 3.2(2); and
- (g) an approval under clause 3.3.

5.2 Offences and general penalty

- (1) A person who fails to do anything required or directed to be done under this local law, or who does anything which under this local law a person is prohibited from doing, commits an offence.
- (2) A person who commits an offence under this local law is liable, on conviction, to a penalty not exceeding \$5,000, and if the offence is of a continuing nature, to a further penalty not exceeding \$500 in respect of each day or part of a day during which the offence has continued.

5.3 Other costs and expenses

- (1) A person who is convicted of an offence under this local law is to be liable, in addition to any penalty imposed under clause 5.2, to pay to the local government the costs and expenses incurred by the local government in taking remedial action such as—
 - (a) removing and lawfully disposing of toxic, hazardous or poisonous waste; or
 - (b) making good any damage caused to a waste facility.
- (2) The costs and expenses incurred by the local government are to be recoverable, as a debt due to the local government, in a court of competent civil jurisdiction.

5.4 Prescribed offences

- (1) An offence against a clause specified in Schedule 2 is a prescribed offence for the purposes of section 9.16(1) of the LG Act.
- (2) The amount of the modified penalty for a prescribed offence is that specified adjacent to the clause in Schedule 2.

5.5 Form of notices

- (1) Where a vehicle is involved in the commission of an offence, the form of the notice referred to in section 9.13 of the LG Act is that of Form 1 in Schedule 1 of the LG Regulations;
- (2) The form of the infringement notice given under section 9.16 of the LG Act is that of Form 2 in Schedule 1 of the LG Regulations; and
- (3) The form of the infringement withdrawal notice given under section 9.20 of the LG Act is that of Form 3 in Schedule 1 of the LG Regulations.

Schedule 1 - Meaning of 'non-collectable waste'

non-collectable waste means –

- (a) hot or burning material;
- (b) household hazardous waste, including paint, acids, alkalis, fire extinguishers, solvents, pesticides, oils, gas cylinders, batteries, chemicals and heavy metals;
- (c) any other hazardous material, such as radioactive waste;
- (d) any explosive material, such as flares or ammunition;
- (e) electrical and electronic equipment;
- (f) hospital, medical, veterinary, laboratory or pathological substances;
- (g) construction or demolition waste;
- (h) sewage;
- (i) 'controlled waste' for the purposes of the *Environmental Protection (Controlled Waste) Regulations 2004*;
- (j) any object that is greater in length, width, or breadth than the corresponding dimension of the receptacle or that will not allow the lid of the receptacle to be tightly closed;
- (k) waste that is or is likely to become offensive or a nuisance, or give off an offensive or noxious odour, or to attract flies or cause fly breeding unless it is first wrapped in non-absorbent or impervious material or placed in a sealed impervious and leak-proof container; and
- (l) any other waste determined by the local government to be non-collectable waste.

Schedule 2 - Prescribed offences

Item No.	Clause No.	Description	Modified Penalty
1	2.1(2)(a)	Failing to pay fee or charge	\$350
2	2.1(2)(b)	Failing to ensure lawful use of receptacle	\$350
3	2.2(1)	Depositing non-collectable waste in a receptacle	\$350
4	2.2(2)	Depositing waste in another receptacle without consent	\$350
5	2.3(1)	Exceeding weight capacity of a general waste receptacle	\$350
6	2.3(2) and (3)	Depositing unauthorised waste in a general waste receptacle	\$350
7	2.4(a)	Depositing unauthorised waste in a recycling waste receptacle	\$350
8	2.4(b) and (c)	Exceeding weight capacity of a recycling waste receptacle	\$250
9	2.5(a)	Depositing unauthorized waste in an organic waste receptacle	\$350
10	2.5(b) and (c)	Exceeding weight capacity of an organic waste receptacle	\$350
11	2.6(3)	Failing to comply with a direction concerning placement or removal of a receptacle	\$250
12	2.7(a)	Failing to keep a receptacle in the required location	\$250
13	2.7(b)	Failing to place a receptacle for collection in a lawful position	\$250
14	2.7(c)	Failing to provide a sufficient number of receptacles	\$250
15	2.7(d)	Failing to notify of a lost, stolen, damaged or defective receptacle	\$50
16	2.9(a)	Damaging, destroying or interfering with a receptacle	\$400
17	2.9(b)	Removing a receptacle from premises	\$400
18	2.10(1)	Failing to comply with a term or condition of verge waste collection	\$400
19	2.10(2)	Removing waste for commercial purposes	\$350
20	2.10(3)	Disassembling or leaving in disarray waste deposited for collection	\$250
21	3.1(a)	Failing to provide a sufficient number of receptacles	\$250
22	3.1(b)	Failing to keep a receptacle clean and in a good condition and repair	\$250
23	3.1(c)(i)	Failing to prevent fly breeding and vectors of disease in a receptacle	\$350
24	3.1(c)(ii)	Failing to prevent the emission of offensive odours from a receptacle	\$350
25	3.1(c)(iii)	Allowing a receptacle to cause a nuisance	\$350
26	3.1(d)	Failing to comply with a direction to clean, disinfect or deodorise receptacle	\$300

Item No.	Clause No.	Description	Modified Penalty
27	3.2(1)	Unauthorised removal of waste from premises	\$250
28	3.2(2)	Removing waste from a receptacle without approval	\$250
29	4.3(2)	Failing to comply with a sign or direction	\$500
30	4.3(4)	Failing to comply with a direction to leave	\$500
31	4.4(1)	Disposing waste without payment of fee or charge	\$500
32	4.5(1)	Depositing waste contrary to sign or direction	\$500
33	4.6(1)(a)	Removing waste without authority in a waste facility	\$250
34	4.6(1)(b)	Depositing toxic, poisonous or hazardous waste at a waste facility	\$500
35	4.6(1)(c)	Lighting a fire in a waste facility	\$300
36	4.6(1)(d)	Removing or interfering with any flora in a waste facility	\$300
37	4.6(1)(e)	Removing or interfering with any fauna without approval in a waste facility	\$300
38	4.6(1)(f)	Damaging, defacing or destroying any building, equipment, plant or property within a waste facility	\$500
39	4.6(2)	Acting in an abusive or threatening manner	\$300

Waste Avoidance and Resource Recovery Act 2007
Local Government Act 1995

SHIRE OF BROOME SHIRE COUNCIL

Waste Local Law 2021¹⁰

Under the powers conferred on it by the *Waste Avoidance and Resource Recovery Act 2007* and the *Local Government Act 1995* and under all other enabling powers, the Council of the Shire of Broome resolved on (insert date) to make the following local law.

Part 1 - Preliminary

1.1 Short title

This is the Shire of Broome Waste Local Law 2021¹⁰

1.2 Commencement

This local law commences 14 days after the day on which it is published in the *Government Gazette*.

1.3 Application

This local law applies throughout the district.

1.4 Repeal

This Waste Local Law repeals Division 2 of Part 4 of the *Shire of Broome Health Local Laws 2006* with the exception of clause 4.2.11, as published in the *Government Gazette* on 20 March 2007.

1.4

1.5 Meaning of terms used in this local law

(1) In this local law—

authorised person means a person appointed by the local government under section 9.10 of the LG Act to perform any of the functions of an authorised person under this local law;

collectable waste means local government waste that is not—

- (a) liquid refuse;
- (b) liquid waste; or
- (c) non-collectable waste;

Formatted: Body Text 2

collectable waste receptacle means a receptacle for the deposit and collection of collectable waste that is—

- (a) a recycling waste receptacle;
- (b) a general waste receptacle; or
- (c) an organic waste receptacle;

collection, when used in relation to a receptacle, means the collection and removal of collectable waste from the receptacle by the local government or its contractor;

collection day means the day determined by the local government for the collection of collectable waste in the district or a part of the district;

collection time means the time on the collection day determined by the local government for the collection of collectable waste in the district or a part of the district;

~~**commencement date** means the date on which this local law commences operation under clause 1.2;~~

costs of the local government include administrative costs;

Council means the council of the local government;

district means the district of the local government;

general waste receptacle means a receptacle for the deposit and collection of collectable waste that is not recycling waste;

LG Act means the *Local Government Act 1995*;

LG Regulations means the *Local Government (Functions and General) Regulations 1996*;

local government means *Shire of Broome*

local government waste has the same meaning as in the WARR Act;

non-collectable waste has the meaning set out in Schedule 1;

occupier in relation to premises, means any or all of the following—

- (a) a person by whom or on whose behalf the premises are actually occupied; or
- (b) a person having the management or control of the premises;

organic waste means waste that decomposes readily, such as garden waste or food waste;

organic waste receptacle means a receptacle for the deposit and collection of organic waste;

owner has the same meaning as in the LG Act;

public place includes a place to which the public ordinarily have access, whether or not by payment of a fee;

receptacle, means a receptacle—

- (a) that has been supplied for the use of the premises by the local government or its contractor, or which has otherwise been approved by the local government; and
- (b) the waste from which is collected and removed from the premises by the local government or its contractor;

recycling waste receptacle means a receptacle for the deposit and collection of recycling waste;

recycling waste means—

- (a) paper and cardboard;
- (b) plastic containers comprised of polyethylene terephthalate or high density polyethylene;
- (c) glass containers;
- (d) steel containers;
- (e) aluminium containers;
- (f) liquid paper board; and
- (g) any other waste determined by the local government to be recycling waste;

specified means specified by the local government or an authorised person, as the case may be;

street alignment means the boundary between the land comprising a street and the land that abuts the street;

WARR Act means the *Waste Avoidance and Resource Recovery Act 2007*;

WARR Regulations means the *Waste Avoidance and Resource Recovery Regulations 2008*;

waste has the same meaning as in the WARR Act;

waste facility means a waste facility, as defined in the WARR Act, that is operated by the local government; and

waste service has the same meaning as in the WARR Act.

- (2) Where, in this local law, a duty or liability is imposed on an owner or occupier, or on an owner and occupier, the duty or liability is taken to be imposed jointly and severally on each of the owners or occupiers.

1.6 Local public notice of determinations

Where, under this local law, the local government has a power to determine a matter –

- (a) local public notice, under section 1.7 of the LG Act, must be given of the matter determined;
- (b) the determination becomes effective only after local public notice has been given;
- (c) the determination remains in force for the period of one year after the date that local public notice has been given under paragraph (a);
- (d) after the period referred to in paragraph (c), the determination continues in force only if, and for so long as, it is the subject of local public notice, given annually, under section 1.7 of the LG Act; and
- (e) the determination must be recorded in a publicly accessible register of determinations that must be maintained by the local government.

1.7 Rates, fees and charges

The local government's powers to impose rates, fees and charges in relation to waste services are set out in sections 66 to 68 of the WARR Act and section 6.16 and 6.17 of the LG Act.

1.8 Power to provide waste services

The local government's power to provide, or enter into a contract for the provision of, waste services is dealt with in section 50 of the WARR Act.

Part 2 - Local government waste

2.1 Supply of receptacles

- (1) The local government is to supply, for the use of each premises that are, or are capable of being, occupied or used for residential purposes, one or more receptacles for the collection and removal, from those premises, of collectable waste.
- (2) The owner of premises to which subclause (1) applies must—
 - (a) ensure that the fee or charge (if any) imposed by the local government in relation to each receptacle is paid to the local government; and
 - (b) ensure that each receptacle is used, in respect of those premises, in accordance with this local law.

2.2 Deposit of waste in receptacles

- (1) An owner or occupier of premises must not deposit or permit to be deposited in a receptacle any non-collectable waste.
- (2) A person must not deposit waste in a receptacle that has been provided for the use of other premises without the consent of the owner or occupier of those premises.

2.3 General waste receptacles

- (1) An owner or occupier of premises must not deposit or permit to be deposited in a general waste receptacle—
 - (a) where the receptacle has a capacity of 240 litres—more than 70 kilograms of collectable waste; or
 - (b) where the receptacle has any other capacity—more than the weight determined by the local government.
- (2) Where the local government supplies recycling waste receptacles, an owner or occupier of premises must not deposit or permit to be deposited in a general waste receptacle any recycling waste.
- (3) Where the local government supplies organic waste receptacles, an owner or occupier of premises must not deposit or permit to be deposited in a general waste receptacle any organic waste.

2.4 Recycling waste receptacles

An owner or occupier of premises must not deposit or permit to be deposited in a recycling waste receptacle—

- (a) anything other than the particular type of recycling waste for which that receptacle was provided by the local government for those premises;
- (b) where the receptacle has a capacity of 240 litres— more than 70 kilograms of recycling waste; or
- (c) where the receptacle has any other capacity—more than the weight determined by the local government.

2.5 Organic waste receptacles

An owner or occupier of premises must not deposit or permit to be deposited in an organic waste receptacle—

- (a) anything other than the particular type of organic waste for which that receptacle was provided by the local government for those premises;
- (b) where the receptacle has a capacity of 240 litres - more than 70 kilograms of organic waste; or
- (c) where the receptacle has any other capacity - more than the weight determined by the local government.

2.6 Direction to place or remove a receptacle

- (1) The local government or an authorised person may give a written direction to an owner or occupier of specified premises —
 - (a) to place a receptacle in respect of those premises for collection; or
 - (b) to remove a receptacle in respect of those premises after collection.

- (2) The direction under subclause (1) may specify when the placement or removal is to occur, or where the receptacle is to be placed, or both.
- (3) An owner or occupier of premises must comply with a direction given under this clause.

2.7 Duties of owner or occupier

An owner or occupier of premises must—

- (a) except for a reasonable period before and after collection time, keep each receptacle in a storage space or area that is behind the street alignment;
- (b) take reasonable steps, if placing a receptacle for collection on the verge adjoining the premises, or other area as determined by the local government, ensure that, within a reasonable period before collection time, each receptacle is —
 - (i) within 1 metre of the carriageway;
 - (ii) placed so that it does not unduly obstruct any footpath, cycle way, right-of-way or carriageway; and
 - (iii) facing squarely to the edge of and opening towards the carriageway,

or in such other position as is approved in writing by the local government or an authorised person;
- (c) take reasonable steps to ensure that the premises are provided with an adequate number of receptacles; and
- (d) if the receptacle is lost, stolen, damaged or defective, notify the local government, as soon as practicable, after the event.

2.8 Exemption

- (1) An owner or occupier of premises may apply in writing to the local government for an exemption from compliance with the requirements of clause 2.7(a) or (b).
- (2) The local government or an authorised person may grant, with or without conditions, or refuse an application for exemption from compliance under this clause.
- (3) An exemption granted under this clause must state—
 - (a) the premises to which the exemption applies;
 - (b) the period during which the exemption applies; and
 - (c) any conditions imposed by the local government or the authorised person.

- (4) An exemption granted under this clause ceases to apply –
 - (a) if the local government decides, on reasonable grounds, that there has been a failure to comply with a condition of the exemption; and
 - (b) from the date that the local government informs the owner or occupier of its decision under clause 2.8(4)(a).

2.9 Damaging or removing receptacles

A person, other than the local government or its contractor, must not—

- (a) damage, destroy or interfere with a receptacle; or
- (b) except as permitted by this local law or as authorised by the local government or an authorised person, remove a receptacle from any premises to which it was delivered by the local government or its contractor.

2.10 Verge collections

- (1) Where the local government has advertised a verge waste collection (such as a green waste, or a bulk waste, verge collection) a person, unless with and in accordance with the approval of the local government or an authorised person—
 - (a) must deposit waste only during the period of time, and in accordance with other terms and conditions, as advertised by the local government in relation to that verge waste collection; and
 - (b) must otherwise comply with those terms and conditions.
- (2) Where waste has been deposited on a verge for a verge waste collection, a person must not remove any of that waste for a commercial purpose but may remove it for any other purpose.
- (3) Except where waste is lawfully removed from a verge under this clause, a person must not disassemble or tamper with any waste deposited on a verge for a verge waste collection so as to increase the risk of harm to any person.
- (4) Clause 2.10(2) does not apply to the local government or a person engaged or contracted by the local government in relation to the verge waste collection.

Part 3 - General duties

3.1 Duties of an owner or occupier

An owner or occupier of premises must—

- (a) take reasonable steps to ensure that a sufficient number of receptacles are provided to contain all waste which accumulates or may accumulate in or from the premises;
- (b) ensure that each receptacle is kept in good condition and repair;

- (c) take all reasonable steps to—
 - (i) prevent fly breeding and keep each receptacle free of flies, maggots, cockroaches, rodents and other vectors of disease;
 - (ii) prevent the emission of offensive or noxious odours from each receptacle; and
 - (iii) ensure that each receptacle does not cause a nuisance to an occupier of adjoining premises; and
- (d) whenever directed to do so by the local government or an authorised person, thoroughly clean, disinfect, deodorise and apply a residual insecticide to each receptacle.

3.2 Removal of waste from premises

- (1) A person must not remove any waste from premises unless that person is—
 - (a) the owner or occupier of the premises;
 - (b) authorised to do so by the owner or occupier of the premises; or
 - (c) authorised in writing to do so by the local government or an authorised person.
- (2) A person must not remove any waste from a receptacle without the approval of—
 - (a) the local government or an authorised person; or
 - (b) the owner or occupier of the premises at which the receptacle is ordinarily kept.

3.3 Receptacles and containers for public use

A person must not, without the approval of the local government or an authorised person—

- (a) deposit household, commercial or other waste from any premises on or into; or
- (b) remove any waste from,

a receptacle provided for the use of the general public in a public place.

Part 4 - Operation of waste facilities

4.1 Operation of this Part

This Part applies to a person who enters a waste facility.

4.2 Hours of operation

The local government may from time to time determine the hours of operation of a waste facility.

4.3 Signs and directions

- (1) The local government or an authorised person may regulate the use of a waste facility—
 - (a) by means of a sign; or
 - (b) by giving a direction to a person within a waste facility.
- (2) A person within a waste facility must comply with a sign or direction under subclause (1).
- (3) The local government or an authorised person may direct a person who commits, or is reasonably suspected by the local government or the authorised person of having committed, an offence under this clause to leave the waste facility immediately.
- (4) A person must comply with a direction under subclause (3).

4.4 Fees and charges

- (1) Unless subclause (3) applies, a person must, on or before entering a waste facility or on demand by the local government or an authorised person, pay the fee or charge as assessed by an authorised person.
- (2) An authorised person may assess the fee or charge in respect of a particular load of waste at a rate that applies to any part of that load, even if that rate is higher than the rate that would apply to any other part of the load.
- (3) Subclause (1) does not apply—
 - (a) to a person who disposes of waste in accordance with the terms of—
 - (i) a credit arrangement with the local government; or
 - (ii) any other arrangement with the local government to pay the fee or charge at a different time or in a different manner; and
 - (b) to the deposit of waste owned by the local government, or in the possession of an employee on behalf of the local government.

4.5 Depositing waste

- (1) A person must not deposit waste at a waste facility other than—
 - (a) at a location determined by a sign and in accordance with the sign; and
 - (b) in accordance with the direction of an authorised person.
- (2) The local government may determine the classification of any waste that may be deposited at a waste facility.

4.6 Prohibited activities

- (1) Unless authorised by the local government, a person must not—
 - (a) remove any waste or any other thing from a waste facility;
 - (b) deposit at a waste facility that is a landfill site any waste that is toxic, poisonous or hazardous, or the depositing of which is regulated or prohibited by any written law;
 - (c) light a fire in a waste facility;
 - (d) remove, damage or otherwise interfere with any flora in a waste facility;
 - (e) remove, injure or otherwise interfere with any fauna in a waste facility; or
 - (f) damage, deface or destroy any building, equipment, plant or property within a waste facility.
- (2) A person must not act in an abusive or threatening manner towards any person using, or engaged in the management or operation of, a waste facility;

Part 5 - Enforcement

5.1 Objection and appeal rights

Division 1 of Part 9 of the LG Act applies to a decision under this local law to grant, renew, vary or cancel –

- (a) an approval under clause 2.7(b);
- (b) an exemption under clause 2.8(2);
- (c) an approval under clause 2.9(b);
- (d) an approval under clause 2.10(1);
- (e) an authorisation under clause 3.2(1)(c);
- (f) an approval under clause 3.2(2); and
- (g) an approval under clause 3.3.

5.15.2 Offences and general penalty

- (1) A person who fails to do anything required or directed to be done under this local law, or who does anything which under this local law a person is prohibited from doing, commits an offence.
- (2) A person who commits an offence under this local law is liable, on conviction, to a penalty not exceeding \$5,000, and if the offence is of a continuing nature, to a further penalty not exceeding \$500 in respect of each day or part of a day during which the offence has continued.

5.25.3 Other costs and expenses

- (1) A person who is convicted of an offence under this local law is to be liable, in addition to any penalty imposed under clause 5.45.2, to pay to the local government the costs and expenses incurred by the local government in taking remedial action such as—
 - (a) removing and lawfully disposing of toxic, hazardous or poisonous waste; or
 - (b) making good any damage caused to a waste facility.
- (2) The costs and expenses incurred by the local government are to be recoverable, as a debt due to the local government, in a court of competent civil jurisdiction.

5.4 Prescribed offences

- (1) An offence against a clause specified in Schedule 2 is a prescribed offence for the purposes of section 9.16(1) of the LG Act.
- (2) The amount of the modified penalty for a prescribed offence is that specified adjacent to the clause in Schedule 2.

5.5 Form of notices

- (1) Where a vehicle is involved in the commission of an offence, the form of the notice referred to in section 9.13 of the LG Act is that of Form 1 in Schedule 1 of the LG Regulations;
- (2) The form of the infringement notice given under section 9.16 of the LG Act is that of Form 2 in Schedule 1 of the LG Regulations; and
- (3) The form of the infringement withdrawal notice given under section 9.20 of the LG Act is that of Form 3 in Schedule 1 of the LG Regulations.

5.3 Prescribed offences

- (1) An offence against a clause specified in Schedule 2 is a prescribed offence for the purposes of section 9.16(1) of the LG Act.
- (2) The amount of the modified penalty for a prescribed offence is that specified adjacent to the clause in Schedule 2.

5.4 Form of notices

- (1) Where a vehicle is involved in the commission of an offence, the form of the notice referred to in section 9.13 of the LG Act is that of Form 1 in Schedule 1 of the LG Regulations;
- (2) The form of the infringement notice given under section 9.16 of the LG Act is that of Form 2 in Schedule 1 of the LG Regulations; and
- (3) The form of the infringement withdrawal notice given under section 9.20 of the LG Act is that of Form 3 in Schedule 1 of the LG Regulations.

Schedule 1 - Meaning of 'non-collectable waste'

non-collectable waste means –

- (a) hot or burning material;
- (b) household hazardous waste, including paint, acids, alkalis, fire extinguishers, solvents, pesticides, oils, gas cylinders, batteries, chemicals and heavy metals;
- (c) any other hazardous material, such as radioactive waste;
- (d) any explosive material, such as flares or ammunition;
- (e) electrical and electronic equipment;
- (f) hospital, medical, veterinary, laboratory or pathological substances;
- (g) construction or demolition waste;
- (h) sewage;
- (i) ~~non-frangible metal;~~
- (j) 'controlled waste' for the purposes of the *Environmental Protection (Controlled Waste) Regulations 2004*;
- (k) any object that is greater in length, width, or breadth than the corresponding dimension of the receptacle or that will not allow the lid of the receptacle to be tightly closed;
- (l) waste that is or is likely to become offensive or a nuisance, or give off an offensive or noxious odour, or to attract flies or cause fly breeding unless it is first wrapped in non-absorbent or impervious material or placed in a sealed impervious and leak-proof container; and
- (m) any other waste determined by the local government to be non-collectable waste.

Schedule 2 - Prescribed offences

Item No.	Clause No.	Description	Modified Penalty
1	2.1(2)(a)2-1(2)(a)	Failing to pay fee or charge	\$350
2	2.1(2)(b)2-1(2)(b)	Failing to ensure lawful use of receptacle	\$350
3	2.2(1)2.2(1)	Depositing non-collectable waste in a receptacle	\$350
4	2.2(2)2.2(2)	Depositing waste in another receptacle without consent	\$350
5	2.3(1)2.3(1)	Exceeding weight capacity of a general waste receptacle	\$350
6	2.3(2)2.3(2) and (3)	Depositing unauthorised waste in a general waste receptacle	\$350

CHIEF EXECUTIVE OFFICER
DEPARTMENT OF WATER AND ENVIRONMENTAL REGULATION

Dated this _____ of _____ 2021

Shire of Broome Health Local Law 2006

**HEALTH LOCAL LAWS 2006**

Clauses in Health Local Law 2006 to be repealed by Waste Management Local Law 2021

PART 4 - WASTE FOOD AND REFUSE*Division 1 - Liquid Refuse***4.1.1— Interpretation**

4.1.1— In this division, unless the context otherwise requires—

"liquid refuse" includes swimming pool discharges, all washings from windows, vehicles and carpet cleaning, overflow, bleed off, condensate and drainage from air conditioning equipment including evaporative coolers and other liquid used for cooling purposes;

"liquid waste" means bathroom, kitchen, scullery and laundry wastes, the contents of septic tanks, all washings from animal and poultry pens and any other domestic or trade wastes that are discharged by means of a drain to a receptacle for drainage; and

"approved carrier" means a carrier approved by the local government.

4.1.2— Deposit of Liquid Refuse

4.1.2— A person shall not deposit or cause or permit to be deposited liquid refuse or liquid waste—

(a) on a street;

(b) in a stormwater disposal system; or

(c) on any land or place other than a place or depot duly authorised for that purpose.

4.1.3— Disposal of Liquid Waste

4.1.3

(1) The owner or occupier of premises shall—

(a) provide, one of the methods prescribed in this section, for the disposal of all liquid waste produced on the premises; and

(b) at all times maintain in good working order and condition any apparatus used for the disposal of liquid waste.

(2) Liquid waste shall be disposed of by one of the following methods—

(a) discharging it into the sewerage system of a licensed water service operator in a manner approved by the licensed water service operator;

(b) discharging it into an apparatus for the treatment of sewage and disposal of effluent and liquid waste approved by the Executive Director, Public Health or the local government;

(c) collection and disposal at an approved liquid waste disposal site in a manner approved by the Executive Director Public Health.

4.1.4— Approval for Septic Tank Pumpouts and Removal of Liquid Waste

4.1.4— A person shall not—

(a) unless he or she is an approved carrier;

(b) without the written approval of the local government; and

(c) except in accordance with any terms and conditions imposed by the local government or the Executive Director, Public Health in connection with the approval under paragraph (b), collect, remove or dispose of the contents of a septic tank, the pumpouts from holding tanks or an apparatus for the treatment of sewage and other liquid wastes.

4.1.5— Application for Approval

4.1.5

(1) A carrier may apply in writing to the local government for approval to collect, remove or

Shire of Broome Health Local Law 2006

- ~~dispose of the contents of a septic tank, the pumpouts from holding tanks or an apparatus for the treatment of sewage.~~(2) ~~The local government may grant or refuse an application under this section subject to conditions relating to—~~
~~(a) the time and method of collection, removal or disposal of the contents; or~~
~~(b) the route to be followed by a vehicle used in collection, removal or disposal of the contents; or~~
~~(c) the type of liquid waste that can be collected.~~
(3) ~~Any conditions imposed by the local government under this section shall be—~~
~~(a) specified in the written approval of the local government; and~~
~~(b) in addition to any conditions imposed by the Executive Director of Public Health or conditions applying under any other law.~~
(4) ~~The local government may from time to time vary conditions imposed by it under this section by giving written notice of the variation to the person to whom approval was given.~~

4.1.6 Provision of Quarterly Reports

- ~~4.1.6 The approved carrier may be required to provide Quarterly Reports to the local government containing accurate details of—~~
~~(a) the date of servicing the liquid waste system;~~
~~(b) the address or location of the involved property; and~~
~~(c) the type of system serviced.~~

Division 2 - Disposal of Refuse

4.2.1 Interpretation

- ~~4.2.1 In this division, unless the context otherwise requires—~~
~~"building line" has the meaning given to it in and for the purposes of the Local Government (Miscellaneous Provisions) Act 1960;~~
~~"collection day" means the day of the week on which rubbish and refuse is collected and removed by the local government or its contractor;~~
~~"commercial waste" means refuse and other rubbish generated by or originating from commercial or industrial premises and includes trade refuse;~~
~~"domestic waste" means refuse and other rubbish generated by or emanating from residential premises and includes house refuse;~~
~~"public place" includes a street, way or place which the public are allowed to use, whether the street, way or place is or is not on private property;~~
~~"receptacle" means a polyethylene cart fitted with wheels, a handle and a lid and having a capacity of 120 litres or 240 litres, or other type of receptacle specified or approved by the local government;~~
~~"refuse disposal site" means a waste treatment facility or depot licenced under Part V of the Environmental Protection Act 1986 to store, treat, reuse or dispose of rubbish or refuse;~~
~~"rubbish or refuse" includes any filth, dirt, ashes, vegetation, garden refuse, waste material, waste food, sludge, offensive matter, cinders, wood or metal shavings and sawdust but does not include liquid waste or liquid refuse;~~
~~"street" includes a highway and a thoroughfare which the public are allowed to use and includes every part of the highway or thoroughfare, and other things including bridges and culverts, appurtenant to it;~~
~~"waste" means commercial or domestic waste or both as the context requires.~~

4.2.2 Receptacles

- ~~4.2.2 An owner or occupier of premises shall—~~
~~(a) maintain the receptacle provided by the Shire for the depositing of rubbish or refuse in a serviceable condition;~~
~~(b) at all times keep the lid of the receptacle closed except when depositing rubbish or refuse or cleaning the receptacle;~~

Shire of Broome Health Local Law 2006

- ~~(c) except for collection time, keep the receptacle on the premises and located-~~
- ~~(i) behind the building line and so as not to be visible from a street or public place;~~
- ~~or~~
- ~~(ii) in such other position as is approved by the local government;~~
- ~~(d) on each collection day at or prior to 6.00am place the receptacle out in the street in a position, prescribed by the local government, where it is visible from the carriageway of the street or the right of way, but so that it does not obstruct any thoroughfare, land, footpath, cycleway or other carriageway and positioned with the handle facing away from the kerb line, or placed in such other position as is approved by the local government;~~
- ~~(e) return the receptacle on the day of collection by 7.00pm to comply with (c)(i) or (c)(ii).~~

4.2.3 — Exemption

4.2.3

- ~~(1) An owner or occupier of premises may apply in writing to the local government for an exemption from compliance with the requirements of Section 4.2.2 (c) or (d).~~
- ~~(2) The local government may grant or refuse, with or without conditions, an application for exemption from compliance under this Section.~~
- ~~(3) An exemption granted under this Section shall state - (a) the premises to which the exemption applies;~~
- ~~(b) the period during which the exemption applies; and~~
- ~~(c) any conditions imposed by the local government.~~
- ~~(4) The local government may rescind the exemption or from time to time vary conditions imposed by it under this Section by giving written notice of the variation to the person to whom the exemption was given.~~

4.2.4 — Refuse From Building Sites

4.2.4

- ~~(1) During all periods of construction on any building site:~~
- ~~(a) the builder shall provide and maintain on such site a rubbish disposal bin approved by the local government being either:-~~
- ~~(i) a bin of not less than 4 cubic metres in capacity; or~~
- ~~(ii) a bin of not less than 0.20 cubic meters in capacity in which case such bin shall have an effectively operating lid.~~
- ~~(b) The builder shall keep such site free of rubbish and offensive matter, whether temporary or otherwise.~~
- ~~(c) The builder shall maintain the street verge immediately adjacent to such site free of rubbish or offensive matter resulting from construction on the building site, whether temporary or otherwise.~~
- ~~(d) the builder shall on completion of construction immediately clear the site and the street verge immediately adjacent thereto of all rubbish and offensive matter and shall remove there from all or any rubbish disposal bins placed thereon by the builder.~~
- ~~(2) In this Section the word "rubbish" shall be deemed to include stones, bricks, lime, timber, iron, tiles, bags, plastics and any broken, used or discarded matter whatsoever, whether of the same kind or type or otherwise.~~
- ~~(3) In this Section the word "builder" shall include the person or persons or firm or corporation who shall be the holder of any building licence issued in respect of such building works by the local government and shall also include any person or persons or firm or corporation who shall be in effective control of such building site whether or not such person or persons or firm or corporation shall be the holder of any such licence.~~

Shire of Broome Health Local Law 2006

4.2.5 Use of Receptacles

4.2.5 An owner or occupier of premises shall -

- ~~(a) not deposit or permit to be deposited in a receptacle - (i) more than 70 kilograms of rubbish or refuse;~~
- ~~(ii) - hot or burning ash;~~
 - ~~(iii) - oil, motor spirit or other flammable liquid;~~
 - ~~(iv) - liquid paint or other solvent;~~
 - ~~(v) - bricks, concrete, building rubble, asbestos, earth or other like substances;~~
 - ~~(vi) - drugs, dressings, bandages, swabs or blood samples unless placed in a sealed impervious and leak-proof container;~~
 - ~~(vii) - hospital, medical, veterinary, laboratory or pathological substances containing blood unless placed in a sealed impervious and leak-proof container;~~
 - ~~(viii) - syringes, needles, surgical hardware, broken glass, sharps or other sharp objects;~~
 - ~~(ix) - cytotoxics, radioactive substances and dangerous chemicals;~~
 - ~~(x) - sewage, manure, nightsoil, faeces or urine;~~
 - ~~(xi) - any object which is greater in length, width or breadth than the corresponding dimension of the receptacle or which will not allow the lid of the receptacle to be tightly closed;~~
 - ~~(xii) - rubbish or refuse which is or is likely to become offensive or a nuisance, or give off an offensive or noxious odour, or to attract flies or cause fly breeding unless it is first wrapped in non-absorbent or impervious material or placed in a sealed impervious container; or~~
 - ~~(xiii) - hazardous products including ammunition and flares;~~
- ~~(b) at all times keep the receptacle in a clean condition;~~
- ~~(c) whenever directed to do so by an Environmental Health Officer, thoroughly clean, disinfect, deodorise and apply a residual insecticide to the receptacle;~~
- ~~(d) take all reasonable steps to prevent -~~
 - ~~(i) - fly breeding and keep the receptacle free of flies, maggots, cockroaches, rodents and other vectors of disease; and~~
 - ~~(ii) - the emission of offensive and noxious odours from the receptacle; and~~
- ~~(e) ensure that the receptacle does not cause a nuisance to the occupiers of adjoining premises.~~

4.2.6 Damage to Receptacles

4.2.6 A person shall not -

- ~~(a) damage, destroy or interfere with a receptacle; or~~
- ~~(b) except as permitted by these Local Laws or as authorised by the local government, remove a receptacle from any premises.~~

4.2.7 Use of Other Containers

4.2.7

- ~~(1) In the case of premises consisting of more than 3 dwellings, any premises used for commercial or industrial purposes or a food premises, the local government may authorise rubbish or refuse to be deposited in a container other than a receptacle.~~
- ~~(2) The owner or occupier of premises who is authorised under this Section to deposit rubbish or refuse in a container shall -~~
 - ~~(a) unless approved by the local government not deposit or permit to be deposited in the container anything specified in Section 4.2.4 (a) (ii) to (xiii);~~
 - ~~(b) take all reasonable steps to prevent fly breeding in, and the emission of offensive or noxious odours from the container;~~
 - ~~(c) whenever directed by an Environmental Health Officer to do so, thoroughly clean, disinfect, deodorise and apply a residual insecticide to the container;~~
 - ~~(d) cause the container to be located on the premises in an enclosure constructed and located as approved by the local government;~~

Shire of Broome Health Local Law 2006

- ~~(e) ensure that the container is not visible from the street but is readily accessible for the purposes of collection; and~~
- ~~(f) ensure that the container does not cause a nuisance to an occupier of adjoining premises.~~ (3) An owner or occupier shall—
 - ~~(a) ensure that there are a sufficient number of containers provided to contain all rubbish and refuse which accumulates or may accumulate in or from the premises;~~
- ~~(b) ensure that each container on the premises—~~
 - ~~(i) has a close fitting lid;~~
 - ~~(ii) is constructed of non-absorbent and non-corrosive material; and~~
 - ~~(iii) is clearly marked, for the use of, and is used only for, the temporary deposit of rubbish or refuse;~~
- ~~(c) keep or cause to be kept each container thoroughly clean and in good condition and repair;~~
- ~~(d) place any rubbish or refuse in, and only in, a container marked for that purpose;~~
- ~~(e) keep the cover on each container except when it is necessary to place something in, or remove something from, it; and~~
- ~~(f) ensure that each container is emptied at least weekly or as directed by the local government.~~

4.2.8 Suitable Enclosure

4.2.8

- ~~(1) An owner or occupier of premises—~~
 - ~~(a) consisting of more than three (3) dwellings; or~~
 - ~~(b) used for commercial or industrial purposes, or a food premises shall if required by the local government provide a suitable enclosure for the storage and cleaning of receptacles on the premises.~~
- ~~(2) An owner or occupier of premises required to provide a suitable enclosure under this Section shall keep the enclosure thoroughly clean and disinfected.~~
- ~~(3) For the purposes of this Section, a "suitable enclosure" means an enclosure—~~
 - ~~(a) of sufficient size to accommodate all receptacles used on the premises but in any event having a floor area not less than a size approved by the local government;~~
 - ~~(b) constructed of brick, concrete, corrugated compressed fibre cement sheet or other material of suitable thickness approved by the local government;~~
 - ~~(c) having walls not less than 1.8 metres in height and having an access way of not less than 1 metre in width and fitted with a self closing gate;~~
 - ~~(d) containing a smooth, non-slip and impervious floor—~~
 - ~~(i) of not less than 75 millimetres in thickness; and~~
 - ~~(ii) which is evenly graded to an approved liquid refuse disposal system;~~
 - ~~(e) which is easily accessible to allow for the removal of the receptacles;~~
 - ~~(f) provided with a ramp into the enclosure having a gradient no steeper than 1:8 unless otherwise approved by the local government; and~~
 - ~~(g) provided with a tap connected to an adequate supply of water.~~

4.2.9 Deposit of Refuse

4.2.9

- ~~(1) A person shall not deposit or cause or permit to be deposited any rubbish or refuse in or on any street or on any land other than a refuse disposal site.~~
- ~~(2) A person who deposits rubbish or refuse at a refuse site shall pay to the local government a fee as fixed from time to time by the local government under Section 6.16 of the Local Government Act 1995.~~

4.2.10 Removal of Rubbish from Premises or Receptacle

4.2.10

- ~~(1) A person shall not remove any rubbish or refuse from premises unless that person is—~~
 - ~~(a) the owner or occupier of the premises;~~
 - ~~(b) authorised to do so by the owner or occupier of the premises; or~~
 - ~~(c) authorised in writing to do so by the local government.~~

Shire of Broome Health Local Law 2006

- ~~(2) A person shall not, without the approval of the local government or the owner of a receptacle, remove any rubbish or refuse from the receptacle or other container provided for the use of the general public in a public place.~~
- ~~(3) Where the local government provides -~~
 - ~~(a) a collection service for recyclable material, the occupier of premises shall comply with and observe the directions given by the local government in relation to that collection;~~
 - ~~(b) a collection for bulk material, the occupier of premises shall comply with and observe the directions given by the local government in relation to that collection.~~
- ~~(4) Where additional collection services are provided upon request by the occupier of premises, fees as prescribed by the local government shall be paid.~~

4.2.11 Burning Rubbish or Refuse

4.2.11

- (1) A person shall not -
 - (a) without the approval of the local government set fire to, or cause to be set on fire, any rubbish or refuse either -
 - (i) in any incinerator; or
 - (ii) on the ground.
- (2) Subject to subsection (4), where an approval of the local government has been issued within the Broome Townsite it shall be subject to the following conditions -
 - (a) the material does not include any plastic, rubber, food scraps, green garden cuttings and any other material which may become offensive when burnt;
 - (b) the material is of such quality, or of such nature, as to be unsuitable for removal by the local governments refuse collection services; and
 - (c) there is no other appropriate means of disposal.
- (3) Subject to subsection (4), where an approval of the local government has been issued outside the Broome Townsite it shall be subject to the following conditions -
 - (a) the material does not include any plastic or rubber;
 - (b) the material does not become offensive when burnt;
 - (c) the material is of such quality, or of such a nature, as to be unsuitable for removal by the local government refuse collection service; and
 - (d) there is no other appropriate means of disposal.
- (4) Subject to any other written law, the local government may grant approval to clear by burning fire breaks or vacant blocks of grass, straw, hay undergrowth, herbage and other similar vegetation.

4.2.12 Rubbish Removal Vehicles

- ~~4.2.12 A vehicle used by the local government or its contractor for the collection and transport of rubbish shall -~~
 - ~~(a) be provided with a compartment in which all rubbish shall be deposited for removal, and of which the interior is constructed from or surfaced with impermeable material; and~~
 - ~~(b) have a cover over the compartment at all times when the vehicle is engaged in the transport of rubbish.~~

4.2.13 Method of Removal of Rubbish

- ~~4.2.13 A person engaged in the removal of rubbish from premises shall -~~
 - ~~(a) convey all rubbish from the receptacles of the occupier of the premises and deposit the rubbish in the portion of the collection vehicle intended to hold the rubbish; and~~
 - ~~(b) replace the receptacle in the position it was lifted from.~~

4.2.14 Rubbish Disposal Areas

- ~~4.2.14 The Town Site of Broome is the prescribed area within which the provision of Section 112A of the Act shall operate and have effect.~~

Shire of Broome Health Local Law 2006

4.2.15 Removal from Refuse Disposal Site

4.2.15

- ~~(1) A person shall not remove any rubbish or refuse from a refuse disposal site without the written approval of the Council.~~
- ~~(2) A person who obtains approval from the Council shall comply with any conditions imposed by the Council and set out in the approval.~~

Division 3 – Transport of Butchers' Waste

4.3.1 Interpretation

- ~~4.3.1 In this Division, unless the context otherwise requires—~~
~~"butchers' waste" includes food animal skeletons, rib cages and inedible products.~~

4.3.2 Restriction of Vehicles

- ~~4.3.2 A person shall not use, for the transport of butchers' waste—~~
~~(a) a vehicle or container not approved by the local government; or~~
~~(b) a vehicle used for the transport of food or drugs; or~~
~~(c) anything intended to be used for the packing or handling of food or drugs.~~

4.3.3 Transport of Butchers' Waste

4.3.3

- ~~(1) A person shall not transport butchers' waste other than in—~~
~~(a) a compartment complying with the following specifications—~~
~~(i) all internal surfaces to be constructed of an approved, smooth, impervious material not less than 910 millimetres high;~~
~~(ii) all joints to be sealed and made water-tight;~~
~~(iii) the loading doors, if any, to be water-tight and kept closed at all times except when loading; and~~
~~(iv) the top to be completely covered by a tarpaulin or other impervious material approved by the local government, carried over, and secured to the outside of the walls at least 300 millimetres from the top so as to keep the load out of sight of the public; or~~
~~(b) a sealed container fitted with a lid which can be tightly closed.~~
- ~~(2) A person shall not transport any butchers' waste in a vehicle unless the vehicle and its fittings, including the compartment or container referred to in this Section, are—~~
~~(a) maintained in good order and condition; and~~
~~(b) thoroughly cleaned at the conclusion of each day's work.~~
- ~~(3) A person shall not load, transport, or unload butchers' waste in a manner that is or maybe offensive due to—~~
~~(a) the sight of animal skeletons, bones, offal or waste matter;—~~
~~(b) the odour of putrefaction, offal or waste matter; or~~
~~(c) the presence of blood and particles of flesh or fat dropping onto the surface of the street pavement or ground.~~

9.3 PROSPERITY

9.3.1 DRAFT ECONOMIC DEVELOPMENT STRATEGY FOR ENDORSEMENT FOR PUBLIC COMMENT

LOCATION/ADDRESS:	Nil
APPLICANT:	Nil
FILE:	EDP013
AUTHOR:	Economic Development Coordinator
CONTRIBUTOR/S:	Manager Community and Economic Development
RESPONSIBLE OFFICER:	Director Development and Community
DISCLOSURE OF INTEREST:	Nil

SUMMARY:

Strategic informing documents help provide information for the Strategic Community Plan.

The 'Economic Development Strategy 2021-2026 for the Shire of Broome' provides an overarching approach to economic development by the Shire for the next five years.

The draft Strategy is presented for Council's consideration.

This report recommends Council endorse the draft Strategy for a six-week public advertising and comment period, after which a final document will be presented to Council for endorsement.

BACKGROUND

The Shire's informing strategies feed into the Strategic Community Plan and Corporate Business Plan.

The draft 'Economic Development Strategy 2021-2026 for the Shire of Broome' (**the draft Strategy**) has been developed to support the Shire's role and contribution following the strategies outlined in the *Broome Growth Plan*.

RPS Group has been engaged by the Shire of Broome to lead the development of the Strategy in collaboration with the Shire's Economic Development team.

The lead consultant from RPS Group on this project comes with extensive regional economic development and strategic advisory experience across Western Australia and Queensland, including long-term engagement with major metropolitan and regional local governments, multiple Regional Development Commissions and State Government agencies and is well placed to guide and assist the development of this strategic informing document.

COMMENT

Content Overview

The draft Strategy is attached for review and endorsement for release for public comment (refer **Attachment 1**).

The draft Strategy provides detail on:

- a) The role of local government, and the Shire of Broome specifically, in economic development. This section also celebrates major Shire-led initiatives;
- b) Broome's economic profile;
- c) Broome's competitive advantages and challenges; and
- d) The Shire of Broome's economic development vision, desired outcomes, and programs.

The below table summarises the Shire's economic development vision, desired outcomes and programs, as outlined in the draft Strategy:

Vision	Broome – Economically Diverse, for everyone.
Desired Outcomes	More People More Investment More Businesses More Economic Diversity
Programs	Business and Industry Support Skills Development and Training Investment Attraction, Branding and Liveability Connectivity, Transport and Access

The economic development programs section of the Strategy celebrates current / recent actions and lists potential actions for further investigation over the next five years.

This section of the Strategy illustrates the multi-disciplinary approach to economic development and demonstrates how the Shire is comprehensively working towards meeting the vision and desired outcomes for the benefit of Broome's community and economy.

The list of potential actions for consideration and investigation have not yet been budgeted, fully scoped or prioritised.

This activity will occur during the 2021-2026 timeframe of the strategy.

Engagement

The Stakeholder Engagement Plan for this project was endorsed in July 2020.

Tier 1 Stakeholders were determined as having a primary regional economic development role. The organisations included in this list were presented as part of the project update at the August 2020 Council Workshop. The presentation was circulated to Council following the Workshop.

The engagement process to-date has involved targeted interviews and feedback on draft versions of the Strategy with regional economic development organisations (Tier 1 Stakeholders):

Organisation	Position
--------------	----------

Regional Development Australia Kimberley	<ul style="list-style-type: none"> • Chair • Executive Officer
Kimberley Development Commission	<ul style="list-style-type: none"> • Director, Regional Planning and Projects Delivery • Director, Strategic Planning and Projects Delivery
Nyamba Buru Yawuru	<ul style="list-style-type: none"> • CEO • Deputy CEO • Business Development Manager
Development WA	<ul style="list-style-type: none"> • Manager Regional North
West Kimberley Alliance	<ul style="list-style-type: none"> • Chair • Executive Officer
Broome International Airport	<ul style="list-style-type: none"> • Commercial Officer
Department of Primary Industries and Regional Development	<ul style="list-style-type: none"> • Director Northern Agricultural Development • Manager Strategic Projects • Manager Strategic Projects (Fitzroy River Catchment economic development) • Senior Development Officer
Broome Chamber of Commerce and Industry	<ul style="list-style-type: none"> • President
Kimberley Ports Authority	<ul style="list-style-type: none"> • CEO
Australia's North West Tourism	<ul style="list-style-type: none"> • CEO
Broome Visitor Centre	<ul style="list-style-type: none"> • General Manager

The one-on-one interviews occurred in August 2020 and sought to gain information and insights into the:

1. Drivers and challenges of the Broome economy;
2. Key opportunities and assets; and
3. Role and function of each stakeholder in the wider economic development approach.

The first draft of the Strategy was circulated on 29 September 2020 to the Shire's Executive Management Group, Management Coordination Group, and Tier 1 Stakeholders for feedback.

Following a request by Nyamba Buru Yawuru, the review period for the first draft was extended for one month.

Feedback closed on Friday 30 October 2020.

Engagement in this process was high with all external agencies providing constructive written or verbal feedback.

In addition, the first draft of the Strategy was circulated to the following supporting consultants for their consideration:

1. Hames Sharley – Review of Shire of Broome Local Planning Strategy and Scheme; and
2. Catalyse – Review of the Strategic Community Plan and Corporate Business Plan.

Officers have ensured as much alignment and cross-information between these significant bodies of work, which are under development simultaneously.

RPS and Officers have presented to Council providing project updates and seeking direct input at the following Workshop dates:

1. 11 August 2020;
2. 8 September 2020;
3. 1 December 2020; and
4. 9 February 2021.

Council attendance for the above workshops is listed below.

Council Workshop 11 August 2020:

1. Cr H Tracey
2. Cr N Wevers
3. Cr P Taylor

Council Workshop 8 September 2020:

1. Cr D Male
2. Cr F West
3. Cr N Wevers
4. Cr P Taylor
5. Cr C Mitchell

Council Workshop 1 December 2020:

1. Cr P Taylor
2. Cr P Matsumoto
3. Cr N Wevers
4. Cr F West

Council Workshop 9 February 2021:

1. Cr H Tracey
2. Cr D Male
3. Cr P Taylor
4. Cr N Wevers
5. Cr F West

6. Cr B Rudeforth

The changes agreed through this process have been incorporated in the attached draft Strategy.

The public comment period is an important next step in finalising the Strategy for the Shire of Broome.

CONSULTATION

Please see the engagement process undertaken to-date outlined in the Comment section of this report.

Officers are seeking endorsement from Council to release the draft Strategy for public comment for a six-week period.

If endorsed, the public comment period will commence 27 February 2021 and close on 12 April 2021.

Officers will utilise the following methods to advertise this opportunity:

- Press Release;
- Shire website;
- Social media;
- Inclusion in the Shire News section in the Broome Advertiser;
- Promotion at Shire facilities;
- Encourage stakeholders to distribute to their networks;
- Direct email to Tier 2 Stakeholder which includes the Broome District's Aboriginal communities, broader State and Federal Government agencies, and other key stakeholders; and
- Offer of one-on-one meetings to provide further clarification if required.

Consideration of feedback will inform the finalisation of the Strategy.

It is planned to table the final document at the May 2021 Council Workshop and June 2021 Ordinary Meeting of Council.

STATUTORY ENVIRONMENT

Nil.

POLICY IMPLICATIONS

Community Engagement

FINANCIAL IMPLICATIONS

Costs associated with advertising the draft Strategy for comment are anticipated to be minimal and will be included in other Shire advertising initiatives funded from operational accounts.

Estimated project variation costs of up to \$10,000 are expected with RPS to accommodate the following requirements:

1. Timeframe extension.
2. Content updates.
3. Additional revision batches.
4. Preparing a separate Executive Summary Brochure (4 – 8 pages) following Council endorsement of the Final Strategy.

The variation costs have been factored into the Quarter Two of the Shire of Broome's Finance and Costing Review.

RISK

The following table outlines the key risks identified with this project and the mitigation strategies proposed to address these risks in accordance with the Shire's Risk Management Policy.

Risk	Type	Rank	Mitigation
Concerns regarding the level of Councillor engagement	Reputational	Low	<p>Councillors have received updates on scope and progress via email correspondence and Workshop presentation since commencing the project in July 2020.</p> <p>Detailed feedback on the draft Strategy was sought at Council Workshops held 1 December 2020 and 9 February 2021 to inform the version recommended for public comment.</p> <p>If endorsed, Councillors will receive further updates and briefings during the six-week public comment period.</p> <p>This will enable the opportunity for the draft Strategy to be adjusted further prior to consideration for final adoption.</p>
Lack of community feedback on draft plan	Reputational	Low	<p>The organisations included in the Tier 1 Stakeholder list have considerable expertise in the economic and regional development fields.</p> <p>They represent State and Federal Governments, and areas of the private sector.</p> <p>The Tier 1 Stakeholders have positively and constructively contributed to the content of the draft Strategy presented to Council.</p> <p>Public consultation is being proposed for a six-week period.</p>

			Community feedback will be taken into consideration when finalising the Strategy.
Lack of staffing resources to deliver actions	Financial / Reputational	Medium	<p>This is a <i>strategy</i> document rather than a detailed Action / Implementation Plan.</p> <p>Officers have carefully considered the actions included in the draft Strategy from a practicality versus aspirational perspective.</p> <p>The actions included in the Economic Development Programs represent current or existing activities which have already been considered in approved budgets.</p> <p>The potential actions flagged for investigation in the Strategy recognise resources may require review if prioritised over the next five years.</p> <p>Many of the actions in the draft Strategy are included in the Strategic Community Plan and Corporate Business Plan endorsed in December 2020. These documents are informing the Long-Term Financial Plan.</p>
Concerns regarding the high number of Shire documents released for public comment	Reputational	Medium	<p>Officers are recommending the draft Strategy is released for a six-week period commencing 2 March 2021 and closing 12 April 2021.</p> <p>This is after the closing date for public comment on the draft Community Development Framework and informing strategies (31 December 2020).</p> <p>Other proposed informing strategies are intended to be released following the Economic Development Strategy public comment period.</p> <p>This staggered approach will provide adequate time for community consideration of the informing Strategy.</p>
Delays in releasing for public comment	Financial / Reputational	Medium	Timeframe extensions to the project has resulted in a contract and cost variation for the Shire of Broome. There will be an

			<p>additional financial risk for the Shire of Broome should there be a further delay to the proposed public comment period.</p> <p>Further delays will also pose a reputational risk for the Shire of Broome as Tier 1 Stakeholders were engaged in interviews in August 2020 and provided feedback on draft content in September and October 2020.</p>

FOREWORD

President's Foreword - to be supplied

Chief Executive Officer Foreword - to be supplied

Special Thanks

The Shire of Broome would like to thank the following organisations for their input and support in the development of this Strategy:

- Kimberley Development Commission
- Regional Development Australia Kimberley
- Broome Chamber of Commerce and Industry
- West Kimberley Alliance
- Nyamba Buru Yawuru
- Kimberley Ports Authority
- Broome International Airport
- Development WA
- Australia's North West Tourism
- Broome Visitor Centre

EXECUTIVE SUMMARY

The Shire of Broome is committed to promoting, encouraging and facilitating the sustainable development of the Broome economy for the benefit of all residents. This Economic Development Strategy 2021-2026, builds upon the success of the Broome Growth Plan as well as the region's 3 Year COVID-19 Recovery Plan.

Broome is located in the south-west Kimberley in the far north of Western Australia. It covers approximately 56,000 square kilometres and boasts a coastline of 900 kilometres. The Shire is located 2,240km by road to the northeast of Perth (capital city of Western Australia) and is closer to Darwin (1,872km northeast) and Bali, Indonesia (1,319km). The Shire is located in the same timezone as East Asia with 1.5 billion people.

The Shire of Broome was home to 16,907 people in 2019 and current WA Government projections indicate the population will reach 18,591 by 2031. This is in line with recent historical growth rates, though is slower than the Broome Growth Plan's modelled population scenarios. Approximately 1/3 of Broome's population are Aboriginal people – with higher shares living outside of the town itself.

Major employing industries in the Shire of Broome include Health Care and Social Assistance, Education and Training, and Accommodation and Food Services (linked to Broome's role as a domestic and international tourism destination of choice).

The region has a large share of small businesses, though lacks medium sized businesses which represents a significant constraint for Broome to tackle local unemployment and generate meaningful employment opportunities for all residents.

Major economic assets in (or near) the Shire include:

- Cable Beach
- Broome International Airport
- Port of Broome
- Dampier Peninsula
- Chinatown Broome
- University of Notre Dame – Broome Campus
- North Regional TAFE – Broome
- Great Northern Highway
- Browse Basin
- Thunderbird Mineral Sands
- Ex-Waterbank Station
- La Grange and Skuthorpe Agriculture Areas
- Asian Renewable Energy Hub
- Roebuck Plains Station
- Kimberley Meat Company

Broome is evolving to become a dynamic, investment friendly location with its proactive leadership group focused on transforming the regional centre into a modern vibrant place to live whilst nurturing our natural environmental and cultural assets. It seeks to leverage the long-term trend of people coming to the North West for a job and staying for the lifestyle.

There is significant longer-term private investment planned in Broome for transformational infrastructure development (i.e. \$110 million for the Kimberley Marine Offloading Facility). This Strategy also highlights that in the immediate-term, funds have been committed for locally-led activity that will have regional contracting capability and community benefits.

The Shire of Broome has identified a series of Desired Outcomes for economic development activity in Broome. These include More People; More Investment; More Businesses; and More Economic Diversity.

Realising the Vision for the Broome economy and the associated Desired Outcomes will require a series of actions and initiatives by the Shire, delivered in partnership with other economic development stakeholders.

The Economic Development Framework in this Strategy includes the identification and establishment of core Economic Development Programs for the Shire. The four key Economic Development Programs include:

- Business and Industry Support
- Skills Development and Training
- Investment Attraction, Branding & Liveability
- Connectivity, Transport and Access

This Strategy is a flexible document designed to provide a framework for Council's economic development activity to respond to potential fluctuations in commodity markets and global trends.

Based on an assessment of the competitiveness of the Broome economy, the following vision statement is proposed for the Economic Development Strategy:

**Broome -
economically
diverse, for
everyone.**

Economic development programs

Industry Support

Skills Development
& Training

Investment Attraction,
Branding & Liveability

Connectivity,
Transport & Access

AN ECONOMIC DEVELOPMENT STRATEGY FOR BROOME

What is Economic Development?

“Economic development” is a phrase that characterises any activity, initiative, investment or policy that seeks to improve the economic and social wellbeing of people. This recognises that we all live in a community, not an economy, and that economic activity should make people’s life better.

Successful economic development activities seek to grow and enhance the capacity of a local economy to generate wealth and prosperity in the long-term to underpin improvements in the lives of residents.

The concept of economic development has evolved over time, shifting from a focus on headline economic growth and employment figures to more nuanced and meaningful objectives such as sustainability, wellbeing, quality of living, resilience, social cohesion and integration.

Who is Responsible for Economic Development?

The economic development of Broome is a shared responsibility. It represents the collaborative and collective effort of key economic development stakeholders across all three levels of Government, Traditional Owners and other indigenous groups and communities, local and national businesses, major economic asset owners, investors, workers and residents.

Each organisation and person in Broome has an important role to play in realising positive economic development outcomes in the Shire. Every dollar spent, invested and earned in the Shire represents an opportunity to foster economic development and enhance quality of life.

What is the Role of Local Government?

In recent years, local government has played an increasingly central role in the achievement of economic development objectives across Australia. Local Government has a distinct advantage over other levels of government in the implementation of economic development initiatives because of its closer connection to both businesses and households in the community.

The purpose of the Shire of Broome is to deliver affordable and quality Local Government services, for everyone.

Economic Development Strategy 2021-2026 for the Shire of Broome

Council as an Economic Driver and Catalyst

Local Government not only plays an important role in setting the land use framework for economic and social development but often represents a major source of economic expenditure and activity in their own right.

In addition to this direct expenditure impacts, the Shire of Broome manages the Broome Library as well as the Broome Recreation and Aquatic Centre. Key indicators for these economic drivers are summarised below.

Despite the impact of COVID-19 on program and event delivery in 2019/20, both Broome Library and BRAC experienced an increase in attendance and activation, illustrating the critical role both facilities play in the social fabric of the Shire.

TABLE 1 SHIRE OF BROOME COUNCIL ECONOMIC EXPENDITURE AND ACTIVITY

Indicator	Value
Council Employees	178
Council Assets	51 assets with a fair value of \$488m
Council Operating Expenditure (2019/20)	\$32.3m
Council Operating Expenditure - Local Only (2019/20)	\$19.0m
Local Share of Council Operating Expenditure (2019/20)	55%
Council Capital Expenditure (2020/21 Budget)	\$40.6m
Economic Events and Tourism Development Grants (Avg 3 Years)	\$242,862
COVID-19 Community Support Grants (2020/21)	\$55,225
Tourism Administration Policy Grants (Avg 3 Years)	\$414,830
Shire Of Broome Sponsored Events	24
Shire of Broome Managed Events	22
Broome Civic Centre Events (2019/20)	52

Both Broome Library and BRAC experienced an increase in attendance and activation in 2019/20, illustrating the critical role both facilities play in the social fabric of the Shire.

Shire of Broome-Led Projects

Broome is home to significant economic and social potential and Council has and will continue to play a central role in the attraction of funding, the facilitation of investment, and the implementation and delivery of key major projects across the Shire.

Key projects currently being progressed and delivered by the Shire of Broome are outlined below.

Cable Beach Foreshore Redevelopment

Value: \$36.5 million

Status: Seeking Funding

Chinatown Revitalisation Stage 2

Value: \$18 million

Status: Committed / Underway

Regional Resource Recovery Park & Community Recycling Centre

Value: \$12.3 million

Status: Seeking Funding

Town Beach Project

Value: \$17 million

Status: Completed

Town Beach All-Access Fishing Jetty

Value: \$7.1 million

Status: Committed / Underway

Jetty to Jetty Trail

Value: \$0.6 million

Status: Committed / Underway

Broome Recreation & Aquatic Centre Renewal

Value: \$36.5 million

Status: Stage 1 – Underway

Stage 2 - Seeking Funding

Broome Golf Course Clubhouse & Restaurant

Value: \$6.5 million

Status: Committed / Underway

Broome Surf Life Saving Club Refurbishment

Value: \$3.2 million

Status: Committed / Underway

Kimberley Regional Office 1 - 3

Value: \$8.5 million

Status: Stage 1 – Completed

Stage 2 - Seeking Funding

Economic Development Strategy 2021-2026 for the Shire of Broome

9

We fulfil the following roles and responsibilities to meet local needs:

- **Advocate:** We are a voice for the local community, promoting local community interests to others.
- **Facilitate:** We help to make it possible or easier for others to meet community needs.
- **Fund:** We fund organisations to deliver essential community services.
- **Partner:** We form strategic alliances with others in the interests of the community.
- **Provide:** We directly provide community infrastructure and services.
- **Regulate:** We ensure compliance with local laws.

The role of local government in economic development is also dependent on the other institutions present in the area. This strategy recognises that in many instances, the Shire of Broome is best placed to partner rather than lead initiatives with our key stakeholders who also have economic development roles.

This includes, but not limited to the following:

- Kimberley Development Commission: information and facilitation between State Government and communities across the Kimberley region.
- Regional Development Australia Kimberley: information and facilitation between Federal Government and communities across the Kimberley region.
- West Kimberley Alliance: advocacy to government and private sector on key developments in the West Kimberley region.
- Broome Chamber of Commerce and Industry: peak industry body for the business sector in Broome.
- Nyamba Buru Yawuru: this is Yawuru's development and investment company and is charged with the responsibility to generate long term income for the Yawuru community. The not-for-profit company has interests in a range of areas including property development, pastoral and agricultural, construction and technologies.

Actioning the Indigenous Land Use Agreement

The Shire of Broome, Nyamba Buru Yawuru and the other State Government signatories are jointly striving to action the intent of the Indigenous Land Use Agreement (ILUA) which was signed in 2010. It is unusual for a Local Government to be a signatory to an ILUA and it recognises that strategic partnerships play an integral role in Broome's future development.

Nyamba Buru Yawuru is a significant landholder in the townsite of Broome. The Shire of Broome acknowledges that its office is on Yawuru country and its relationship with Yawuru people and Traditional Owner groups across the local government area is an asset.

In terms of economic opportunities, the joint ILUA and determined Native Title for Broome is a competitive advantage. It provides a degree of certainty for future development and investment. It also signals to business that there are established terms for joint management of conservation estates and marine parks.

Outside of the Broome townsite, Native Title has largely been determined across the Shire. This means that there is minimal uncertainty relating to ongoing claims with established Prescribed Body Corporates which hold Native Title acting on behalf of Traditional Owner groups across the Shire.

Building on the Broome Growth Plan

The Shire of Broome currently does not have a dedicated Economic Development Strategy. Instead, economic development objectives and goals have been a shared responsibility of the Shire and other stakeholders through the implementation of the Broome Growth Plan. The Growth Plan Partnership comprised of the Shire of Broome; Kimberley Development Commission; Yawuru Registered Native Title Body Corporate; Development WA (formally LandCorp); Department of Primary Industries and Regional Development; and Department of Planning, Lands and Heritage.

The Broome Growth Plan is a blueprint for the Shire's economic future and was compiled over several years from detailed research and wide-ranging consultation with key economic development stakeholders and the broader Broome community.

The Broome Growth Plan establishes scenarios for the Broome economy and community

including additional economic activity, employment and population growth.

To ensure that the implementation of the plan is relevant to the culture and context of Broome, four pathways were developed which enable maximum benefit to be obtained.

- Building small enterprise.
- Connecting to governance structures.
- Connecting initiatives and enablers.
- Infrastructure required.

The Broome Growth Plan has been a transformative strategy for the Shire. It continues to be used by Council to drive collaboration and buy-in by the State Government into the Broome economy and community and has helped to communicate a consistent message to State and Federal Government agencies on Broome's potential and funding priorities.

The Growth Plan established a series of aspirational models for the Broome economy covering population, jobs and economic growth to 2036.

These models illustrate the very different growth scenarios that might be achieved if Aboriginal labour force participation is attained at certain rates. True prosperity must cut across racial and income lines; if the Broome area is to grow, and the economy to expand, all must participate, and all must benefit. The risk of a two-track economy developing is a very real one.

Since the publication of the Growth Plan, demographic and economic activity in the Shire have slowed against historical trends.

Population growth has been flat (and declined marginally in recent years) while job growth has slowed significantly with unemployment rising. The result of this has been a declining trend in Gross Regional Product in the Shire in recent years (refer to **Broome’s Economic Profile**). This overall trend does not reflect the growth in Aboriginal population in the area which continues to grow. Investment in the Aboriginal workforce represents an

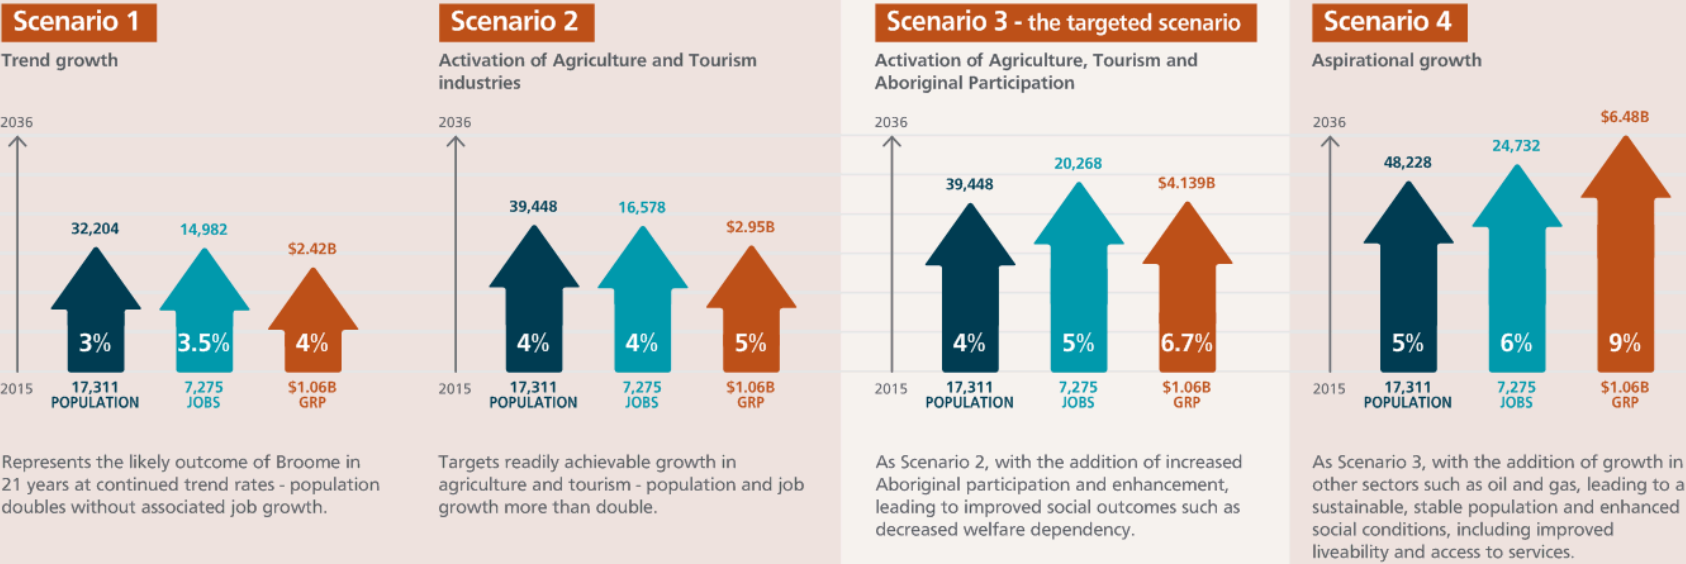

investment in the future of the local area as Aboriginal people are also far less likely to move away from the region.

Many objectives and aspirations of the Growth Plan have been realised or are progressing through the planning phases (refer to **Shire of Broome’s Economic Development Programs**). Additionally, a sharp increase in tourism activity in 2019, along with private sector interest in horticulture, mining, and logistics projects represent major progress towards activating Broome’s “trading economy” (refer to **Economic Development Opportunities**).

This Economic Development Strategy seeks to build upon this momentum and help to chart a path forward for the Broome economy to realise the aspirations of the Broome Growth Plan in the long-term.

Please note, this Strategy does not seek to replace the Broome Growth Plan. It focuses on identifying the Shire of Broome’s unique role in implementation and to provide a ‘status update’ on the growth aspiration scenarios.

FIGURE 2 BROOME GROWTH PLAN TARGET SCENARIOS

Economic Development Strategy 2021-2026 for the Shire of Broome

Alignment with Other Policies and Strategies

In addition to the Broome Growth Plan, this Economic Development Strategy draws on the lessons learnt and framework established by other key policies and strategies. These include:

Western Australian Local Government Association's (WALGA) Local Economic Development Framework

A summary by WALGA detailing the economic development landscape and how local government can play a role in supporting economic outcomes at a community level.

Kimberley Development Commission's 2036 and Beyond: A Regional Investment Blueprint for the Kimberley

The investment blueprint details a focused plan designed to guide and shape the Kimberley region. It states the increasing importance of the Kimberley region to both the state and national level, particularly in reference to the cultural and wilderness assets and natural resources.

West Kimberley Alliance's (formerly Broome Future) Unlocking the Door

This 2015 study investigates the feasibility of Broome as a commercial and logistics hub for the Kimberley. The report is the precursor to the Broome Growth Plan.

Shire of Broome's Corporate Business Plan 2021 – 2025

This plan aims to align the community's visions and aspirations for the future of Broome, to the Shire's objectives. These objectives are measured by both quantifiable and non-quantifiable outcomes, using key performance measures.

Shire of Broome's Strategic Community Plan 2021 – 2031

The Strategic Community Plan is the highest level of document in the integrated planning and reporting framework. It is designed to be a 'living' plan that guides the development of the Shire of Broome community for the next 10 years plus. It sets out four strategic themes (Social, Environment, Economic, and Civic Leadership) and details the desired outcomes to be achieved for each goal and the strategies to help realise these objectives. At the time of this Strategy, Council is embarking on a major review in 2020/21.

Yawuru Corporate Group's Strategic Plan 2016 – 2020

Mission of the plan is to enable Yawuru people to be active participants in and beneficiaries of sustainable economic, cultural and social practices so that they can care for and enjoy their land, values and culture, while enhancing families and the community in which they live. The plan is to be incorporated through a set of strategies and goals and aims to identify and grow economic opportunities while building social, cultural and human resources. It is important to generate knowledge and understanding of Yawuru culture and incorporate their customary law, knowledge and values into a Western context.

Yawuru Corporate Group's Yawuru Futures: Economic Sustainability and Investment – April 2018

This document provides a policy framework for the strategic direction of Nyamba Buru Yawuru economic development and investment. The objectives of their economic agenda are to ensure financial sustainability in the long term, and to transform the economic environment of Broome so that economic participation and benefit is maximised for Yawuru and for all Aboriginal people in the region.

While preparing this Economic Development Strategy, the Shire of Broome has commenced the following planning activity:

- Local Planning Strategy and Local Planning Scheme No 6 review
- Strategic Community Plan review
- Arts and Culture Strategy
- Youth Framework
- Community Safety Plan
- Waste Strategy

Collaboration across the Shire of Broome's disciplines is ensuring that this activity is informing and aligning to each other.

Key organisations and leaders in Broome collaborated to formulate the 3-Year Broome COVID-19 Recovery Plan to bring forward planned investment to stimulate the Broome economy as a response the impacts from the COVID-19 measures. The Shire of Broome partnered with Nyamba Buru Yawuru, West Kimberley Alliance, Broome Chamber of Commerce and Industry, and Cruise Broome to develop the plan. Input was also sought from other stakeholders including the Kimberley Development Commission, Regional Development Australia Kimberley, and Office of Northern Australia.

This process demonstrated the ability of Broome's institutional organisations to be unified in vision and purpose in their advocacy for co-investment in major projects identified to:

- Stimulate jobs and economic growth;
- Deliver regional benefits; and
- Assist in rebounding from COVID-19 impacts.

While the Economic Development Strategy is a Shire of Broome document, it will aim to further cement the relationships with the Shire's institutional peers as part of its implementation.

Economic Development Strategy 2021-2026 for the Shire of Broome

Purpose and Structure of the Strategy

The Broome Economic Development Strategy 2021-2026 seeks to build upon the success and legacy of the recent economic development activity and cooperation in Broome. Providing an evidence base for decision making, it establishes a vision and framework for economic development priorities and activities by the Shire of Broome over the next 5 years.

The Strategy is comprised of the following key sections:

FIGURE 3 BROOME ECONOMIC DEVELOPMENT STRATEGY 2021-2026 STRUCTURE

BROOME'S ECONOMIC PROFILE

This Strategy profiles key economic and social indicators and trends of the Broome economy. This provides information and justification for the Vision, Desired Outcomes and Economic Programs outlined in the Strategy, as well as evidence to inform and guide investment decision making by the Shire of other economic development stakeholders and investors.

The profile is broken into four broad categories:

- **Place** – spatial, geographical and environmental attributes of Broome and its relationship with the wider Kimberley region;
- **People** – population, demographic and socio-economic attributes of the people who call Broome home;
- **Employment and Business** – economic indicators and attributes including employment, business registrations, industry development and investment;
- **Visitors** – tourism visitation, assets and trends.
- **Trade and Economy** – regional exports, major industry trends and gross regional product.

The Broome Local Government Area is located in the south-west Kimberley in the far north of Western Australia. It covers approximately 56,000 square kilometres and boasts a coastline of 900 kilometres. The Shire is located 2,240km by road to the northeast of Perth (capital city of Western Australia) and is closer to Darwin (1,872km northeast) and Bali, Indonesia (1,319km). The Shire is located in the same timezone as East Asia with 1.5 billion people.

The Shire is serviced by an international airport and port and the township of Broome is recognised as the strategic regional centre for the region. The township of Broome is located on a peninsula and so has the Indian Ocean to the east (the inlet of Roebuck Bay) and west.

Broome township is the service and trade hub of the region, servicing agricultural, pastoral, mining and oil and gas production in the Shire and Kimberley (including offshore). It also serves as the “gateway” for tourists and visitors to the Kimberley, a combination of drive in and fly in visitors. International visitors can also arrive via cruise ship, self drive and aircraft.

The area has a tropical climate, defined by a wet and a dry season. The wet season generally lasts from November until April, while the dry season runs from May until October. Its climate means the area enjoys warm coastal temperatures of high 20C to low 30C all year round, making it a popular destination for visitors from colder climates during the winter months.

The Kimberley Coast has the biggest tides in the southern hemisphere. The difference between high and low tides is up to around 10 metres.

Broome has extraordinary natural assets including Marine Parks and areas of reserve and joint management. There are five groups of Indigenous rangers across the region. This includes Bardi Jawi Rangers at One Arm Point, Nyul Nyul Rangers at Beagle Bay, Yawuru Country Managers, Karajarri Rangers and Nyikina Mangala Rangers in and around Broome. These three groups employ teams of Aboriginal people to work on country, and all provide a range of environmental services, across management of landscapes (fire, weeds, feral animals) and monitoring (sensitive species, impacts and so forth). In Broome, the management of the conservation estate is undertaken jointly with the Shire of Broome via a joint Park management council, a governance process that formed as an outcome of the signing of the ILUA.

The Shire of Broome has a complex land tenure tapestry made up of freehold, native title, Aboriginal heritage, Aboriginal Lands Trust reserve, pastoral lease, unallocated crown land, and environmental reserves to name a few. Sustainable economic opportunities through land tenure reform and flexibility remains a goal for communities and all levels of government.

FIGURE 5 BROOME CONTEXT MAP

People

The Shire of Broome was home to 16,907 people in 2019 and current WA Government projections indicate the population will reach 18,591 by 2031. This is in line with recent historical growth rates, though is slower than the Broome Growth Plan's modelled population scenarios. This reflects the fact that Broome's population has experienced a marginal decline since 2013, after more rapid growth in the seven years prior.

The majority of the Shire's population reside in the Broome townsite. Other population centres in the Shire include:

- Ardyaloon (One Arm Point / Bardi)
- Beagle Bay
- Bidadanga
- Djarindjin (Lombadina)

While the population of these communities fluctuate, it ranges from 300-400 people each in Ardyaloon, Beagle Bay and Djarindjin on the Dampier Peninsula to over 600

people in Bidadanga in the La Grange area. Non-seasonal access, services, facilities and commercial activity vary significantly in these communities.

However, the seasonal population of Broome can far exceed its residential population, as visitors and other non-residents come to the Shire to live, work and play on a temporary basis. Combining permanent residents and non-permanent visitors in a town gives an estimate of its "service" population – or the population that the town (and its facilities and infrastructure) must service each year. Accounting for tourism visitors, short-stay workers, business travellers, other workers and people from outer communities around the Kimberley and North West using Broome as a base, the service population of Broome can reach in excess of 20,000 people on any given day and sometimes as high as 30,000.

The Shire of Broome was home to **16,907** people in 2019 and current WA Government projections indicate the population will reach 18,591 by 2031.

FIGURE 6 SHARE OF POPULATION BY AGE, BROOME (S) AND WESTERN AUSTRALIA, 2018

The residential population of the Shire is younger than the rest of Western Australia, with 0-14 years accounting for almost one in four residents in 2018. This is in part driven by strong growth in the Aboriginal population of the Shire which trends younger than the non-Aboriginal residents.

In contrast, Broome has a significantly lower share of residents aged 65 and over and has a below average share of people aged 15-24. This is linked to the trend among households of sending older school age students away to Perth and other locations for secondary and tertiary schooling.

Economic Development Strategy 2021-2026 for the Shire of Broome

A defining attribute of Broome's population is its rich multiculturalism, with almost one in three residents identifying as Aboriginal or Torres Strait Islander in 2016. This is significantly higher than Western Australia (3.9%) and Australia (3.3%) as a whole and illustrates the central and significant position of Aboriginal people in the character and culture of the Broome community and economy.

The socio-economic attributes of the Broome population are marginally below national averages, primarily owing to the Shire's relative remoteness and lower access by households to economic resources. It also reflects the fact that Aboriginal people and households historically experience greater levels of socio-economic disadvantage.

Despite this, for those who are employed, personal wage and salary incomes are generally higher than the rest of Western Australia, with a median personal income of \$54,247 in 2016/17 – 5.4% higher than the State average. This is generally positive, but does raise concern regarding the level of income inequality in the Shire.

Higher incomes in part also reflect the higher cost of living in the Shire and wider Kimberley. Data from the WA Government indicate that prices in Broome were 13.6% higher than Perth in 2019, with the rest of the Kimberley region even higher at 15.6%. The higher prices reflect a combination of the relative distance of Broome to major capital city markets, as well as the comparatively small size of the local population.

Unemployment rates in the Broome Local Government Area (LGA) have been higher than the Western Australian average in recent years, rising to 9.7% in the December 2019 quarter (i.e. pre-COVID19), after being broadly in line with State averages (approximately 6%) as recently as 2017.

Engagement with stakeholders indicates that Aboriginal workers shoulder a higher burden of unemployment than headline figures, and are more likely to be unemployed, underemployed or not participating in the workforce.

Access to meaningful employment opportunities is a major priority for the town, with improved incomes across all households critical to addressing cost of living pressures.

FIGURE 7 UNEMPLOYMENT RATE, BROOME (S) AND WA, 2015 TO 2019

18

Broome's Native Title and Aboriginal Communities

A total of 84 Aboriginal communities are located within the Shire of Broome, of which 78 are classified as remote. Strong traditional ties to land have created a significant range of native title claims and determinations within the Shire, including, Bardi Jawi, Bindunbur, Birriman-gan, Jabirr / Ngumbari, Karajarri A and B, Nyikina, Ngurrara, Nyangumarta, Rubibi (Yawuru). Native title determinations still to be decided include Joombarn-buru and Mount Jowlaenga.

In February 2010, the Yawuru, the Government of Western Australia, the Shire and other relevant parties signed two Indigenous Land Use Agreements (ILUA). An ILUA is an agreement under the Native Title Act between a native title group and others about the use and management of land and waters. These ILUAs resolved compensation issues and clarified that native title continued to exist for the Yawuru people. The Shire of Broome was one of the first Local Governments in Australia to be a signatory to an ILUA.

A total of **84** Aboriginal communities are located within the Shire of Broome, of which 78 as classified as remote.

Credit: Nyamba Buru Yawuru

Employment and Business

In 2016, the Broome LGA was home to almost 7,400 jobs, up from 7,050 in 2011 and 5,965 in 2006. Jobs growth has slowed between the last Census periods, which corresponds with the slowing of population growth during this time.

A review of the industry mix of employment reveals strengths in a number of sectors in the Broome economy, in particular those linked to tourism (Accommodation and Food Services, Transport, Postal and Warehousing and Retail) as well as population related sectors servicing Broome and the wider Kimberley (Health Care and Social Assistance, Education and Training and Public Administration and Safety).

However, there are significant gaps in professional services, finance and insurance, as well as significantly lower shares of Wholesale Trade, Manufacturing and Mining sector employment compared to WA as a whole.

FIGURE 8 JOBS, BROOME LGA, 2006 TO 2016

FIGURE 9 SHARE OF JOBS BY INDUSTRY, BROOME LGA AND WA, 2016

Employment growth in recent years has been primarily driven by Health Care and Social Assistance – which grew by 475 jobs between 2006 and 2016 or 70% over the decade. This saw Health Care and Social Assistance share of all jobs increase to 15.6% or more than one in every 8 jobs in the LGA.

Other strong growth sectors since 2006 include:

- Education and Training – up 64.7% to 870 jobs;
- Transport, Postal and Warehousing – up 36.9% to 523 jobs; and
- Accommodation and Food Services – up 18.8% to 745 jobs.

At the same time, several sectors saw declines in total employment including:

- Manufacturing – down 37.2% to 140 jobs;
- Agricultural, Forestry and Fishing – down 15% to 193 jobs;
- Retail trade – down 5.6% to 607 jobs.

Interestingly, the sectors that experienced the strongest growth over the 10 years to 2016 were also the same sectors that experienced the largest employment impact during COVID-19.

Rates of business registrations in Broome are slightly below the State average, with 76 registered business in Broome for every 1,000 residents, compared to 91 for Western Australia as a whole. While some of this difference can be attributed to the concentration of businesses in the Perth Metropolitan Area, it does highlight the potential for new business development in the Shire.

FIGURE 10 CHANGE IN JOBS, BROOME LGA, 2006-2016

▼ 15.0%

Retail Trade
▼ 5.6%

Broome, however, has a higher share of employing businesses, with only 54% of businesses classified as "non-employing" compared to 65% at State and national levels. A review of employing businesses confirms a higher share of businesses employing 5-19 workers (compared to the Kimberley and WA) but a below average share of businesses employing more than 20 workers. This deficit in medium size businesses presents a significant constraint for Broome to tackle its unemployment rate as it is medium and large businesses that account for the majority of employment growth in regional Australia. Attracting new higher employing businesses to the area is critical to generating long term job opportunities.

The largest number of businesses in Broome are in the Construction sector (269 businesses), followed by Real Estate, Rental and Hiring¹ (146), Retail Trade (109) and Professional Services (102).

TABLE 2 NUMBER AND SHARE OF LOCAL EMPLOYING BUSINESSES, BROOME, KIMBERLEY AND WA

Economic Development Strategy 2021-2026 for the Shire of Broome

Agriculture in Broome

The principal agricultural activity of the region has been livestock production in a pastoral system based on leasehold land. Irrigated agriculture and horticulture enterprises are increasing as land tenure and water availability is determined.

The West Kimberley dry season between April and September is cooler than the wet season and substantially less humid, providing opportunities to produce a range of tropical and subtropical crops. This presents opportunities to access the region's groundwater to produce high quality fodder; with the potential for horticultural crop production being investigated and scaled up through recent private investments.

Several horticultural producers grow out-of-season produce in winter (dry season), increasing their ability to supply year-round produce into domestic markets. There has been a significant investment into irrigation to produce high quality fodder and irrigated pastures by the pastoral industry. This investment counters the variability of the summer rainfall (wet season) and pasture decline in the dry season.

Irrigators in the West Kimberley and Pilbara regions of Western Australia are taking advantage of niche cropping opportunities to produce high-value horticultural crops and better-quality pasture for cattle grazing.

Horticultural production in the West Kimberley and Pilbara takes advantage of the climatic conditions to meet market niches. Near Broome and in the La Grange area on about 600 hectares (ha) of irrigated land, horticulture production includes cucurbits, sweet corn, stringless beans, asparagus, grapes and tropical fruits such as mangoes.

Since 2000, there has been increased investment into irrigation on pastoral lands to produce fodder for cattle destined for domestic and export markets. Irrigated fodder production typically sees introduced pasture species irrigated for 12 months of the year by centre pivot irrigation systems. Over 4000ha was under irrigation across the Pilbara and West Kimberley in 2020.

The West Kimberley relies on groundwater rather than surface water.

Visitors

Tourism has long been the mainstay of the Broome economy. The tropical, coastal setting makes Broome an attractive destination for interstate and international visitors, particularly during the winter months. The vibrant and active Indigenous cultures of the region also represent a significant drawcard for both national and international visitors. Vast majority of visitors express a desire to experience authentic Indigenous tourism product and this is arguably an under-exploited market at present.

Visitation levels in 2019 were a record for the Shire, reaching almost 450,000 visitors across day trip, intra and interstate and international visitors. Domestic overnight visitors from Perth and interstate locations such as Victoria and New South Wales, represent the largest market for Broome, though International visitor numbers are also significant, approaching 50,000 in 2019.

The international visitor profile of Broome differs significantly to that of Western Australia. Overall, Broome’s international market skews

heavily to European countries, including Germany, Switzerland, France and England/Scotland, with New Zealand visitors also featuring prominently. In contrast, international visitor profiles to Western Australia draw more heavily from Asian markets, including Singapore, Malaysia and China, though England remains the most common country of residents of tourists to the State.

This partly reflects the predominant role and focus of tourism bodies (e.g. Australia’s North West Tourism and Tourism WA) and industry segments (e.g. cruise ships and airport organisations) have played in recent years in direct international visitation to Broome. Working closely with Inbound Tour Operators and Wholesalers keen to promote an increased Broome and Kimberley product is resulting in increased international exposure. It also reflects trends of visitors from those countries to undertake more remote travel. For example, WA is promoted to specific markets (such as Germany) as home to the road trip which encourages self-drive through Broome and the Kimberley.

FIGURE 12 TOURIST/VISITORS, BY TYPE, BROOME AND ROEBUCK SA2S, 2010 TO 2019

FIGURE 13 TOP 5 COUNTRIES OF RESIDENCE OF INTERNATIONAL VISITORS, BROOME (S) AND WESTERN AUSTRALIA, 2019

Trade and the Economy

Broome is both the strategic regional centre of the Kimberley and major access point for this region to national and international economies (through the Port of Broome and Broome International Airport). As such, Broome accounts for the largest shares of trade and economic activity in the Kimberley. Regional export estimates for Broome indicate the Shire “exports” approximately \$1.1b in goods and services outside its Local Government boundary, representing approximately half the export value of the Kimberley as a whole. Transport, manufacturing, construction, health care and professional and personal services all feature more prominently in Broome’s export profile compared to the Kimberley as region, which exports more Mining and Agriculture products.

This trade profile drives the Gross Value Added (GVA) statistic which is a measure of the productivity of a sector or industry. In 2019, twelve sectors/industries generated more than \$50m in GVA for the Broome economy, with the largest shares in the Real Estate, Rental and Hiring, Transport and Health Care sectors.

Note that the ABS industry classifications do not include a tourism sector. Instead tourism activity is spread principally across Accommodation and Food Services, Retail and Transport, Postal and Warehousing.

The impact of this economic activity was a Gross Regional Product (GRP) in Broome of \$1.54b in 2018/19 or approximately half the GRP of the Kimberley. On average, Broome has a marginally higher GRP per resident than the Kimberley as a whole, though the Kimberley has a higher GRP per worker. Both rates are below the State average (\$108,205 per resident) in 2019, reflecting the impact of mining income and export related activity on Gross State Product values. The GRP of the Shire of Broome has declined marginally in recent years, in line with declining population growth and slowing employment activity.

TABLE 3 INDUSTRIES WITH GROSS VALUE ADDED >\$50M, BROOME (S), 2019

Industry sector	Gross Value Added
Rental, Hiring & Real Estate Services	\$198,571,155
Transport, Postal & Warehousing	\$160,678,162
Health Care & Social Assistance	\$139,924,372
Education & Training	\$119,437,421
Construction	\$117,760,079
Public Administration & Safety	\$101,712,133
Accommodation & Food Services	\$78,629,650
Mining	\$76,308,523
Administrative & Support Services	\$67,108,943
Agriculture, Forestry & Fishing	\$60,388,935
Retail Trade	\$57,282,891
Other Services	\$52,633,649

FIGURE 14 GROSS PRODUCT PER PERSON, BROOME (S), KIMBERLEY AND WESTERN AUSTRALIA, 2019

Impacts of COVID-19 on the Broome Economy

The COVID-19 pandemic has delivered a level of disruption to communities across Australia unprecedented in recent decades. Regions that are highly diversified and have a smaller exposure to visitation expenditure are likely to be more resilient.

Regional economies across northern Australia that are highly reliant on dry seasonal tourism have already been deeply impacted due to the timing of the travel restrictions and social gathering limits. The intervention by lending institutions and governments to support affected people and businesses is having a positive effect, however there is a growing concern of a potentially significant economic contraction when these and other measures eventually cease.

A review of recent data indicates that The District experienced a loss of over 300 jobs from mid-March to May 2020. This represents a jobs loss of 4.1%, which is less than WA and Australia as a whole. Since May, approximately 65 jobs were added back into the economy, taking the net impact to approximately 250 jobs lost or 3.2%.

FIGURE 15 JOB IMPACTS DURING COVID19, SHIRE OF BROOME, MARCH TO JULY 2020

FIGURE 16 SHARE OF JOB IMPACTS DURING COVID19, MAIN INDUSTRIES, SHIRE OF BROOME, MARCH TO JULY 2020

The District experienced a loss of over **300** jobs from mid-March to May 2020.

The largest share of employment impacts in Broome has been on sectors linked directly to both transaction and trading restrictions. This includes Accommodation and Food Services, Transport and Retail Sectors. Education and Training is the main population servicing sector to be impacted by COVID-19 in Broome.

This aligns with the broad phases or stages of economic impact from COVID-19:

- **Business to Consumer “Transaction Impacts”** – impacts associated with restriction on business and customer engagement impacting the way and extent to which goods and services can be sold (i.e. economic lockdowns);
- **Business to Business “Trading” Impacts** – impacts associated with challenges and constraints placed on national and global supply chains as well as changes to the way employees work (i.e. working from home, telecommuting). Also reflects the secondary round impact on businesses that support those sectors initially impacted during Phase 1.
- **Visitor “Border” Impacts** – impacts on sectors that rely on the free movement of people across State boundaries, intrastate boundaries and international borders.

Business investment, underpinned by business confidence, is critical to the growth of the economy. National predictions are that investment may not improve until 2022 and beyond, necessitating governments at all levels to take up the investment mantle and underwrite projects and programs that deliver jobs and provide a foundation for further growth.

COVID-19, like many economic shocks, has highlighted important lessons and realisations for the wider Broome economy. It has highlighted:

- Broome’s visitor economy relies upon intrastate, interstate, and international travellers so spreading risk across all sectors is imperative due to border closures;
- the shortfalls or risk areas in business models across a range of sectors (particularly cash flow associated with seasonal peaks/low);
- essential nature of key transport infrastructure (including but not limited to Broome International Airport);
- the comparatively small size of Broome’s domestic economy; and
- the role of international and interstate labour in supporting tourism, mining and agricultural production in the region.

Most significantly, COVID-19, advocacy for protection of at risk remote communities, and the preparation of the Recovery Plan, illustrated the benefits of working in partnership with other organisations to achieve real, and tangible outcomes for the community and the economy. This includes, but far from limited to:

- Direct influence of State and Federal Government decisions regarding border restrictions and staged reopening.
- Relatively low number and managed isolation of COVID-19 positive cases.
- Significant State Government investment in infrastructure and programs for Broome and the Kimberley in the COVID-19 recovery phase.
- Promising signs of extended tourism expenditure into the 2020 shoulder and traditionally lower earning wet season.

The largest share of employment impacts in Broome has been on sectors linked directly to both transaction and trading restrictions.

FIGURE 17 PHASES OF COVID19 ECONOMIC IMPACT

BROOME'S COMPETITIVE ADVANTAGES AND CHALLENGES

Assessing Local Competitiveness

The economic success of a town or shire is increasingly dependent on its level of regional, national and global competitiveness. Competitiveness means the ability of a region to compete effectively in global markets.

Competitiveness is more than simply competition – it also reflects the level of innovation, business and industry dynamism, sustainability, resilience and skills in an economy:

- Competitive economies are prosperous economies, that are more resilient in the face of external shocks and grow faster than the baseline across key sectors and industries of advantage. Infrastructure is optimised to realise the economic potential of a region and not constrain or impact investment and production decision market.
- Competitive economies are collaborative economies, with private, public and community sectors working together to generate wealth and opportunities for local residents.
- Competitive economies are outward-focused economies, eager to engage with the world for new ideas, people, skills and markets.

There is no single method of measuring competitiveness as it can include price and non-price factors that influence the ability of local economies to trade globally and generate prosperity for businesses, workers and residents.

A leading method for assessing competitiveness is the **Porter's Diamond**. This model is designed to help understand the competitive advantage that towns, regions or even countries possess due to certain factors available to them.

The groups of conditions that can be assessed include:

- **Factor Conditions** – refers to the factors of production such as land, climate/environment, resources, labour and infrastructure and their relative quality, accessibility and suitability;
- **Demand Conditions** – refers to the state of the market for goods and services. Strong markets with sophisticated and quality-focused consumers provide businesses with an incentive to innovate and grow into exporting firms through access to regional and international markets;
- **Related and Supporting Industries** – refers to the depth and diversity of businesses that input into the supply chain of the principal activity. This can include direct inputs to production as well as activities that enhance business performance and operation (e.g. a high amenity location that supports the attraction and retention of skilled labour);
- **Firm Strategy, Structure and Rivalry** – represents the impact of local competition on the propensity of businesses to innovate and the suitability of their strategies and corporate structures to facilitate this innovation; and
- **Innovation** – includes core facilities, technologies, processes and services that support innovation by industry such as proximity to research and development capacity (like a university), access to quality telecommunications technology and the emergence of new business models (such as e-commerce, crowdsourced financing and cloud computing).

The assessment tool helps to explain and justify the role that different levels of government can play as catalysts and drivers of a region's prosperity, by identifying competitive advantages that can be leveraged and challenges and constraints that can be removed or mitigated.

FIGURE 18 PORTER'S DIAMOND MODEL OF REGIONAL COMPETITIVENESS

Advantages and Challenges of the Broome Economy

Drawing on the evidence and analysis in this Strategy and engagement with key economic development stakeholders in the region, the following assessment outlines the competitive advantages and challenges facing the Broome economy. A number of the conditions are then profiled in the following section which recognises their importance as an economic asset.

TABLE 4 BROOME COMPETITIVENESS ASSESSMENT

	Advantages	Challenges
Factor Conditions	<ul style="list-style-type: none"> Coastal tropical location with high amenity beaches and foreshore areas attractive to residents and visitors (e.g. Cable Beach). Largely unspoiled natural environment of the area. Rich Indigenous culture in town and in the Shire as a whole, with established Aboriginal corporations. Key logistics infrastructure including Broome International Airport, Port of Broome, Great Northern Highway. Proximity to key Asian markets. Revitalised central business district (Chinatown). Strong ground water aquifer access in key horticultural areas (La Grange Agricultural Area and Skuthorpe). Identified mining, oil and gas resources (including off-shore and mineral sands). Sufficient residential land supply through major releases (i.e. Broome North from Development WA). Sufficient industrial/commercial land availability at key locations including Port and Airport and along major heavy haulage routes). Large scale land parcels emerging as part of a land tenure reform process (e.g. Ex-Waterbank Station). Increased accessibility to the Dampier Peninsula. Established training and higher education campuses (i.e. University of Notre Dame and North Regional TAFE). Strong solar radiation capability (Asian Renewable Energy Hub). 	<ul style="list-style-type: none"> Distance from Perth and Darwin. Remoteness from key services and utilities. Length and complexity of supply chains. Effective distance to Asian markets (e.g. poor infrastructure, low production, and absent trading relationships). Higher cost of living. Higher cost of doing business. Dry/Wet season impacts and interruptions project delivery and tourism sector. Structurally high unemployment. Lower labour force participation rates, particularly among Aboriginal communities and groups. Transient workforce. High welfare dependency. Complexity associated with balancing environmental, heritage and development values potentially impacting possible economic development and activation across the shire including Dampier Peninsula. Complex land tenure in place.
Demand Conditions	<ul style="list-style-type: none"> Access to international markets through Port of Broome (export of product). Cruise ship access with increasing interest from this sector to increase the frequency and size of ships through Port of Broome (pre-COVID19). Service demand from across the Kimberley. Established national and international tourism brand linked to major assets (i.e. Cable Beach). Attractive lifestyle associated with water, fishing, camping and other activities available. Increasing demand for niche / unique products (e.g. bush foods, bush medicine). Increase interest in local specific cultural experiences. Global demand for natural resources extraction (e.g. Browse Basin and Thunderbird Mineral Sands Project). Internationally recognised pearl industry. Growing international demand for renewable energy production and export generation sources available from Broome and the Kimberley. 	<ul style="list-style-type: none"> Lack of population critical mass and flat/declining population growth in recent years. Lower national awareness of non-tourism investment opportunities. Highly seasonal tourism sector (high vs low seasons). Shallow labour market and skills with dependence of several sectors on "backpackers" and international labour. Areas of low organisational capacity or experience in niche business start-up. Cost of delivering services to a large geographical area. Dependency on fluctuating global financial conditions and international markets (resource extraction, demand for product, livestock costs, tourism expenditure). Lack of large scale investment in renewable energy projects in the region to-date.

TABLE 4 BROOME COMPETITIVENESS ASSESSMENT (CONTINUED)

	Advantages	Challenges
Related & Supporting Industries	<ul style="list-style-type: none"> Existing multi-product port with strong direct access to global markets for select products. Capability to accept and service cruise ships. Services and processing capacity at the Broome International Airport. Private investment interest in the Kimberley Marine Offloading Facility. Existing capabilities in offshore oil and gas exploration/servicing (e.g. Broome International Airport Heliport, helicopter refuelling and support etc.). Strong construction and transport business profile. Strong presence of government social, health and education services (population driven). Strong reputation for arts and culture which is enhancing the social character and lifestyle of Broome. 	<ul style="list-style-type: none"> Limited horticultural processing and cold storage capacity. Expensive and lengthy lead times for establishment of international air services with a low population base. Gap in medium and large employing businesses. Limited 'welcoming infrastructure' for cruise ship arrivals at the Port. Dependency of many businesses on servicing the tourism sector (e.g. can experience volatility). High number of low paid, transient jobs associated with current scale of tourism and agricultural enterprises. Historically dependent on government subsidies and service delivery with a need to transition and attract private investment in the traded economy and associated supporting industries. Population is vulnerable to the volatile commodity markets affecting industry in the Kimberley and Pilbara.
Firm Strategy, Structure & Rivalry	<ul style="list-style-type: none"> Strong growth in local healthcare services in recent years. Established pastoral enterprises across the Kimberley. Established horticultural production with strong potential for expansion (fresh produce). Established pearling enterprises. The level of collaboration across traditional owner groups, government and industry, as highlighted in the Broome Growth Plan, results in greater investor confidence. Established ILUA and Aboriginal Corporation in Broome with confirmed projects and implementation strategy. Native Title has largely been determined across the Shire. This means that there is minimal uncertainty relating to ongoing claims and established Prescribed Body Corporates which hold Native Title. Established tourism and public assets/destinations recently revitalised. Established tourism accommodation offerings. Captured market due to distance to nearest larger population centre (e.g. Port Hedland, Kununurra). Business ingenuity and resourcefulness often associated with having to operate remotely. Agile corporate structures associated with high/low earning seasons. High membership base for many of the peak industry bodies such as the Broome Chamber of Commerce and Industry, Australia's North West Tourism, and Broome Visitor Centre. Increase in awareness of benefits and participation in Destination Marketing. 	<ul style="list-style-type: none"> Strong competition from Pilbara and Darwin for offshore oil and gas support services and processing. High cost tourism destination. Limited local pastoral and horticultural processing and supply chain capacity, with products routinely transported to Perth/Darwin for processing and export. Aquaculture production outside of pearling currently limited. Balancing the disruption of traditional tourism accommodation models with managing new "sharing economy" supply (i.e. AirBNB). Need for improved connections between tourism assets to create and promote integrated tourism product. Cost and time associated with changing highly regulated industries or land use (e.g. First Port of Entry status, pastoral lease diversification). Need for small-medium local business collaboration to increase tender competitiveness. Need to improve remote access to major mentoring and business support programs (e.g. offered online rather than regularly in-person). Capacity and experience of complex tender submissions and grant applications.

Economic Development Strategy 2021-2026 for the Shire of Broome

30

TABLE 4 BROOME COMPETITIVENESS ASSESSMENT (CONTINUED)

	Advantages	Challenges
Innovation	<ul style="list-style-type: none">• Presence of tertiary education facilities and services.• Presence of centre of excellence in marine service simulations.• Presence of accredited training organisations.• Product and services offered that are fit-for-purpose or unique to the Broome's climate and remote conditions.• Professional, Scientific and Technical Services feature prominently in Broome's Count of Business profile.• Leadership and decision-making ability of Government services based in Broome.	<ul style="list-style-type: none">• Shallow labour market with most technical skills imported from Perth or eastern Australia.• Intermittent or poor telecommunications connectivity outside of Broome townsite.• Low exposure to crowdfsource financing, angel investors and venture capital opportunities.• Low risk culture of financial institutions and government grant programs to fund business start-ups.• Many research projects and consultancies are based external to Broome with a fly-in/fly-out culture.• Many students from Broome often leave the region for tertiary education.

Economic Assets & Drivers

This section profiles a number of Broome's 'Factor Conditions' from the previous section. This draws attention to their role as an economic asset. This section also touches on opportunities to further drive economic growth through these assets. Economic assets are the physical attributes and characteristics of a region that help to underpin or drive economic activity. They can include the natural environment and man-made assets supporting tourism, transport, horticulture/ agriculture, education and training and infrastructure.

Please note this is not an exhaustive list. It does, however, highlight the diversity of those assets across natural, logistics and training facilities for both community and industry benefit. This diversity is a beneficial attribute of the Broome economy.

TABLE 5 MAJOR ECONOMIC ASSETS, SHIRE OF BROOME

Economic Asset	Economic Profile
Cable Beach	Cable Beach is located on the western edge of Broome and stretches to a total of 22km in length. Broome's population increases dramatically during the peak tourism season and Cable Beach acts as a major attraction for tourists. Cable Beach is the setting for various beach activities, tourism and food/beverage enterprises. The Cable Beach Foreshore Redevelopment project represents an opportunity to expand Broome's peak season by stimulating commercial and tourism activation and ensure one of Broome's high-quality natural assets increases its potential as a global drawcard. Elements include amphitheatre upgrade, foreshore enhancements and landform changes. A growth in commercial and small business opportunities will be enhanced by the promenade development linking together points of interest and include tourism, cultural and leisure attractions. The buried seawall will support coastal management and the reconfiguration of car parking will ease current parking and traffic flow issues.
Broome International Airport	<p>Broome International Airport supports the regional hub of north western Australia and is used by more than 400,000 passengers a year (pre COVID-19). Considered to be the 'gateway to Kimberley', the airport is servicing multiple market segments including Broome and Kimberley residents, tourism and business travel, emergency services (e.g. Royal Flying Doctor Service Base) and the offshore oil and gas sector (e.g. Browse Basin).</p> <p>It employs over 90 direct staff members and generates close to 800 jobs in Broome and the Kimberley region. In 2014 the airport was awarded National Regional Airport of the Year Award after investing in new economic opportunities in the offshore oil and gas industry (i.e. heliport base). In 2018 the airport was awarded the Innovation and Excellence Award in partnership with the Djarindjin Airport at the Australian Airports Association (AAA) National Airport Industry Awards.</p> <p>The airport is currently working toward establishing a permanent Singapore-Broome connection service after successful trial flights in 2018 and 2019. Strategically targeting the connection with Singapore, will open a gateway to Europe which is a significant tourist market for Broome. It is also looking to further expand direct flights to eastern Australia in the peak and shoulder seasons. Broome International Airport is currently investing \$14 million in infrastructure upgrades to terminals which will enable the processing of over 1 million passengers per year.</p>
Port of Broome	<p>The Port is managed by the Kimberley Ports Authority. As of 1 July 2021, the Kimberley Ports Authority will also have responsibility for managing port operations at Wyndham, Yampi Sound (Cockatoo and Koolan Islands), and Derby. The Port of Broome predominately services mining/oil/gas, live cattle export and cruise ship sectors and is the major fuel import facility for the region. It also services vessels associated with pearling, fishing, charter and naval/customs. Recent government investments in facility upgrades and dredging means that the Port can accommodate heavier loads and can better manage access through tidal changes.</p> <p>The Kimberley Ports Authority is working closely with the Kimberley Marine Support Base Pty Ltd to increase Broome's role as a logistics hub for the region. The proposed floating wharf and associated onshore terminal facilities aim to service the growing oil and gas industry from Broome rather than from Darwin or the Pilbara.</p> <p>Investigations are underway to also register the Port of Broome as a First Port of Entry with associated quarantine, biosecurity and border management for international arrivals/processing. This will facilitate growth in the cruise ship sector and potential for a Direct Container Service.</p>

TABLE 5 MAJOR ECONOMIC ASSETS, SHIRE OF BROOME (CONTINUED)

Economic Asset	Economic Profile
Dampier Peninsula	<p>There has been increased attention on the Dampier Peninsula as a result of tourism, recreation, aquaculture (e.g. pearling) and proposed new land uses such as timber production, oil and gas support facilities, bush foods/medicines/goods and cultural tourism. To accommodate this there has been recent focus and commitment to realising social and economic development in the area. In 2015 the Dampier Peninsula Planning Strategy was published which details a 25-year strategic planning framework for the area. The plan set out to define a vision for future economic development, identify guiding principles, include a strategic land use plan and ensure that the interests of Aboriginal and other cultural heritage are appropriately identified in development decisions.</p> <p>More recently the Dampier Peninsula Project was established in 2019 by State Government to maximise the social and economic opportunities for Aboriginal businesses and communities arising from the investment to fully seal the Broome-Cape Leveque road. It also aims to mitigate potential impacts through partnering with the Traditional Owners and community to protect the unique social, cultural and environmental values of the area.</p>
Chinatown Broome	<p>Broome Chinatown acts as the historic centre and Central Business District of Broome making it a significant feature. In order to maintain Chinatown's status as a primary commercial and retail precinct in Broome, the Shire of Broome announced the Chinatown Revitalisation Project to reinvigorate economic and development opportunity. The \$14.2 million Stage One was completed in September 2019 and a further \$15 million is being invested in Stage Two, due for completion in May 2021. The investment will increase the amenities of the commercial and retail streetscape. Stage Two also includes a Transit Hub, refurbishment of Streeter's Jetty, new visitor amenities, Smart Cities technology and a continued focus on public art, interpretation and place activation.</p>
University of Notre Dame – Broome Campus	<p>The University of Notre Dame is a national Roman Catholic private university with over 12,000 students and campuses in Fremantle, Sydney, and Broome. The Broome campus, established in 1994, had 165 students in 2018.</p> <p>The campus is the home to the Nulungu Research Institute which specialises in native title, archaeology, social history, governance, alternative economies and policy, climate change, alternative food production systems and carbon farming. Notre Dame also hosts the Marjarlin Kimberley Centre for Remote Health which facilitates allied health and nursing student placements across the region.</p> <p>The campus offers a number of venues available for hire to the public, up to a capacity of 300 people.</p>
North Regional TAFE – Broome	<p>The North Regional TAFE is the largest provider of training and vocational services in North Western Australia with 11 campuses spread across one million square kilometres from Newman in the south to Wyndham in the north. It offers more than 200 nationally recognised qualifications to over 8,000 students each year. It has extensive facilities such as a trades workshop, music room and recording studio, computer classrooms and video-conferencing facilities, and a horticulture shed and growing compound.</p> <p>The North Regional TAFE also hosts two specialist centres: the Broome Maritime Simulation Centre (BMSC) and the Broome Aquaculture Centre (BAC). BMSC specialises in state-of-the-art maritime simulation services for new and existing ports and offers technical training (e.g. RotorTug Training in partnership with Seaway Consultants). BAC was built to support the training, research, production and development of the aquaculture industry.</p>
Great Northern Highway	<p>At 3,195 kilometres long the Great Northern Highway is the longest highway in Australia and is the main north-south route between Perth and the northern areas of Western Australia. It is the only sealed road between the Northern Territory border and major population centres such as Broome in the north of Western Australia.</p> <p>Economically it acts as a vital link between these population centres and the resource rich regions of the Wheatbelt, Mid-West, Pilbara and Kimberley. The key industries of mining, agriculture and pastoral stations are all highly dependent on it as a significant and sometimes the only method of transport. Tourism also accounts for a significant portion of the road's traffic and is a potential growth source for regional economies. In the wet season, regular road closures disrupt supply chains for industry and communities and add to the cost of operating in the Kimberley region.</p>

TABLE 5 MAJOR ECONOMIC ASSETS, SHIRE OF BROOME (CONTINUED)

Economic Asset	Economic Profile
Browse Basin	The Browse Basin covers an area of approximately 140,000 km ² and lies entirely offshore, north of Broome. The area can be serviced from Broome and Derby, which have port and air facilities. Exploration commenced in the Browse Basin in 1967. Since then, more than 105 wells have been drilled and there have been over 20 hydrocarbon discoveries. Current and proposed operations including Woodside's Browse Joint Venture and Shell's Prelude development.
Thunderbird Mineral Sands	<p>The Thunderbird Mineral Sands Project with Sheffield Resources is located on the Dampier Peninsula approximately halfway between Derby and Broome.</p> <p>The Thunderbird deposit is the first major mineral sands deposit to be discovered in the Canning Basin and one of the largest mineral sands deposits to be discovered in the last 30 years. The high proportion of zircon in the product suite sets Thunderbird apart from many of the world's operating and undeveloped mineral sands projects which are dominated by lower value ilmenite. Sheffield Resources is committed to achieving strong regional and national benefits. Thunderbird is expected to provide approximately 400 construction jobs and 200 Kimberley-based operational jobs for the 37-year lifespan.</p>
Ex-Waterbank Station	<p>Located adjacent to Great Northern Highway within the Shire of Broome, Waterbank Station is a former pastoral lease purchased by the WA Government in 1996. The land totals 75,000 ha (approximately).</p> <p>The size of the parcel, coupled with its long-term strategic economic development nature, means it presents an opportunity for a diverse range of land extensive enterprises. At the time of this Strategy, the WA Government had called for Registrations of Interest from potential proponents seeking proposals which will deliver significant social, cultural or economic benefit to the State, locality and region. Possible uses for the parcel (or part thereof) identified to date include pastoral activities, multipurpose agricultural business (by the Mibala Burru) and sustainable tourism and economic opportunities for local Aboriginal people.</p>
La Grange and Skuthorpe Agriculture Areas	<p>The La Grange project was established in 2012 to investigate the opportunities for irrigated agricultural development south of Broome. The feasibility project involved researching soil, water, land tenure, markets, investment opportunities, cultural and environmental areas of significance and regional landholder aspirations.</p> <p>La Grange is located south of Broome and extends from Roebuck Plains Station south to Mandora Station, taking in seven pastoral properties, two horticulture businesses and four Native Title Determinations. The major project is underway to assess the suitability and potential for further agricultural developments using available groundwater resources.</p> <p>Similarly, the area east of Broome known as Skuthorpe, has been identified by State Government as suitable for significant irrigated horticulture opportunities. There is 1,000 ha earmarked with approximately 350-400 ha already developed. These areas provide significant opportunities in the long term for agriculture to reach a scale whereby processing, cold storage, value add and export to diverse markets becomes viable. This will further contribute to the depth and diversity of Broome's economic and jobs profile.</p>
Asian Renewable Energy Hub	<p>The Asian Renewable Energy Hub will generate 26,000 MW of renewable energy in Western Australia. Up to 3,000 MW of generation capacity will be dedicated to large energy users in the Pilbara region, which could include new and expanded mines and downstream mineral processing. The bulk of the energy will be used for large scale production of green hydrogen products for domestic and export markets.</p> <p>From a 14,000-square kilometre initial land package, 6,500 square kilometres of land in the East Pilbara region of Western Australia were selected to accommodate 26,000 MW of wind turbines and solar photovoltaic panels. Outstanding wind and solar resource and large project scale will result in competitively priced renewable energy with a high capacity factor.</p> <p>In November 2020, investigations were underway by the project proponents to produce ammonia at the site for export.</p>

Economic Development Opportunities

Other short to mid-term projects (non-Shire led) that are seeking funding or final approvals are outlined below. These are highlighted to demonstrate breadth of development, confidence of key organisations in Broome's future and areas of service need. It also recognises the direct and indirect economic stimulation associated with the construction and operational phases for local businesses and labour market.

The Shire of Broome has an important advocacy, promotion and facilitation role in these emerging projects. A number of these projects will also undergo formal statutory planning processes with the Shire.

Project Details	Description
KIMBERLEY MARINE OFFLOADING FACILITY KMSB Pty Ltd Value: \$110 million	<p>The Kimberley Marine Offloading Facility (KMOF) at the Port of Broome has been approved by the State Government, pending complete environmental approvals, project and financial agreements and a final design and commissioning plan. This project will position Broome as the future service hub for the growing oil and gas industry.</p> <p>The \$110 million facility will be constructed and funded by Kimberley Marine Support Base Pty Ltd, and comprise a floating wharf, along with associated onshore terminal facilities. Construction and ongoing operation of the innovative facility will help stimulate both economic and employment opportunities in the Kimberley region and add further capacity at the Port of Broome.</p>
KIMBERLEY CENTRE FOR ARTS, CULTURE AND STORY Nyamba Buru Yawuru Value: \$41 million	<p>The Kimberley Centre for Arts, Culture and Story will be of global significance because it will reconcile the history of Broome and the Kimberley in an honest, challenging but ultimately empowering way. The Centre will present to visitors the rich culture of the world's oldest living civilisation in an innovative and inspiring way that contributes significantly to the Kimberley economy, supports tourism, and enhances the sustainability of Indigenous culture through the region.</p> <p>The Centre will serve as the regional embodiment of reconciliation and the Kimberley's own unique form of Makarrata (a Yolngu word meaning "coming together after a struggle"). A business case has been developed for the full project. This stages the project for success with Stage 1 focusing on establishing the governance model, site selection and activation approach.</p>

Project Details	Description
BROOME BOATING FACILITY Department of Transport Value: \$71 million	<p>This is essential to address critical safety and access difficulties particularly associated with boat launching and retrieval and passenger transfer between vessels and shore. Large tides, strong currents, wind and waves can at times create hazardous conditions at the existing exposed beaches and boat ramps where conditions can change very quickly.</p> <p>The boating facility will include four ramp lanes and up to two finger jetties, sheltering arms and detached offshore breakwater screen, trailer parking, and access road. Significant consultation has been undertaken and investigation completed to understand environmental and local cultural and heritage considerations. Computer modelling is underway to define the marine structure size, shape and cost.</p>
BROOME HEALTH AND WELLBEING CAMPUS Nyamba Buru Yawuru Value: \$50 million	<p>The Broome Health and Wellbeing Campus will be a health services hub that is designed as an indigenous led clinical and allied health service centre for Broome and the wider Kimberley region.</p> <p>The project is being developed by Nyamba Buru Yawuru in partnership with a range of stakeholders, and will be an innovative hub of co-located, complimentary health service facilities that will operate and collaborate under the guidance of Yawuru's Mabu Liyan philosophy and Measurement Framework. The site for the project already accommodates the Bran Nue Dae Aged Care Facility and the newly constructed Broome Aboriginal Short Stay Accommodation project.</p> <p>Nyamba Buru Yawuru has secured support and initial funding (\$750,000) from the State Government to support the procurement of consultants for the design of all infrastructure requirements for the site. There are existing commitments from the Western Australian Country Health Service (WACHS) for their proposed new 20 Bed Renal Dialysis Hostel to be located on the campus (approx. budget \$6.7 million). The estimated infrastructure cost is in the order of \$7.5 million which has been funded by State Government.</p>
ENHANCING ACCESS TO THE DAMPIER PENINSULA Main Roads WA Value: Current stage has \$68.9 million fully funded; Next stage valued at \$22.8 million	<p>The sealing of the Broome-Cape Leveque Road will improve safety and access for Aboriginal communities as well as reduce delays caused by road closures during the wet season. The more efficient road network will also support the growth in economic activity, including through tourism visitation. The project involves the construction and sealing of the remaining unsealed sections, reconstruction and sealing of the 'narrow seal' section, upgrade of the Broome Cape Leveque Road and Broome Highway intersection, alignment/geometric and drainage improvements and installation of culverts, fauna underpasses and floodways.</p> <p>Funding has also been provided for ablution, shade and picnic facilities at the 100-year old Beagle Bay Catholic Church; visitor facilities at Lombadina; improvements to the aquaculture hatchery access track at Ardyaloon Community; upgrades to Kooljaman Resort access track; and Camping with Custodian camp grounds at Djarindjin.</p> <p>The next stage that requires investment is to enhance the lateral roads that connect to the Broome-Cape Leveque Road on the Dampier Peninsula. This builds on the significant investment and project benefits already being achieved and also maintains mobilisation of already engaged local businesses and remote communities.</p>

ECONOMIC DEVELOPMENT VISION AND DESIRED OUTCOMES

Foundation for Future Growth and Prosperity

From this assessment the following core advantages and challenges have been identified:

FIGURE 19 ADVANTAGES AND CHALLENGES FOR THE BROOME ECONOMY

Advantages

Transport infrastructure & proximity to Asia

Major tourism assets

Natural resources

Service hub of the Kimberley

Aboriginal partnership

Challenges

Lack of population critical mass

Unemployment & job participation

Business creation & supply chains

Distance from Perth

Cost of living

The Shire of Broome has one of the most diverse set of economic advantages and drivers of any location in regional Western Australia. It possesses:

- An established, domestic and internationally recognised tourism sector with significant long-term growth potential;
- direct transport access to Asian and global markets;
- a rich and diverse Aboriginal culture with history of collaborative engagement across the Shire;
- exposure to diverse natural resources, including mineral resources, offshore oil and gas, solar resources and water resources (for pastoral and horticultural activities);
- an existing and growing concentration of Local, State and Federal Government agencies services not only in Broome but the wider Kimberley region.

Leveraging and realising the potential prosperity from these competitive advantages is principally constrained by the sub-optimal size of the local population base. With a residential population below 20,000 people, the Shire of Broome (and the town of Broome in particular) lacks the critical mass to support a diverse consumer market, private sector-led land development and diverse education and health options. But most critically, the small size of the population means that the region lacks the depth of the labour market necessary to bring forward many of the major

projects mooted to take advantage of the key economic assets and opportunities in the town.

While the population of Broome has been declining marginally now for a number of years, the town has experienced periods of robust growth in the past. The scale and size of Broome's economic opportunities and competitive advantages means that the Shire must be ready to respond to a sudden shift towards accelerated growth at any time, particularly as major natural resources-linked projects progress towards delivery phases.

The skills and capabilities of the current labour force are therefore critical. Despite having limited depth in the labour market, the Shire has seen its unemployment rate rise in recent years, creating potential social challenges (including safety) while creating disincentives for some to participate more fully in the economy.

Developing technical and applied skills (including employability skills) is therefore critical to maximise the size, scale, depth and diversity of the Broome labour market in the short-term, to facilitate and enable major projects to be developed. This approach will not only help Broome bridge the current gap to a more optimal critical mass of population and labour but will also maximise the "buy-in" of all people to the shared economic prosperity of the town and region. Critical to activating these assets is the stability embodied in the relationships across sectors in the shire with a shared vision.

Economic Development Framework

The Shire of Broome's economic development activity will be managed through a tiered framework that draws on the evidence within this Strategy to:

- establish an aspirational Economic Development Vision for Broome;
- identify a series of Desired Outcomes; and
- outline the Economic Development Programs for the Shire.

This approach creates a clear line between any economic development action undertaken by, for or with Council and the overarching economic development vision. It also provides a concise framework to ensure all actions and initiatives are contributing to the achievement of the Desired Outcomes through each of the Economic Development Programs.

Vision for the Broome Economy

An effective vision statement is one that expresses the collective aspirations, goals and objectives of all economic development stakeholders in the community. This economic-specific vision supports the overarching vision for the Shire of Broome.

Broome - economically
diverse, for everyone.

Desired Outcomes

The Shire of Broome has identified a series of Desired Outcomes for economic development activity in Broome. These Desired Outcomes represent what success will look like if the Shire and other economic development stakeholders of Broome work together to realise the vision for the Broome economy.

Four Desired Outcomes have been identified through the research and engagement with stakeholders:

Desired Outcome	Description	Expected Benefits
More People 	<p>By 2025, Broome will have positive population growth and will be on track to reach 20,000 residents within the next 10 years.</p>	<p>There are greater opportunities for population-driven businesses to attract customers due to increased market size. Labour force pool will also increase, including Aboriginal employment, making it easier for new businesses to establish and existing business to grow and expand.</p>
More Investment 	<p>Broome is recognised nationally as an attractive destination for private and public investment.</p> <p>Broome is securing investment interest and funds on major projects and programs from national and global investors, businesses and funds.</p>	<p>Realising the economic potential of Broome will require further and expanded investment by the private sector. The Shire's role, and government more broadly, as the direct fund source for economic activity and investment will proportionally decrease and instead the Shire will play a greater role in facilitating, advocating and promoting.</p>
More Businesses 	<p>Broome has a large, diverse and dynamic business community servicing households, other businesses, industry and major projects.</p> <p>Broome's business creation rate is above the Regional WA average and new businesses are regularly created by local residents (including members of Aboriginal communities) as well as being attracted to the Shire.</p> <p>Broome fosters a growth-oriented and export-focused business community.</p>	<p>Employment growth and prosperity in Broome in the medium and long-term are contingent on private business growth. Fostering a dynamic and scalable business community in Broome is essential to realising the vision for the Broome economy.</p>
More Economic Diversity 	<p>Broome is a more diverse economy, with domestic and international tourism complemented by an expanded private sector population services capacity, mineral and energy production support, and agricultural and aquaculture processing.</p>	<p>A more diverse economy will provide greater sustainability of economic outcomes and prosperity in the long-term, decreasing Broome's reliance on tourism and the risks associated with external shocks to this sector (i.e. increase resilience).</p> <p>Broome's role as the "hub" for the Kimberley will provide opportunities to leverage planned private investment in mining/energy, transport, cultural tourism, renewable energy and horticultural activities to capture local supply chain expenditure in manufacturing, logistics, storage and services.</p> <p>Economic activity in Broome will include a proportional share of Aboriginal business and investment activity, providing local Aboriginal residents and communities with direct benefits from the Broome's economic potential.</p>

SHIRE OF BROOME'S ECONOMIC DEVELOPMENT PROGRAMS

Realising the Vision for the Broome economy and the associated Desired Outcomes will require a series of actions and initiatives by the Shire, delivered in partnership with other economic development stakeholders.

The Economic Development Framework in this Strategy includes the identification and establishment of core Economic Development Programs for the Shire. These Programs will provide high level direction for actions, initiatives and investments to contribute to achieving the Desired Outcomes and Vision. The following tables outline current and recent actions and also potential actions for further investigation by the Shire of Broome and its partners over the next five years.

Overarching these Programs is a cultural commitment from the Shire of Broome to be innovative, sustainable, customer focused and responsive across all disciplines, including approvals and project delivery.

The four key **Economic Development Programs** are profiled below.

Business & Industry Support

Program Description

Broome has a diversity of economic advantages that could be leveraged to generate significant employment and prosperity for the community. Increased focus should be on:

1. Support medium business growth. This is key to growing and diversifying the employment opportunities in Broome. Broome is underrepresented in terms of medium size businesses (20 workers+) which is the core business group that generates employment in local areas. This partly reflects the decline in manufacturing over the decade to 2016, which historically accounted for a large share of medium size businesses in the Shire.
2. Enhance competitiveness of supply chain support, logistics and servicing of the mining, oil and gas and the renewables sector.
3. Facilitate up-scale and downstream processing for the agriculture sector including horticulture, pastoral and aquaculture enterprises.
4. Encourage connectivity to new global markets and creation of bespoke tourism products.
5. Promoting business support services and access to education and training.
6. Facilitate new and emerging sectors such as renewable energy enterprise, carbon farming, bush foods, bush medicine, broader aquaculture projects.

Current and Continuing Actions

- Provide and deliver on the Small Business Friendly Local Government Charter
- Provide efficiencies and compliance through amendments and updates to the Shire of Broome's Regional Price Preference Policy and the Procurement Policy
- Facilitate high local content outcomes in major capital projects (e.g. Chinatown Revitalisation, Town Beach Redevelopment).
- Facilitate and promote training and education programs available for business.
- Provide accelerated forward capital works and asset maintenance as part of the Shire of Broome's COVID-19 Support Package to provide tendering opportunities for local small businesses.
- Provide tender information sessions regarding the launch of VendorPanel to make it easier for the region's businesses to win local government contracts.
- Provide a 'Buy Local' campaign highlighting a positive message to the community to shop locally during the COVID-19 measures and highlighting a positive message to the community to shop locally.
- Provide a responsive and transparent approach to planning and building services.

Potential Actions for Consideration / Investigation

- Partner with the Broome Chamber of Commerce and Industry in developing a Local Business Capability Database.
- Advocate to State and Federal Governments to fund new regional business incentives programs.
- Provide and promote local capture of Shire expenditure.
- Partner with the Broome Chamber of Commerce and Industry to ensure that businesses have one point of contact to coordinate the Shire of Broome's services and approvals.
- Advocate to State and Federal Government to provide increased business support services to Dampier Peninsula and remote communities (e.g. financial / legal advice, grant writing, business case development, innovation support and networking).
- Provide and update procurement policies to incorporate Aboriginal engagement principles.
- Facilitate with stakeholders a "Welcome to Broome" initiative for Broome's seasonal / backpacker / international workforce to increase social and community engagement.

 Skills Development & Training	
Program Description	<p>Developing the skills and employment capacity of the existing workforce is critical to improving current unemployment levels and providing a skilled, engaged workforce for existing and new businesses and major projects. This includes both technical skills and the development of attributes and capabilities to support long-term employability and engagement in the workforce.</p> <p>Increased focus should be on:</p> <ol style="list-style-type: none"> 1. Ensuring education and training offerings are matched with skills required in current and emerging industries, sectors and major projects. 2. Expanding the delivery of more informal skills and training support for workers and small business including business management, IT, marketing, online sales and grant/funding applications.
Current and Continuing Actions	<ul style="list-style-type: none"> • Partner with the West Kimberley Alliance to investigate the Kimberley University Centre concept. • Provide regular and varied traineeship opportunities across the disciplines in the Shire of Broome (including project administration support, parks and gardens, infrastructure works).
Potential Actions for Consideration / Investigation	<ul style="list-style-type: none"> • Facilitate and promote business skills courses and programs offered by other stakeholders. • Facilitate the establishment of a Broome Skills Group including leading business/industry, school and post-school education and community representatives to identify and coordinate industry-education partnerships and programs in Broome. • Partner with stakeholders to tailor and target skills development and training programs to meet the unique needs of Aboriginal communities across the Shire. • Advocate for further investment in school and post-school education and training facilities and services, building upon the existing strengths of current TAFE and university offerings.

Investment Attraction, Branding & Liveability

Program Description

Enhancing the attractiveness of Broome as a place to live, work, visit and run a business is critical to driving growth and prosperity. This includes efforts to attract investment in new industries and business, growing Broome's destination branding in domestic and international tourism market and investing in critical amenities supporting workforce attraction and retention.

Increased focus should be on:

1. Promoting a single, centralised and coordinated "brand" for Broome. This "brand" should have buy-in from a wide range of economic development stakeholders and be used collaboratively to communicate the advantages, attributes and story of Broome to state, national and global audiences.
2. Promote investment opportunities associated with available serviced residential, commercial, and industrial land.
3. Improving community safety and decreasing incidences of anti-social behaviour
4. Ensure access to fit-for-purpose population services (e.g. health, mental health, education, housing).
5. Promote healthy and active lifestyle choices through sport and recreation, arts and culture, and community development events.

Current and Continuing Actions

- Fund a financial contribution to the operations of Broome Visitor Centre, Australia's North West Tourism and Cruise Broome.
- Fund sponsorship of a broad range of events and community groups through grants:
 - Economic, Events and Tourism Development Fund
 - Community Annual Matched Fund / COVID-19 Community Support Grant
 - Community Ad Hoc Fund
- Provide community and activation events through grants and budget allocation.
- Provide theTown Beach Redevelopment.
- Provide the Chinatown Revitalisation Project Stage 1 and 2.
- Fund and provide project management support for Broome Golf Club New Clubhouse and Refurbishment.
- Fund and provide project management support for Broome Surf Life Saving Club Refurbishment.
- Provide the Jetty to Jetty Trail.
- Provide the Broome Recreation and Aquatic Centre Renewal project.
- Facilitate and advocate for the Broome Boating Facility project.
- Advocate for the delivery of the Cable Beach Foreshore Redevelopment project.
- Advocate for government investment in the Broome Urban Renewal project.
- Facilitate and advocate for a Takeaway Alcohol Management System and Banned Drinkers Register.
- Provide the following informing strategies:
 - Community Development Framework
 - Youth Framework
 - Community Safety Plan
 - Arts and Culture Strategy
- Facilitate and partner with Discovery Holiday Parks Pty Ltd to upgrade Roebuck Bay Caravan Park.
- Provide recreation areas infrastructure.
- Provide investment portfolio management services to responsibly maximise community and economic benefit generated from Shire of Broome property and assets.

Potential Actions for Consideration / Investigation

- Provide and maintain an online Broome "Project Pipeline".
- Partner with the community and key stakeholders to develop a "Broome Investment Prospectus".
- Partner and fund the establishment of a "Broome Investment Brand" with other stakeholder groups.
- Advocate for joint venture and partnership projects in future major project delivery (e.g. McMahon Estate development).
- Partner and fund a campaign for Broome as a residential place of choice in partnership with Industry and the Broome Chamber of Commerce and Industry.
- Advocate for key worker accommodation as required by Broome's industry sectors.

IMPLEMENTATION AND MONITORING

Partnering for Success

The Shire of Broome has a central role to play in driving economic outcomes for residents and businesses in the future. However, the Broome Growth Plan and recent COVID-19 Recovery Plan both demonstrated the power of the Shire working in partnership with other economic development agencies and organisations to deliver meaningful change and support tangible growth for the economy.

The Shire of Broome will therefore seek to partner with a wide variety of organisations to attract new businesses and investment, grow new industries and sectors, enhance the skills of the local workforce and ensure that all residents benefit from the economic potential of the region.

Key partners in Broome's current and future economic development include:

- Kimberley Development Commission
- Regional Development Australia Kimberley
- Broome Chamber of Commerce and Industry
- West Kimberley Alliance
- Nyamba Buru Yawuru
- Australia's North West Tourism
- Broome Visitor Centre
- Kimberley Ports Authority
- Broome International Airport
- Development WA
- State and Federal departments delivering services in the Kimberley
- Cruise Broome
- KMSB Pty Ltd
- Sheffield Resources
- Rio Tinto
- Woodside

Monitoring Progress and Measuring Outcomes

Successful economic development activities should be tailored and targeted to the vision of the Broome community and region. As such, the measures of success, progress, and outcomes of local economic development activities will also be unique to the Shire of Broome.

Key Measures that will be monitored and tracked include:

- **Unemployment Rate and Labour Force Engagement** – decreasing the rate of unemployment in the Shire of Broome to Regional WA levels without a decrease in labour force engagement and participation;
- **Incomes and Welfare** – decreasing the share of households with Government pensions as their primary income and increasing overall personal income levels over time.
- **Business Registrations** – increasing the rate of business creations per 1,000 residents to above Regional WA averages and increasing the share of locally registered businesses with 20 or more employees.
- **Tourism Diversification** – increasing the diversity and mix of places of origin of both domestic and international tourists and increasing the share of tourists directly accessing Broome from overseas (through the Broome International Airport or Port of Broome).
- **Gross Regional Product** – increasing the Gross Regional Product of the region, both in total and per person, with increased diversity of sectors contributing to growth.
- **Residential Population** – returning to positive growth in local residential population and set the path to reaching 20,000 people by 2036.

All of these Measures can be readily and regularly tracked using publicly available and timely data sets and will be reviewed every two years over the life of the Strategy.

It is proposed that an Implementation and Action Plan be prepared by the Shire of Broome to complement the **Strategy**

Economic Development Strategy 2021-2026 for the Shire of Broome

 Connectivity, Transport & Access	
Program Description	<p>A key strength of the Broome economy is its access to national and global markets through enabling infrastructure including telecommunications, road, sea port and airport.</p> <p>Increased focus should be on:</p> <ol style="list-style-type: none"> 1. Facilitating the growth and expansion of offerings at the Port of Broome and Broome International Airport to drive service delivery, exports, and to diversify tourism markets. 2. Enhancing the accessibility experience of people and workers within the Shire. This means continued investment in the regional road network to address safety and accessibility concerns and constraints, while also maximising connectivity between market precincts, economic assets and emerging drivers. 3. Increasing the reliability, safety and convenience of access from Broome to the wider Kimberley region will not only enhance Broome as an investment destination of public and private sector services and capabilities but will also ensure residents and businesses in the Kimberley have full access to essential services in the town. 4. Advocate for upgrades and fit-for-purpose telecommunications infrastructure to ensure digital and mobile connectivity to address impacts on safety, social remoteness, access to health services and ability for business to operate efficiently.
Current and Continuing Actions	<ul style="list-style-type: none"> • Provide road and footpath infrastructure throughout the Shire of Broome. • Provide a dedicated cruise ship drop-off point as part of Chinatown Revitalisation Project Stage 2 • Advocate for improved infrastructure through the State Government's Regional Telecommunications Project • Facilitate improved access to safe, affordable public transport, marine and aviation services.
Potential Actions for Consideration / Investigation	<ul style="list-style-type: none"> • Advocate for and facilitate with the Kimberley Ports Authority for Port expansion projects. • Advocate in partnership with key stakeholders for expanded trials of direct flights from South East Asia to Broome (post COVID-19) to take advantage of European connection through Singapore. • Advocate for affordable airfares. • Provide identified major amenity and accessibility enhancement projects across Broome and facilitate / advocate for projects being delivered by other stakeholders (namely Department of Transport and Main Roads WA). • Advocate for funding to enhance the lateral roads that connect Broome-Cape Leveque Road on the Dampier Peninsula. • Facilitate connectivity options for Broome's major precincts for community and visitors (e.g. Town Beach, Cable Beach, Chinatown) • Advocate to State and Federal Government to better understanding freight and logistics for Broome and the Kimberley to improve supply chain connectivity and competitiveness. • Facilitate and advocate for First Point of Entry status (Federal Government process) at Port of Broome. • Advocate for Broome to be the logistics supply hub for mining, oil and gas, agriculture, cruise ship services, renewables and other emerging industries.

9.4 PERFORMANCE

9.4.1 ANNUAL ELECTORS MEETING - 4 FEBRUARY 2021

LOCATION/ADDRESS:	Nil
APPLICANT:	Nil
FILE:	AME02
AUTHOR:	Senior Administration and Governance Officer
CONTRIBUTOR/S:	Nil
RESPONSIBLE OFFICER:	Director Corporate Services
DISCLOSURE OF INTEREST:	Nil

SUMMARY:

The purpose of this report is to present to Council the Minutes of the Annual Electors Meeting held 4 February 2021 and to seek Council consideration of Elector Motions made at this meeting.

BACKGROUND

Pursuant to section 5.27 of the *Local Government Act 1995*, the Shire held their Annual Electors Meeting on Thursday, 04 February 2021. Sixteen (16) Electors were in attendance and Minutes from the meeting can be sourced from the Shire website:

<https://www.broome.wa.gov.au/Council/Council-Meetings-and-Minutes>.

The Shire President's Report and the Annual Report for the previous financial year, 1 July 2019 to 30 June 2020, was received as per Regulation 15 of the *Local Government (Administration) Regulations 1996*.

During General Business a number of Elector Motions were raised. Shire officers have investigated each of these motions and have provided Council with recommendations for consideration as detailed below.

COMMENT

ELECTOR MOTION 1: JAN LEWIS

ELECTOR MOTION 1:

Minute No. /0221/001

Moved: Jan Lewis

Seconded: Brendan Renkin

That the Shire of Broome brings forward the review of the Shire's weed management plan scheduled for 2023-24 to the 2021-22 financial year and adds a fully costed and best practice implementation strategy to the updated plan.

CARRIED

COMMENT – MANAGER WORKS

The Shire of Broome's Corporate Business Plan 2021 – 2025 details a number of priorities to assist with caring for our natural, cultural and built heritage. Under Outcome 5 – Responsible management of natural resource; Action 5.2.5 highlights the facilitation of a review of the Weed Management Strategy. This action is timed for completion in the 2022/23 financial

year. The Shire of Broome is currently developing the Weed Management Strategy which is in a draft form. Officers believe that the review of this document in the 2022/23 financial year is appropriately timed based on it's finalisation in the 2020/21 financial year.

CONSULTATION

A community consultation plan will be developed for this review in line with the Shire's Community Engagement Policy.

OFFICERS RECOMMENDATION:

That Council:

1. *Notes the Elector Motion; and*
2. *Requests the Chief Executive Officer proceed with the review of the Weed Management Strategy in the 2022/23 financial year as detailed in the Corporate Business Plan 2021 – 2025.*

ELECTOR MOTION 2: ANDREW CHAMBERS

ELECTOR MOTION 2:

Minute No. /0221/002

Moved: Andrew Chambers

Seconded: Gaye Wotherspoon

That this Shire commit to working with State and Federal Agencies to develop plans for the expansion of our hospital facilities to include more beds, clinic facilities for specialist services currently not available or only by visiting specialists most importantly in geriatric care, paediatrics, tropical/poverty diseases and mental health.

CARRIED

COMMENT – MANAGER COMMUNITY AND ECONOMIC DEVELOPMENT

This motion seeks Council's commitment to partner with the State and Federal governments on planning for expansion of the town's hospital facilities. A similar theme was raised throughout the engagement to develop the Shire's Strategic Community Plan 2021 – 2031 (SCP) and Corporate Business Plan 2021 – 2025 (CBP).

In finalising and subsequently endorsing the plan, Council considered the Shire as best placed to advocate in relation for future improvements to the hospital. This role is defined within the SCP and CBP as:

Advocate - *We are a voice for the local community, promoting local interests in relation to health and safety, youth services, marine facilities, responsible development and more.*

The hospital expansion is therefore referenced as per below:

Shire of Broome Strategic Community Plan 2021 – 2031

Outcome 3: *A healthy, active community*

Objective 3.1: *Improve access to health facilities, services and programs to achieve good general and mental health in the community.*

Corporate Business Plan 2021 - 2025

Action 3.1.2: *Advocate for hospital facilities and services to address long-term health needs.*

Given these plans and the Shire's role on this matter having previously been endorsed by Council, it is recommended that the status quo remains.

OFFICERS RECOMMENDATION:

That Council:

1. *Notes the Elector Motion;*
2. *Continues to advocate for improved access to health facilities, services and programs to achieve good general and mental health in the community; and*
3. *Continues to advocate for hospital facilities and services to address long-term health needs.*

ELECTOR MOTION 3: ANDREW CHAMBERS

ELECTOR MOTION 3:

Minute No. /0221/003

Moved: Andrew Chambers

Seconded: Michael Leake

That this Shire commit to working with State and Federal Agencies to develop plans for building public access, affordable aged care residential facilities within this Shire that are culturally appropriate for our ethnically diverse population.

That this Shire utilise its capacity and expertise to develop an ongoing and financially sustainable management structure to ensure that the facilities remain open and accessible and not be run "for profit".

That this Shire develops employment and training plans that fully engage local residents in permanent careers within the industry and our local facilities.

CARRIED

COMMENT – MANAGER COMMUNITY AND ECONOMIC DEVELOPMENT

Following similar feedback received through community engagement to develop the Shire's Strategic Community Plan 2021 – 2031 (SCP) and Corporate Business Plan 2021 – 2025 (CBP), Council considered the Shire as best placed to advocate in relation to aged care facilities in the district.

This role is defined within the SCP and CBP as:

Advocate - We are a voice for the local community, promoting local interests in relation to health and safety, youth services, marine facilities, responsible development and more.

The matter referred to in the motion is therefore referenced as per below:

Shire of Broome Strategic Community Plan 2021 – 2031

Outcome 2: *Everyone has a place to call home*

Objective 2.1: *Promote access to safe, affordable accommodation to meet all needs, including itinerants, homeless people, those at risk, youth and the elderly.*

Corporate Business Plan 2021 - 2025

Action 2.1.3: *Advocate for housing diversity to meet community needs (retirement village, aged care facilities, accommodation for seasonal workers, etc.)*

Given these plans and the Shire's role on this matter having previously been endorsed by Council, it is recommended that the status quo remains.

OFFICERS RECOMMENDATION:

That Council:

1. *Notes the Elector Motion;*
2. *Continues to advocate for housing diversity to meet community needs (e.g. retirement village, aged care facilities, accommodation for seasonal workers etc.); and*
3. *Continues to advocate for the promotion of access to safe, affordable accommodation to meet all needs, including itinerants, homeless people, those at risk, youth and the elderly.*

ELECTOR MOTION 4: ANDREW CHAMBERS

ELECTOR MOTION 4:

Minute No. /0221/004

Moved: Andrew Chambers

Seconded: Brendan Renkin

That the Shire develop an integrated and inclusive development plan, 2021-2026, in consultation with the Dampier Ward Communities, State and Federal Agencies, utilising dedicated Federal Grant Funding, that sees those communities develop amenities and lift standards of public health and service to levels town residents take for granted and that visiting tourists expect.

That Federal funds received specifically for the purpose, over that five-year period, be dedicated solely toward budgets to enact these plans and that the Shire work with these communities in applying for and managing (if needed or requested) project funding and delivery.

That the Shire use its existing departmental management, HR, payroll expertise, infrastructure and capital equipment acquisition abilities to extend existing town-based services out into the Dampier Ward Communities, to provide the administrative and training capabilities required to develop and support community based, permanent, employment and training opportunities to deliver these services and developments.

CARRIED

COMMENT – DIRECTOR CORPORATE SERVICES

State Government Service Provision

The State Government is responsible for the delivery of essential and municipal services to Aboriginal Communities including those on the Dampier Peninsula. This includes services such as housing, health and medical, education, childcare, family and human services, water (including wastewater), power, roads, pathways, streetlights, drainage, public open space infrastructure and waste management.

The Government of Western Australia announced regional services reform in May 2015 to improve the lives of Aboriginal people in regional and remote Western Australia. The reform aims to bring about long-term, systemic change. In July 2016, the State Government

committed in the Regional Services Reform Roadmap to progressively bring basic services in remote Aboriginal communities up to minimum standards.

The Regional Services Reform Unit was established to drive the reform and in July 2017 it became part of the Department of Communities. The Regional Services Reform Unit receives funding from State Government service delivery agencies and the Royalties for Regions program.

Aboriginal families and communities are integral to the success of regional services reform. The interests and priorities of Aboriginal people are being represented by Aboriginal advisors on regional groups in the Pilbara and Kimberley set up to guide the work of the reform. District leadership groups are implementing change at a local level.

Ardyaloon, Beagle Bay, Bidyadanga, Djarindjin and Lombadina have been identified to participate in the Essential and Municipal Services Upgrade Program. Council should note that there are currently 61 "Remote – Permanent" and 18 "Remote Seasonal" Aboriginal communities identified within the Shire of Broome. According to 2016 census statistics the Shire has a population of 16,222 with 28.2% (4,574) identifying as Aboriginal. The townsite of Broome has a population of 13,984 with 21.4% (or 2,997) identifying as Aboriginal.

In October 2020, the State Government allocated \$750M through the 2020-21 Budget to build the resilience and capacity of Aboriginal communities and individuals. The funding is split over three key policy areas: building strong communities, improving health and wellbeing and delivering social and economic opportunities.

Initiatives contained within these policy areas relevant to the Shire of Broome include:

Building stronger communities:

- \$193 million to deliver essential services in remote Aboriginal communities, including repairs and maintenance for Aboriginal housing, tenancy support, and delivery of essential and municipal services, following the withdrawal of Commonwealth funding;
- \$25 million for targeted maintenance of social housing in remote Aboriginal communities, as part of a broader \$80 million provided to maintain regional social housing and subsidised housing for regional government workers;
- \$12.9 million towards the response to 'Closing the Gap', as a result of the withdrawal of Commonwealth funding;
- \$38.9 million to deliver improved water and wastewater services in remote communities and town-based communities, including Ardyaloon, Djarindjin, Lombadina and Beagle Bay;
- \$18.5 million over four years to support Aboriginal Short Stay Accommodation services in Derby, Broome and Kalgoorlie. These three facilities provide accommodation for Aboriginal people for up to 28 days while they access health or other government services in these regional hub towns.

Improving health and wellbeing:

- \$3.9 million will be spent over two years on the Syphilis Prevention and Control Program in the Kimberley, Pilbara and the Goldfields. This includes the recruitment of additional Aboriginal team members to work within syphilis prevention;
- \$19.8 million to be spent on mental health initiatives to improve the wellbeing of Aboriginal people, including \$9.8 million for Aboriginal Suicide Prevention Plans and \$10 million under the Commitment to Aboriginal Youth Wellbeing package;

- \$6.8 million in 2020-21 to fund the Aboriginal Community Connectors program to help improve community safety and reduce community consequences of alcohol and drug related at risk behaviours;
- \$9.2 million over four years for ambulance services in the Kimberley, including three paid paramedics at Derby, Fitzroy Crossing and Halls Creek and six new ambulances for the Kimberley; and
- \$11.5 million over four years to support adult dental services, support for people affected by lymphoedema, and improving employment of Aboriginal and Torres Strait Islander people in the aged-care sector.

Delivering social and economic opportunities:

- As part of the Kimberley Juvenile Justice Strategy, an additional \$6.2 million will be spent over the next four years to improve youth justice outcomes in the Kimberley, including \$1.2 million in 2020-21 to deliver a work pilot skills program for juveniles in Broome and Kununurra;
- \$1.3 million will be spent over 2020-21 to 2022-23 to establish an Empowered Youth Leadership Network in the Kimberley;
- \$310,000 to support Aboriginal people to participate in elections, with the employment of a dedicated community liaison officer and casual regional community liaison officers to engage with Aboriginal communities in order to enhance the effectiveness of election services being delivered; and
- The Green Jobs Plan will not only protect WA's natural environment and promote growth in conservation jobs across the State, it will also support Aboriginal employment on country and provide significant opportunities for young people and unskilled workers.

The Commonwealth and State governments facilitate the delivery of human services including health care and education, with various programs supporting individual and community requirements. These are delivered through federal and State programs such as the federal Community Development Program

Local Government Responsibilities

The Shire is not responsible for essential and municipal service delivery in Aboriginal communities within the district and as such no funds have been received by the Shire specifically for that purpose.

Tenure in Aboriginal communities generally lies with the Aboriginal Land Trust and is non-rateable. This means that the Shire in effect receives no revenue to deliver services to Aboriginal communities within the district from either rates, fees and charges or Federal / State funding.

Additionally, in most cases the Shire has no control of lands within Aboriginal Communities under the *Local Government Act 1995*. The fact that communities are located on Aboriginal Land Trust land restricts the capacity of Shires to operate facilities or maintain infrastructure or roads without first obtaining a leasehold interest or licence in relation to the land in question. Without addressing these land tenure constraints the delivery of municipal and essential services by local government would be problematic.

While not responsible for municipal and essential services the Shire of Broome does deliver a range of services to Aboriginal communities on the Dampier Peninsula under its powers and responsibilities within the *Local Government Act 1995*. These services include:

- Regulatory environmental health risk mitigation activities:
 - registration and inspection of food businesses

- registration and inspection of accommodation and camping facilities
 - public building inspections
 - regulating public health requirements for public events
 - wastewater treatment system approvals
 - inspection of water quality in public pools and
 - mosquito and pest control.
- Ranger Services (delivered on a request basis):
 - animal management
 - illegal camping and
 - bushfire mitigation.
- Road Maintenance
 - The Shire has several roads still vested with it which are maintained under the rural road regime. It should be noted that Cape Leveque Road is to be vested in the Main Roads Department of WA as of July 2021
 - Road maintenance and renewal including patrol grading, delineation marking, shoulder maintenance, and road patching
 - Non regulatory signage maintenance and renewal
 - Weed management
 - Drainage maintenance and renewal and
 - Verge maintenance.
- Waste Management
 - The Shire is in the process of completing a Waste Management Plan in consultation with the local communities and stakeholders. This is due for review prior to release and hopes to provide local initiatives to waste management. Currently waste bins are provided for public use on Cape Leveque Road, approximately 12km from the Broome Highway.
- Building approvals and compliance (in terms of the *Building Act 2011* and *Building Regulations 2012*).
- Statutory and Strategic Planning services to the aboriginal communities (in terms of the *Planning & Development Act 2005*).
- Library outreach services including postal loans and Children's Book Week activities are provided throughout the district.
- Advocacy and support in preparation of funding applications for sport and recreation infrastructure projects
- Administration of KidSport funding applications for eligible juniors to cover club registration fees in structured junior sport.
- Community and economic funding rounds administered by the Shire are able to be accessed by applicants throughout the district.

Representatives of the Dampier Ward communities are also encouraged to nominate to sit on the Local Emergency Management Committee and Bush Fire Advisory Committee to assist in the strategic direction of emergency management activities in the Shire of Broome.

The Shire has recognised the impact the recent sealing of Cape Leveque Road will have on Peninsula communities from an economic development perspective and has included a new objective to advocate for increased business support services:

Corporate Business Plan 2021 - 2025

Outcome 9: *A strong, diverse and inclusive economy where all can participate*

Objective 9.3: *Activate the Dampier Peninsula*

Action 2.1.3: *Advocate to State and Federal government to provide increased business support services to Dampier Peninsula communities (e.g. financial / legal advice, grant writing, business case development, innovation support and networking)*

In addition, numerous objectives and actions within the Shire's Corporate Business Plan reference the advocacy of State and Federal government agencies for improvements in service delivery more generally:

Additionally the following Actions are included in Council's Corporate Business Plan:

Corporate Business Plan 2021 - 2025

Outcome 3: *A healthy active community*

Objective 3.2: *Improve access to sport, leisure and recreation facilities, services and programs.*

Action 3.2.1: *Advocate for funding to improve sporting infrastructure in Aboriginal Communities within the Shire.*

Corporate Business Plan 2021 - 2025

Outcome 5: *Responsible management of natural resources*

Objective 5.2: *Manage and conserve the natural environment, lands and water.*

Action 5.2.2: *Advocate that State government improves drinking water quality and water source protection in Aboriginal communities.*

Corporate Business Plan 2021 - 2025

Outcome 6: *Responsible growth and development with respect for Broome's natural and built heritage*

Objective 6.1: *Promote sensible and sustainable growth and development.*

Action 6.1.4: *Advocate the State Government to facilitate land tenure solutions including resolving native title.*

Funding

There is a misconception that a portion of funding received through Financial Assistance Grant's (FAG's) is tied specifically to the delivery of services to Aboriginal people within the community. This is not the case; Financial Assistance Grant funding is untied with no conditions placed on how the funds should be spent.

No specific funding is received for this purpose and as such any costs associated with servicing Aboriginal communities would be borne through municipal funds (rates and/or fees and charges). This increase in cost would effectively be borne by ratepayers and residents of the Shire.

Interestingly case studies on the transition of municipal and essential services from the Northern Territory Government to local government indicate that "*Shires generally struggle to find the resources to provide an adequate range and standard of services to the meet*

the needs of local communities"¹. While the transition of service delivery from Commonwealth / State to Local Government has been enacted, "delivery" issues in Aboriginal communities continue in large part due to funding limitations and an inability to raise revenue through land rating or fees and charges.

Summary

Delivery of essential and municipal services in Aboriginal communities is currently in train through the State led Regional Services Reform Unit.

Officers recommend that Council acknowledge the Elector Motion, noting that the delivery and funding of essential and municipal services in Aboriginal communities is the responsibility of the State Government via the Regional Services Reform Unit.

Officers also recommend that Council invite the Regional Services Reform Unit to provide an update on the Municipal and Essential Services Reform Roadmap at a future Council Workshop, with information to be provided to electors.

CONSULTATION

Department of Local Government Sport and Cultural Industries

FINANCIAL IMPLICATIONS

Should the officer recommendation be supported there will be no financial impact.

If the Elector Motion is supported there would be significant expenses associated with developing and implementing the proposed "*integrated and inclusive development plan[s]*". A complete review of the Shire's strategic and financial planning documents including operational service delivery and rating objectives would be required.

As no specific funding is received for this purpose, any costs associated with this activity would be borne through a direct increase in rates and/or fees and charges. All costs associated with this approach would effectively be borne by ratepayers and residents of the Shire.

RISK

There is significant risk associated with supporting the Elector Motion.

The delivery of municipal and essential services to Aboriginal communities is the responsibility of the State. As such Council has no legislative powers to undertake the delivery of such services and receives no funding to do so.

Council is also limited in its ability to deliver services having no legislated power over land on which Aboriginal communities are located.

This lack of power to deliver services and undertake operations on lands on which Aboriginal communities are located would make the practical delivery of the services proposed extremely difficult.

¹ [Local Government Service Delivery to Indigenous Communities – Review of service delivery models and approaches in various jurisdictions](#). Australian Centre of Excellence for Local Government, May 2012

Encroaching on the delivery of municipal and essential services in Aboriginal communities would also have reputational and relationship impacts with the State and the various State agencies tasked with current service delivery.

OFFICERS RECOMMENDATION:

That Council:

1. *Notes the Elector Motion;*
2. *Acknowledges the delivery and funding of essential and municipal services in Aboriginal communities is the responsibility of the State Government (not Local Government); and*
3. *Requests the Chief Executive Officer invite the Regional Services Reform Unit to provide an update on the Municipal and Essential Services Reform Roadmap at a future Council Workshop, with information provided to be made available to electors where possible.*

ELECTOR MOTION 5: MICHAEL LEAKE

ELECTOR MOTION FIVE (5):

Minute No. /0221/005

Moved: Michael Leake

Seconded: Nik Wevers

That the Shire work collaboratively with the Broome Squash Club to revisit the ongoing planning for the development of suitable community space at BRAC, including the development of extra squash courts, to meet the needs of many parts of the community, especially junior sports and school participants.

CARRIED

COMMENT – MANAGER SPORT & RECREATION

The investment into sport and recreation infrastructure by the Shire of Broome is guided by the Shire's Sport and Recreation Plan (2019 – 2029). The most recent version of this plan was adopted at the February Ordinary Meeting of Council in 2019. The Sport and Recreation Plan is due to be reviewed in the 2021/22 financial year. This is an action identified in the Shire's Corporate Business Plan (3.2.2).

A key element of the development of the existing plan, and a key part of the review, will be to engage with sporting clubs that operate out of the Shire's facilities, including the Broome Squash Club.

An additional action within the Shire's Corporate Business Plan is to provide a gym and fitness facility at the Broome Recreation Aquatic Centre (3.2.8). It is anticipated that with the most suitable location for this facility to be placed on site, the planning of future squash courts will also need to be considered.

The growth and performance of the Broome Squash Club is acknowledged, and the club should be congratulated on the commitment to their sport and their members.

CONSULTATION

During the development of the current sport and recreation plan, every sporting club in Broome was given the opportunity to meet with the consultant and discuss their needs and

any specific club issues. 22 clubs chose to take part and provided their input into their formulation of the plan prior to being presented to Council. The Broome Squash Club was involved in this consultation.

It is intended that the clubs will again be consulted during the review of the sport and recreation plan as per Corporate Business Plan item 3.2.2.

RISK

If a review of the sport and recreation plan is not undertaken prior to commitment to significant infrastructure projects, the key priorities will not be clearly identified for Council consideration or for support of funding applications from State and Federal Government. Several key items from the current sport and recreation plan have been achieved and it is timely to reset and ensure that identified trends and infrastructure requirements are still current.

OFFICERS RECOMMENDATION:

That Council:

1. *Notes the Elector Motion; and*
2. *Requests the Chief Executive Officer, as part of a future review of the Shire's Sport and Recreation Plan, work collaboratively with the Broome Squash Club, and other Broome sporting clubs, to revisit the ongoing planning for the development of suitable community space at the Broome Recreation and Aquatic Centre, including the possible development of additional squash courts, to meet the needs of many parts of the community, especially junior sports and school participants.*

ELECTOR MOTION 6: MICHAEL LEAKE

ELECTOR MOTION SIX (6):

Minute No. /0221/006

Moved: Michael Leake

Seconded: Jan Lewis

That the Council provides a detailed report back to the ratepayers of Broome regarding the Shire's dealings and relationships with Broome Futures Ltd (BFL/West Kimberley Alliance) including at least the following - funding and results, appointment terms and time frame, governance, accountability back to the council and benefits to the rate payers and other points that provide transparency and accountability.

CARRIED

COMMENT – MANAGER COMMUNITY AND DEVELOPMENT

The Shire of Broome is seeking an acquittal report from West Kimberley Alliance (WKA) for the funding provided by Council. This will document outcomes and outputs achieved, lessons learnt, and provide audited financials related to the funding provided.

Once the acquittal is assessed by the Shire of Broome, officers will prepare a report for Council consideration detailing the Shire's engagement with WKA.

The Shire encourages members of the public to contact WKA directly if further information regarding the West Kimberley's strategic vision, constitution or operations is required.

RISK

Regular public questions and freedom of information requests have been submitted over the past 12 months seeking further information on the Shire of Broome's engagement with the WKA.

There is risk the number of hours of Officer time allocated to responding to public questions and freedom of information requests will continue to increase if no action is taken.

The Shire of Broome has authority to release Shire owned documents to the public. It does not have authority to release documents owned by the WKA.

OFFICERS RECOMMENDATION:

That Council:

1. Notes the Elector Motion;
2. Requests the Chief Executive Officer to again seek the acquittal report from West Kimberley Alliance documenting the outcomes and outputs achieved from funding provided by the Shire of Broome.
3. Requests the Chief Executive Officer to prepare a report for Council's consideration for public release detailing the Shire of Broome's engagement with the West Kimberley Alliance following the review of the acquittal report.
4. Encourages members of the public to contact West Kimberley Alliance directly if further information regarding the West Kimberley Alliance's strategic vision or constitution is required.

STATUTORY ENVIRONMENT

Local Government Act 1995

Subdivision 4 — Electors' meetings

5.26. Term used: electors

In this Subdivision —

electors include ratepayers.

5.27. Electors' general meetings

- (1) A general meeting of the electors of a district is to be held once every financial year.
- (2) A general meeting is to be held on a day selected by the local government but not more than 56 days after the local government accepts the annual report for the previous financial year.
- (3) The matters to be discussed at general electors' meetings are to be those prescribed.

[Section 5.27 modified: SL 2020/57 ^{1M}.]

UNCONFIRMED MINUTES

OF THE

ANNUAL ELECTORS MEETING

4 FEBRUARY 2021

NOTICE OF MEETING

Dear Council Member,

The next Annual Electors Meeting will be held on Thursday, 4 February 2021 in the Council Chambers, Corner Weld and Haas Streets, Broome, commencing at 5:00 PM.

Due to Covid and the current capacity restrictions within public venues, the Shire asks that any members of the public planning on attending pre-register. Registrations can be made through the Shire website via the following link:

<https://www.broome.wa.gov.au/Council/Council-Meetings-and-Minutes/Annual-Electors-Meeting>.

Regards,

S MASTROLEMBO
Chief Executive Officer

25/01/2021

DISCLAIMER

The purpose of Council Meetings is to discuss, and where possible, make resolutions about items appearing on the agenda. Whilst Council has the power to resolve such items and may in fact, appear to have done so at the meeting, no person should rely on or act on the basis of such decision or on any advice or information provided by a Member or Officer, or on the content of any discussion occurring, during the course of the meeting.

Persons should be aware that the provisions in section 5.25 of the *Local Government Act 1995* establish procedures for revocation or rescission of a Council decision. No person should rely on the decisions made by Council until formal advice of the Council decision is received by that person. The Shire of Broome expressly disclaims liability for any loss or damage suffered by any person as a result of relying on or acting on the basis of any resolution of Council, or any advice or information provided by a Member or Officer, or the content of any discussion occurring, during the course of the Council meeting.

Should you require this document in an alternative format please contact us.

3. SHIRE PRESIDENT REPORT

The Shire President Report is contained on page 8 of the Shire's Annual Report 2019 - 2020.

The Chair read aloud the Shire President Report.

RESOLUTION:

Minute No. /0221/001

Moved: Cr N Wevers

Seconded: Cr C Mitchell

That the 2019 - 2020 Shire President's report be received.

CARRIED UNANIMOUSLY 7/0

4. ANNUAL REPORT

Annual Report 2019 - 2020

The Shire of Broome Annual Report for the financial year 2019/20 is available on the Shire of Broome website via this link: <https://www.broome.wa.gov.au/Council/Council-Meetings-and-Minutes/Minutes-and-Agendas>.

Supplementary Information

Minutes from the 2018/19 Annual Electors Meeting held 12 December 2019, are available via this link: [Minutes – Annual Electors Meeting](#). These minutes were received by Council at the Ordinary Council Meeting held 27 February 2020.

RESOLUTION:

Minute No. /0221/002

Moved: Cr D Male

Seconded: Cr C Mitchell

That the Shire of Broome Annual Report for the financial year ended 30 June 2020 be received.

CARRIED UNANIMOUSLY 7/0

GENERAL BUSINESS

Cr E Foy entered the Chambers 5:07 PM

Elector Motions

Jan Lewis submitted an Elector Motion prior to the meeting:

ELECTOR MOTION 1:

Minute No. /0221/003

Moved: Jan Lewis

Seconded: Brendan Renkin

That the Shire of Broome brings forward the review of the Shire's weed management plan scheduled for 2023-24 to the 2021-22 financial year and adds a fully costed and best practice implementation strategy to the updated plan.

CARRIED

Andrew Chambers submitted Elector motions prior to the meeting:

ELECTOR MOTION 2:

Minute No. /0221/004

Moved: Andrew Chambers

Seconded: Gaye Wotherspoon

That this Shire commit to working with State and Federal Agencies to develop plans for the expansion of our hospital facilities to include more beds, clinic facilities for specialist services currently not available or only by visiting specialists most importantly in geriatric care, paediatrics, tropical/poverty diseases and mental health.

CARRIED

ELECTOR MOTION 3:

Minute No. /0221/005

Moved: Andrew Chambers

Seconded: Michael Leake

That this Shire commit to working with State and Federal Agencies to develop plans for building public access, affordable aged care residential facilities within this Shire that are culturally appropriate for our ethnically diverse population.

That this Shire utilise its capacity and expertise to develop an ongoing and financially sustainable management structure to ensure that the facilities remain open and accessible and not be run "for profit".

That this Shire develops employment and training plans that fully engage local residents in permanent careers within the industry and our local facilities.

CARRIED

ELECTOR MOTION 4:

Minute No. /0221/006

Moved: Andrew Chambers**Seconded: Brendan Renkin**

That the Shire develop an integrated and inclusive development plan, 2021-2026, in consultation with the Dampier Ward Communities, State and Federal Agencies, utilising dedicated Federal Grant Funding, that sees those communities develop amenities and lift standards of public health and service to levels town residents take for granted and that visiting tourists expect.

That Federal funds received specifically for the purpose, over that five year period, be dedicated solely toward budgets to enact these plans and that the Shire work with these communities in applying for and managing (if needed or requested) project funding and delivery.

That the Shire use its existing departmental management, HR, payroll expertise, infrastructure and capital equipment acquisition abilities to extend existing town based services out into the Dampier Ward Communities, to provide the administrative and training capabilities required to develop and support community based, permanent, employment and training opportunities to deliver these services and developments.

CARRIED

Michael Leake submitted the following Elector Motions prior to the meeting:

ELECTOR MOTION FIVE5:**Minute No. /0221/007****Moved: Michael Leake****Seconded: Nik Wevers**

That the Shire work collaboratively with the Broome Squash Club to revisit the ongoing planning for the development of suitable community space at BRAC, including the development of extra squash courts, to meet the needs of many parts of the community, especially junior sports and school participants.

CARRIED**ELECTOR MOTION SIX 6:****Minute No. /0221/008****Moved: Michael Leake****Seconded: Jan Lewis**

That the Council provides a detailed report back to the ratepayers of Broome regarding the Shire's dealings and relationships with Broome Futures Ltd (BFL/West Kimberley Alliance) including at least the following - funding and results, appointment terms and time frame, governance, accountability back to the council and benefits to the rate payers and other points that provide transparency and accountability.

CARRIED**Public Questions**

Questions were received from Gaye Wotherspoon prior to the meeting:

Question One (1)

Can Broome Shire explain how it came to the conclusion that Coconut Well should be considered an option for a new Kimberley Waste facility, when five years ago it was deemed by Hydrogeologist Tony Laws that it would appear that any proposal to site a Waste Facility in any ground water recharge area around Broome is fraught with risk?

Response prepared by Sam Mastrolembo, Chief Executive Officer and read aloud by Andrew Graffen, Director Infrastructure:

With the end of life imminent at our existing Landfill Facility at Buckley's Rd, the Shire has been planning for the development of a new Regional Resource Recovery Park (RRRP) which is an essential piece of community waste infrastructure. A site selection process has been ongoing for this facility for over nine years.

Site options within a 60km radius of the Broome townsite have been explored and considered over this period, with Council most recently endorsing two preferred sites for detailed site investigation (including fatal flaw analysis).

The Tony Laws Report you have referred to was tabled by a community member as part of a previous community submission process on site selection back in 2015. This Report was not endorsed by Council. It must also be clarified that the said Report was tabled in reference to an alternate site than the one currently under consideration. It was also written without the benefit of on ground detailed site-specific information. Our Waste Consultancy team and Peer Review consultants are acutely aware of the concerns raised in this report.

Over the past 14 months, detailed site investigations have been underway on the two site locations (Site D2 and Site G1). This has included desktop and intrusive investigations of cultural monitoring, geotechnical, hydrological, hydrogeological, ecological (flora and fauna) along with design works and detailed financial assessments for both sites. The culmination of extensive studies informs a Site Comparison Report that evaluates the strengths, weaknesses and points of difference between the two development options and Sites.

The Site Comparison Report was endorsed by Council at the December 2020 Ordinary Meeting of Council for the purposes of commencing community consultation. The Site Comparison Report in its entirety will be released to the community on 15 February 2021. A number of targeted information sessions, displays, websites and FAQ sheets will also be utilised to engage further with the community. I would encourage you to meet with staff at this time and engage through this process.

On a final note, Shire officers, consultants and Council are aware of the challenges and risks with this project. There are a number of approval processes that remain outstanding once a preferred site is determined. In the interim, we are keen to hear the community's thoughts and feedback on the Site Comparison Report and encourage your involvement.

Question Two (2)

When is Broome Shire releasing details of the two proposed Waste facility sites to Broome residents for public comment? and what is the timeline for responses?

Response prepared by Sam Mastrolembo, Chief Executive Officer and read aloud by Andrew Graffen, Director Infrastructure:

As endorsed by Council at the December 2020 Ordinary Meeting of Council, information will be available to the Broome Community on Monday 15 February 2021 as part of the commencement of an engagement process related to building community understanding of the RRRP. A 6 week submission period has been endorsed and a number of engagement activities which will include workshops, public displays, surveys and media coverage will occur over this time.

Gaye Wotherspoon asked an additional question:

Question Three (3)

Why is it that Broome Councillors have been told not to discuss the RRRP with Broome residents?

Answer provided by the Chair, Desiree Male:

The RRRP information is confidential until the community engagement process begins on the 15 February 2021. Once the community engagement process has begun Shire Councillors will be happy to discuss the project with you.

Jan Lewis submitted the following questions prior to the meeting:

Question One (1)

Is it correct that only 1 person (1 FTE) is employed to spray weeds in the Shire of Broome, with the occasional assistance of contractors?

Response provided by Andrew Graffen, Director Infrastructure:

The statement contained within your question is not correct.

The Shire of Broome currently delivers a long-term integrated weed management program which involves biological, chemical and physical control measures. The Shire of Broome has a dedicated Weed Officer however the integrated weed management program is delivered by a large number of staff across our Parks and Gardens and Works teams. This work is supplemented through the engagement of specialised contractors to support delivery of chemical control measures.

Question Two (2)

How does the Shire justify this level of staffing when it is obvious to anyone looking that the weed burden in drains, on footpath edges, and on crown land within the Shire is expanding exponentially?

Response is provided by Andrew Graffen, Director Infrastructure:

The Shire of Broome annually produces a zero-based resource budget for its operational areas. The allocation of labour through this process is based on annual priorities and projects. As per the previous question the allocation to the integrated weed management program is spread across a large number of staff and positions.

It is acknowledged that the number and diversity of weeds within the region is on the rise and additional resource allocation to weed management is proposed for the 2021/22 financial year.

The Shire has also developed a draft Weed Management Strategy with the aim to provide a framework for cooperative weed management that will guide efforts throughout the Shire of Broome. The draft strategy highlights the following objectives:

- Preventing introduction and spread of weeds
- Reviewing progress in Weed Management and devising methods for ongoing control
- Reviewing responsibilities of Stakeholders in Weed Management
- Increasing Public Awareness and Education

This document is anticipated to be finalised this financial year.

Andrew Chambers submitted questions prior to the meeting:

Question One (1)

Has the Shire any process in place to implement a transition to a low carbon emission organisation that leads by example and assists this community with pro-active initiatives that assist residents to manage and afford that transition?

Response provided by Andrew Graffen, Director Infrastructure:

This issue is addressed in the Shire's new Strategic Community Plan (SCP) and Corporate Business Plan (CBP). In the SCP, under the 'Place' Aspiration, Outcome 5 is the 'Responsible management of natural resources', containing the following objectives:

- 5.1 Mitigate climate change and natural disaster risks
- 5.2 Manage and conserve the natural environment, lands and water
- 5.3 Adopt and encourage sustainable practices.

Linked Strategies include the 'State of Environment Report 2015' and the 'Declaration on Climate Change'.

The Corporate Business Plan includes several Actions developed to facilitate Outcome 5.3 'Adopt and encourage sustainable practices'. These include:

- The development of a Renewable Energy Roadmap;
- Advocacy for increased options around availability of renewable energy from the power grid;
- Investigation of solar power opportunities; and
- The inclusion of electric vehicles within Council's 10-year plant replacement program.

It must be noted that Council has a responsibility to ensure that there is a balance between leading on technological adaptation and the costs involved in doing so.

The Shire of Broome has been proactive and has implemented a significant number of initiatives to reduce its carbon emissions while advocating strongly for opportunities for community members to transition. At Ordinary Council Meeting 29 October 2020, Council endorsed becoming a signatory of the WALGA Climate Change Declaration making a commitment to developing locally appropriate mitigation and adaptation strategies.

Question Two (2)

In light of the recent non-attendance by NBY at the Community Safety Forum what steps are being taken by The Shire to positively engage with the peak body of the local Native Title Holder group to engage positively in the resolution of major problems driving the ongoing crime wave led by the alienated youth of this community?

Response prepared by Nathan Cain, Director Development and Community and read aloud by James Watt, Director Corporate Services:

The Shire has invited NBY to form part of a response group with other panel agencies from the Community Safety Forum. NBY and the Shire meet regularly where this topic, and others, are discussed.

A collaborative, whole of community approach is required to address and respond to crime prevention and safety. The Shire is committed to working alongside all stakeholders to find resolutions.

Question Three (3)

Further to this when will the Shire be making any announcements about initiatives arising in response to the concerns and suggestions put forward at the Community Safety Forum?

Response prepared by Nathan Cain, Director Development and Community and read aloud by James Watt, Director Corporate Services:

It is unlikely there will be one single announcement regarding initiatives.

Initiatives such as Operation Heatshield form part of the response as do initiatives contained within the draft Community Safety Plan 2021 - 2025.

The Shire has also recently made available several ultraviolet pens for marking personal property as well as providing a limited supply of free bicycle / scooter alarms.

A response group workshop is scheduled at the end of February to discuss juvenile justice matters.

Shire officers continue to work through the questions received as part of the Community Safety Forum. The Q and A section on the Shire website will be updated regularly.

Question Four (4)

Can Shire officers answer when the much needed safety and signage work will take place on the Cape Leveque Rd turn-off?

Response provided by Andrew Graffen, Director Infrastructure:

Following the completion of the \$65 million Broome Cape Leveque Road upgrade project late in 2020 the Australian and Western Australian Governments have allocated additional funding to the road.

An additional \$15 million has been allocated towards reconstructing the first 13.6 kilometres of the old narrow seal on the Broome Cape Leveque Road as well as upgrading the Broome Highway intersection.

As part of these works a formalised tourist information bay is designed and will be constructed 500m from the intersection. This bay includes delivery of a signage project by Main Roads WA.

It is anticipated that these works commence post wet season and be completed in 2021.

Question One (5)

Can the Shire please clarify its role in the proposed Broome Boating Facility?

Response provided by Andrew Graffen, Director Development and Community:

In 2017 the WA State Government committed \$1 million towards developing a Business Case and technical investigations for a safe boating facility. The Department of Transport has been responsible for leading this project.

The Shire of Broome Strategic Community Plan 2021 – 2031 states that the Shire will:

- *Advocate for the Department of Transport to build the Broome Boating Facility at Entrance Point*

To date the Shire has been responsible for:

- *Coordinating the Broome Boating Facility Advisory Group*
- *Undertaking the Broome Boating Facility Community Consultation*

The Shire has also agreed to facilitate concept designs for the Broome Boating Facility greenspace areas, interpretation and artworks.

The Shire will continue to work closely with the Department of Transport throughout all stages of the project to ensure successful delivery.

The coordination and finalisation of the Business Case sits with the Department of Transport. A final version has been received by the Shire. Advice confirms the document is confidential at this time and due for further refinement in the coming months.

The Shire would like to thank the WA State Government for its commitment to the project thus far and note the Premier's Election promise of \$35 million would play a sizeable role in helping make the facility a reality.

The Shire will continue to advocate for the project to be fully funded to allow the vision of this facility to be realised.

Michael Leake asked the following question:**Question One (1)**

I have seen designs of other Council Chambers where the Councillors face the public gallery and do not have to turn around to see members of the public. I would like to know, can Council review the current layout of the Council chambers so that all Councillors are facing towards rate payers, so the public has a better view of the Councillors while they are deliberating over Council items?

Response provided by James Watt, Director Corporate Services:

We have started to investigate options but are constrained by the size and shape of the current room. We are working on improvements and if you have ideas on how the

Chambers would perform better from the public's perspective we would be interested in discussing them with you.

Brendan Renkin asked the following question:

Question One (1)

The annual report refers to the community scorecard. In that scorecard only 35% of residents agreed that rates provided value for money, 9 points below the State average and 28 points below the best rated Shire in the State. Does the Shire have an explanation for why 65% of residents think that rates aren't value for money? Does the Shire plan to do anything different to address this?

The Chair took the question on notice and a response will be provided at the next Ordinary Meeting of Council.

The following question was asked by Susan Bradley:

Question One (1)

Is there any future plans to move the pearling statues from Hamersley Street to Carnarvon Street back to the centre of the town?

The Chair provided the following response:

We recognise that their current location is not ideal, and we are looking at options of where we can move the statue. It can be difficult to determine where the best place for the statues should be by looking at them on plans. We are waiting for the upgrade to be completed so we can do a site visit, get a full understanding of how the area will look completed and determine the best place for them.

Brendan Renkin asked the following question:

Question One (1)

Why are staff attending the meetings of the Broome Futures when it's a private board and what are they doing there?

The Chair took the question on notice and a response will be provided at the next Ordinary Meeting of Council.

Susan Bradley asked the following question:

Question One (1)

Does the Council have any power or influence on the land at Kennedy Hill?

The Chair responded to the question:

The land is owned by Aboriginal Land Trust (ALT). The land is in the process of being transferred back to Yawuru.

Andrew Graffen, Director Infrastructure, explained that Development WA is currently working with Nyamba Buru Yawuru to develop a precinct plan for the area.

Question Two (2)

Is Council responsible for cleaning up that area?

Question responded to by Andrew Graffen, Director Infrastructure:

The Shire is not responsible for cleaning up the area, but we are constantly communicating with ALT in an effort to keep the land clean and tidy.

The following questions were received from Andrew Chambers prior to the meeting and answered administratively. Due to time constraints he was unable to ask his questions at the meeting.

Question (1)

Can the Shire please provide details of annual expenditure over the last five years directly related to the recruitment, transition, housing, employment, training and termination costs for Shire administrative roles?

Response provided by Sam Mastrolembro, Chief Executive Officer:

I will address this question together with the following question.

Question (2)

Can the Shire please provide details of annual expenditure over the last five years for local employment, training and apprenticeship programs?

Response provided by Sam Mastrolembro, Chief Executive Officer:

Please find below, a table providing the information requested:

	2015/2016	2016/2017	2017/2018	2018/2019	2019/2020
Recruitment	\$93 571	\$143 647	\$73 108	\$121 903	\$56 893
Transition	\$16,672	\$27,755	\$17,026	\$18,729	\$12,230
Housing	\$114,854	\$77,883	\$103,248	\$125,749	\$45,521
Employment	\$15,390,414	\$14,380,525	\$14,897,478	\$14,982,068	\$15,688,504
Training	\$282 454	\$207 753	\$258 818	\$205 426	\$145 058
Termination	-	-	-	-	\$5,000
Apprenticeship programs	-	-	-	\$49,910	\$148,722

Question (3)

Can the CEO please explain why this Shire is experiencing high levels of turn-over among senior staff appointees, the most recent being the departure of the Director Development and Community?

Response provided by Sam Mastrolembro, Chief Executive Officer:

We have had unfortunate turnover in the position of Director Development and Community, accounting for more than half of the turnover in Director positions since this time. When reviewing Director turnover overall, the general trend is downward since 2016. The most recent departures have cited family reasons and opportunities for career development and/or more attractive salary packages for the move.

Overall turnover is currently running at approximately 35% across the organisation. This is unfortunately on a par with other Local Governments in the Kimberley.

The Kimberley is not alone in this issue as around 18% of WA Rural and Regional Remote councils experience turnover rates of greater than 20%.

Question Four (4)

Is the Shire able to provide any updates on the proposed Floating Jetty Facility and the planning for traffic management if this project and the Broome Boat Facility proceed in 2021 (or at some point)?

Response provided by Andrew Graffen, Director Infrastructure Services:

The 'Floating Jetty Facility' is being funded by Kimberley Marine Support Base (**KMSB**) Pty Ltd and will be located within the Kimberley Ports Authority (**KPA**) controlled land and waters. As such the final road alignments will be agreed between KPA and KMSB to best suit the requirements of the facility.

The Shire has been involved in discussions with both KMSB and KPA as part of the development of the business case for the Broome Boating Facility. Through this engagement the Shire has received commitment from the KPA that recreational access to Entrance Point will be maintained.

Question Five (5)

Has this Shire listened to the significant objections raised by the residents of Coconut Wells (and others) and reconsidered the site location to one that is not so environmentally hazardous, not located off a major tourist route on a poorly maintained road?

Response provided by Sam Mastrolemba, Chief Executive Officer:

As outlined previous this evening a Site Comparison Report on two preferred sites has been endorsed by Council for the purpose of community engagement. Council will in due course make a decision on the site selection with regard for community feedback.

However I can confirm that the Shire of Broome is working with the Dampier Peninsula communities and have coordinated the development of a Draft Dampier Peninsula Waste Management Plan on behalf of the State Government to consider the very issues you have raised.

Question Six (6)

Can the Shire please detail the amount received annually from Federal funding over the last five years (Local Government (Financial Assistance) Act 1995) specifically for the improvement of Aboriginal social circumstances and their advancement (National Principles Relating to the Allocation of Grants (v) Aboriginal peoples and Torres Strait

Islanders. Financial assistance shall be allocated to councils in a way which recognises the needs of Aboriginal peoples and Torres Strait Islanders within their boundaries.) and show where that funding has been allocated?

Note: (The amount received in 2020-21 for factor Aboriginality was \$973,322, for Social Disadvantage was \$569 833 - Total \$1 543 165. This is an annual allocation)

Response provided by James Watt, Director Corporate Services:

No Financial Assistance Grant funds have been received by the Shire specifically for the improvement of Aboriginal social circumstances and their advancement over the past 5 years.

Local Government Financial Assistance Grants are funded by the Commonwealth Government and distributed among 137 local governments in Western Australia each year.

These grants are the State's entitlement for financial assistance from the Commonwealth Government, paid in equal quarterly instalments for a financial year.

The distribution of Financial Assistance Grants is for local government purposes and aims to achieve equitable levels of services across all local governments.

The funding provided to local governments is allocated on the basis of horizontal equalisation to ensure that each local government in the State is able to function at a standard not lower than the average standard of other local governments.

Importantly, Financial Assistance Grant funding is untied. There are no conditions placed on how the funds should be spent.

The WA Grant Commission uses a "balanced budget" approach to calculate General Purpose Grants. The commission calculates the equalisation requirement of each local government by assessing the revenue raising capacity and expenditure need of each local government. Five categories (called standards) are used to calculate revenue raising ability and six categories are used to establish expenditure needs.

The equalisation requirement is the difference between the assessed expenditure need and the assessed revenue raising capacity of each local government.

The grants commission has developed a range of 12 cost adjustors (including location, population dispersion, socio-economic disadvantage, climate and as per the question, aboriginality). These cost adjustors are used to recognise the additional costs a local government faces due to its physical or demographic characteristics. This "adjusted" expenditure figure is used to calculate the final equalisation requirement.

The Shire does not receive the level of funding for the cost adjustors as quoted in the question. As mentioned, those figures are developed by the commission to estimate the additional costs a local government faces due to its physical or demographic characteristics. These cost adjustors are added to the total expenditure which is assessed against revenue and averaged over a six-year period to derive the final equalisation requirement.

The Shire of Broome has received the following allocations since 2016-17:

2016-17: \$1.936M

2017-18: \$1.837M

2018-19: \$1.9M
2019-20: \$1.829M
2020-21: \$1.842M

Question Seven (7)

Can the Shire Representatives please detail the annual contribution made by ratepayers toward hosting The Shinju Matsuri Festival and detail DIRECT community employment and contract income for the 2020 Shinju Matsuri Festival?

Can you also confirm that despite a trend of growth in expenditure direct returns, in terms of local paid employment and opportunity within the arts and allied industries, are reducing?

Response provided by Nathan Cain, Director Development and Community:

Council, at the Special Meeting of Council on 2 July 2020, approved funding of \$130,000 ex GST in 2020-2021 to Shinju Matsuri Inc. for the 2020 Shinju Matsuri Festival.

It was a condition of funding for Shinju Matsuri Inc. to provide Council with a report on the proportion and amount of the \$130,000 paid to Broome personnel and businesses.

The Shire of Broome has received a preliminary report and is working with Shinju Matsuri to seek further details and information.

6. MEETING CLOSURE

There being no further business the Chair declared the meeting closed at 5:51 PM.

These minutes were confirmed at a meeting held (DD Month Year),
and signed below by the Presiding Person, at the meeting these minutes were confirmed.

Signed:

9.4.2 LOCAL GOVERNMENT ELECTIONS 2021

LOCATION/ADDRESS:	Nil
APPLICANT:	Nil
FILE:	GOE04
AUTHOR:	Manager Governance, Strategy and Risk
CONTRIBUTOR/S:	Nil
RESPONSIBLE OFFICER:	Director Corporate Services
DISCLOSURE OF INTEREST:	Nil

SUMMARY:

This report recommends that Council appoint the Western Australian Electoral Commission (**WAEC**) to conduct the 2021 Ordinary Election on behalf of the Shire and that the election be an 'In-Person' election.

BACKGROUND

The next local government ordinary election is scheduled to be held on Saturday 16 October 2021. There will be three (3) positions in the Broome Ward and one (1) position in the Dampier Ward contested.

The Chief Executive Officer of a local authority is responsible for the conduct of local government elections unless arrangements are made in accordance with section 4.20 of the *Local Government Act 1995* to appoint another person. This appointment must occur at least 80 days prior to election day.

Section 4.61(1) of the *Local Government Act 1995* provides for an election to be conducted as a:

postal election which is an election at which the method of casting votes is by posting or delivering them to an electoral officer on or before election day; or

voting in person election which is an election at which the principal method of casting votes is by voting in person on election day but at which votes can also be cast in person before election day, or posted or delivered, in accordance with regulations.

Postal voting legislation currently prohibits early polling. This limits the ability to provide pre-polling opportunities in the Dampier Ward in particular and for that reason has not been considered for the 2021 Ordinary Election.

The WAEC has conducted the in-person elections on behalf of the Shire since 2009. Voter turnout for the last six Shire of Broome in-person elections is as follows:

Ward	2009	2011	2013	2015	2017	2019
Broome	33.4%	44.0%	34.4%	26.3%	24.5%	27.2%
Dampier	22.2%	25.5%	27.4%	21.6%	-	-

COMMENT

The WAEC have provided a cost estimate of \$38,000 including GST to conduct the 2021 election (Attachment 1). This is based on the appointment of a local Returning Officer (**RO**).

At the last election in 2019, Council requested that the WAEC appoint an external to Broome RO to eliminate any perception of political or personal influence. This provided increased assurance to the candidates and the community that the election was undertaken in an open and transparent manner.

The use of an external RO will increase the estimated cost of the election by \$6,000 including GST. Based on the success of this in 2019 it is recommended that this continue for the 2021 election.

To confirm the WAEC engagement for the 2021 election a resolution of Council by absolute majority is required under section 4.20(4) of the Act.

Local Government Act Review Final Report 2020

The report contained two specific recommendations of note that have relevance to this item. Whilst not expected to be legislated prior to the October 2021 election it provides a strong indication of where electoral legislation may be headed.

Recommendation 23. All local government elections should be overseen by the Western Australian Electoral Commissioner.

The Shire has a well-established relationship with the WAEC and supports this continuance.

Recommendation 25(a) Postal voting be required, with lodgement of these votes to be allowed in person on and before election day.

This recommendation if legislated, will overcome the current postal voting limitation on not being able to conduct in-person pre-polling prior to election day. Postal voting would be a genuine alternative if this were to come into effect, mitigating the major concerns over the postal system that have been raised in the past.

CONSULTATION

Western Australian Electoral Commission.

STATUTORY ENVIRONMENT

4.20. CEO to be returning officer unless other arrangements made

- (1) Subject to this section the CEO is the returning officer of a local government for each election.
- (2) A local government may, having first obtained the written agreement of the person concerned and the written approval of the Electoral Commissioner, appoint* a person other than the CEO to be the returning officer of the local government for —

- (a) an election; or
- (b) all elections held while the appointment of the person subsists.

* Absolute majority required.

- (3) An appointment under subsection (2) —
 - (a) is to specify the term of the person's appointment; and
 - (b) has no effect if it is made after the 80th day before an election day.
- (4) A local government may, having first obtained the written agreement of the Electoral Commissioner, declare* the Electoral Commissioner to be responsible for

the conduct of an election, or all elections conducted within a particular period of time, and, if such a declaration is made, the Electoral Commissioner is to appoint a person to be the returning officer of the local government for the election or elections.

** Absolute majority required.*

4.61. Choice of methods of conducting election

- (1) The election can be conducted as a —
postal election which is an election at which the method of casting votes is by posting or delivering them to an electoral officer on or before election day; or
voting in person election which is an election at which the principal method of casting votes is by voting in person on election day but at which votes can also be cast in person before election day, or posted or delivered, in accordance with regulations.

- (2) The local government may decide* to conduct the election as a postal election.

** Absolute majority required.*

POLICY IMPLICATIONS

Election Caretaker Policy

FINANCIAL IMPLICATIONS

The amount of \$44,000 (incl. GST) will be allocated in the 2021/22 municipal budget (GL 20404), subject to Council endorsement.

RISK

Utilising the WAEC resources and expertise reduces the risk of non-compliance and ensures a high level of impartiality and transparency.

STRATEGIC IMPLICATIONS

Performance - We will deliver excellent governance, service and value, for everyone.

Deliver best practice governance and risk management.

VOTING REQUIREMENTS

Absolute Majority

COUNCIL RESOLUTION:

(REPORT RECOMMENDATION)

Minute No. C/0221/020

Moved: Cr B Rudeforth

Seconded: Cr C Mitchell

That Council:

- 1. Declare, in accordance with section 4.20(4) of the Local Government Act 1995, the Electoral Commissioner to be responsible for the conduct of the 2021 Ordinary Election together with any other elections or polls which may also be required;**

- 2. Determines the Shire of Broome 2021 Ordinary Election be conducted as a voting In-Person election as defined in section 4.61(1) of the Local Government Act 1995; and**
- 3. Requests the Chief Executive Officer to make appropriate allocations for election expenses in the 2021/22 budget.**

CARRIED UNANIMOUSLY BY ABSOLUTE MAJORITY 8/0

1. WAEC 2021 Ordinary Election Cost Estimate.

WESTERN AUSTRALIAN
Electoral Commission

LGE 028

Mr Sam Mastrolembro
Chief Executive Officer
Shire of Broome
PO Box 44
BROOME WA 6725

Doc No: I201224-181243
File(s): GOE04
Date: 24 DEC 2020
Disposal: D

Dear Mr Mastrolembro

Local Government Ordinary Election: 2021

The next local government ordinary elections will be held on 16 October 2021. While this is still some distance in the future, I have enclosed an estimate for your next ordinary election to assist in your 2021/2022 budget preparations.

The estimated cost for a 2021 voting in person election is \$38,000 inc GST which has been based on the following assumptions:

- 8,700 electors
- response rate of approximately 30%
- 4 vacancies
- count to be conducted at the offices of the Shire of Broome
- appointment of a local Returning Officer.

Costs not incorporated in this estimate include:

- non-statutory advertising (i.e. additional advertisements in community newspapers and promotional advertising)
- any legal expenses other than those that are determined to be borne by the Western Australian Electoral Commission in a Court of Disputed Returns
- any unanticipated costs arising from public health requirements for the COVID-19 pandemic.

The Commission is required by the *Local Government Act 1995* to conduct local government elections on a full cost recovery basis. Of note the prices quoted are estimates only and may vary depending on a range of factors including the hire of labour arrangements or votes cast. The basis for charges is all materials at cost and a margin on Commission staff time only. Should a significant change in this figure become evident prior to or during the election you will be advised as early as possible.

Level 2, 111 St Georges Terrace PERTH WA 6000
GPO Box F316 PERTH WA 6841

T | (08) 9214 0400
F | (08) 9226 0577

E | waec@waec.wa.gov.au
W | www.elections.wa.gov.au

The current procedure required by the *Local Government Act 1995* is that my written agreement has to be obtained before the vote is taken. To facilitate the process, you can take this letter as my agreement to be responsible for the conduct of the ordinary elections in 2021 for the Shire of Broome in accordance with section 4.20(4) of the *Local Government Act 1995*, together with any other elections or polls that may also be required.

In order to have the 2021 voting in person election, your council will now need to pass the following motion by absolute majority:

- Declare, in accordance with section 4.20(4) of the *Local Government Act 1995*, the Electoral Commissioner to be responsible for the conduct of the 2021 ordinary election together with any other elections or polls which may also be required.

I look forward to conducting this election for the Shire of Broome in anticipation of an affirmative vote by Council. If you have any further queries please contact Phil Richards Manager, Election Events on 9214 0400.

Yours sincerely

Robert Kennedy
ELECTORAL COMMISSIONER

15 December 2020

9.4.3 MODEL CODE OF CONDUCT FOR COUNCIL MEMBERS, COMMITTEE MEMBERS AND CANDIDATES

LOCATION/ADDRESS:	Nil
APPLICANT:	Nil
FILE:	ADC06
AUTHOR:	Manager Governance, Strategy and Risk
CONTRIBUTOR/S:	Nil
RESPONSIBLE OFFICER:	Director Corporate Services
DISCLOSURE OF INTEREST:	Nil

SUMMARY:

This report updates Council on recent legislative changes with regards to the Code of Conduct and Chief Executive Officer (CEO) Employment Standards.

It also recommends Council approve a standard complaints form for dealing with alleged Division 3 (Behaviour) breaches of the Model Code of Conduct, and further recommends that the Director Corporate Services and the Manager Governance, Strategy and Risk be authorised to receive complaints and withdrawals of complaints under Division 3 (Behaviour).

BACKGROUND

On 27 June 2019 the *Local Government Legislation Amendment Act 2019* was passed by Parliament.

The Amendment Act addresses the following key areas, within the *Local Government Act (1995)*:

- elected member training
- the treatment of gifts
- a new code of conduct
- changes to the Standards Panel
- best practice standards for CEO recruitment, performance review and early termination; and
- greater transparency through more information being made more easily accessible online.

The reforms that have already come into operation through new regulations include:

- a new gift framework
- universal training for council members
- online induction course for prospective local candidates
- changes to the Standards Panel; and
- greater transparency and easier access to information (partly in place).

On 3 February 2021 regulations took effect, implementing the remaining parts of the Amendment Act as follows:

- Model Code of Conduct (MCC)
- Model CEO Standards and
- Employee Code of Conduct Regulations.

The Department of Local Government Sport and Cultural Industries (DLGSC) has acknowledged that the regulations will take time to operationalise with an expectation that

local governments complete this within three months from the date the regulations took effect, by 3 May 2021.

This agenda item will focus on the two specific actions recommended to be completed within 3 weeks of the regulations taking effect. This relates to approving a form for complaints to be lodged under the MCC and secondly to authorise 1 or more persons to receive complaints and withdrawal of complaints under clause 11(3) of the MCC.

An outline of the other actions that will need to be completed by 3 May 2021 will also be provided.

COMMENT

Model Code of Conduct; Division 3 (Behaviour)

Previously, each local government had their own code of conduct to manage behaviour.

The new MCC replaces the individual codes and applies to all members and candidates. A separate code of conduct will be developed for employees including the CEO.

The new MCC provides for a high-level process to deal with complaints to ensure a more consistent approach across the sector. The intent of the MCC is to address behaviour through education rather than sanctions.

If a council member does not comply with any action required following a substantiated breach of Division 3 (Behaviour) of the MCC, the matter may be referred to the Standards Panel as an alleged contravention of Division 4 (Rules of Conduct). The Standards Panel has the authority to make binding decisions to resolve minor breaches.

Form for Complaint Lodgement

The DLGSC has provided a template that local governments can use to receive complaints. This form has been customised for the Shire of Broome and requires Council approval under Clause 11(2)(a) of the MCC. The form is provided at Attachment 1.

Authorisation of 1 or more persons to receive complaints and withdrawals

Clause 11(3) of the MCC requires Council to authorise 1 or more persons to receive complaints and withdrawal of complaints related specifically to Division 3 (Behaviour) of the MCC.

This can be the same person as the Complaints Officer under section 5.120 of the *Local Government Act 1995*, which in the case of the Shire of Broome, is currently the CEO.

The purpose of the Complaints Officer under section 5.120 is effectively 'just a mailbox' to receive minor breach complaints arising from Division 4 (Rules of Conduct), clauses 16-23 of the MCC and forwarding them to the Standards Panel for assessment.

The person or persons authorised under Clause 11(3) of the MCC will be required to deal with the complaint in accordance with the Complaints Handling Policy and Procedures that need to be developed and adopted by Council.

Advice received from the Governance Team at WALGA suggested that it may be prudent to not have the CEO receive complaints under Clause 11(3) of the MCC. The CEO is effectively the only employee directly appointed by Council. Handling behavioural

complaints could unnecessarily compromise the vital working relationship the CEO maintains with the elected members and there is a risk that this could create the perception of bias and a conflict of interest.

The alternative options are to engage an external party or to authorise one or more employees considered to have the experience and qualifications to handle a complaint, particularly recognising the requirement for procedural fairness and natural justice.

Given the current time constraints it is recommended that the Director of Corporate Services and the Manager Governance, Strategy and Risk be initially authorised under Clause 11(3) to receive complaints and withdrawals under Division 3 of the MCC. This authorisation can be reviewed by Council at anytime and particularly during the development of a Complaint Handling Policy and Procedure.

Future Actions required by 3 May 2021

- **Council adoption of the Model Code of Conduct:** Local governments can incorporate any additional behaviour requirements in Division 3 (Behaviour) that are not represented in the MCC. Any changes must be consistent with the MCC. To adopt the MCC and any amendments requires a resolution passed by absolute majority. The adopted code must then be published on the Shire's official website.
- **Complaints handling policy and/or procedure:** Both the DLGSC and WALGA recommend that these be developed as a matter of priority to ensure consistency in how complaints are managed in the future. The DLGSC has directed local governments to the Ombudsman WA's website for resources in relation to effective complaints management.
- **CEO standards for the recruitment, selection, performance review and termination:** Local Governments are required to adopt standards that incorporate the model standards. The regulations now require the position of CEO to be advertised if a period of 10 or more years has elapsed since a recruitment process has been carried out.
- **Policy for Temporary Employment or Appointment of CEO.** Section 5.39C of the *Local Government Act 1995*, now requires local governments to adopt a policy in relation to the employment of a **person** in the position of CEO for a term not exceeding 1 year and the appointment of an **employee** to act in the position of CEO for a term not exceeding 1 year. WALGA are advocating to the DLGSC to have them develop and provide a template policy in the near future.
- **Employee Code of Conduct:** The DLGSC has confirmed that Local Governments are not required to implement a new Employee Code of Conduct immediately. Rather, existing Employee Codes of Conduct should be reviewed, and a new Employee Code of Conduct prepared and implemented as soon as practicable. WALGA have indicated that they will produce a template Employee Code of Conduct for Employees, and the Public Sector Commission has produced some resources in this area.

STATUTORY ENVIRONMENT

Local Government (Model Code of Conduct) Regulations 2021

Schedule 1 *Model Code of Conduct*
Division 3 *Behaviour*

Clause 11 Complaint about alleged breach

- (1) A person may make a complaint, in accordance with subclause (2), alleging a breach of a requirement set out in this division.
- (2) A complaint must be made –
 - (a) in writing in the form approved by the local government; and
 - (b) to a person authorised under subclause (3); and
 - (c) within 1 month after with occurrence of the alleged breach.
- (3) The local government must, in writing, authorise 1 or more persons to receive complaints and withdrawal of complaints.

POLICY IMPLICATIONS

The Model Code of Conduct requires a council member to comply with all policies, procedures and resolutions of the local government.

Policies of specific reference to the Model Code of Conduct are:

- Elected Member Communications and Social Media Policy
- Elected Member Continuing Professional Development Policy
- Election Caretaker Policy
- Formal Communication – Elected Members and Staff

Policies of specific reference to the new CEO Standards and that will require amendment are:

- Appointment of Acting Chief Executive Officer Policy; and
- Senior Employee Policy.

FINANCIAL IMPLICATIONS

Nil initially.

If Council, choose to appoint an external complaint handling resource in the future, or where external mediation may be required to resolve a complaint, additional financial implications will be incurred.

RISK

Minimal risk. This item ensures that Council meets compliance with the new legislative requirements.

STRATEGIC IMPLICATIONS

Performance - We will deliver excellent governance, service and value, for everyone.

Deliver best practice governance and risk management.

VOTING REQUIREMENTS

Model code of conduct	Schedule 1
Preliminary provisions	Division 1
	cl. 1

Schedule 1 — Model code of conduct

[r. 3]

Division 1 — Preliminary provisions

1. Citation

This is the *Shire of Broome Code of Conduct for Council Members, Committee Members and Candidates*.

2. Terms used

(1) In this code —

Act means the *Local Government Act 1995*;

candidate means a candidate for election as a council member;

complaint means a complaint made under clause 11(1);

publish includes to publish on a social media platform.

(2) Other terms used in this code that are also used in the Act have the same meaning as they have in the Act, unless the contrary intention appears.

Division 2 — General principles

3. Overview of Division

This Division sets out general principles to guide the behaviour of council members, committee members and candidates.

4. Personal integrity

(1) A council member, committee member or candidate should —

(a) act with reasonable care and diligence; and

(b) act with honesty and integrity; and

(c) act lawfully; and

(d) identify and appropriately manage any conflict of interest; and

(e) avoid damage to the reputation of the local government.

(2) A council member or committee member should —

- (a) act in accordance with the trust placed in council members and committee members; and
- (b) participate in decision-making in an honest, fair, impartial and timely manner; and
- (c) actively seek out and engage in training and development opportunities to improve the performance of their role; and
- (d) attend and participate in briefings, workshops and training sessions provided or arranged by the local government in relation to the performance of their role.

5. Relationship with others

- (1) A council member, committee member or candidate should —
 - (a) treat others with respect, courtesy and fairness; and
 - (b) respect and value diversity in the community.
- (2) A council member or committee member should maintain and contribute to a harmonious, safe and productive work environment.

6. Accountability

A council member or committee member should —

- (a) base decisions on relevant and factually correct information; and
- (b) make decisions on merit, in the public interest and in accordance with statutory obligations and principles of good governance and procedural fairness; and
- (c) read all agenda papers given to them in relation to council or committee meetings; and
- (d) be open and accountable to, and represent, the community in the district.

Division 3 — Behaviour

7. Overview of Division

This Division sets out —

- (a) requirements relating to the behaviour of council members, committee members and candidates; and
- (b) the mechanism for dealing with alleged breaches of those requirements.

8. Personal integrity

- (1) A council member, committee member or candidate —
 - (a) must ensure that their use of social media and other forms of communication complies with this code; and
 - (b) must only publish material that is factually correct.
- (2) A council member or committee member —
 - (a) must not be impaired by alcohol or drugs in the performance of their official duties; and
 - (b) must comply with all policies, procedures and resolutions of the local government.

9. Relationship with others

A council member, committee member or candidate —

- (a) must not bully or harass another person in any way; and
- (b) must deal with the media in a positive and appropriate manner and in accordance with any relevant policy of the local government; and
- (c) must not use offensive or derogatory language when referring to another person; and
- (d) must not disparage the character of another council member, committee member or candidate or a local government employee in connection with the performance of their official duties; and
- (e) must not impute dishonest or unethical motives to another council member, committee member or candidate or a local government employee in connection with the performance of their official duties.

10. Council or committee meetings

When attending a council or committee meeting, a council member, committee member or candidate —

- (a) must not act in an abusive or threatening manner towards another person; and
- (b) must not make a statement that the member or candidate knows, or could reasonably be expected to know, is false or misleading; and
- (c) must not repeatedly disrupt the meeting; and
- (d) must comply with any requirements of a local law of the local government relating to the procedures and conduct of council or committee meetings; and
- (e) must comply with any direction given by the person presiding at the meeting; and
- (f) must immediately cease to engage in any conduct that has been ruled out of order by the person presiding at the meeting.

11. Complaint about alleged breach

- (1) A person may make a complaint, in accordance with subclause (2), alleging a breach of a requirement set out in this Division.
- (2) A complaint must be made —
 - (a) in writing in the form approved by the local government; and
 - (b) to a person authorised under subclause (3); and
 - (c) within 1 month after the occurrence of the alleged breach.
- (3) The local government must, in writing, authorise 1 or more persons to receive complaints and withdrawals of complaints.

12. Dealing with complaint

- (1) After considering a complaint, the local government must, unless it dismisses the complaint under clause 13 or the complaint is withdrawn under clause 14(1), make a finding as to whether the alleged breach the subject of the complaint has occurred.
- (2) Before making a finding in relation to the complaint, the local government must give the person to whom the complaint relates a reasonable opportunity to be heard.

Model code of conduct
Behaviour

Schedule 1
Division 3
cl. 12

- (3) A finding that the alleged breach has occurred must be based on evidence from which it may be concluded that it is more likely that the breach occurred than that it did not occur.
- (4) If the local government makes a finding that the alleged breach has occurred, the local government may —
 - (a) take no further action; or
 - (b) prepare and implement a plan to address the behaviour of the person to whom the complaint relates.
- (5) When preparing a plan under subclause (4)(b), the local government must consult with the person to whom the complaint relates.
- (6) A plan under subclause (4)(b) may include a requirement for the person to whom the complaint relates to do 1 or more of the following —
 - (a) engage in mediation;
 - (b) undertake counselling;
 - (c) undertake training;
 - (d) take other action the local government considers appropriate.
- (7) If the local government makes a finding in relation to the complaint, the local government must give the complainant, and the person to whom the complaint relates, written notice of —
 - (a) its finding and the reasons for its finding; and
 - (b) if its finding is that the alleged breach has occurred — its decision under subclause (4).

13. Dismissal of complaint

- (1) The local government must dismiss a complaint if it is satisfied that —
 - (a) the behaviour to which the complaint relates occurred at a council or committee meeting; and
 - (b) either —
 - (i) the behaviour was dealt with by the person presiding at the meeting; or
 - (ii) the person responsible for the behaviour has taken remedial action in accordance with a local law of the local government that deals with meeting procedures.
- (2) If the local government dismisses a complaint, the local government must give the complainant, and the person to whom the complaint relates, written notice of its decision and the reasons for its decision.

14. Withdrawal of complaint

- (1) A complainant may withdraw their complaint at any time before the local government makes a finding in relation to the complaint.
- (2) The withdrawal of a complaint must be —
 - (a) in writing; and
 - (b) given to a person authorised under clause 11(3).

15. Other provisions about complaints

- (1) A complaint about an alleged breach by a candidate cannot be dealt with by the local government unless the candidate has been elected as a council member.
- (2) The procedure for dealing with complaints may be determined by the local government to the extent that it is not provided for in this Division.

Division 4 — Rules of conduct

Notes for this Division:

1. Under section 5.105(1) of the Act a council member commits a minor breach if the council member contravenes a rule of conduct. This extends to the contravention of a rule of conduct that occurred when the council member was a candidate.

2. A minor breach is dealt with by a standards panel under section 5.110 of the Act.

16. Overview of Division

- (1) This Division sets out rules of conduct for council members and candidates.
- (2) A reference in this Division to a council member includes a council member when acting as a committee member.

17. Misuse of local government resources

- (1) In this clause —
- electoral purpose* means the purpose of persuading electors to vote in a particular way at an election, referendum or other poll held under the Act, the *Electoral Act 1907* or the *Commonwealth Electoral Act 1918*;
- resources of a local government* includes —
- (a) local government property; and
- (b) services provided, or paid for, by a local government.
- (2) A council member must not, directly or indirectly, use the resources of a local government for an electoral purpose or other purpose unless authorised under the Act, or by the local government or the CEO, to use the resources for that purpose.

18. Securing personal advantage or disadvantaging others

- (1) A council member must not make improper use of their office —
- (a) to gain, directly or indirectly, an advantage for the council member or any other person; or
- (b) to cause detriment to the local government or any other person.
- (2) Subclause (1) does not apply to conduct that contravenes section 5.93 of the Act or *The Criminal Code* section 83.

19. Prohibition against involvement in administration

- (1) A council member must not undertake a task that contributes to the administration of the local government unless authorised by the local government or the CEO to undertake that task.

- (2) Subclause (1) does not apply to anything that a council member does as part of the deliberations at a council or committee meeting.

20. Relationship with local government employees

- (1) In this clause —
local government employee means a person —
- (a) employed by a local government under section 5.36(1) of the Act; or
 - (b) engaged by a local government under a contract for services.
- (2) A council member or candidate must not —
- (a) direct or attempt to direct a local government employee to do or not to do anything in their capacity as a local government employee; or
 - (b) attempt to influence, by means of a threat or the promise of a reward, the conduct of a local government employee in their capacity as a local government employee; or
 - (c) act in an abusive or threatening manner towards a local government employee.
- (3) Subclause (2)(a) does not apply to anything that a council member does as part of the deliberations at a council or committee meeting.
- (4) If a council member or candidate, in their capacity as a council member or candidate, is attending a council or committee meeting or other organised event (for example, a briefing or workshop), the council member or candidate must not orally, in writing or by any other means —
- (a) make a statement that a local government employee is incompetent or dishonest; or
 - (b) use an offensive or objectionable expression when referring to a local government employee.
- (5) Subclause (4)(a) does not apply to conduct that is unlawful under *The Criminal Code* Chapter XXXV.

21. Disclosure of information

- (1) In this clause —

closed meeting means a council or committee meeting, or a part of a council or committee meeting, that is closed to members of the public under section 5.23(2) of the Act;

confidential document means a document marked by the CEO, or by a person authorised by the CEO, to clearly show that the information in the document is not to be disclosed;

document includes a part of a document;

non-confidential document means a document that is not a confidential document.

- (2) A council member must not disclose information that the council member —
 - (a) derived from a confidential document; or
 - (b) acquired at a closed meeting other than information derived from a non-confidential document.
- (3) Subclause (2) does not prevent a council member from disclosing information —
 - (a) at a closed meeting; or
 - (b) to the extent specified by the council and subject to such other conditions as the council determines; or
 - (c) that is already in the public domain; or
 - (d) to an officer of the Department; or
 - (e) to the Minister; or
 - (f) to a legal practitioner for the purpose of obtaining legal advice; or
 - (g) if the disclosure is required or permitted by law.

22. Disclosure of interests

- (1) In this clause —
 - interest** —
 - (a) means an interest that could, or could reasonably be perceived to, adversely affect the impartiality of the person having the interest; and
 - (b) includes an interest arising from kinship, friendship or membership of an association.

- (2) A council member who has an interest in any matter to be discussed at a council or committee meeting attended by the council member must disclose the nature of the interest —
 - (a) in a written notice given to the CEO before the meeting; or
 - (b) at the meeting immediately before the matter is discussed.
- (3) Subclause (2) does not apply to an interest referred to in section 5.60 of the Act.
- (4) Subclause (2) does not apply if a council member fails to disclose an interest because the council member did not know —
 - (a) that they had an interest in the matter; or
 - (b) that the matter in which they had an interest would be discussed at the meeting and the council member disclosed the interest as soon as possible after the discussion began.
- (5) If, under subclause (2)(a), a council member discloses an interest in a written notice given to the CEO before a meeting, then —
 - (a) before the meeting the CEO must cause the notice to be given to the person who is to preside at the meeting; and
 - (b) at the meeting the person presiding must bring the notice and its contents to the attention of the persons present immediately before any matter to which the disclosure relates is discussed.
- (6) Subclause (7) applies in relation to an interest if —
 - (a) under subclause (2)(b) or (4)(b) the interest is disclosed at a meeting; or
 - (b) under subclause (5)(b) notice of the interest is brought to the attention of the persons present at a meeting.
- (7) The nature of the interest must be recorded in the minutes of the meeting.

23. Compliance with plan requirement

If a plan under clause 12(4)(b) in relation to a council member includes a requirement referred to in clause 12(6), the council member must comply with the requirement.

Rules of conduct	Division 4
	cl. 23

9.4.4 MONTHLY PAYMENT LISTING DECEMBER 2020

LOCATION/ADDRESS:	Nil
APPLICANT:	Nil
FILE:	FRE02
AUTHOR:	Finance Officer - Creditors
CONTRIBUTOR/S:	Nil
RESPONSIBLE OFFICER:	Director Corporate Services
DISCLOSURE OF INTEREST:	Nil

SUMMARY:

This report recommends that Council receives the list of payments made under delegated authority, as per the attachment to this report, for December 2020.

BACKGROUND

The Chief Executive Officer (CEO) has delegated authority to make payments from the Municipal and Trust funds as per the budget allocations.

COMMENT

The Shire provides payments to suppliers by either Electronic Funds Transfer (EFT & BPAY), cheque, credit card or direct debit.

Attached is a list of all payments processed under delegated authority during December 2020.

CONSULTATION

Nil.

STATUTORY ENVIRONMENT***Local Government (Financial Management) Regulations 1996***

13. *Payments from municipal fund or trust fund by CEO, CEO's duties as to etc.*

- (1) *If the local government has delegated to the CEO the exercise of its power to make payments from the municipal fund or the trust fund, a list of accounts paid by the CEO is to be prepared each month showing for each account paid since the last such list was prepared —*
 - (a) *the payee's name;*
 - (b) *the amount of the payment; and*
 - (c) *the date of the payment; and*
 - (d) *sufficient information to identify the transaction.*
- (2) *A list of accounts for approval to be paid is to be prepared each month showing —*
 - (a) *for each account which requires council authorisation in that month —*
 - (i) *the payee's name; and*
 - (ii) *the amount of the payment; and*

- (iii) sufficient information to identify the transaction; and
 - (b) the date of the meeting of the Council to which the list is to be presented.
- (3) A list prepared under sub regulation (1) or (2) is to be —
 - (a) presented to the Council at the next ordinary meeting of the Council after the list is prepared; and
 - (b) recorded in the minutes of that meeting.

POLICY IMPLICATIONS

Nil.

FINANCIAL IMPLICATIONS

List of payments made in accordance with budget and delegated authority. Payments can also be analysed as follows:

SHIRE OF BROOME PAYMENTS - DECEMBER 2020

The above graph shows the percentage of local spend in comparison to non-local and recoupable spend for during December 2020 after \$1,833,385.13 in personnel payments, \$836,904.58 in utilities and other non-local sole suppliers were excluded.

RISK

The risk of Council not adopting this report is extreme as this will result in non-compliance with Regulation 13 of the *Local Government (Financial Management) Regulations 1996*.

The likelihood of this ever occurring is rare due to the CEO's implementation of procedures to ensure payment details are disclosed to Council in a timely manner, as well as Procurement and Purchasing policies which ensure these payments are made in accordance with budget and delegated authority and comply with *Local Government (Financial Management) Regulations 1996*.

STRATEGIC IMPLICATIONS

Performance - We will deliver excellent governance, service and value, for everyone.:

An organisational culture that strives for service excellence

Sustainable and integrated strategic and operational plans

Responsible resource allocation

Effective community engagement

Improved systems, processes and compliance

VOTING REQUIREMENTS

Simple Majority

COUNCIL RESOLUTION:

(RECOMMENDATION)

Minute No. C/0221/022

Moved: Cr D Male

Seconded: Cr C Mitchell

That Council:

- 1. Receives the list of payments made from the Municipal and Trust Accounts in December 2020 totalling \$5,452,329.79 (Attachment 1) as per the requirements of Regulation 12 of the Local Government (Financial Management) Regulations 1996 covering:**
 - a) EFT Vouchers EFT58568 - EFT59016 totalling \$4,939,495.61;**
 - b) Municipal Cheque Vouchers 57665 - 57666 totalling \$1309.53;**
 - c) Trust Cheque Vouchers 0.00 – 0.00 totalling \$0.00 and**
 - d) Credit Card Payments and Municipal Direct Debits DD28784.1 – DD28917.1 totalling \$511,524.65.**
- 2. Notes the local spend of \$1,719,898.63. included in the amount above, equating to 61.82% of total payments excluding personnel, utilities and other external sole supplier costs.**

9.4.5 MONTHLY PAYMENT LISTING JANUARY 2021

LOCATION/ADDRESS:	Nil
APPLICANT:	Nil
FILE:	FRE02
AUTHOR:	Finance Officer - Creditors
CONTRIBUTOR/S:	Nil
RESPONSIBLE OFFICER:	Director Corporate Services
DISCLOSURE OF INTEREST:	Nil

SUMMARY:

This report recommends that Council receives the list of payments made under delegated authority, as per the attachment to this report, for January 2021.

BACKGROUND

The Chief Executive Officer (CEO) has delegated authority to make payments from the Municipal and Trust funds as per the budget allocations.

COMMENT

The Shire provides payments to suppliers by either Electronic Funds Transfer (EFT & BPAY), cheque, credit card or direct debit.

Attached is a list of all payments processed under delegated authority during January 2021.

CONSULTATION

Nil.

STATUTORY ENVIRONMENT***Local Government (Financial Management) Regulations 1996***

13. *Payments from municipal fund or trust fund by CEO, CEO's duties as to etc.*

- (1) *If the local government has delegated to the CEO the exercise of its power to make payments from the municipal fund or the trust fund, a list of accounts paid by the CEO is to be prepared each month showing for each account paid since the last such list was prepared —*
 - (a) *the payee's name;*
 - (b) *the amount of the payment; and*
 - (c) *the date of the payment; and*
 - (d) *sufficient information to identify the transaction.*
- (2) *A list of accounts for approval to be paid is to be prepared each month showing —*
 - (a) *for each account which requires council authorisation in that month —*
 - (i) *the payee's name; and*
 - (ii) *the amount of the payment; and*

- (iii) sufficient information to identify the transaction; and
 - (b) the date of the meeting of the Council to which the list is to be presented.
- (3) A list prepared under sub regulation (1) or (2) is to be —
 - (a) presented to the Council at the next ordinary meeting of the Council after the list is prepared; and
 - (b) recorded in the minutes of that meeting.

POLICY IMPLICATIONS

Nil.

FINANCIAL IMPLICATIONS

List of payments made in accordance with budget and delegated authority. Payments can also be analysed as follows:

SHIRE OF BROOME PAYMENTS - JANUARY 2021

The above graph shows the percentage of local spend in comparison to non-local and recoupable spend for January 2021 after \$1,179,936.17 in personnel payments, \$2,265,432.50 in utilities and other non-local sole suppliers were excluded.

RISK

The risk of Council not adopting this report is extreme as this will result in non-compliance with Regulation 13 of the *Local Government (Financial Management) Regulations 1996*.

The likelihood of this ever occurring is rare due to the CEO's implementation of procedures to ensure payment details are disclosed to Council in a timely manner, as well as Procurement and Purchasing policies which ensure these payments are made in accordance with budget and delegated authority and comply with *Local Government (Financial Management) Regulations 1996*.

STRATEGIC IMPLICATIONS

Performance Aspiration – we will deliver excellent governance, service and value, for everyone:

Excellence in organisational performance and service delivery.

VOTING REQUIREMENTS

Simple Majority

COUNCIL RESOLUTION:

(RECOMMENDATION)

Minute No. C/0221/023

Moved: Cr D Male

Seconded: Cr B Rudeforth

That Council:

- 1. Receives the list of payments made from the Municipal and Trust Accounts in January 2021 totalling in \$5,163,219.40 (Attachment 1) per the requirements of Regulation 12 of the Local Government (Financial Management) Regulations 1996 covering:**
 - a) EFT Vouchers EFT59017 – EFT59416 totalling \$4,974,917.81;**
 - b) Municipal Cheque Vouchers 57667 - 57669 totalling \$600.00**
 - c) Trust Cheque Vouchers 000 - 000 totalling \$0.00; and**
 - d) Credit Card Payments and Municipal Direct Debits DD28921.1 – DD28982.32 totalling \$187,701.59.**
- 2. Notes the local spend of \$1,258,135.78 included in the amount above, equating to 73.24%. of total payments excluding personnel, utility and other external sole supplier costs**

CARRIED UNANIMOUSLY 8/0

9.4.6 MONTHLY STATEMENT OF FINANCIAL ACTIVITY REPORT DECEMBER 2020

LOCATION/ADDRESS:	Nil
APPLICANT:	Nil
FILE:	FRE02
AUTHOR:	Senior Finance Officer
CONTRIBUTOR/S:	Nil
RESPONSIBLE OFFICER:	Director Corporate Services
DISCLOSURE OF INTEREST:	Nil

SUMMARY:

Council is required by legislation to consider and adopt the Monthly Statement of Financial Activity Report for the period ended 31 December 2020, as required by Regulation 34(1) of the *Local Government (Financial Management) Regulations 1996* (FMR).

BACKGROUNDPrevious Considerations

Council is provided with the Monthly Financial Activity Report which has been developed in line with statutory reporting standards and provides Council with a holistic overview of the operations of the Shire of Broome.

Supplementary information has been provided in the form of Notes to the Monthly Report and a General Fund Summary of Financial Activity, which discloses Council's Revenue and Expenditure in summary form, by Programme (Function and Activity).

Disclosure and supply of appropriate explanations for variances presented in the Statement of Financial Activity, is mandatory under FMR 34(2)(b).

FMR 34(5) requires a local government to adopt a percentage or value, calculated in accordance with the Australian Accounting Standards (AAS) and Council's adopted risk management matrix thresholds, to be used in statements of financial activity for reporting material variances.

COMMENT

The 2020/21 Annual Budget was adopted at the Ordinary Meeting of Council on 25 June 2020.

The following are key indicators supporting the year to-date budget position with respect to the Annual Forecast Budget:

Budget Year elapsed	50.41%
Total Rates Raised Revenue	100% (of which 78.06% has been collected)
Total Other Operating Revenue	50%
Total Operating Expenditure	45%
Total Capital Revenue	68%
Total Capital Expenditure	31%
Total Sale of Assets Revenue	16%

More detailed explanations of variances are contained in Note 2 of the Monthly statement of Financial Activity. The commentary identifies material variations between the expected year-to-date budget position and the position at the reporting date.

Based on the 2020/21 Annual Budget presented at the Ordinary Meeting of Council on 25 June 2020, Council adopted a balanced budget to 30 June 2021.

CONSULTATION

STATUTORY ENVIRONMENT

Local Government (Financial Management) Regulations 1996

34. Financial activity statement report — s. 6.4

(1A) In this regulation —

“committed assets” means revenue unspent but set aside under the annual budget for a specific purpose.

- (1) A local government is to prepare each month a statement of financial activity reporting on the sources and applications of funds, as set out in the annual budget under regulation 22(1)(d), for that month in the following detail —
 - (a) annual budget estimates, taking into account any expenditure incurred for an additional purpose under section 6.8(1)(b) or (c);
 - (b) budget estimates to the end of the month to which the statement relates;
 - (c) actual amounts of expenditure, revenue and income to the end of the month to which the statement relates;
 - (d) material variances between the comparable amounts referred to in paragraphs (b) and (c); and
 - (e) the net current assets at the end of the month to which the statement relates.
- (2) Each statement of financial activity is to be accompanied by documents containing —
 - (a) an explanation of the composition of the net current assets of the month to which the statement relates, less committed assets and restricted assets;
 - (b) an explanation of each of the material variances referred to in sub regulation (1)(d); and
 - (c) such other supporting information as is considered relevant by the local government.
- (3) The information in a statement of financial activity may be shown —
 - (a) according to nature and type classification;
 - (b) by program; or
 - (c) by business unit.
- (4) A statement of financial activity, and the accompanying documents referred to in sub regulation (2), are to be —
 - (a) presented at an ordinary meeting of the council within 2 months after the end of the month to which the statement relates; and
 - (b) recorded in the minutes of the meeting at which it is presented.

- (5) Each financial year, a local government is to adopt a percentage or value, calculated in accordance with the AAS, to be used in statements of financial activity for reporting material variances.

Local Government Act 1995

6.8. Expenditure from municipal fund not included in annual budget

- (1) A local government is not to incur expenditure from its municipal fund for an additional purpose except where the expenditure —
- (a) is incurred in a financial year before the adoption of the annual budget by the local government;
 - (b) is authorised in advance by resolution*; or
 - (c) is authorised in advance by the mayor or president in an emergency.

* Absolute majority required.

(1a) In subsection (1) —

“additional purpose” means a purpose for which no expenditure estimate is included in the local government's annual budget.

- (2) Where expenditure has been incurred by a local government —
- (a) pursuant to subsection (1)(a), it is to be included in the annual budget for that financial year; and
 - (b) pursuant to subsection (1)(c), it is to be reported to the next ordinary meeting of the council.

POLICY IMPLICATIONS

Nil

FINANCIAL IMPLICATIONS

The adoption of the Monthly Financial Report is retrospective. Accordingly, the financial implications associated with adopting the Monthly Financial Report are nil.

RISK

The Financial Activity report is presented monthly and provides a retrospective picture of the activities at the Shire. Contained within the report is information pertaining to the financial cost and delivery of strategic initiatives and key projects.

In order to mitigate the risk of budget over-runs or non-delivery of projects, the Chief Executive Officer has implemented internal control measures such as regular Council and management reporting and the quarterly Finance and Costing Review (FACR) process to monitor financial performance against budget estimates. Materiality reporting thresholds have been established at half the adopted Council levels, which equate to \$5,000 for operating budget line items and \$10,000 for capital items, to alert management prior to there being irreversible impacts.

It should also be noted that there is an inherent level of risk of misrepresentation of the financials through either human error or potential fraud. The establishment of control measures through a series of efficient systems, policies and procedures, which fall under the responsibility of the CEO as laid out in the *Local Government (Financial Management Regulations) 1996* regulation 5, seek to mitigate the possibility of this occurring. These controls are set in place to provide daily, weekly and monthly checks to ensure that the integrity of the data provided is reasonably assured.

STRATEGIC IMPLICATIONS**Performance - We will deliver excellent governance, service and value, for everyone:**

An organisational culture that strives for service excellence

Responsible resource allocation

VOTING REQUIREMENTS

Simple Majority

Appendix A Supplementary Notes to the Monthly Report	30

Shire of Broome

Compilation Report

For the Period Ended 31 December 2020

Report Purpose

This report is prepared to meet the requirements of *Local Government (Financial Management) Regulations 1996*, Regulation 34 .

Overview

Summary reports and graphical progressive graphs are provided on page 3, 4 and 5.
No matters of significance are noted.

Statement of Financial Activity by reporting program

Is presented on page 6 and shows a surplus as at 31 December 2020 of \$27,459,690.

Note: The Statements and accompanying notes are prepared based on all transactions recorded at the time of preparation and may vary.

Monthly Summary Information
For the Period Ended 31 December 2020

Liquidity Over the Year (Refer Note 3)

Cash and Cash Equivalents
as at period end

Unrestricted	\$ 15,667,760
Restricted	\$ 31,444,684
	<u>\$ 47,112,444</u>

Receivables

Rates	\$ 5,295,043
Other	\$ 9,135,567
	<u>\$ 14,430,610</u>

Rates Receivable (Refer Note 6)

Accounts Receivable Ageing (non-rates)

Comments

1. Liquidity refers to the Shire of Broome's ability to meet its financial obligations within the current year. Liquidity increased at the start of the financial year by \$18.984M due mainly to the issuance of rates. Liquidity is a combination of unrestricted cash, Current Debtors (including Rates), and Current Creditors. The Shire of Broome's current position (representing liquidity) can be found in Note 3.

2. Rates were raised in July with payment due 35 days after issuing. Total Rates raised for the year was \$23.26M with total outstanding rates YTD at \$5.3M.

This information is to be read in conjunction with the accompanying Financial Statements and notes.

Comments

*Amended Budget Closing balance is the forecast of the closing balance after all budgeted transfers to and from reserve have been performed. At this time there have been no transactions to or from reserve other than to recognise interest earned on reserve investments. All interest earned on Reserve investments is recorded on reserve at the end of each month.

This information is to be read in conjunction with the accompanying Financial Statements and notes.

Shire of Broome

Monthly Summary Information

For the Period Ended 31 December 2020

Revenues

Expenditure

Comments

Explanation on material variances are presented in note 2.

This information is to be read in conjunction with the accompanying Financial Statements and notes.

Net Current Funding Position		27,459,690	2,546,101	12,370,730

Note 3 - Liquidity Over the Year**Comments - Net Current Funding Position**

The budget was adopted at the OMC 25 June 2020. It was presented to Council with a predicted carried forward surplus of \$2,226,546.

The Rounding and Timing Adjustment is calculated by subtracting the sum of current assets less current liabilities and cash reserves from the YTD funding surplus (see page 7).

Comments/Notes - Investments

*Note - The total of Restricted Cash balances to the reserves on Note 7

**NOTE - Payment Timing adjustments indicate payments that have been recorded on the ledger but have yet to be paid out of the bank. The bank accounts are reconciled monthly to ensure no discrepancies occur.

‡Note - A discrepancy between Trust balance and the balance of Note 11 is a result of money in transit, either as a refund or a payment, or an unrepresented cheque.

Comments - Rating Information

NOTE - This note represents the budgeted rating and back rating revenue expected for the 2020/21 financial year. The Statement of Financial Activity (by Reporting Program) examines the reporting program for rates which also includes other items, such as debt recovery and rates instalments charges, which are not represented in this table as they do not form part of ordinary rates modelling.

SHIRE OF BROOME
Monthly Statement of Financial Activity
For the Period Ending 31 December 2020

Appendix A: SUPPLEMENTARY NOTES TO THE MONTHLY REPORT

NOTES TO THIS MONTH'S REPORT

OVERVIEW

For the period ended 31 December 2020, the following are key indicators supporting the year to-date budget position with respect to the Annual Forecast Budget:

Budget Year elapsed	50.41%
Total Rates Raised Revenue	100% (of which 78.06% were collected)
Total Other Operating Revenue	50%
Total Operating Expenditure	45%
Total Capital Revenue	68%
Total Capital Expenditure	31%
Total Sale of Assets Revenue	16%

The budget was adopted at the Ordinary Meeting of Council on 25 June 2020. Council adopted a balanced annual budget, which included a net carried forward balance of \$2,226,546 being \$844,078 of carry-over projects, plus \$1,382,467 Financial Assistance Grants received in advance.

It should be noted that the end of financial year (EOFY) processes are now complete and the Annual Financial statements were presented to the Audit Committee on 2 December 2020 before the recommendations were presented to the Ordinary Meeting of Council on 10 December 2020. The final report included recommendations for the use of an adjusted surplus \$4,188,392 in carried forward surplus. These recommendations were approved by Council and incorporated into the 2020-21 budget.

More information on the Shire's current position can be found on Note 3 of these Financial Statements.

ADJUSTMENTS TO DETERMINE THE CASH POSITION

CURRENT POSITION

Currently, to the end of December 2020, the current position stands at \$27.4M.

Cash

Total Cash Assets are now \$47.1M having increased by \$0.4M.

The major collections this month include receipt of:

- \$1.78 – Rates receipts Various Assessments
- \$120K – Cleanaway Tip Fees Collected

The major expenditure items this month include payments of:

- \$810K Colin Wilkinson Developments for Construction of Broome Golf Club (RFQ-20/05)

- \$338K DFES – ESL Rates Q2
- \$275K Talis Consultants – New Refuse Site Investigations (RFQ-19/72)
- \$261K WATC – Civic Centre Redevelopment - Loan 193

Receivables

Sundry debtors including GST refundable stand at \$9.2M.

Rates and rubbish debtors stand at \$5.5M. Annual rates were raised on 16th July 2020 with due date of 20 August 2020. Rates & Rubbish debtors will continue to reduce throughout the year as ratepayers on instalment and payment plans continue to pay their rates.

Other Assets

These stand at \$144K having a \$10K decrease since the previous month.

Cash Liabilities

These stand at \$387K. This represents our obligation on our outstanding loans in 20/21.

Creditors and Payables

Sundry Creditors are \$2.6M, due to continued major infrastructure works in progress.

Other Payables comprising Tax Payable, FESA Levy Collected, Accrued Loan Interest, Prepayments Received and accruals stand at \$1.2M.

Employee Provisions and Accruals

In the normal course of events, these figures are adjusted in June and July each year by end of year accounting adjustments.

Current leave provisions are \$2.39M (Non-current leave provisions are \$280K). Accruals to reflect the year end position have been completed for the 2019-2020 year.

9.4.7 MONTHLY STATEMENT OF FINANCIAL ACTIVITY JANUARY 2021

LOCATION/ADDRESS:	Nil
APPLICANT:	Nil
FILE:	FRE02
AUTHOR:	Senior Finance Officer
CONTRIBUTOR/S:	Nil
RESPONSIBLE OFFICER:	Director Corporate Services
DISCLOSURE OF INTEREST:	Nil

SUMMARY:

Council is required by legislation to consider and adopt the Monthly Statement of Financial Activity Report for the period ended 31 January 2021, as required by Regulation 34(1) of the *Local Government (Financial Management) Regulations 1996* (FMR).

BACKGROUND*Previous Considerations*

Council is provided with the Monthly Financial Activity Report which has been developed in line with statutory reporting standards and provides Council with a holistic overview of the operations of the Shire of Broome.

Supplementary information has been provided in the form of Notes to the Monthly Report and a General Fund Summary of Financial Activity, which discloses Council's Revenue and Expenditure in summary form, by Programme (Function and Activity).

Disclosure and supply of appropriate explanations for variances presented in the Statement of Financial Activity, is mandatory under FMR 34(2)(b).

FMR 34(5) requires a local government to adopt a percentage or value, calculated in accordance with the Australian Accounting Standards (AAS) and Council's adopted risk management matrix thresholds, to be used in statements of financial activity for reporting material variances.

COMMENT

The 2020/21 Annual Budget was adopted at the Ordinary Meeting of Council on 25 June 2020.

The following are key indicators supporting the year to-date budget position with respect to the Annual Forecast Budget:

Budget Year elapsed	58.90%
Total Rates Raised Revenue	100% (of which 84.41% has been collected)
Total Other Operating Revenue	53%
Total Operating Expenditure	52%
Total Capital Revenue	69%
Total Capital Expenditure	37%
Total Sale of Assets Revenue	16%

More detailed explanations of variances are contained in Note 2 of the Monthly Statement of Financial Activity. The commentary identifies material variations between the expected year-to-date budget position and the position at the reporting date.

Based on the 2020/21 Annual Budget presented at the Ordinary Meeting of Council on 25 June 2020, Council adopted a balanced budget to 30 June 2021.

CONSULTATION

Nil

STATUTORY ENVIRONMENT

Local Government (Financial Management) Regulations 1996

34. Financial activity statement report — s. 6.4

(1A) In this regulation —

“committed assets” means revenue unspent but set aside under the annual budget for a specific purpose.

- (1) A local government is to prepare each month a statement of financial activity reporting on the sources and applications of funds, as set out in the annual budget under regulation 22(1)(d), for that month in the following detail —
 - (a) annual budget estimates, taking into account any expenditure incurred for an additional purpose under section 6.8(1)(b) or (c);
 - (b) budget estimates to the end of the month to which the statement relates;
 - (c) actual amounts of expenditure, revenue and income to the end of the month to which the statement relates;
 - (d) material variances between the comparable amounts referred to in paragraphs (b) and (c); and
 - (e) the net current assets at the end of the month to which the statement relates.
- (2) Each statement of financial activity is to be accompanied by documents containing —
 - (a) an explanation of the composition of the net current assets of the month to which the statement relates, less committed assets and restricted assets;
 - (b) an explanation of each of the material variances referred to in sub regulation (1)(d); and
 - (c) such other supporting information as is considered relevant by the local government.
- (3) The information in a statement of financial activity may be shown —
 - (a) according to nature and type classification;
 - (b) by program; or
 - (c) by business unit.
- (4) A statement of financial activity, and the accompanying documents referred to in sub regulation (2), are to be —
 - (a) presented at an ordinary meeting of the council within 2 months after the end of the month to which the statement relates; and
 - (b) recorded in the minutes of the meeting at which it is presented.
- (5) Each financial year, a local government is to adopt a percentage or value, calculated in accordance with the AAS, to be used in statements of financial activity for reporting material variances.

Local Government Act 1995

6.8. Expenditure from municipal fund not included in annual budget

- (1) A local government is not to incur expenditure from its municipal fund for an additional purpose except where the expenditure —
- (a) is incurred in a financial year before the adoption of the annual budget by the local government;
 - (b) is authorised in advance by resolution*; or
 - (c) is authorised in advance by the mayor or president in an emergency.

* Absolute majority required.

(1a) In subsection (1) —

“additional purpose” means a purpose for which no expenditure estimate is included in the local government's annual budget.

- (2) Where expenditure has been incurred by a local government —
- (a) pursuant to subsection (1)(a), it is to be included in the annual budget for that financial year; and
 - (b) pursuant to subsection (1)(c), it is to be reported to the next ordinary meeting of the council.

POLICY IMPLICATIONS

Nil

FINANCIAL IMPLICATIONS

The adoption of the Monthly Financial Report is retrospective. Accordingly, the financial implications associated with adopting the Monthly Financial Report are nil.

RISK

The Financial Activity report is presented monthly and provides a retrospective picture of the activities at the Shire. Contained within the report is information pertaining to the financial cost and delivery of strategic initiatives and key projects.

In order to mitigate the risk of budget over-runs or non-delivery of projects, the Chief Executive Officer has implemented internal control measures such as regular Council and management reporting and the quarterly Finance and Costing Review (FACR) process to monitor financial performance against budget estimates. Materiality reporting thresholds have been established at half the adopted Council levels, which equate to \$5,000 for operating budget line items and \$10,000 for capital items, to alert management prior to there being irreversible impacts.

It should also be noted that there is an inherent level of risk of misrepresentation of the financials through either human error or potential fraud. The establishment of control measures through a series of efficient systems, policies and procedures, which fall under the responsibility of the CEO as laid out in the *Local Government (Financial Management Regulations) 1996* Regulation 5, seek to mitigate the possibility of this occurring. These controls are set in place to provide daily, weekly and monthly checks to ensure that the integrity of the data provided is reasonably assured.

STRATEGIC IMPLICATIONS

Prosperity – Together, we will build a strong, diversified and growing economy with work opportunities for everyone:

Affordable and equitable services and infrastructure

Affordable land for residential, industrial, commercial and community use

Key economic development strategies for the Shire which are aligned to regional outcomes working through recognised planning and development groups/committees

Performance - We will deliver excellent governance, service and value, for everyone:

An organisational culture that strives for service excellence

Sustainable and integrated strategic and operational plans

Responsible resource allocation

Effective community engagement

Improved systems, processes and compliance

VOTING REQUIREMENTS

Simple Majority

Comments

1. Liquidity refers to the Shire of Broome's ability to meet its financial obligations within the current year. Liquidity increased at the start of the financial year by \$18.984M due mainly to the issuance of rates. Liquidity is a combination of unrestricted cash, Current Debtors (including Rates), and Current Creditors. The Shire of Broome's current position (representing liquidity) can be found in Note 3.

2. Rates were raised in July with payment due 35 days after issuing. Total Rates raised for the year was \$23.26M with total outstanding rates YTD at \$3.76M.

This information is to be read in conjunction with the accompanying Financial Statements and notes.

**Comments**

*Amended Budget Closing balance is the forecast of the closing balance after all budgeted transfers to and from reserve have been performed. At this time there have been no transactions to or from reserve other than to recognise interest earned on reserve investments. All interest earned on Reserve investments is recorded on reserve at the end of each month.

This information is to be read in conjunction with the accompanying Financial Statements and notes.

Shire of Broome

Monthly Summary Information

For the Period Ended 31 January 2021

Revenues

Expenditure

Comments

Explanation on material variances are presented in note 2.

This information is to be read in conjunction with the accompanying Financial Statements and notes.

Net Current Funding Position		23,585,016	2,546,101	11,975,834

Note 3 - Liquidity Over the Year**Comments - Net Current Funding Position**

The budget was adopted at the OMC 25 June 2020. It was presented to Council with a predicted carried forward surplus of \$2,226,546.

The Rounding and Timing Adjustment is calculated by subtracting the sum of current assets less current liabilities and cash reserves from the YTD funding surplus (see page 7).

Comments/Notes - Investments

*Note - The total of Restricted Cash balances to the reserves on Note 7

**NOTE - Payment Timing adjustments indicate payments that have been recorded on the ledger but have yet to be paid out of the bank. The bank accounts are reconciled monthly to ensure no discrepancies occur.

‡Note - A discrepancy between Trust balance and the balance of Note 11 is a result of money in transit, either as a refund or a payment, or an unrepresented cheque.

Comments - Rating Information

NOTE - This note represents the budgeted rating and back rating revenue expected for the 2020/21 financial year. The Statement of Financial Activity (by Reporting Program) examines the reporting program for rates which also includes other items, such as debt recovery and rates instalments charges, which are not represented in this table as they do not form part of ordinary rates modelling.

SHIRE OF BROOME
Monthly Statement of Financial Activity
For the Period Ending 31 January 2021

Appendix A: SUPPLEMENTARY NOTES TO THE MONTHLY REPORT

NOTES TO THIS MONTH'S REPORT

OVERVIEW

For the period ended 31 January 2021, the following are key indicators supporting the year to-date budget position with respect to the Annual Forecast Budget:

Budget Year elapsed	58.90%
Total Rates Raised Revenue	100% (of which 84.41% were collected)
Total Other Operating Revenue	53%
Total Operating Expenditure	52%
Total Capital Revenue	69%
Total Capital Expenditure	37%
Total Sale of Assets Revenue	16%

The budget was adopted at the Ordinary Meeting of Council on 25 June 2020. Council adopted a balanced annual budget, which included a net carried forward balance of \$2,226,546 being \$844,078 of carry-over projects, plus \$1,382,467 Financial Assistance Grants received in advance.

It should be noted that the end of financial year (EOFY) processes are now complete and the Annual Financial statements were presented to the Audit Committee on 2 December 2020 before the recommendations were presented to the Ordinary Meeting of Council on 10 December 2020. The final report included recommendations for the use of an adjusted surplus \$4,188,392 in carried forward surplus. These recommendations were approved by Council and incorporated into the 2020-21 budget.

More information on the Shire's current position can be found on Note 3 of these Financial Statements.

ADJUSTMENTS TO DETERMINE THE CASH POSITION

CURRENT POSITION

Currently, to the end of January 2021, the current position stands at \$23.6M.

Cash

Total Cash Assets are now \$51.9M having increased by \$4.8M.

The major collections this month include receipt of:

- \$6.7M – Department Primary Industries & Regional Development – Chinatown 2
- \$176K – Perth Dept local Gov Sport & Culture Industries

The major expenditure items this month include payments of:

- \$1.5M Georgiou Group – China Town stage 2 (Short St & Napier Terrace)

- \$354K Roadline Civil Contractors – McDaniel Road (RFQ20-04)
- \$273K McCorry Brown Earthmoving – Gus Winkle Upgrades (RFQ20-05), Crab Creek Rd (RFT20-09), Concrete Crushing (RFT19/07)

Receivables

Sundry debtors including GST refundable stand at \$2.7M.

Rates and rubbish debtors stand at \$5.5M. Annual rates were raised on 16th July 2020 with due date of 20 August 2020. Rates & Rubbish debtors will continue to reduce throughout the year as ratepayers on instalment and payment plans continue to pay their rates.

Other Assets

These stand at \$151K having a \$7K increase since the previous month.

Cash Liabilities

These stand at \$387K. This represents our obligation on our outstanding loans in 20/21.

Creditors and Payables

Sundry Creditors are \$3.0M, due to continued major infrastructure works in progress.

Other Payables comprising Tax Payable, FESA Levy Collected, Accrued Loan Interest, Prepayments Received and accruals stand at \$1.2M.

Employee Provisions and Accruals

In the normal course of events, these figures are adjusted in June and July each year by end of year accounting adjustments.

Current leave provisions are \$2.40M (Non-current leave provisions are \$280K). Accruals to reflect the year end position have been completed for the 2019-2020 year.

9.4.8 AUDIT AND RISK COMMITTEE MINUTES 10 FEBRUARY 2021

SUMMARY:

This report requests Council to consider outcomes of the Audit and Risk Committee (ARC) meeting held on 10 February 2021 and seeks adoption of the recommendations on the 2020 Compliance Audit Return and the Quarter 2 Finance and Costing Review (FACR).

BACKGROUND2020 Compliance Audit Return

Local governments are required to complete a compliance audit for the previous calendar year by the 31 March. The Department of Local Government, Sport and Cultural Industries (DLGSC) provides the questions each year with the compliance audit being an in-house self-audit that is undertaken by the appropriate responsible officer.

In accordance with Regulation 14 of the *Local Government (Audit) Regulations 1996* the ARC is to review the CAR and is to report to Council the results of that review. The CAR is to be:

1. Presented to an Ordinary Meeting of Council;
2. Adopted by Council; and
3. Recorded in the minutes of the meeting at which it is adopted.

Following the adoption by Council of the CAR, a certified copy of the return, along with the relevant section of the minutes and any additional information detailing the contents of the return are to be submitted to the DLGSC by 31 March 2021.

The return requires the Shire President and the Chief Executive Officer to certify that the statutory obligations of the Shire of Broome have been complied with.

2nd Quarter Finance and Costing Review

OMC 25 June 2020	Item 9.3.2
OMC 11 November 2020	Item 10.1
OMC 20 December 2020	Item 10.3

The Shire of Broome has carried out its 2nd Quarter Finance and Costing Review (FACR) for the 2020/21 financial year. This review of the 2020 - 2021 Annual Budget is based on actuals and commitments for the first six months of the year from 1 July 2020 to 31 December 2021, and forecasts for the remainder of the financial year.

This process aims to highlight over and under expenditure of funds and over and under achievement of income targets for the benefit of Executive and Responsible Officers to ensure good fiscal management of their projects and programs.

Once this process is completed, a report is compiled identifying budgets requiring amendments to be adopted by Council. Additionally, a summary provides the financial impact of all proposed budget amendments to the Shire's adopted end-of-year forecast, to assist Council to make an informed decision.

It should be noted that the 2020 - 2021 Annual Budget was adopted at the Ordinary Meeting of Council on 25 June 2020 as a balanced budget.

2020 COMPLIANCE AUDIT RETURN (5.1)

The DLGSC continues to focus on high risk areas of compliance and statutory reporting as prescribed in Regulation 13 of the Local Government (Audit) Regulations 1996.

The CAR for the period 1 January to 31 December 2020 comprises a total of 102 questions, down from 104 questions the previous year. Whilst the number of questions is similar the DLGSC has updated the wording of many questions and combined questions of a similar nature. New questions have appeared for the first time to reflect the legislative changes that are occurring, and this trend is expected to continue.

During 2020, responsible officers monitored compliance in each of the focus areas through a new cloud-based compliance application – RelianSys. This has increased the awareness of compliance obligations and allowed the capture of compliance evidence in one central repository throughout the year. The new compliance system reduces the risk of non-compliance and streamlines compilation of the annual return.

A compliance rating of 100% has been reported for 2020. This continues the Shire's strong history of compliance with the requirements of the *Local Government Act (1995)*, with minimal non compliances reported over the last 5 years and none of a significant risk nature.

2ND QUARTER FINANCE AND COSTING REVIEW

The Quarter 2 FACR commenced on 27 January 2021. The results from this process indicate a deficit forecast financial position to 30 June 2021 of \$311,093 should Council approve the proposed budget amendments.

The above figure represents a budget forecast should all expenditure and income occur as expected. It does not represent the actual end-of-year position, which can only be determined as part of the financial year's normal annual financial processes.

At the start of the Q2 FACR, a net deficit of \$350,598 was forecasted which arose from past budget amendments adopted by Council, including Q1 FACR. The Q2 FACR identified net savings of \$39,505 resulting in a cumulative net deficit forecast of \$311,093. A total of 146 budget amendments were proposed at the Q2 FACR which made up the \$69,985 net surplus for the quarter. There is no single transaction to which this net surplus is attributed. However, the most significant amendments among these are as follows:

- \$529K net deficit from reduced interest income on municipal funds deposit;
- \$584K of net savings from the Broome Golf Club Redevelopment;
- \$296K of income and expenditure for additional LRCI funding available to be utilised for the Town Beach Carpark Construction;
- \$219K of additional Blackspot funding for Gus Winckel project with a corresponding increase in expenditure of \$136K;
- \$160K grants received from the 'In The House' grants to be utilised for Civic Centre shows; and

- \$100K savings from Frederick Drainage (KBR Report) Project from undertaking the work internally.

The proposed budget amendments also included income and expenses of equal amount totalling \$2,322,544 to recognise the transfer of Broome Motocross Complex by the Development WA to the Shire.

A summary of the results is as follows:

SHIRE OF BROOME SUMMARY REPORT				
BUDGET IMPACT

Department of Local Government Sport and Cultural Industries

2nd Quarter Finance and Costing Review 2020/21

All amendments have been proposed after consultation with Executive and Responsible Officers at the Shire, and approval of the Audit and Risk Committee.

STATUTORY ENVIRONMENT

Local Government (Audit) Regulations 1996

14. Compliance audits by local governments

- (1) A local government is to carry out a compliance audit for the period 1 January to 31 December in each year.
- (2) After carrying out a compliance audit the local government is to prepare a compliance audit return in a form approved by the Minister.
- (3A) The local government's audit committee is to review the compliance audit return and is to report to the council the results of that review.
- (3) After the audit committee has reported to the council under subregulation (3A), the compliance audit return is to be —
 - (a) presented to the council at a meeting of the council; and

- (b) adopted by the council; and
- (c) recorded in the minutes of the meeting at which it is adopted.

[Regulation 14 inserted in Gazette 23 Apr 1999 p. 1724-5; amended in Gazette 30 Dec 2011 p. 5580-1.]

15. Compliance audit return, certified copy of etc. to be given to Departmental CEO

- (1) After the compliance audit return has been presented to the council in accordance with regulation 14(3) a certified copy of the return together with —
 - (a) a copy of the relevant section of the minutes referred to in regulation 14(3)(c); and
 - (b) any additional information explaining or qualifying the compliance audit, is to be submitted to the Departmental CEO by 31 March next following the period to which the return relates.

Local Government (Financial Management) Regulation 1996

r33A. Review of Budget

- (1) Between 1 January and 31 March in each financial year a local government is to carry out a review of its annual budget for that year.
- (2A) The review of an annual budget for a financial year must —
 - (a) consider the local government's financial performance in the period beginning on 1 July and ending no earlier than 31 December in that financial year; and
 - (b) consider the local government's financial position as at the date of the review; and
 - (c) review the outcomes for the end of that financial year that are forecast in the budget.
- (2) Within 30 days after a review of the annual budget of a local government is carried out it is to be submitted to the council.
- (3) A council is to consider a review submitted to it and is to determine* whether or not to adopt the review, any parts of the review or any recommendations made in the review.

*Absolute majority required.

- (4) Within 30 days after a council has made a determination, a copy of the review and determination is to be provided to the Department.

Local Government Act 1995

6.8. Expenditure from municipal fund not included in annual budget

- 1) A local government is not to incur expenditure from its municipal fund for an additional purpose except where the expenditure —
 - (a) is incurred in a financial year before the adoption of the annual budget by the local government;
 - (b) is authorised in advance by resolution*; or
 - (c) is authorised in advance by the mayor or president in an emergency.
- (1a) In subsection (1) —

“additional purpose” means a purpose for which no expenditure estimate is included in the local government's annual budget.

POLICY IMPLICATIONS

2020 Compliance Audit Return

Nil.

2nd Quarter Finance and Costing Review 2020-21

It should be noted that according to the materiality threshold set at the budget adoption, should a deficit achieve 1% of Shire's operating revenue (\$394,804) the Shire must formulate an action plan to remedy the over expenditure.

FINANCIAL IMPLICATIONS

2020 Compliance Audit Return

Nil.

2nd Quarter Finance and Costing Review 2020-21

The **net result** of the Quarter 2 FACR estimates is a budget deficit position of **\$311,093** to 30 June 2021.

RISK

2020 Compliance Audit Return

There is a reputational risk with the DLGSC should the CAR not be completed on time or if significant non compliances are reported.

The likelihood of this occurring is rare.

2nd Quarter Finance and Costing Review 2019-20

The Finance and Costing Review (FACR) seeks to provide a best estimate of the end-of-year position for the Shire of Broome at 30 June 2021. Contained within the report are recommendations of amendments to budgets which have financial implications on the estimate of the end-of-year position.

The review does not, however, seek to make amendments below the materiality threshold unless strictly necessary. The materiality thresholds are set at \$10,000 for operating budgets and \$20,000 for capital budgets. Should a number of accounts exceed their budget within these thresholds, it poses a risk that the predicted final end-of-year position may be understated.

In order to mitigate this risk, the CEO enacted the FACRs to run quarterly and Executive examine each job and account to ensure compliance. In addition, the monthly report provides variance reporting highlighting any discrepancies against budget.

It should also be noted that should Council decide not to adopt the recommendations, it could lead to some initiatives being delayed or cancelled in order to offset the additional expenditure associated with running the Shire's operations.

STRATEGIC IMPLICATIONS

Prosperity – Together, we will build a strong, diversified and growing economy with work opportunities for everyone:

Affordable and equitable services and infrastructure

Performance - We will deliver excellent governance, service and value, for everyone:

Responsible resource allocation

Improved systems, processes and compliance

DISCLAIMER

The purpose of Council Meetings is to discuss, and where possible, make resolutions about items appearing on the agenda. Whilst Council has the power to resolve such items and may in fact, appear to have done so at the meeting, no person should rely on or act on the basis of such decision or on any advice or information provided by a Member or Officer, or on the content of any discussion occurring, during the course of the meeting.

Persons should be aware that the provisions in section 5.25 of the *Local Government Act 1995* establish procedures for revocation or rescission of a Council decision. No person should rely on the decisions made by Council until formal advice of the Council decision is received by that person. The Shire of Broome expressly disclaims liability for any loss or damage suffered by any person as a result of relying on or acting on the basis of any resolution of Council, or any advice or information provided by a Member or Officer, or the content of any discussion occurring, during the course of the Council meeting.

SUMMARY:

The purpose of this report is to present to the Audit and Risk Committee (ARC) the 2020 Compliance Audit Return (CAR) for review, and to request that the ARC recommend that Council adopt the 2020 CAR for submission to the Department of Local Government, Sport and Cultural Industries (DLGSC) by 31 March 2021.

BACKGROUND

Local governments are required to complete a compliance audit for the previous calendar year by the 31 March. The DLGSC provides the questions each year with the compliance audit being an in-house self audit that is undertaken by the appropriate responsible officer.

In accordance with Regulation 14 of the *Local Government (Audit) Regulations 1996* the ARC is to review the CAR and is to report to Council the results of that review. The CAR is to be:

1. presented to an Ordinary Meeting of Council
2. adopted by Council; and
3. recorded in the minutes of the meeting at which it is adopted.

Following the adoption by Council of the CAR, a certified copy of the return, along with the relevant section of the minutes and any additional information detailing the contents of the return are to be submitted to the DLGSC by 31 March 2021.

The return requires the Shire President and the Chief Executive Officer to certify that the statutory obligations of the Shire of Broome have been complied with.

COMMENT

The DLGSC continues to focus on high risk areas of compliance and statutory reporting as prescribed in Regulation 13 of the *Local Government (Audit) Regulations 1996*.

The CAR for the period 1 January to 31 December 2020 comprises a total of 102 questions, down from 104 questions the previous year. Whilst the number of questions is similar the DLGSC has updated the wording of many questions and combined questions of a similar nature. New questions have appeared for the first time to reflect the legislative changes that are occurring, and this trend is expected to continue.

The key focus areas covered in the CAR are as follows:

Focus Area	2019 Qu's	2020 Qu's	Comments
Commercial Enterprises by Local Governments	5	5	<ul style="list-style-type: none"> No changes.
Delegation of Power/Duty	13	13	<ul style="list-style-type: none"> No change.
Disclosure of Interest	19	21	<ul style="list-style-type: none"> Several questions amalgamated. New questions relating to public access to information, participation rights and adoption of a code of conduct added.
Disposal of Property	2	2	<ul style="list-style-type: none"> No change.
Elections	2	3	<ul style="list-style-type: none"> New question relating to public access to the electoral gift register.
Finance	14	11	<ul style="list-style-type: none"> Amalgamation of questions relating to Audit Reg 7 into one question.
Integrated Planning and Reporting	7	3	<ul style="list-style-type: none"> Questions relating to Asset Management Plan(s), Long Term Financial Plan and Workforce Plan removed.
Local Government Employees	5	6	<ul style="list-style-type: none"> New question relating to council rejecting a CEO's recommendation to employ or dismiss a senior employee.
Official Conduct	6	4	<ul style="list-style-type: none"> Several questions amalgamated. New question in regard to public access to complaints register for minor breaches.
Optional Questions	4	10	<ul style="list-style-type: none"> New questions regarding the gift provision changes, New questions relating to the attendance of elected members and the CEO at events policy New questions regarding the continuing professional development of elected members policy. New question regarding report on training completed by elected members in the 2019/2020 financial year.
Tenders for Providing Goods and Services	27	24	<ul style="list-style-type: none"> Several questions amalgamated. Two new questions in relation to the Shire's purchasing policy.
Total	104	102	

During 2020, responsible officers monitored compliance in each of the focus areas through a new cloud-based compliance application – RelianSys. This has increased the awareness of compliance obligations and allowed the capture of compliance evidence in one central repository throughout the year. The new compliance system reduces the risk of noncompliance and streamlines compilation of the annual return.

A compliance rating of 100% has been reported for 2020.

This continues the Shire's strong history of compliance with the requirements of the *Local Government Act (1995)*, with minimal non compliances reported over the last 5 years and none of a significant risk nature.

It is important to emphasis that the CAR is limited in scope.

Local Governments are also required to comply with upwards of 200 other pieces of legislation. The implementation of RelianSys during 2020 provides the ability to continually improve the monitoring and assurance of other significant pieces of legislation on a prioritised basis. The RelianSys system can also be developed to assist in addressing the compliance focus of the Office of the Auditor General (OAG) that is apparent since the OAG took over the responsibility for Local Government financial and performance audits.

5.1 2ND QUARTER FINANCE AND COSTING REVIEW 2020-21

LOCATION/ADDRESS:	Nil
APPLICANT:	Nil
FILE:	FRE02
AUTHOR:	Manager Financial Services
CONTRIBUTOR/S:	Nil
RESPONSIBLE OFFICER:	Director Corporate Services
DISCLOSURE OF INTEREST:	Nil

SUMMARY:

The Audit and Risk Committee is requested to consider results of the 2nd Quarter Finance and Costing Review (FACR) of the Shire's budget for the period ended 31 December 2020, including forecast estimates and budget recommendations to 30 June 2021.

BACKGROUNDPrevious Considerations

OMC 25 June 2020 Item 9.3.2

OMC 19 November 2020 Item 10.1

Quarter 2 Finance and Costing Review

The Shire of Broome has carried out its 2nd Quarter Finance and Costing Review (FACR) for the 2020-21 financial year. This review of the 2020-21 Annual Budget is based on actuals and commitments for the first three months of the year from 1 July 2020 to 31 December 2021, and forecasts for the remainder of the financial year.

This process aims to highlight over and under expenditure of funds and over and under achievement of income targets for the benefit of Executive and Responsible Officers to ensure good fiscal management of their projects and programs.

Once this process is completed, a report is compiled identifying budgets requiring amendments to be adopted by Council. Additionally, a summary provides the financial impact of all proposed budget amendments to the Shire of Broome's adopted end-of-year forecast, to assist Council to make an informed decision.

It should be noted that the 2020-21 annual budget was adopted at the Ordinary Meeting of Council on 25 June 2020 as a balanced budget.

COMMENT

The Quarter 2 FACR commenced on 27 January 2021. The results from this process indicate a deficit forecast financial position to 30 June 2021 of **\$311,093** should Council approve the proposed budget amendments.

The above figure represents a budget forecast should all expenditure and income occur as expected. It does not represent the actual end-of-year position, which can only be determined as part of the financial year's normal annual financial processes.

At the start of the Q2 FACR, a net deficit of \$350,598 was forecasted which arose from past budget amendments adopted by Council, including Q1 FACR. The Q2 FACR identified net savings of \$39,505, resulting in a cumulative net deficit forecast of \$311,093.

There were a total of 146 budget amendments proposed at Q2 FACR which made up the \$69,985 net surplus for the quarter. There is no single transaction to which this net surplus is attributed. However, the most significant amendments among these are as follows:

- \$529K net deficit from reduced interest income on municipal funds deposit
- \$584K of net savings from the Broome Golf Club Redevelopment
- \$296K of income and expenditure for additional LRCI funding available to be utilised for the Town Beach Carpark Construction
- \$219K of additional Blackspot funding for Gu Winckel project with a corresponding increase in expenditure of \$136K
- \$160K grants received from the 'In The House' grants to be utilised for Civic Centre shows
- \$100K savings from Frederick Drainage (KBR Report) Project from undertaking the work internally.

The proposed budget amendments also included income and expenses of equal amount totalling \$2,322,544 to recognise the transfer of Broome Motocross Complex by the Development WA to the Shire.

A comprehensive list of accounts (refer to Attachment 1) has been included for perusal by the committee, summarised by Directorate.

A summary of the results is as follows:

SHIRE OF BROOME SUMMARY REPORT				
BUDGET IMPACT				
	2020/21 Adopted Budget (Income) / Expense	YTD Adopted Budget Amendments (Income) / Expense	FACR Q2 Overall (Income) / Expense	YTD Impact
Executive - Total	0	(12,920)	42,750	29,830
Corporate Services - Total	0	0	366,521	366,521
Development and Community- Total	0	332	103,999	104,331
Infrastructure Services - Total	0	55,708	(552,774)	(497,066)
Impact of Council approved budget amendments	0	307,478	0	307,478
	0,000*	350,598	(39,505)	311,093

CONSULTATION

All amendments have been proposed after consultation with Executive and responsible officers at the Shire.

STATUTORY ENVIRONMENT**Local Government (Financial Management) Regulation 1996****r33A. Review of Budget**

- (1) Between 1 January and 31 March in each financial year a local government is to carry out a review of its annual budget for that year.
- (2A) The review of an annual budget for a financial year must —
 - (a) consider the local government's financial performance in the period beginning on 1 July and ending no earlier than 31 December in that financial year; and
 - (b) consider the local government's financial position as at the date of the review; and
 - (c) review the outcomes for the end of that financial year that are forecast in the budget.
- (2) Within 30 days after a review of the annual budget of a local government is carried out it is to be submitted to the council.
- (3) A council is to consider a review submitted to it and is to determine* whether or not to adopt the review, any parts of the review or any recommendations made in the review.

*Absolute majority required.

- (4) Within 30 days after a council has made a determination, a copy of the review and determination is to be provided to the Department.

Local Government Act 1995

6.8. Expenditure from municipal fund not included in annual budget

- 1) A local government is not to incur expenditure from its municipal fund for an additional purpose except where the expenditure —
 - (a) is incurred in a financial year before the adoption of the annual budget by the local government;
 - (b) is authorised in advance by resolution*; or
 - (c) is authorised in advance by the mayor or president in an emergency.
- (1a) In subsection (1) —

"additional purpose" means a purpose for which no expenditure estimate is included in the local government's annual budget.

POLICY IMPLICATIONS

Nil.

It should be noted that according to the materiality threshold set at the budget adoption, should a deficit achieve 1% of Shire's operating revenue (\$394,804) the Shire must formulate an action plan to remedy the over expenditure.

FINANCIAL IMPLICATIONS

The **net result** of the Quarter 2 FACR estimates is a budget deficit position of **\$311,093** to 30 June 2021.

RISK

The Finance and Costing Review (FACR) seeks to provide a best estimate of the end-of-year position for the Shire of Broome at 30 June 2021. Contained within the report are

recommendations of amendments to budgets which have financial implications on the estimate of the end-of-year position.

The review does not, however, seek to make amendments below the materiality threshold unless strictly necessary. The materiality thresholds are set at \$10,000 for operating budgets and \$20,000 for capital budgets. Should a number of accounts exceed their budget within these thresholds, it poses a risk that the predicted final end-of-year position may be understated.

In order to mitigate this risk, the CEO enacted the FACRs to run quarterly and Executive examine each job and account to ensure compliance. In addition, the monthly report provides variance reporting highlighting any discrepancies against budget.

It should also be noted that should Council decide not to adopt the recommendations, it could lead to some initiatives being delayed or cancelled in order to offset the additional expenditure associated with running the Shire's operations.

STRATEGIC IMPLICATIONS

Our Organisation Goal – Continually enhance the Shire's organisational capacity to service the needs of a growing community:

Responsible resource allocation
Improved systems, processes and compliance

VOTING REQUIREMENTS

Absolute Majority

<u>COMMITTEE RESOLUTION:</u>	
(REPORT RECOMMENDATION)	Minute No. AR/0221/003
Moved: Cr D Male	Seconded: Cr C Mitchell
<i>That the Audit and Risk Committee recommends that Council:</i>	
<ol style="list-style-type: none"> <i>1. Receives the Quarter 2 Finance and Costing Review Report for the period ended 31 December 2020;</i> <i>2. Adopts the operating and capital budget amendment recommendations for the year ended 30 June 2021 as attached; and</i> <i>3. Notes a forecast end-of-year position to 30 June 2021 of \$311,093 deficit position.</i> 	
CARRIED UNANIMOUSLY BY ABSOLUTE MAJORITY 3/0

6. MATTERS BEHIND CLOSED DOORS

Nil.

7. MEETING CLOSURE

There being no further business the Chairman declared the meeting closed at 3:12PM.

These minutes were confirmed at a meeting held Wednesday, 10 February 2021, and signed below by the Presiding Person, at the meeting in which these minutes were confirmed.

Signed:

10. REPORTS OF COMMITTEES**10.1 BUSH FIRE ADVISORY COMMITTEE MINUTES 9 DECEMBER 2020**

LOCATION/ADDRESS:	Nil
APPLICANT:	Nil
FILE:	EMM06
AUTHOR:	Executive Support Officer - Development and Community
CONTRIBUTOR/S:	Nil
RESPONSIBLE OFFICER:	Director Development and Community
DISCLOSURE OF INTEREST:	Nil

SUMMARY:

This report presents the minutes and associated recommendations of the Bush Fire Advisory Committee meeting held on 9 December 2020, for Council's consideration.

BACKGROUNDPrevious Considerations

Nil.

The Bush Fire Advisory Committee (**BFAC**) meets quarterly to provide advice to the Shire of Broome on:

1. All matters relating to the prevention, controlling and extinguishing of bushfires.
2. The planning and layout of fire breaks in the district.
3. Prosecutions for breaches of the *Bush Fires Act 1956*.
4. The formation of Bush Fire Brigades.
5. Coordination and cooperation between agencies within the district.

COMMENT

The minutes and associated attachments of the BFAC meeting held on 9 December 2020 are included as **Attachment 1** of this report.

At the meeting, the BFAC discussed the following items:

Item 5.1 Bush Fire Advisory Committee (BFAC) Status Report

The 2020 Status Report was discussed.

Item 5.2 Update from BFAC members

A round table discussion was conducted allowing Committee members to give an update on their agencies, and any relevant matters.

Item 6.1 Bush Fire Advisory Committee Meeting Dates for 2021

The purpose of this report was to set the meeting dates for 2019.

The current Terms of Reference for the BFAC require quarterly meetings.

MOTION:

(REPORT RECOMMENDATION)

Moved: Mr L Andrews

Seconded: Mr B Muller

That meetings are convened for the Bush Fire Advisory Committee on the following dates in 2021 commencing at 11:00am in the Shire of Broome Function Room:

- **Wednesday 10 March 2021**
- **Wednesday 9 June 2021**
- **Wednesday 8 September 2021**
- **Wednesday 8 December 2021**

CARRIED UNANIMOUSLY 10/0

Summary

There were no further items arising at the meeting for Council to consider. Therefore, it is recommended that Council receive the minutes of the BFAC meeting held on 9 December 2020.

CONSULTATION

Nil.

STATUTORY ENVIRONMENT

Bush Fires Act 1956

Section 67. – Advisory committees

1. A Local Government may at any time appoint such persons as it thinks fit as a Bush Fire Advisory Committee for the purpose of advising the Local Government regarding all matters relating to the prevention, controlling and extinguishing of bush fires, the planning of the layout of firebreaks in the district, prosecutions for breaches of this Act, the formation of bush fire brigades and the grouping thereof under group brigade officers, the ensuring of co-operation and co-ordination of bush fire brigades in their efforts and activities, and any other matter relating to bush fire control whether of the same kind, as, or a different kind from, those specified in this subsection.
2. A committee appointed under this section shall include a member of the Council of the Local Government nominated by it for that purpose as a member of the committee, and the committee shall elect one of their number to be Chairman thereof.
3. In respect to a committee so appointed, the Local Government shall fix the quorum for the transaction of business at meetings of the committee and may:-
 - (a) make rules for the guidance of the committee;
 - (b) accept the resignation in writing of, or remove, any member of the committee, appoint a person to fill that vacancy.
 - (c) where for any reason a vacancy occurs in the office of a member of the committee, appoint a person to fill that vacancy.

4. A committee appointed under this section:-
- (a) may from time to time meet and adjourn as the committee thinks fit;
 - (b) shall not transact business at a meeting unless the quorum fixed by the Local Government is present;
 - (c) is answerable to the Local Government and shall, as and when required by the Local Government, report fully on its activities.

DISCLAIMER

The purpose of Council Meetings is to discuss, and where possible, make resolutions about items appearing on the agenda. Whilst Council has the power to resolve such items and may in fact, appear to have done so at the meeting, no person should rely on or act on the basis of such decision or on any advice or information provided by a Member or Officer, or on the content of any discussion occurring, during the course of the meeting.

Persons should be aware that the provisions in section 5.25 of the *Local Government Act 1995* establish procedures for revocation or rescission of a Council decision. No person should rely on the decisions made by Council until formal advice of the Council decision is received by that person. The Shire of Broome expressly disclaims liability for any loss or damage suffered by any person as a result of relying on or acting on the basis of any resolution of Council, or any advice or information provided by a Member or Officer, or the content of any discussion occurring, during the course of the Council meeting.

10 June 2020 – Round Table	DFES raised concerns about contamination at Demco, and fire risk.	In Progress	Sob to update BFAC on Demco progress	September 2020

5.2 UPDATE FROM BFAC MEMBERS

Stuart Martin – Shire of Broome – currently down a staff member, and recruiting at the moment. Before next BFAC meeting, hoping to have next seasons activity planned out.

James Taylor – BFB – 27 members with a few more showing interest in joining. This year have attended 27 incidents of various sizes, carried out 8 mitigation burns and attended 4 community events. High season appliances have returned to Perth. New station is completed, and running well.

Pat Foley - DBCA – parks are closed and fire roster has finished. Vehicles and trucks have returned to Broome depot.

Ben Muller - DFES – rain brings the end of the fire season. Only 2 major fire events attended this year. Planning for 2021 mitigation and meeting next week with NBY to discuss.

Steve Longo - DFES – new District Officer in Broome.

Cait Westlake – Waterbank/Coconut Well Representative – Buckleys Plain filling up with water.

6. REPORTS OF OFFICERS

6.1 BUSH FIRE ADVISORY COMMITTEE MEETING DATES FOR 2021

LOCATION/ADDRESS:	Nil
APPLICANT:	Nil
FILE:	EMM06
AUTHOR:	Executive Support Officer - Development and Community
CONTRIBUTOR/S:	Nil
RESPONSIBLE OFFICER:	Director Development and Community
DISCLOSURE OF INTEREST:	Nil

SUMMARY:

This report recommends that the Bush Fire Advisory Committee adopts the proposed meeting dates to be held in 2021.

BACKGROUND

In accordance with the Bush Fire Advisory Committee Terms of Reference, the Committee is required to meet bi-annually, before and after the fire season (1 April to 31 December) with no meetings being held during the “Wet Season” (1 January to 31 March). Extra meetings of the Committee may be convened:

- by the Chairperson;
- by written notice to all Committee members, such notice being signed by at least four members of the Committee, giving not less than 7 days’ notice and stating the purpose of the meeting; or
- by the Council.

COMMENT

It is proposed that in 2021 the Bush Fire Advisory Committee meetings are to be generally held in the Shire of Broome Function Room commencing at 11:00am.

Please note the following 4 meeting dates are proposed for the Bush Fire Advisory Committee for 2021:

Wednesday 10 March 2021

Wednesday 9 June 2021

Wednesday 8 September 2021

Wednesday 8 December 2021

The general timing and frequency of meetings is consistent with past practice and ensures that Committee members are able to have a good level of awareness and response to bush fire matters in Broome.

CONSULTATION

STATUTORY ENVIRONMENT***Bush Fires Act 1954****Section 67 – Advisory committees*

1. *A Local Government may at any time appoint such persons as it thinks fit as a Bush Fire Advisory Committee for the purpose of advising the Local Government regarding all matters relating to the prevention, controlling and extinguishing of bush fires, the planning of the layout of firebreaks in the district, prosecutions for breaches of this Act, the formation of bush fire brigades and the grouping thereof under group brigade officers, the ensuring of co-operation and co-ordination of bush fire brigades in their efforts and activities, and any other matter relating to bush fire control whether of the same kind, as, or a different kind from, those specified in this subsection.*
 2. *A committee appointed under this section shall include a member of the Council of the Local Government nominated by it for that purpose as a member of the committee, and the committee shall elect one of their number to be Chairman thereof.*
 3. *In respect to a committee so appointed, the Local Government shall fix the quorum for the transaction of business at meetings of the committee and may:*
 - a. *make rules for the guidance of the committee;*
 - b. *accept the resignation in writing of, or remove, any member of the committee, appoint a person to fill that vacancy; and*
 - c. *where for any reason a vacancy occurs in the office of a member of the committee, appoint a person to fill that vacancy.*
 4. *A committee appointed under this section:*
 - a. *may from time to time meet and adjourn as the committee thinks fit;*
 - b. *shall not transact business at a meeting unless the quorum fixed by the Local Government is present; and*
 - c. *is answerable to the Local Government and shall, as and when required by the Local Government, report fully on its activities.*
38. *Local government may appoint bush fire control officer*
- (1) *A local government may from time to time appoint such persons as it thinks necessary to be its bush fire control officers under and for the purposes of this Act, and of those officers shall subject to section 38A(2) appoint 2 as the Chief Bush Fire Control Officer and the Deputy Chief Bush Fire Control Officer who shall be first and second in seniority of those officers, and subject thereto may determine the respective seniority of the other bush fire control officers appointed by it.*
 - (2) (a) *The local government shall cause notice of an appointment made under the provisions of subsection (1) to be published at least once in a newspaper circulating in its district.*

- (b) *deleted]*
- (c) *The local government shall fill any vacancy occurring in the office of Chief Bush Fire Control Officer or Deputy Chief Bush Fire Control Officer within one month after the vacancy occurs and if the local government fails or neglects to do so within that time, the Authority may by notice in writing require the local government to appoint a person to the vacant office within one month after service on it of such notice.*
- (d) *Where a local government that has been served with a notice pursuant to paragraph (c) fails or neglects to comply with the requirements of that notice, the Authority may appoint a person to the vacant office.*
- (e) *A bush fire control officer appointed under the provisions of this section shall be issued with a certificate of appointment by the local government or, if he is appointed by the Authority, by the Authority.*
- (3) *The local government may, in respect to bush fire control officers appointed under the provisions of this section, exercise so far as they can be made applicable the same powers as it may exercise in respect to its other officers, under the provisions of the Acts under which those other officers are appointed.*
- (4) *A bush fire control officer appointed under the provisions of this section shall, subject to such directions as may be given by the local government, and subject to this Act take such measures as appear to him to be necessary or expedient and practicable for —*
 - (a) *carrying out normal brigade activities;*
 - (b) *and*
 - (c) *deleted]*
 - (d) *exercising an authority or carrying out a duty conferred or imposed upon him by any of the provisions of Part III;*
 - (e) *procuring the due observance by all persons of the provision of Part III.*
- (5) (a) *A local government may issue directions to a bush fire control officer appointed by the local government, or to an officer of a bush fire brigade registered by the local government to burn, subject to the provisions of this Act, bush on, or at the margins of, streets, roads, and ways, under the care, control and management of the local government.*
 - (b) *The bush fire control officer, or officer of the bush fire brigade, may by authority of any directions so issued carry out the directions but subject to the provisions of this Act.*
 - (c) *The provisions of this subsection are not in derogation of those of subsection (4).*
- (6) (a) *In this section —*
 - approved local government means a local government approved under paragraph (b) by the Authority.*
- (b) *If it appears to the Authority that the standard of efficiency of a local government in fire prevention and control justifies the Authority doing so, the Authority, by notice published in the Government Gazette —*
 - (i) *may approve the local government as one to which this subsection applies; and*

- (ii) *may from time to time cancel or vary any previous approval given under this paragraph.*

POLICY IMPLICATIONS

Nil.

FINANCIAL IMPLICATIONS

Nil.

RISK

There is a significant risk of impact on the Broome community from bush fire impacts. If not mitigated, this risk is potentially Extreme. One of the ways that the Shire can mitigate this risk is through having a functioning Bush Fire Advisory Committee that meets regularly.

STRATEGIC IMPLICATIONS

Our People Goal – Foster a community environment that is accessible, affordable, inclusive, healthy and safe:

Effective communication

Our Organisation Goal – Continually enhance the Shire's organisational capacity to service the needs of a growing community:

Effective community engagement

Improved systems, processes and compliance

VOTING REQUIREMENTS

Simple Majority

MOTION:

(REPORT RECOMMENDATION)

Moved: Mr L Andrews

Seconded: Mr B Muller

That meetings are convened for the Bush Fire Advisory Committee on the following dates in 2021 commencing at 11:00am in the Shire of Broome Function Room:

- ***Wednesday 10 March 2021***
- ***Wednesday 9 June 2021***
- ***Wednesday 8 September 2021***
- ***Wednesday 8 December 2021***

10.2 LOCAL EMERGENCY MANAGEMENT COMMITTEE MINUTES 9 DECEMBER 2020

LOCATION/ADDRESS:	Nil
APPLICANT:	Nil
FILE:	EMS02
AUTHOR:	Executive Support Officer - Development and Community
CONTRIBUTOR/S:	Nil
RESPONSIBLE OFFICER:	Director Development and Community
DISCLOSURE OF INTEREST:	Nil

SUMMARY:

This report presents the minutes and associated recommendations of the Local Emergency Management Committee meeting held on 9 December 2020 for Council's consideration.

BACKGROUNDPrevious Considerations

Nil.

The Local Emergency Management Committee (**LEMC**) is established by Council under section 38 of the *Emergency Management Act 2005 (Act)*. In accordance with section 39 of the Act, the functions of the LEMC are:

- (a) to advise and assist the local government in assuring that local emergency management arrangements are established for its district;
- (b) to liaise with public authorities and other persons in the development, review and testing of local emergency management arrangements; and
- (c) to carry out other emergency management activities as directed by the State Emergency Management Committee, or prescribed by the *Emergency Management Regulations 2006*.

COMMENT

The minutes of the LEMC meeting held on 9 December 2020 are included as **Attachment 1** of this report.

At the meeting, the LEMC discussed the following:

Item 5.1 Local Emergency Management (LEMC) Document Updates

Members were reminded to send any changes/additions to the LEMC Secretariat for the following documents:

- Resource Register
- Incident Report
- Training Schedule

The Contact list was sent with the Agenda for Committee members to review.

Item 5.2 Status Report

The status of actions from previous LEMC meetings were circulated and discussed.

Item 5.3 Update from LEMC Members

A round table discussion was conducted allowing Committee members to give an update on their agencies, and any relevant matters.

Item 5.4 Welfare Centre Guidelines – COVID-19

Welfare Centre Guidelines have been prepared specifically in relation to operating during COVID-19. The Guidelines were distributed, and members were encouraged to provide comment directly to Department of Communities.

Item 6.1 LEMC Meeting Dates for 2021

In accordance with the LEMC Terms of Reference, the LEMC is required to hold quarterly meetings (minimum 4 meetings per annum). The purpose of this report was to set the meeting dates for 2021.

COMMITTEE RESOLUTION:

(REPORT RECOMMENDATION)

Moved: Mr P Foley

Seconded: Mr L Andrews

That the Local Emergency Management Committee adopts the following meeting dates for 2021 commencing at 10:00am in the Shire of Broome Function Room:

- ***Wednesday 10 March 2021***
- ***Wednesday 9 June 2021***
- ***Wednesday 8 September 2021***
- ***Wednesday 8 December 2021***

STATUTORY ENVIRONMENT

Emergency Management Act 2005

Section 36 Functions of local government

It is a function of a local government —

- (a) subject to this Act, to ensure that effective local emergency management arrangements are prepared and maintained for its district;*
- (b) to manage recovery following an emergency affecting the community in its district; and*
- (c) to perform other functions given to the local government under this Act.*

38 Local emergency management committees

- (1) A local government is to establish one or more local emergency management committees for the local government's district.
- (2) If more than one local emergency management committee is established, the local government is to specify the area in respect of which the committee is to exercise its functions.
- (3) A local emergency management committee consists of —
 - (a) a chairman and other members appointed by the relevant local government in accordance with subsection (4); and
 - (b) if the local emergency coordinator is not appointed as chairman of the committee, the local emergency coordinator for the local government district.
- (4) Subject to this section, the constitution and procedures of a local emergency management committee, and the terms and conditions of appointment of members, are to be determined by the SEMC.

39 Functions of local emergency management committees

The functions of a local emergency management committee are, in relation to its district or the area for which it is established —

- (a) to advise and assist the local government in ensuring that local emergency management arrangements are established for its district;
- (b) to liaise with public authorities and other persons in the development, review and testing of local emergency management arrangements; and
- (c) to carry out other emergency management activities as directed by the SEMC or prescribed by the regulations.

Section 41 Emergency management arrangements in local government district

- (1) A local government is to ensure that arrangements (local emergency management arrangements) for emergency management in the local government's district are prepared.
- (2) The local emergency management arrangements are to set out —
 - (a) the local government's policies for emergency management;
 - (b) the roles and responsibilities of public authorities and other persons involved in emergency management in the local government district;
 - (c) provisions about the coordination of emergency operations and activities relating to emergency management performed by the persons mentioned in paragraph (b);
 - (d) a description of emergencies that are likely to occur in the local government district;
 - (e) strategies and priorities for emergency management in the local government district;
 - (f) other matters about emergency management in the local government district prescribed by the regulations; and
 - (g) other matters about emergency management in the local government district the local government considers appropriate.
- (3) Local emergency management arrangements are to be consistent with the State emergency management policies and State emergency management plans.
- (4) Local emergency management arrangements are to include a recovery plan and the nomination of a local recovery coordinator.
- (5) A local government is to deliver a copy of its local emergency management arrangements, and any amendment to the arrangements, to the SEMC as soon as is practicable after they are prepared.

Section 42 Reviewing and renewing local emergency management arrangements

- (1) local government is to ensure that its local emergency management arrangements are reviewed in accordance with the procedures established by the SEMC.
- (2) Local emergency management arrangements may be amended or replaced whenever the local government considers it appropriate.

Section 43 Local emergency management arrangements to be available for inspection

- (1) A local government is to keep a copy of its local emergency management arrangements at the offices of the local government.
- (2) The arrangements are to be available for inspection, free of charge, by members of the public during office hours.
- (3) The arrangements may be made available in written or electronic form.

5.2 LEMC STATUS REPORT

The 2020 LEMC Status Report is attached to track the progress of actions that come out of each meeting.

Thank you to the Working Group for the review of the documents, compliance was received yesterday for the local level risk assessment. Minor amendments needed on the documentation, and then it will be sent to the LEMC for review, prior to endorsement next year.

[illegible]

5.3 UPDATE FROM LEMC MEMBERS

Les Andrews – Broome Police – continue to monitor the airport with incoming passengers, and Officers on deployment in KNX monitoring arrivals into WA. Supported fisheries with the shark attack a few weeks ago and also this morning.

Stuart Martin – Shire of Broome – Thank you for the work carried out on the LEMA. Involvement with the shark attack a few weeks ago and also this morning. Preparing for cyclone season and getting internal arrangements sorted. Some issues with drains this morning, but being dealt with.

James Taylor – BVBFB – Since January have attended 27 incidents, carried out 8 mitigation burns and attended 4 community events. Fleet returned to 3 regular vehicles with additional vehicles returning to Perth.

Jodie Lynch and Garry Chard – Horizon Power – power outage on Saturday night throughout the whole town – lightning strike. Free app that you can download which shows estimated time until power will be restored and tips for when power comes back on. Generators – reminder of the appropriate use and maintenance of them. Vegetation management has been a focus to keep clearance away from power lines.

Tania Baxter – Bidyadanga Community Representative – working on cyclone management plan hoping to finalise in the next week.

Mat Morrissy - Air Services Australia – BIA conducted airport exercise in the last month – positive feedback. On the same day there was a live incident (smell of fuel in the cabin – dash 8) – seamless response.

BIA – 9% down in traffic – annual figures are a bit lower than normal. Have been busier than Melbourne airport for the last 8 months!! 70% increase in flights across the country (domestic)

Pat Foley – DBCA – parks are shut now, vehicles all returned to Broome base and continue with cyclone clean up, and staff members heading off on leave.

Megan Spence - Department of Communities - introducing Chris Baird who is assisting with training. Dept. Communities have been doing some training in Broome and Derby, heading to Halls Creek and Fitzroy Crossing next week.

Steve Longo - DFES – District Officer West Kimberley – returned to the Kimberley, taken over from Rick Darlow. Moderate rains today, easing in the afternoon, another low, but passing nearer to Hedland. Ongoing communications with the BOM. Pre wet season works have been completed throughout the region.

Major risk warning group – make sure contact details are up to date. High season fleet returned to Perth. 26 car fires attended to this financial year – toll on volunteers. Direct Brigade Alarms – your organisation is responsible for your DBA and your contractors – ensure they are being isolated prior to works.

Comment from Cr Mitchell - Fire alarm went off at Boulevard yesterday, no security until 11am, but shoppers were not reacting/evacuating. Ivan Davie reported this matter this time last year. DFES will approach management.

Paul Beard – Water Corporation – reiterating with staff COVID rules with borders opening up, reminder to stay safe.

Jeanette Bryson – Department of Communities – working with clients to clean up properties. Asking if Shire will pick up from elderly clients – Stuart to follow up.

Dave Serafini – MRWA – closure up the Gibb River Road. Updating contingency traffic management plans.

5.4 WELFARE CENTRE GUIDELINES - COVID-19

BRAC is the primary welfare evacuation centre, and COVID guidelines are required to ensure everyone's safety. Previous attendance at the evacuation centre had peaked at 190, which is within COVID safe guidelines. Opening the welfare evacuation centre is the last resort. Evacuees won't need to scan the safe WA app on arrival, the usual sign in process is thorough enough and contains the details required for contact tracing.

If you have any questions, comments or suggestions on these guidelines, please contact Megan directly.

1. Attachment 1

COVID-19 – Welfare Centre Guidelines (Oct 2020)

Aim: To provide guidance to Department of Communities (Communities) staff and other key agencies in managing welfare centres, whilst mitigating COVID-19 risks to the community.

It is acknowledged the ever-changing COVID-19 situation restricts the provision of specific advice however this document provides recommendations and considerations to assist local planning.

To ensure the relevancy and currency of the information contained within this document, review will occur on a continuous basis.

For the purposes of this guide, the term **Welfare Centre** will refer to both welfare and evacuation centres.

Evacuation Planning

Welfare Centres should be considered as a transit area, with all attendees encouraged to move on to other evacuation/accommodation options where possible.

Under a COVID-19 lens, the recommended approach in an evacuation situation is listed below, however **preservation of life is to always be the priority**:

- 1 • Travellers, visitors and tourists to leave the evacuation area **if safe to do so**
- 2 • Shelter in Place **if safe to do so**
- 3 • Shelter with family and friends **if safe to do so**
- 4 • Utilise commercial/alternative accommodation options **if available**
- 5 • Use welfare centres as a last resort

It is recognised implementing this approach may not be possible in a cyclone event.

Locally Driven Response

Department of Communities District Emergency Service Officers develop Local Emergency Welfare Plans (LEWP) in consultation with the Local and District Emergency Management Committee (LEMC/DEMC). These plans outline agreed emergency welfare arrangements in each local government region.

These existing Local Emergency Welfare Plans should be reviewed taking into consideration the general principles and recommendations within this guide, and current [Western Australia COVID-19 restrictions](#). Preparedness is a joint responsibility amongst

local agencies, so planning with relevant stakeholders is essential to ensure plans take into account local conditions and region-specific challenges.

To assist in planning the following approaches are recommended:

- Hazard Management Agency (HMA) to provide early advice of any potential evacuation direction to all relevant impacted agencies. This will facilitate the sharing of information and early identification of local COVID-19 risks within the proposed evacuation area
- prioritising the identification of alternate safe accommodation options for people under isolation/quarantine directions
- early determination of the level and intensity of infection control measures to be implemented within the welfare centre, based on the current Western Australia COVID-19 restrictions and phasing.

HMA messaging to cover the following:

- Emergency evacuation advice overrides COVID-19 isolation/quarantine directions
- People under an **isolation/quarantine direction** are to find alternative accommodation with family or friends who live away from the area.
 - If alternative options are unavailable and they need to attend a welfare centre, continue to follow COVID-19 precautions, maintain appropriate physical distancing, wear a mask, and identify themselves immediately on arrival.
 - When safe to do so, telephone WA Police on 131 444 to advise whereabouts
- Provide advice to the public regarding self-sufficiency of medication/scripts, specific food requirements, hygiene supplies and general COVID-19 precautions if needing to attend a welfare centre.

Welfare Centre Planning

It is suggested existing **Local Emergency Welfare plans** are reviewed by relevant stakeholders, with re-evaluation of current identified facilities, using a COVID-19 lens. Consider the following:

- maximum capacity of each facility and physical distancing requirements. Refer to facility Local Government 'COVID Safety Plan' for maximum numbers. If it appears capacity will be exceeded during an event this must be escalated to the Incident Controller.
- which facilities have capacity to allow the isolation/segregation of individuals/groups
- the layouts of facilities to identify separate entry and exit points
- the use of partitions/barriers if available/where possible
- identifying what/any alternate evacuation accommodation options may be available for individuals who are considered a COVID-19 risk.
- can other regions/towns in the area be used to move on/accommodate people
- welfare centre staffing levels required to ensure infection control tasks are performed.

- Local Government to consider utilising their existing COVID-19 risk management arrangements until the arrival of Communities staff

General Infection Control measures

In consideration of the heightened sanitation and hygiene needs of COVID-19, consider the following:

- signage and barriers erected throughout the welfare centre displaying current physical distancing requirements
- signage and posters on appropriate hand washing techniques upon entry and throughout the shelter/centre as well as appropriate techniques for PPE/masks
- a dedicated welfare centre officer responsible of ensuring all recommended infection control measures are in place and maintained
- development of a cleaning schedule posted within the centre
- a contract cleaner arrangement with the owner of the facility – generally the Local Government
- utilise single use disposable items such as bedding, eating/drinking utensils etc where possible
- appropriate waste disposal/laundry processes in place.

PPE requirements in the Centre

PPE supplies must be available within Welfare Centres including:

- Surgical style masks
- Gloves
- Aprons/gowns
- Face shields/safety glasses

PPE is to be single use, disposable and kept in a secure location. Use will be dependent on risk to the community at the time of the event and in line with health advice.

See [Addendum: Infection Prevention and Control in a Welfare Centre](#) for further information and considerations.

Welfare Centre Operations

Arrival at the Centre

The level of screening and requirement to obtain the contact details of people attending an evacuation centre will be dependent on the current [Western Australia COVID-19 restrictions](#) and health advice.

The normal **Register.Find.Reunite** process will be available for all evacuees. This may be compulsory prior to entering a welfare centre if the risk level is such that contact tracing is required. A contact phone number will need to be provided.

Communities may consult with the relevant local health agency to determine what resources are available to assist if health screening needs to occur. If minimal warning is

received prior to the opening of a welfare centre, it is acknowledged that appropriately qualified staff may not be available to support a full health screening process.

Screening and Registration considerations as/if required:

- As a precaution PPE is to be worn by those undertaking registration/screening. Suggested minimum requirements are a mask and safety glasses.
- Encourage self-registration online via the **Register.Find.Reunite** website with evacuees utilising their own electronic devices.
- A separate greeting area to allow those who may be a COVID-19 risk to identify themselves early.
- Single direction of pedestrian flow and queue management should be enforced through signage, floor markings and bollards/ropes.
- Immediate access to hand sanitiser
- Minimise contact with anyone who answers “**yes**” to any of the screening questions.
- Avoiding sharing of writing implements and minimise document handling – utilise hand sanitiser if unavoidable.

The following questions are to be asked as the **minimum screening requirements** before allowing an individual to enter a welfare centre:

- Are you currently under isolation/quarantine direction?
- Have you returned from overseas or interstate (and if so, where?) in the past 14 days?
- Do you have any symptoms of respiratory illness with or without fever; or cold and flu-like symptoms?
- Have you been in close contact with a confirmed COVID-19 case in the past 14 days?

If the individual refuses to be screened, that individual should be treated as ill and be placed in an isolated location.

As part of the screening process advise evacuees that if they become symptomatic during their stay, to advise staff immediately. If this occurs, it is suggested welfare centre staff isolate the individual and consult with local health authorities as a matter of priority.

Evacuees requiring Isolation

It is suggested that individuals under isolation/quarantine directions, or who have answered ‘**yes**’ to any of the screening questions, or individuals who have refused to be screened, are to wear a mask at all times and change it as it becomes moist, in line with infection control best practice.

- Individuals under an isolation/quarantine direction should be moved on as soon as practicable to another safe location, including to paid accommodation, where they can maintain their isolation.
- If this is not possible, identify the most suitable strategies to manage the isolation of these individuals within the welfare centre, for example; utilising a separate room or space, barriers, physical distancing etc.

- Where possible, consider specific toilet/ wash facilities for staff/those who have answered “yes” to screening questions. If this is not possible, extra cleaning is to occur.

General population

Welfare centres operations are to align with government restrictions, health advice and the level of community COVID-19 risk at the time of an event. The following strategies may be required:

- Families to remain in segregated groups and to not move from sleeping area unless using bathroom facilities.
- Human-social support and entertainment activities to be made available to each segregated group in location
- If family segregation areas are not possible, separate evacuees into larger groups and maintain segregation of groups
- Food should be delivered to areas allocated to each group/family

Community meetings

The HMA may utilise welfare centres for community meetings, in line with the current level of COVID-19 restrictions. Where restrictions prevent utilisation of the welfare centre, alternate arrangements will need to be made.

Addendum

Infection Prevention and Control in a Welfare Centre

A dedicated welfare centre officer will have the responsibility of ensuring all recommended infection control measures are in place and maintained. This officer may be a Communities or Local Government staff member.

The following table lists infection control considerations. The level of implementation to be in line with current health advice. Local planning will assist in identifying where responsibility will sit.

Further information is available at:

<https://healthywa.wa.gov.au/coronavirus>

Practice	Consideration	Responsibility
Hand Hygiene	<ul style="list-style-type: none"> 60-80% alcohol-based hand sanitiser should be available at entry and exit points, high touch areas, toilet areas and eating areas. Hand sanitiser should be secured to prevent theft or ingestion Hand washing facilities should have running water, soap, paper hand towels and a rubbish bin. Consider the stock levels required in relation to the number of evacuees the centre can hold Consider signage/pictures throughout the centre to encourage effective hand hygiene 	
Physical Distancing	<ul style="list-style-type: none"> Consider how many evacuees the centre can hold as per the current directions for physical distancing. Signage, barriers, notices, pictures, announcements and staff may be required to encourage physical distancing. Physical distancing should be considered in all areas of the welfare centre. Use of laundry, entertainment and meal areas may need to be staggered to avoid overcrowding. Physical distancing should also be observed for all staff at all times, including break times. 	
Food Safety	<ul style="list-style-type: none"> Meals may be delivered to individuals or families to reduce the number of people using the meals area. The kitchen and meals area should have increased cleaning A staggered rostered approach may be considered to ensure these areas do not become overcrowded Consider disposable plates and cutlery. If these are not available, washing dishes through the dishwasher is preferred. Otherwise, dishes and cutlery should be washed in hot soapy water, rinsed, dried and stored dry. Consider allocating plates and cutlery to evacuees to reduce sharing of items. 	
PPE	<ul style="list-style-type: none"> Personal protective equipment may be needed at the welfare centre. 	

Practice	Consideration	Responsibility
	<ul style="list-style-type: none"> Consider PPE needs for the following situation: <ul style="list-style-type: none"> Staff performing health/general screening/registration on arrival to the welfare centre to utilise PPE as per current health advice – suggested minimum requirements are mask and safety glasses. Evacuees that are under isolations orders should wear a surgical mask as much as possible In the event of community transmission of COVID, all evacuees may be required to wear some sort of mask. Surgical masks are preferred. 	
Cleaning	<ul style="list-style-type: none"> A cleaning schedule is required with increased frequency of cleaning high touch areas outlined. High touch areas include light fittings, door handles, doors, railings, desks, chairs, tables, benches, bathrooms. A dedicated staff member should be allocated to ensure cleaning is achieved and managed. Cleaning products should have a disinfectant base. As there is the need for increased frequency of cleaning, ensure the cleaning product does not leave a residue that may cause irritations to the evacuees in the centre. Spray products are not recommended as they disturb particles on surfaces, may not give an even coverage of product and may cause lung irritations. If the only products available are spray products, spray into a cloth/paper towel to minimise aerosol distribution of the product and then wipe the area to be cleaned. 	
Waste Management	<ul style="list-style-type: none"> Ensure there are adequate waste disposal bins. Consider hands free bins so there is minimal contact with the bin Anyone handling waste must have access to hand hygiene facilities to perform hand hygiene immediately after handling/removing rubbish. Consider signage near the bins to encourage this. Waste should be emptied regularly. Bags should be tied off completely prior to removal. 	
Managing unwell evacuees/staff	<ul style="list-style-type: none"> Consider having a plan in place outlining how to manage evacuees or staff who fall ill whilst in a welfare centre. This may include a separate accommodation area, dedicated staff member with clinical experience or further evacuation. 	
Laundry Management	<ul style="list-style-type: none"> If linen/bedding/towels are provided to evacuees, consider how this will be managed. Clean and dirty items should be stored separately. Where will linen bags be kept for the return of dirty linen and who will remove these from the area. If there are laundry facilities at the welfare centre, consider how these will be managed to ensure there is not overcrowding. Staggered rosters for using laundry facilities may be considered. Hand hygiene facilities should be available in the laundry area 	

6. REPORTS OF OFFICERS

6.1 LOCAL EMERGENCY MANAGEMENT COMMITTEE MEETING DATES FOR 2021

LOCATION/ADDRESS:	Nil
APPLICANT:	Nil
FILE:	EMS02
AUTHOR:	Executive Support Officer - Development and Community
CONTRIBUTOR/S:	Nil
RESPONSIBLE OFFICER:	Director Development and Community
DISCLOSURE OF INTEREST:	Nil

SUMMARY:

This report recommends that the Local Emergency Management Committee adopts proposed meeting dates to be held in 2021.

BACKGROUND

In accordance with the Local Emergency Management Committee Terms of Reference, the Committee is required to hold quarterly meetings (minimum 4 meetings per annum). The Chairperson may at any time convene a Special Meeting of the Committee.

COMMENT

It is proposed that in 2021 the Local Emergency Management Committee meetings are to be generally held in the Shire of Broome Function Room on the second Wednesday every 3 months commencing at 10:00am.

Please note the following 4 meeting dates are proposed for the Local Emergency Management Committee for 2021:

Wednesday 10 March 2021
Wednesday 9 June 2021
Wednesday 8 September 2021
Wednesday 8 December 2021

The general timing and frequency of meetings is consistent with past practice and ensures that Committee members are able to have a good level of awareness and response to emergency management matters in Broome.

CONSULTATION

Nil.

STATUTORY ENVIRONMENT

Emergency Management Act 2005

36. *Functions of local government*

It is a function of a local government —

- (a) subject to this Act, to ensure that effective local emergency management arrangements are prepared and maintained for its district;*
- (b) to manage recovery following an emergency affecting the community in its district; and*
- (c) to perform other functions given to the local government under this Act.*

37. Local emergency coordinators

- (1) The State Emergency Coordinator is to appoint a local emergency coordinator for each local government district.*
- (2) Before appointing a local emergency coordinator for a local government district the State Emergency Coordinator is to consult the relevant local government.*
- (3) In making an appointment the State Emergency Coordinator is to have regard to any submissions of the local government.*
- (4) The local emergency coordinator for a local government district has the following functions —*
 - (a) to provide advice and support to the local emergency management committee for the district in the development and maintenance of emergency management arrangements for the district;*
 - (b) to assist hazard management agencies in the provision of a coordinated response during an emergency in the district;*
 - (c) to carry out other emergency management activities in accordance with the directions of the State Emergency Coordinator.*

38. Local emergency management committees

- (1) A local government is to establish one or more local emergency management committees for the local government's district.*
- (2) If more than one local emergency management committee is established, the local government is to specify the area in respect of which the committee is to exercise its functions.*
- (3) A local emergency management committee consists of —*
 - (a) a chairman and other members appointed by the relevant local government in accordance with subsection (4); and*
 - (b) if the local emergency coordinator is not appointed as chairman of the committee, the local emergency coordinator for the local government district.*
- (4) Subject to this section, the constitution and procedures of a local emergency management committee, and the terms and conditions of appointment of members, are to be determined by the SEMC.*

39. Functions of local emergency management committees

The functions of a local emergency management committee are, in relation to its district or the area for which it is established —

- (a) to advise and assist the local government in ensuring that local emergency management arrangements are established for its district;*

- (b) *to liaise with public authorities and other persons in the development, review and testing of local emergency management arrangements; and*
 - (c) *to carry out other emergency management activities as directed by the SEMC or prescribed by the regulations.*
40. *Annual report of local emergency management committee*
- (1) *After the end of each financial year each local emergency management committee is to prepare and submit to the district emergency management committee for the district an annual report on activities undertaken by it during the financial year.*
 - (2) *The annual report is to be prepared within such reasonable time, and in the manner, as is directed in writing by the SEMC.*

Division 2 — Emergency management arrangements for local governments

41. *Emergency management arrangements in local government district*
- (1) *A local government is to ensure that arrangements (local emergency management arrangements) for emergency management in the local government's district are prepared.*
 - (2) *The local emergency management arrangements are to set out —*
 - (a) *the local government's policies for emergency management;*
 - (b) *the roles and responsibilities of public authorities and other persons involved in emergency management in the local government district;*
 - (c) *provisions about the coordination of emergency operations and activities relating to emergency management performed by the persons mentioned in paragraph (b);*
 - (d) *a description of emergencies that are likely to occur in the local government district;*
 - (e) *strategies and priorities for emergency management in the local government district;*
 - (f) *other matters about emergency management in the local government district prescribed by the regulations; and*
 - (g) *other matters about emergency management in the local government district the local government considers appropriate.*
 - (3) *Local emergency management arrangements are to be consistent with the State emergency management policies and State emergency management plans.*
 - (4) *Local emergency management arrangements are to include a recovery plan and the nomination of a local recovery coordinator.*
 - (5) *A local government is to deliver a copy of its local emergency management arrangements, and any amendment to the arrangements, to the SEMC as soon as is practicable after they are prepared.*
42. *Reviewing and renewing local emergency management arrangements*

- (1) *A local government is to ensure that its local emergency management arrangements are reviewed in accordance with the procedures established by the SEMC.*
- (2) *Local emergency management arrangements may be amended or replaced whenever the local government considers it appropriate.*
- 43. *Local emergency management arrangements to be available for inspection*
 - (1) *A local government is to keep a copy of its local emergency management arrangements at the offices of the local government.*
 - (2) *The arrangements are to be available for inspection, free of charge, by members of the public during office hours.*
 - (3) *The arrangements may be made available in written or electronic form.*

Division 3 — Powers of local government during cyclone

44. *Meaning of “cyclone area”*

In this Division —

cyclone area means a cyclone area designated under section 16.

45. *Exercise of powers under this Division*

The powers given to a local government by this Division can only be exercised on behalf of the local government by a person expressly authorised by it to exercise those powers.

46. *Power of local government to destroy dangerous vegetation or premises in cyclone area*

If a local government is of the opinion that any vegetation or premises on land in a cyclone area in the district of the local government may, as a result of the cyclonic activity —

- (a) *cause loss of life, prejudice to the safety, or harm to the health, of persons or animals; or*
- (b) *destroy or damage property or any part of the environment, the local government may remove or destroy the vegetation or remove, dismantle or destroy the premises.*

47. *Local government may require owner or occupier of land to take action*

- (1) *If a local government is of the opinion that any vegetation or premises on land in a cyclone area in the district of the local government may, as a result of the cyclonic activity —*
 - (a) *cause loss of life, prejudice to the safety, or harm to the health, of persons or animals; or*
 - (b) *destroy or damage property or any part of the environment, the local government may give a person who is the owner or the occupier of the land a direction in writing requiring the person to take measures specified in the direction to prevent or minimise the loss, prejudice, harm, destruction or damage.*
- (2) *A person who is given a direction under subsection (1) is not prevented from complying with it because of the terms on which the land is held.*

48. *Additional powers when direction given*

- (1) *This section applies when a direction is given under section 47.*
 - (2) *If the person who is given the direction (the **direction recipient**) fails to comply with it, the local government may do anything that it considers necessary to achieve, so far as is practicable, the purpose for which the direction was given.*
 - (3) *The local government may recover the cost of anything it does under subsection (2) as a debt due from the person who failed to comply with the notice.*
 - (4) *If a direction recipient —*
 - (a) *incurs expense in complying with the direction; or*
 - (b) *fails to comply with such a direction and, as a consequence, is convicted and fined or has to pay to a local government the cost it incurs in doing anything under subsection (2), the direction recipient may apply to a court for an order under subsection (6).*
 - (5) *In subsection (4) —*

court *means a court that would have jurisdiction to hear an action to recover a debt of the amount of the expense, fine or cost sought to be recovered by the direction recipient.*
 - (6) *On an application under subsection (4) the court may order —*
 - (a) *if the direction recipient is the owner, the occupier; or*
 - (b) *if the direction recipient is the occupier, the owner,*

to pay to the direction recipient so much of that expense, fine or cost as the court considers fair and reasonable in the circumstances.
 - (7) *In determining what is fair and reasonable the court is to have regard to —*
 - (a) *the type of land involved;*
 - (b) *the terms on which the occupier is occupying the land; and*
 - (c) *any other matter the court considers to be relevant.*
49. *Provisions are in addition to other powers*
This Division is in addition to, and does not derogate from, the powers of a local government under the Local Government Act 1995 Part 3 Division 3.

RISK

There is a significant risk of impact on the Broome community should a natural disaster or emergency situation occur. If not mitigated, this risk is potentially Extreme. One of the ways that the Shire can mitigate this risk is through having a functioning Local Emergency Management Committee that meets regularly.

STRATEGIC IMPLICATIONS

Our People Goal – Foster a community environment that is accessible, affordable, inclusive, healthy and safe:

Effective communication

Our Organisation Goal – Continually enhance the Shire's organisational capacity to service the needs of a growing community:

Effective community engagement

Improved systems, processes and compliance

VOTING REQUIREMENTS

Simple Majority

COMMITTEE RESOLUTION:

(REPORT RECOMMENDATION)

Moved: Mr P Foley

Seconded: Mr L Andrews
